

The energy work for the Warden includes a seed, a word and a form. The seed is visualized coming from the staff; it changes from this to the word, and then to the form, which is larger than human scale and surrounds the officer.

Seed: a red triangle in a black circle.

Word:  MNVRH, Menorah,

black on a red background.

Form: a hooded black form trimmed with red.

The form is maintained around the ~~officer~~ officer throughout the ritual.

At the closing, the images are handled in reverse order and returned to the staff.
