

## **The Will By Rev. S. Nagash**

The will. Everyone has it, however, not all know how to use it. What is it?

The Will is your inner energies and desires. You must have Will to get what you want. Hence, the term, will-power. How does the Will apply to magick? Will is an internal as well as a mental ability that unlocks all potential when used in magick. It is your desire, that manifests its-self and is one of the key components of successful magick. It is the power you have to control your mind to work ritual without fear. It is KNOWING that what you are doing is relevant to your own wants and needs. It is an all encompassing thought process that, when used properly, you can accomplish anything. The application of Will in magick is used to let whatever spirits you are conjuring know your inner workings. Will must be mental as well as written (as in Sigil Rites) to reinforce what you are trying to achieve. Without it, you will fail. The importance of Will can not be expressed strongly enough. To know your will, is to use it successfully. Always remember, Will=Magick.
