

The Jesuits

An Introduction to this CD-ROM

Bank of Wisdom proudly presents this collection of books about the Society of Jesus – the Jesuits. We have selected Works that represent the highest scholarship in documentation and research to create this extraordinary collection. The authors of the various Histories are of the highest character, for example the Paul Bert book – The Doctrine of the Jesuits – resulted from Jesuit accusations of falsehoods against Bert for his Speech in the French Chamber of Deputies, June 21, 1879. In this documented and authoritative book Paul Bert proves, *from Jesuit sources*, that his statements were fact; R.W. Thompson, a former Secretary of the United States Navy, considered his History – The Footprints of the Jesuits, 1894 – as a Work of necessary Patriotism; And certainly the well known Philosopher and devout Catholic, Blaise Pascal, represents Integrity beyond reproach.

Those Histories written by former Jesuits were done by individuals whose personal experience within the organization make them valuable sources of information on the training and inner workings of the Society. Certainly these authors were, at least at the beginning, dedicated and devout Catholics who spent years in the Society of Jesus before they summoned the courage to leave and make public their inside observations of the character and morals of the Jesuits.

Several of the old books on this CD-ROM refer to the great number of books that had been written exposing the methods and character of the Jesuits, one saying that an entire Library would be necessary to contain them all. Yet there are precious few of these old books to be found on the Antiquarian Book Market today. So it is necessary that those that survive be preserved for posterity. And that is the work of Bank of Wisdom – The Past shall not be Lost, the Truth shall not be Hidden.

There are newer books about the Jesuits that need to make up another, more up-to-date, Bank of Wisdom 'Histories of the Jesuits on CD-ROM'. The newer books about the Jesuits that we have on hand are still under copyright, and may remain so indefinitely, as copyright protection has become a new form of censorship in the United States. A copyright is now perpetual – each twenty years Congress extends all copyrights for another twenty years. That, of course, is plainly unconstitutional, as the U.S. Constitution clearly says, Article 1, Section 8, “To promote the Progress of Science and useful Arts, by securing for a limited Time to Authors and Inventors the exclusive Right to their respective Writings and Discoveries;”.

Considering the great amount of Historic and Scientific information that has been published since 1922,* that completely disprove the basic claims of all supernatural religion, it is not surprising that ways have been devised to prevent the free reproduction and distribution of that needed information. Clearly presented and understood scientific knowledge and factual History are the greatest enemies of all dogmatic religion. The suppression of such necessary information by every means possible certainly fits the description of Jesuitism as presented on this CD-ROM. (*the last U.S. publication date where it is safe to assume a Work is in Public Domain is 1922.)

Among the newer books on the Jesuits, and related Works, that could fill another CD-ROM are: “The Power and Secret of the Jesuits,” by Rene Fulop-Miller, 1929; “The Secret History of the Jesuits,” by Edmond Paris, Translated from the French 1975; “The Jesuits,” by J.C.H. Aveling, 1981; “The Christian Holocaust” by Mark Mason, 1981; “The Jesuits, The Society of Jesus and the Betrayal of the Roman Catholic Church” by Malachi Martin, 1987; “Unholy Trinity, the Vatican, the Nazis, and Soviet Intelligence” by Mark Aarons and John Loftus, 1991. Also books by Avro Manhattan, Nino LoBello, Emmett McLoughlin, Joseph McCabe, and others, *many others*, that describe not the Beauty, Pageant and Splendor of the Great Church of Rome, but the dark and hidden political intrigues and corruption of the Vatican and the Jesuits that so disgusted the Great Catholic Historian, Lord Acton. Some of these newer

books might yet be in print, and others can be found in Used and Antiquarian Book Stores – leave a want list at the store and ask to be called when a book is found. These books are extremely important and necessary reading. (Information on copyright permission on the above books and Authors is being sought by Bank of Wisdom.)

After reading the History, Morals, Methods, Intrigues, and Conspiracies revealed in the scholarly books on this CD-ROM, and being assured that all this is not just a thing of the distant past, but is an ongoing and destructive Modus Operandi of a powerful and secret International Organization with allegiance to NO nation, NO government, and with NO purpose but to destroy all opposition to their church, their religion, and to themselves, by whatever method necessary, we must, in the name of Humanity, ask how much of the ongoing hate, war, terrorism and human suffering throughout the world today is the direct result of this powerful, unscrupulous, and uncontrolled political/religious organization, and its far reaching National and International influence? No one familiar with the Society of Jesus would ever accuse a Jesuit priest of serving two masters whenever he is a member of, or adviser to, any other organization or government, for a Jesuit priest is a man who is pledged and bound to serve but one master; the General of the Society of Jesus – sometime called the Black Pope.

The Jesuits are presented, and accepted, as being learned and accomplished scholars. It is assumed that the long and rigid training before they are accepted into the Society, and their continuous studies thereafter, sets them above other men in learning and intellect. The Society of Jesus have built and staffed many schools and Universities; great schools that are sought out by those who can afford the very best for their children. And this not just among Catholics but from all religions – and none – and from every nation. Many of the greatest persons of History were the product of Jesuit schooling – Voltaire for example.

The informed public is aware of the long schooling and strict training that go into the making of a Jesuit priest, so there is no question of this. The question is; are these men well educated,

as we might think from the enormous amount of strict training they receive, or are they thoroughly and totally brainwashed into a world view that is completely alien to the real world of flesh, blood and love? More important, are these men with their narrow beliefs, and peculiar World View, as implanted through their long and rigorous indoctrination, (brainwashing) a great and evil threat to America and to the world? The facts presented on this CD-ROM should certainly warn us that they are.

These men, most taken at an early age, before puberty – before the natural instincts of the human heart arise – and through rigid training, are turned from normal and healthy development into the unnatural life of a celibate priest. This alone must give rise to a distrust of the judgment and reason of men so altered through a system of deep indoctrination. If concentrated indoctrination can pervert the healthy and natural desires of life from their normal course, think of the harm that can be done to morals, and to the natural human instincts of right and wrong, good and evil.

Piety is the subject most urgently taught in Catholic schools – and in all religious schools. It is an important factor of religious belief because it deadens the mind to all inclinations to question and investigate. Piety keeps the mind locked into the fairy tales of primitive superstition throughout life, and sets aside that part of the mind into a lock-tight compartment where reason cannot penetrate.

Fear is also an important factor in religious indoctrination. The religious student is burdened with horrible stories of fiendish gods and eternal punishment beyond the grave. And these false and foolish tales, buried deep in the mind, remain an unconscious barrier to thought throughout life. Religious indoctrination of children is one of the very worst forms of child abuse. The school is a far greater force for perpetuating false religious beliefs than is the church. If the Society of Jesus did nothing more than maintain a system of schools and universities for the sectarian corruption of knowledge, and the systematic indoctrination of students, that alone would be a work of great damage to the students, and, through the students, the world.

Over the past hundred years there has been a gradual distortion and rewriting of history, to the point that it is now taught that the United States was founded as a “Christian Nation.” Nothing could be farther from the truth. The god mentioned in the American ‘Declaration of Independence’ is clearly the god of Deism, (see Thomas Paine’s “The Age of Reason” for the best presentation of Deism) and that god is plainly *not* the Theistic god of Christianity. The U.S. Constitution is (was?) the foundation of the Government of the United States of America, and no god, or form of religion, is mentioned in the American Constitution.

The omission of gods and religion from the U.S. Constitution was no oversight. The American Founding Fathers were educated men, they knew History, and they were well aware that it was Christian bigotry and persecution that drove people from Europe and England to the “New World.” These refugees came to seek a place where they could be free of the insanity of established religions. Unfortunately the disease followed them, and before the Constitution was enacted various denominations had been established in several of the American Colonies – and Christian persecution had raised its ugly head in America.

Those who framed the American Constitution saw this persecution and took careful precautions to prevent Christian hate and despotism from destroying the New Nation they were creating. Certainly not all the Founding Fathers were non-Christians, but those who were Christians were as determined to create a free Nation, without any established religion, as were the Deists. The whole determination of all these men was to establish a Free Nation, and this they did.

But Christianity cannot survive in a Free society, so it became necessary to change History to make it seem that it was believing (and narrow) Christians that established the American Constitution and Government. And that the freedom they established was really the freedom for that one religion (Christianity) to dominate and control America. Such is the essence of the ‘New History’ that is taught and believe in many Christian churches today – by Protestants and Catholics alike.

The corruption of History, American and World, over the last hundred years is but one aspect of the religious destruction of all real knowledge. A hundred years ago the Encyclopedia Britannica was considered the most reliable Reference in England and America, and was highly respected throughout the world as an authoritative and accurate source of factual information on every subject it covered. With the publication of the Eleventh Edition of the Encyclopedia Britannica (29 volumes, 1909) it was attacked by the Church as being un-Christian and inaccurate. Because of religious pressure the next complete issue of the Encyclopedia Britannica, the Fourteenth Edition, (1928) was completely “corrected” (corrupted) by religious censorship.

For the full story of the corruption of this great Encyclopedia click on

“The Lies and Fallacies of the Encyclopedia Britannica” and read the facts – this book is on this CD-ROM. Other Encyclopedias suffered the same fate of religious “correction” during the 1920s and 1930s, so that the very foundations of our knowledge, our best Reference Works, have been adulterated and falsified. The Eleventh Edition of the Encyclopedia Britannica is today known as “The Scholars Edition,” and is expensive – if you can find a set – because it is sought after by knowledgeable Scholars and Historians.

The frightening position of America in the world today is *exactly* what it would be if the Jesuits, as described by the books on this CD-ROM, had infiltrated the United States Government, and taken control of our History, our Schools, our Domestic Institutions, Foreign Policy, etc. The activities and intrigues of American agencies throughout the world – the Central Intelligence Agency (CIA), and other foreign branches of the American Government, do not reflect the character and will of the American people.

As we read the books on this CD-ROM we must consider what would happen if these men, the Jesuits, should gain control of a powerful modern nation, such as the United States, with an almost limitless supply of weapons of mass destruction – Atomic and Neutron weapons, deadly Chemical agents, Inter-

continental Missile Delivery Systems, and all the rest of the insane weapons of modern military madness. In fact we may speculate if the amassing of this insane arsenal was not done by the same mentality that we fear might now have control of it.

The Society of Jesus, the Jesuits, was created to influence and control governments. The Jesuits have been expelled from almost every nation on Earth – including Catholic nations – at one time or another; and banned by the Roman Catholic Church itself from 1773 to 1814. To carry out their mission the Jesuits have established universities in, or near, the great Capitals of the world, with the aim of influencing and controlling those governments. The main Jesuit University near Washington D.C. is Georgetown University. We need to know how much influence the Jesuits, and Georgetown University, exert, directly and indirectly, on the Government of the United States of America?

The situation in America today is *exactly* what it would be if the United States were being lead by a fanatical Christian organization. We find ourselves in an endless religious war, a “War on Terrorism” as it is called, whereby America suffers for, among other things, aiding the Jewish religion, with war materials, in its war against the Moslem religion. America should never allow itself to become involved in foreign religious disputes. Religion is not a part of the American Government: A Treaty negotiated under the Administration of President George Washington reads: “As the Government of the United States of America is not in any sense founded on the Christian religion – as it has itself no character of enmity against the law, religion or tranquillity of the Musselmen ...” [Musselmen means Moslems.] (Treaty with Tripoli, Signed and Proclaimed by President John Adams on 10 June, 1797.)

Human knowledge has advanced to a point where we could live in a paradise; a world of love and peace; a world without fear, want, or hunger; a world without religion – and the strife, war, and hate that religion always bring. By controlling world population the human species could preserve the beauties of Nature in all its wondrous splendor for generations to come.

With Science and Wisdom Humanity could do all these marvelous things, but there are those who crave power and have delusions of gods and other worlds – impossible worlds. Their madness makes this world seem unimportant and temporary to them. Their delusions prevents us from establishing the paradise that is at hand, and their delusions pose a threat to our very survival.

It is with the highest sense of Patriotism, for America and for the World, that Bank of Wisdom publishes this collection of Scholarly Histories of an organization that History tells us has corrupted and controlled the world for the power and profit of their church and for themselves, for almost 500 years. 500 years of intrigue, hate, war, suffering, persecution and destruction. Like a cancer it infests our world, and like a cancer it may destroy the world. Let us be aware of this organization and of its History, and, for the sake of our children – and all Humanity – let us find a way to control it and render it harmless.
