2. ***Design your candle.*** You can use one or more candles for a candle spell. You will want to carve (and sometimes anoint) your candle(s). The candle carvings reinforce the programming of the spell and help to build the spell's energy matrix.

3. ***Test verses and candle carvings with 12 card readings.*** As with every other aspect of the spell, you will want to test your verses and candle carvings/anointings with a 12-card reading, making corrections in your design as needed.
4. ***Prepare candle.*** Carve and anoint (or paint) your candle in preparation for launching the spell. You will need to cleanse and key your carving tool.
5. ***Choose timing and launch spell.*** The timing for launching your spell is just as important as any other factor in designing your spell. You will want to time your spell to align with astrological and other factors.

When will you launch your spell?
