WHEN FINAL JUDGMENT WAS FIRST RE-LEASED in 1994, even many critics of Israel were skeptical of Michael Collins Piper's allegation that Israel's intelligence agency, the Mossad, had been involved in the JFK conspiracy. Despite this, *Final Judgment* became an overnight "underground best-seller" and now—ten years later—*continues to be*

*"must" reading among patriots all across America. In spite of intense opposition, more than 30,000 copies are now in circulation throughout the U.S. and around the world.*

Described by many readers as the definitive "last word" on the JFK conspiracy, *Final Judgment* has sparked headlines in newspapers here and abroad. *And the Israeli lobby has worked overtime to try to stop this book from being distributed.*

*Final Judgment* dissects the *seemingly* diverse theories you've heard over the years about the JFK assas-

sination and demonstrates the one thing they have in common: *the long-secret Israeli connection.*

This book also shows how *the secret nuclear alliance between Israel and Red China* played a pivotal role in the conspiracy, setting the stage for the modern-day arms deals behind Israel and Communist China!

*You'll be talking about this book years after you've read it . . .*

And there's no doubt about it—this is one book that needs, and deserves, widespread distribution. Order your copies today! Use the coupon on page B-3 of this report or call 1-888-699-6397 toll free and charge copies of *Final Judgment* to your Visa or MasterCard.

**The long-secret role of Israel's Mossad in the JFK Assassination is the Achilles Heel of the Israeli Lobby—bar none!**

*Imagine the reaction of your "liberal" friends when they learn their longtime hero, JFK, was at war behind the scenes with Israel over Israel's determination to build nuclear weapons of mass destruction—the source of conflict in the Middle East today! Israel likes to play "victim" but consider what people will say when they realize Israel was actually a "perpetrator."*

**Forget about the old myth that the Chicago Mafia killed JFK!**

**The real boss of the mob in Chicago wasn't even Italian, but he did work closely with the Mossad for years.**

**FINAL JUDGMENT has the facts—at last!**

*This new SIXTH edition of FINAL JUDGMENT is 768 pages in length and contains 1,120 footnotes. There are also important new photos, and other relevant additions to the text that make this edition all the more valuable than the last!*

## High-level ex-Pentagon official gives FINAL JUDGMENT big endorsement! Col. Donn de Grand Pré, author of "Barbarians," says JFK book is "brilliant"

Here's what Colonel Donn de Grand Pré has written in his own book, *Barbarians Inside the Gates*, citing *Final Judgment*, which Grand Pré describes as "brilliant". . .

"Several high-level military officers believed that the killing of JFK was in fact a coup d'etat carried out by elements of the CIA working with the Israeli Mossad. Kennedy was attempting to halt the development of nuclear weapons by the Israelis, while simultaneously planning to disband the CIA and disengage our military troops from the Indo-China area. (Read *Final Judgment* by Michael Collins Piper for more details.)"

(In 1967 Grand Pré was named Director for Ground Weapons Systems in the Pentagon's Office of International Logistics Negotiations, responsible for negotiating sales contracts with heads of foreign nations for military weapons systems. On Sept. 30, 1979, *The Washington Post Magazine* wrote: "If you had been a Middle Eastern ruler in the 1970s in search of American weapons systems, you would have called Donn de Grand Pré, Pentagon arms peddler." Grand Pré is also the author of *Confessions of an Arms Peddler*, *The Viper's Venom* and *The Rattler's Revenge*.)

## Former High-Ranking State Department Officer, Arms Control Specialist Says: "Final Judgment is a masterpiece. Michael Collins Piper has struck gold."

What follows is a review of FINAL JUDGMENT posted on amazon.com on March 10, 2003 by Dr. Herbert L. Calhoun, a former top-level State Department official. His review says it all . . .

As one who has read over 200 books on the JFK assassination, and engaged in research both as an individual and as part of various teams, I can say without fear of contradiction that Piper's book is now the definitive work on the JFK assassination. *Final Judgment* is the most thorough, most honest, most penetrating, most factual, and most analytically complete and systematic of all that I have read so far.

The author builds an upwardly spiraling tapestry of well documented facts that connect the threads of the conspiracy as they ascend level by level from the ground up to the very tip of the pyramid. Along the way, he breaks the conspiracy into easily digestible parts. Otherwise its sheer complexity would be nearly impossible to follow and decipher. At each level, the threads of the puzzle are woven together in such a way that the fog from the labyrinth is slowly but inexorably lifted until eventually it is peeled back completely and the outlines of the conspiracy are laid bare. What is revealed is as convincing as it is scary.

Some day America will have to face some unpleasant truths about its democracy and about how it has been, and continues to be manipulated, if not completely commandeered by those whose primary loyalties lie elsewhere.

While the links at some of the levels may be tenuous, the author refuses to "fake or fudge the data" or to be "fatally selective" in what is included or left out—as was so clearly the case in Gerald Posner's *Case Closed*, or indeed as was the case in the Warren Commission's own flawed report.

Piper is intrepid in following his analysis to every logical conclusion—wherever they lead and whatever the implications may be. In short, Piper keeps his eye on the donut ("Big Picture") and not on the hole (inessential details). He focuses on the "why and how" of the conspiracy and unmistakably the threads all lead back to Israel, Israeli super-patriots, the Meyer Lansky led "Jewish branch of the mob," and the Mossad and the international "agents of influence" under its control.

While serious researchers may quibble with inessential details in the study, such as tenuous links at some levels, or redundancies at others, those of us who have studied this issue since the days after the assassination always knew that the truth would have its own resonance—like the Garrison investigation did.

We knew that the truth would have its own context, its own smell, like Peter Dale Scott's *Deep Politics and the Death of JFK*

did. Piper's book has them all and in the grand tradition of Carl Oglesby's *The Yankee & Cowboy War*, Michael Collins Piper has struck gold. He has hit the "mother lode," and in the process has pointed the finger at, if not tightened the proverbial noose around, the necks of the cabal of conspirators responsible for pulling the strings (and triggers) of the JFK assassination.

JFK assassination research has a new standard bearer. It will never be the same again. Because of this book, future research will begin to focus more on the "big picture," and turn away from constantly grinding, ad nauseam, at inconsistencies in the Warren Commission's Report. Compared to Posner's *Case Closed*, *Final Judgment* is a masterpiece.

—HERBERT L. CALHOUN, PH.D.
