PRAYER BY MANLY P. HALL:

Eternal Father, we do not ask for thy mercy, for thou art mercy. We do not ask for thy understanding, for thou are the understanding in all things. We do not ask for thou to reveal to us the wonders of thy infinite love, for we behold it—in the rain and in the sunshine, in the joys and sorrows of living, and in the peace that comes to our own hearts. Give us only the insight to know thee.

AMERICA'S ASSIGNMENT WITH DESTINY

by

Manly P. Hall

HIS work begins with the rites and mysteries of the Mayas and Aztecs and the sacred books of the Azure Veil. Also included is an account of the Incas of Peru and their possible contact with Asia.

Some time is devoted to the riddle of Columbus: Was he also the agent of an esoteric order working closely with Lorenzo de Medici and Leonardo da Vinci? The colonization scheme includes Lord Bacon's part in organizing the English settlements in America; and both the tragedy of Sir Walter Raleigh and the intrigues of the British court are discussed with an unusual twist. The contributions of the German mystics through the Pietists, Mennonites, Dunkers, and Quakers are also given consideration.

The American revolutionary period is examined, including the fascinating story of the letters of Junius, "the unknown man." Personalities such as John Paul Jones, Benjamin Franklin, and George Washington are considered in the light of esoteric tradition. There is also a discussion of the Latin American patriots, including Simon Bolivar, Miguel Hidalgo, and Benito Juarez.

The Inspiring Lives and Magnificent Words of

TWELVE WORLD TEACHERS

by

Manly P. Hall

In every generation there are a few individuals of greater understanding than the majority. These are the prophets of their own time, and their inspiration leads others to more enlightened codes of living. History records a small number of extraordinary human beings who seem to possess in fullest measure the intellectual and spiritual virtues which sustain civilization. The words of these men have become the scriptures of the races. Their judgment and counsel have become the laws and statutes that men live by. Most of these great teachers were obscure persons during their own lifetime, but succeeding centuries discovered their greatness and elevated them to the highest estate in human veneration.

Twelve World Teachers presents twelve of the world's great religions and the circumstances under which they were revealed to mankind. Each section includes a picture of the teacher, and wherever possible, there are actual quotations from his works.

An excellent survey of comparative religion. Hardbound, stamped in gilt, 240 pages. Price: \$5.00. California residents please add sales tax.

A Special Christmas Bonus

THE INNER LIVES OF MINERALS, PLANTS, AND ANIMALS

by
Manly P. Hall

This publication, based upon the notes of a recent lecture by Mr. Hall, will be useful and inspiring to those who respect and admire the wonders of the natural world and the beings and creatures which share the planet with man. This essay emphasizes not only the unity of life but also the need for kindly understanding which will inspire us to build a better and wiser world. There is also consideration for the inner structures of the various stages of life, their magnetic fields, and the possibility that in many ways the so-called "lower kingdoms" are far more spiritually advanced than one would imagine.

Those subscribing to the *PRs Journal* before JANUARY 15, 1974 will receive a free copy of this publication. NOTE: Only one free booklet can be given with each subscription. For additional copies, see our list of Christmas gift suggestions.

The *PRs Journal* is issued in December, March, June, and September. Subscription rates: \$4.00 a year; \$7.00 for two years; your own and one gift subscription, \$7.00; additional gift subscriptions, \$3.50 each. Subscriptions will begin with the spring, or March, issue as noted above. Individual Journals may be obtained for \$1.25 each plus 25c postage. Foreign subscriptions to the *PRs Journal* are \$5.00 for one year and \$8.50 for two years.

ASTROLOGICAL KEYWORDS

by

Manly P. Hall

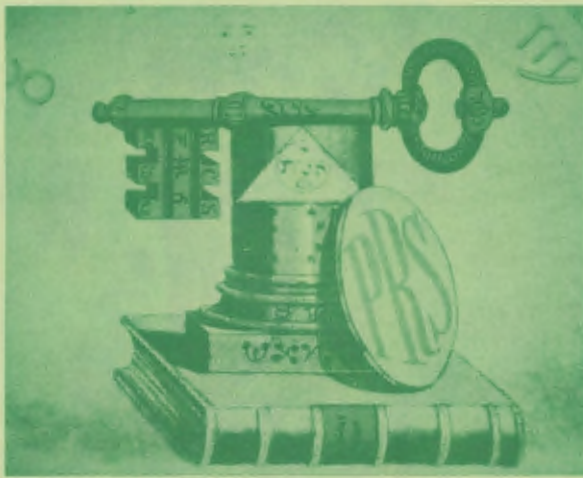

This is Mr. Hall's special contribution toward a more complete and competent science of horoscopy. The beginner and advanced student alike will find it by far the most convenient means for putting

a finger on the meaning of the various factors comprising an astrological chart, and many workers in astrology have found it indispensable. It presents an actual condensed library in tabloid form. There are more than a hundred sections in which the conclusions of a host of leading astrological writers are epitomized, and all so organized that any given point can be located immediately. The keyword system is the only adequate means by which the young astrologer can get at the implication of the horoscope before him with any depth of understanding or breadth of appreciation, and this volume is the finest practical exposition of these keywords ever to appear in print.

A must for every student truly interested in his astrological progress.
