Caput Primum:

About The Book of Doom

- 1.1. Eons ago, long before mankind roamed this planet, there is a
brotherhood of sorcerers.**
- 1.2. They are masters of wisdom, science, and knowledge unheard of yet in
the history of mankind of our days.**
- 1.3. They decide to have their knowledge accessible to all who are ready,
willing, and worthy.**
- 1.4. Therefore they create a book that contains the keys to all their power,
science, knowledge, and wisdom.**
- 1.5. The name of this book is the Book of Doom.**
- 1.6. This is so because this book means doom to servitude, mediocrity,
and weakness.**
- 1.7. The Book of Doom has been available for mankind as long as they
roamed this planet, first as an oral tradition, then in written copies or in**

ideogrammic forms that were well guarded.

1.8. It exists in many forms and translations.

1.9. Each of its forms contains the keys that unlock the knowledge, power and wisdom of the Ancient Empire.

1.10. With the power of the Book of Doom you will receive the keys so that you can work toward being accepted into the Great Interstellar Order of Algol.

1.11. The decision lies always with you.

1.12. This is so because you are the one who decides about his or her own fate.

1.13. If you think that you are ready for the book of doom, you may go ahead to reach for the keys that help you unlock your powers.

1.14. If you still think that you have to lean on some deity, this book is not for you.

1.15. In this case it is better for you not to proceed.

1.16. Read the Book of Doom with insight, book for book, and chapter for chapter.

1.17. Look for the meaning in between the lines, then the keys will be given to you and you will find your teacher.

1.18. Open your being to the Book of Doom!

Translator's Note: Be aware of the italics and capitals! There are 18 verses per chapter, which amounts to three times 6 verses!

Caput Secundum:

The Order of Algol and Sorcery

2.1. Sorcery is a spiritual science that encompasses the whole of the human being.

2.2. It involves knowing your own nature and the nature of the universe at large to bring about the change that you want in your life.

2.3. This change is always under YOUR control, not under control of a deity or of any other being above the clouds.

2.4. Sorcerers know themselves to be gods, and they act accordingly.

2.6. This means that sorcery is not for the irresponsible, nor for the weak.

2.7. Sorcerers do not worship any force in the universe.

2.8. They control it!

2.9. They do not bow to anything nor anyone!

2.10. Therefore, if you feel you need to lean on something, the Left Path and the Black Arts are not for you!

2.11. The sorcerers are the powerful, the proud, and the resourceful in the universe.

2.12. Therefore they are not religionists of any kind.

2.13. O.A.I. stands for Ordo Algolis Interstellaris vel Infernalis.

2.14. It is an interstellar order of black magicians that is older than mankind.

2.15. It is for the proud, for the powerful, and for the resourceful.

- 2.16. Algol symbolizes the principle of creative dynamics in the universe at the threshold of creation.
- 2.17. Structured deities that emanate from Algol take undeserved credit for some creation in the past.
- 2.18. Seeded by Algol, the O.A.I. was one of the most powerful dynamic and creative forces in human history.

Caput Tertium:

Imperium Infernalis

- 3.1. True power expresses itself in its effects.
- 3.2. It is not in need to express itself in exterior form.
- 3.3. The choice is yours: you may wield power openly or in secret; in either case you can benefit from the fruits of it.
- 3.4. Hierarchies of spirits reflect processes of power.
- 3.5. With any hierarchy of spirits you have the keys to specific expressions of power.
- 3.6. In the beginning is chaos.
- 3.7. Algol is the gate of chaos which creates the worlds.
- 3.8. The world creates from the below of the chaos to the above.
- 3.9. Created deities will always claim to have created the worlds.
- 3.10. This is so because created deities can neither understand themselves nor can they understand time.
- 3.11. The Great Infernal Empire is the threshold of chaos and abyss.
- 3.12. There are four main realms in the Great Infernal Empire.
- 3.13. The first realm of the Great Infernal Empire is the Infernal Government, with Lucifer, Belial, Satan, Beelzebub, Astaroth, and Pluto.
- 3.14. The second realm of the Great Infernal Empire is the domain of the Seven Infernal Grand Dukes, whose names are: Mephistophilis, Ariel, Anifel, Marbuel, Aziel, Aziabel, and Barbuel.
- 3.15. The third realm of the Great Infernal Empire is the domain of the five Grand Ministers and Secret Infernal Counsels, whose names are: Asmodeus, Leviathan, Baal, Belphegor, and Lucifuge.
- 3.16. The fourth realm of the Great Infernal Empire is the domain of the Twelve Dukes, whose names are: Ashmunaday, Kedemel, Set, Hasmoday, Sorath, Hekate, Lilith, Barzabel, Behemoth, Nambroth, Zazel, and Hismael.
- 3.17. Study well what the spirits of the Infernal Hierarchy have to tell you, and all the power will be yours.
- 3.18. The structure of the O.A.I. is following the principles of the Infernal Hierarchy and so should all groups that are truly Left Path, small and large, from the top to the bottom.

Translator's Note: The Algolic spiritual Hierarchy is somewhat reflected in the grimoire "the Threifold Coercion of Hell by Doctor Johannes Faust," translated into English by K.H.W. However, the names of the infernal spirits have been somewhat distorted in this German classic. The hierarchy of the O.A.I. is indeed following these ancient principles as shown in this chapter,

and so is the hierarchy of all branches of the O.A.I.

Translator's Note: It is interesting that the sounds of these letters correlate to the system of eighteen runes of the armanen system. This is irrefutable proof that this system is based on the only authentic school of runes there

ever has been. However, the sequence of the sounds is different from the sequence of the armanic runes. Why this is so is to remain a mystery for the uninitiated person. No doubt we have to do here with the keys to powerful mantras that add greatly to the power of the system of the only authentic runes on the planet. You have to learn the symbols and the correct pronunciation of the letters for maximum effect of the mantras and spells that you use them for. The symbols of the letters of the Infernal alphabet are only accessible to initiates of the O.A.I. Note also that the first eighteen letters refer to the first three infernal realms. The number eighteen refers to the world crystal which has six facets on top, six facets in the middle, and six facets at the bottom. The eighteen spirits of these three infernal realms are therefore the true creative forces of the universe!
