Dear Friend:

A desire has long been expressed by friends and students for continuity of contact. They want to be kept in close touch with the educational work toward the improvement of mankind which has been my life endeavor for twenty years.

There is another strongly expressed need. Because of benefit and inspiration received from ancient Wisdom Teachings, many who have read my books would like to pass on to their friends and neighbors the significance of spiritual force in a material world. They have asked for a plan of widened scope, and a program under which individuals can work co-operatively.

I feel that the best way to do this is to give you, as one interested in disseminating principles of right thinking in accord with ancient philosophy, certain special material contained in my lectures for an entire year, which would come to you in the convenient form of a monthly magazine.

The magazine will have the title: *TOLERANCE: The Magazine of Useful and Intelligent Living*. It will have no advertising, and will be presented in format worthy of the sublime dignity and beauty of the truths expressed. As a publication it will be everything desired by those who would like to pass their copies along to friends who might gain much from acquaintance with the sublime truths of the ancients, re-stated and applied with clarity and simplicity to modern problems and modern living.

The range of topics will be wide and diversified. In addition to the posing of current world problems and the way to their solution, there will be reader's digests of my lectures. In the course of a year, lecturing takes me from one end of the continent to the other; the many who can not attend the lectures in person will, through the magazine, receive all this instruction and the teachings for the full year, month by month.

To those who subscribe to the magazine in advance of publication - \$3.00 a year. To others, single copies of the magazine will be sold at 35 cents, subscription \$4.00 a year.

I am eager to embrace the greater opportunity for continuing original research in ancient philosophy. Your magazine subscription will help me in providing financial means to defray the cost of new research and study.

It will be appreciated if you send in the form below promptly, together with \$3.00 as subscription to the magazine for 12 months - perhaps the most important period of world crisis that any of us will know.

Cordially and sincerely,

Manly P. Hall
