### Your Personal VWD Card Is Waiting For You To Collect It...

If you haven't yet ordered your personalised **Virtual World Direct e-LOTTERY MEMBERSHIP CARD**...

...you are losing out **BIG time!**

Unlike James Holden from Wiltshire in the UK, who wrote in recently...

## "Won A Total Of £463.84"

"I joined VWD about a year and a half ago. The system really works. I have won a total of £463.84 as of 10th September 2004.

Think how many people are playing the lottery without the advantages of the e-Lottery System...

Brilliant concept, brilliantly executed.

A Card belonging to a member of the next big-winning Syndicate could well have your name on it!...

Exactly why is the VWD Card so special?

Here are **SEVEN** great reasons...

## Reason 1 Value for money

Playing **44** single line entries in the UK National Lotto every Wednesday and Saturday draw would normally set you back **£88 a week!** But with your VWD Card and a place in one of our 'Multi-Win e-Lottery Syndicates, your cost for the same 88 lines is an *amazingly low* **£5 A WEEK.**

That should be reason enough to make the switch to VWD right now!

## Reason 2 Win with just 2 matching numbers!

You can win a *unique* e-Lottery prize by matching just two Lotto draw numbers.

Now there's a bonus you *won't* find in the standard UK Lotto you may be playing in currently.

## Reason 3 Win larger prizes!

You win much more than the usual £10 when you match **three** UK Lotto draw numbers.

## Reason 4 Win more money, more often!

It's *proven* that you win lots **more money**, a lot **more often**, than you do playing the games normally on your own.

Of course, you could win even more by having Membership Cards for both a UK Lotto Syndicate and a **EuroMillions Syndicate**. We call this maximizing your investment.

## Reason 5 VWD Syndicate winnings are massive!

Compared to playing the same games normally on your own, the difference in winnings with the e-Lottery when you match the same numbers is enormous.

Example: If you had played on your own in the EuroMillions game of 2nd April, 2004, and matched five Main numbers, you would've won the 5-ball prize of £83,377.01.

Now that's a profit anyone would be happy to settle for...

But, if you had played in an e-Lottery 'Multi-Win' Euro Syndicate with the same numbers you would have collected a massive **£467,225.73**.

That's a massive difference of **£383,848.72** in your back pocket.

## Reason 6 Play online!

You can play from **ANYWHERE IN THE WORLD**, right from your home computer.

## Reason 7 Five balls scoops a jackpot!

That's right! With the VWD e-Lottery 'Multi-Win' Syndicate, all you need is **five numbers, not six or seven, to scoop a top prize**.

Still skeptical? Need another reason as well as the seven you've just seen above to act straight away?

Join the VWD **AFFILIATE PROGRAM** and introduce just *5 people* to e-Lottery membership — maybe family, friends and colleagues — and **you're playing effectively for FREE!**

Introduce just 5 people who play in both UK Lotto *and* EuroMillions e-Lottery Syndicates and you **play in BOTH at no direct cost**.

Continue to introduce new members and get **additional, completely**

**FREE, 'Multi-Win' Syndicate places** and an ongoing **residual income**.

Why wait?... It doesn't get any better than this...
