**LESSER INVOKING RITUAL
OF THE PENTAGRAM**

MEDITATION WITH I a y r b g

PRACTICUS 3 = 8

In the two previous grades you were shown the techniques for communing with the Archangels *I ayria* and *I apr*. Once again, the same techniques may be repeated to commune with the Archangel of Water, *I ayrbg*. By using this method of the L.I.R.P., you may turn to *I ayrbg* to receive his help in the area of deepest emotions and feelings, in the levels of higher consciousness. When having troubles reaching to this higher consciousness, *I ayrbg* can help and guide you to the depths of the higher consciousness while at the same time he can help you to become familiar with the element of Water.

As opposed to the L.B.R.P., when the magician banishes, the L.I.R.P is invoking. The proper pentagram is the Invoking Water Pentagram. Another important factor is that the Archangels are facing toward you.

Step 1

Perform the Relaxation Ritual.

Step 2

Perform the L.B.R.P. (Optional).

Step 3

Perform the entire ritual of the L.I.R.P., substituting the Invoking Water Pentagram for the Invoking Earth Pentagram, keeping all of the Divine names the same.

Step 4

Take a few moments to feel the energies invoked around you and begin communing with the Archangel *I ayrbg*.

Meditation with I ayrbg

Step 1

Once the L.I.R.P is completed, pay your respects to each of the Archangels, beginning with I ayrwa, then to I apr and then to I akym, ending with I ayrbg.

Step 2

As you stand facing west, visualize in front of you a blue triangle upon an orange background. Proceed to vibrate twabx hwhy. As this is done, the great Archangel will appear more clearly to you. As I ayrbg approaches closer, give unto him the Practicus Grade Sign and he will respond accordingly.

Step 3

The next step is to visualize I ayrbg with as many details as possible. The color of his robes, the scene upon which he stands, his facial features, etc.. Attempt to see every detail as clearly and as vividly as possible.

Step 4

This next step is the most important. Let go and just be. Don't try to analyze what is going on or whether you are performing this ritual correctly. Just let yourself become completely open to I ayrbg and his energies. Feel the emotions or thoughts flow to you as in a stream of water.

Step 5

When you are ready to end your communion with I ayrbg, be sure to thank him for his help. Give him the Practicus Grade Sign, and he will in turn respond with the same.

Step 6

End the communion with the Qabalistic Cross, facing east.
