[\(Before It's News\)](#)

Chances are, you may have seen the first video below in the last day or so on almost any alternative news site, because it's certainly been making the rounds, but one thing I noticed after watching the video, was even after spending a great deal of time looking, not one of the big sites that had the video posted also had anything accompanying the video to either give legitimacy to it, or to debunk it, so I set out to do just that.

Thankfully, as I watched the video, it became clear that much of what is talked about in the early stages of the video are stories I've actually covered in previous posts, so there will be links below with more information about those different types of technologies mentioned in the video before it gets to the "Weaponized Cell Phone Towers" portion.

One thing that's important to note up front: Whether we're talking about weaponized cell phone towers, [Google's Humanoid Robots That Can Hunt Down Humans Even in Dense Woods](#), or we're talking about one of Google's other [Machines Designed to Hunt Humans \(both shown below\)](#), all were designed with the same outcome in mind, and that's total control over their "subjects. Since all this technology is intended do one thing, and that's control its "subjects," this post will cover all of it,

building up to the weaponized cell phone towers. To accomplish that, the post will be laid out as follows:

1. **Aside From the Cell Phone Towers, What Else Are The Telecommunication Giants Working On?**
2. **What are the Weaponized Cell Phone Towers?**
3. **How is Google Involved With the Government?**
4. **The Unthinkable – You Can’t Even Imagine!**

The video starts off by stating the obvious. Companies like Google and Lucent are giants in telecommunications field, and in recent years there has been a technological push toward what insiders are calling “post human society.” Earlier this week I wrote about how scientists like Stephen Hawking and Ray Kurzweil believe the technology to make humans [‘Digitally Immortal’ Will Exist By 2050](#). Think of how soon that is! Do you have children? Below are a few videos of Google’s early “Human Hunters.”

Since this post will be like drinking water out of a fire hose for most people, I’ll come back to the idea of “subjects” at the end of this article when we talk about how the government fits into all this. First, in the videos below you can get a first hand look at the human hunters both of which were shown in

the first few minutes of the first video.

Next, meet Spot. Spot is the mechanical dog you saw briefly in the first video. Spot is a four-legged robot designed for indoor and outdoor operation. It is electrically powered and hydraulically actuated. Spot has a sensor head that helps it navigate and negotiate rough terrain. Spot weighs about 160 lbs. Spot can shake off a human kicking him while trying to escape (even on ice). Doesn't that sound sweet? NOT!

You can read more about Spot in a post of mine titled, [Why is Google Creating Machines to Hunt Humans? \(Videos\)](#), and for your reference, the article being shown in the first video about the PO Box 666 can be found here: [The post box in Bermuda numbered 666 which receives Google profits worth Â £8BILLION a year.](#)

Before diving in to what the weaponized cell towers are, and the potential effects they can have based on my research, I want to mention two things. First, Google has been working on some other very nasty toys. Many Christians would say they are trying to perfect the “Mark of the Beast.” In another previous post of mine titled, [Prepare to be Microchipped. This is Not a “Request,”](#) it discusses who took over the largest Research and Development lab in the world at Google not long ago: Former Head of DARPA Regina Dugan (pictured below).

DARPA, for those that don't know, is where most of the U.S. military's top secret new weapons come from initially. Many of them are the result of black budgets with little to no oversight, and that is done to maintain their top secret sensitive nature. Not even the members of Congress who appropriate the

funds know what the BILLIONS of dollars are going toward. DARPA describes itself as:

... an independent agency of the United States Department of Defense (DOD) that focuses on developing cutting edge technology to ensure that the United States remains ahead of its enemies. The organization has contributed a number of technologies to the United States military and the world in general, including the groundwork for the Internet. Many of the workings of this agency are kept concealed from the public, in the interests of keeping its technology under wraps so that it is not exploited by other nations.

The former DARPA chief and current Head of Research and Development at Google represents a nasty mix of the government getting in bed with tech companies. Mrs. Dugan thinks the world should be a cashless society, and all business should be conducted through the use of an ingestible RFID chip for humans. Sound like anything you've heard of in the Bible? Well, guess what, the chips are already developed, and to go one step further, the [FDA has already approved them for human use!](#)

As you can see below, Mrs. Dugan isn't shy about using her new technology on herself. That's why she has no plans to hesitate using the technology on YOU when the time comes. As you can see below, an electronic tattoo that can be used to authenticate a user instead of some flimsy password. It's made by a company called [MC10](#) that Motorola is partnering with, and Dugan is wearing it on her own arm.

Another option in a similar vein: Vitamin authentication. **Dugan shows a pill that can be ingested and then battery-powered with stomach acid to produce an 18-bit internal signal. After that, the swallower's whole body becomes a password.**

It's also worth noting that this year's [Bilderberg Hot Topic of 2015 Was Ingestible RFID Microchips](#), with none other than Regina Dugan!

Directly above, I said there were two things I wanted to cover before getting to the weaponized cell towers and their possible uses and side effects. Unfortunately, we're just getting started. This gets MUCH worse. Naturally, since our mainstream media is so biased, most people never even heard about it, but back in 2014, I covered a story titled, [Instead of Monitoring ISIS, Obama Spied on](#)

[Americans Using 'Fake' Cell Phone Towers Discovered Across America.](#)

Lucky for We the People, I don't believe the technology was quite there in 2014 for the cell towers ultimate purpose, and frankly the technology probably isn't quite there yet even today (for widespread use). Obama's spying on Americans with the towers all happened when the NSA had gone wild, so Obama was just scooping up massive amounts of data on U.S. citizens without any warrants, when he should have been focused on the 'JV' Team as he liked to refer to ISIS.

#2 WHAT ARE THE WEAPONIZED CELL PHONE TOWERS?

The first video above spent everything after the 1:45 mark of the video explaining how powerful some of these new cell phone towers are, and how their current configuration with mega cables is NOT set up for telecommunications or data transfer. After watching the video, and considering what the video makers said in conjunction with all the other information we've covered, I certainly wouldn't put ANYTHING past the uber global elites. or the board rooms of multinational corporations, but I'm not so gullible that I'll believe anything, so I kept digging.

It was not easy to find information, and a few of the articles I found were several years old and most likely outdated, but I did find a few worth noting. The best one included the following video which does an EXCELLENT job of putting the highly technical supporting information below into

layman's terms. In short: The video gives you an idea of the full scope of how powerful these towers are, whether you understand the technical mumbo jumbo below or not.

[GWEN Towers \(Ground Wave Emergency Network\)](#)

This post is an overview of how we are controlled by technology – from having our brainwaves deliberately changed en masse by transmitters regulating our state of consciousness, to how we are victims of electromagnetic waves disrupting the state of our health and finally how many of us will die, as decided by our global masters.

Earth is wrapped in a donut shaped magnetic field. Circular lines of flux continuously descend into the North Pole and emerge from the South Pole.

The ionosphere, an electromagnetic-wave conductor, 100 kms above the earth, consists of a layer of electrically charged particles acting as a shield from solar winds. Natural waves are related to the electrical activity in the atmosphere and are thought to be caused by multiple lightning storms.

Collectively, these waves are called “The Schumann Resonance,” the current strongest at 7.8 Hz.

These are quasi-standing extremely low frequency (ELF) waves that naturally exist in the earth's “electromagnetic” cavity, the space between the ground and the ionosphere. These “earth brainwaves” are identical to the spectrum of our brainwaves.

(1 hertz = 1 cycle per second, 1 KHz = 1000, 1 Mhz =1 million. A 1 Hertz wave is 186,000 miles long; 10 Hz is 18,600 miles. Radio waves move at the speed of light.)

The Creator designed living beings to resonate to this natural frequency pulsation in order to evolve harmoniously. The ionosphere is being manipulated by US government scientists using an Alaskan transmitter called HAARP, (High-Frequency Active Auroral Research Program) which sends focused radiated power to heat up sections of the ionosphere, which bounces power down again.

ELF waves from HAARP, when targeted on certain areas, can engineer weather and create mood changes effecting millions of people.

The intended wattage is 1,700 billion watts of power. A former govt. insider deduced they want to flip the world upside down. Sixty-four (64) elements in the ground modulate, with variation, the geomagnetic waves naturally coming from the ground. The “earth’s natural brain rhythm” above is balanced with these.

These are the same minerals as the red blood corpuscles. There is a relation between the blood and geomagnetic waves. An imbalance between Schumann and geomagnetic waves disrupts biorhythms.

These natural geomagnetic waves are being replaced by artificially created very low frequency (VLF) ground waves coming from GWEN Towers.

WHAT ARE GWEN TOWERS?

GWEN (Ground Wave Emergency Network) transmitters, placed 200 miles apart across the USA, allow specific frequencies to be tailored to the geomagnetic-field strength in each area, allowing the magnetic field to be altered.

They operate in the VLF range, with transmissions between VLF 150 and 175 KHz. They also emit UHF waves of 225 – 400 MHz.

The VLF signals travel by waves that hug the ground rather than radiate into the atmosphere. A GWEN station transmits up to a 300-mile radius, the signal dropping off sharply over distance. The entire GWEN system consists of, (depending on source of data), from 58 to an intended 300 transmitters, spread across the USA, each with a tower 299-500 ft high.

Three hundred (300) ft. of copper wire fans out in a spoke like fashion from the base of the underground system, interacting with the earth like a thin shelled conductor, radiating radio wave energy for very long distances through the ground. The USA bathes in this magnetic field which rises to 500 ft, even going down to basements, so everyone is subject to mind control.

The whole artificial ground wave spreads out over USA like a web. It is easier to mind-control and hypnotize

people who are bathed in an artificial electromagnetic wave.

Covering the entire floor with aluminum and buying a CET (Cosmic Energy Transformers) cylinder from various places -one of them, Nordic Living Water Systems – can help.

Location of Gwen Towers in the U.S. [2001]

GWEN transmitters have many different functions, including controlling the weather, mind, behavior and mood control of the populace.

They are also used to send synthetic telepathy disguised as infrasound to those victims of US government mind-control implants.

These towers work in conjunction with HAARP and the Russian Woodpecker transmitter, a system similar to HAARP. The Russians openly market a small version of their weather-engineering system called Elate, which can fine-tune weather patterns over a 200 mile area and have the same range as the GWEN unit. One such system operates at the Moscow airport.

The GWEN Towers shoot enormous bursts of energy into the atmosphere in conjunction with HAARP.

The internet website: www.cuttingedge.org, published an expose on how the major floods of 1993 in the Mid-Western United States were instigated by these systems. How does this happen?

Invisible, enormous rivers of water, consisting of vapors that flow, move towards the poles in the lower atmosphere. They rival the flow of the Amazon River and are 420 to 480 miles wide and up to 4,800 miles long.

They are 1.9 miles above the earth and move 340 lbs of water per second. There are 5 atmospheric rivers in each Hemisphere. A massive flood can be created by damming up one of these massive vapor rivers, causing huge amounts of rainfall to be dumped. The GWEN Towers positioned along the areas north of the Missouri and Mississippi Rivers were turned on for 40 days and 40 nights, probably mocking the Flood of Genesis. (This was in conjunction with HAARP).

The damming of the vapor rivers creates a river of electricity flowing thousands of miles through the sky and down to the polar ice-cap, manipulating the jet-stream. Again, these two major rivers flooded, causing agricultural losses of \$12-15 billion.

HAARP also produces earthquakes by focusing on the fault lines. GWEN Towers are positioned on the fault lines and volcanic areas of the Pacific Northwest.

In 1963, Dr. Robert Becker explored effects of external magnetic-fields on brainwaves, showing a relationship between psychiatric hospital admissions and solar magnetic storms. He exposed volunteers to pulsed magnetic-fields similar to magnetic storms, and found a similar response. In the United States, sixty (60) Hz electric-power ELF waves vibrate at the same frequency as the human brain. In the United Kingdom, fifty (50) Hz electricity emissions depress the thyroid.

Dr. Andrija Puharich (in the 1950 & 60s), found that a clairvoyant's brainwaves turned to 8 Hz when their psychic powers were operative. In 1956, he observed an Indian Yogi controlling his brainwaves, deliberately

shifting his consciousness from one level to another.

Puharich trained people via bio-feedback to do this consciously, that is, creating 8 Hz waves with the technique of bio-feedback.

A psychic healer generated 8 Hz waves through a hands-on healing process, actually alleviating that patient's heart trouble; the healer's brain emitting 8 Hz. One person, emitting a certain frequency, can make another also resonate to the same frequency.

Our brains are extremely vulnerable to any technology that sends out ELF waves, because they immediately start resonating to the outside signal by a kind of tuning-fork effect.

Puharich further experimented, discovering that,

- 7.83 Hz (earth's pulse rate) made a person "feel good," producing an altered-state
- 10.80 Hz causes riotous behavior
- 6.6 Hz causes depression.

Puharich made ELF waves change RNA and DNA in the body, breaking hydrogen bonds to make a person resonate at a higher vibratory rate.

He really wanted to go beyond the psychic 8 Hz brainwave and attract psi phenomena.

James Hurtak, who once worked for Puharich, also wrote in his book *The Keys of Enoch* that ultra-violet caused hydrogen bonds to break and this raised the vibratory rate.

Puharich presented the mental effects of ELF waves to military leaders, but they would not believe him. He then gave this information to certain dignitaries of other Western nations. The US Government burned down his home in New York to shut him up, whereas he then fled to Mexico. However, the Russians discovered which ELF frequencies affected what portion of the human brain; it was on July 4, 1976, that they began zapping the U.S. Embassy in Moscow with electromagnetic-waves, varying the signal, also focusing on 10 Hz. (10 Hz puts people into a hypnotic state).

Russians and North Koreans use this in portable mind-control machines to extract confessions. (This system can also be found in some American Churches to help the congregation believe!)

This Russian "Woodpecker" signal was traveling across the world from a transmitter near Kiev. The US Air Force identified 5 different frequencies in this compound that the harmonic Woodpecker was sending through the earth and atmosphere.

In 1901, Nikola Tesla, Nobel prize winner in Physics (shared with Einstein) revealed that power could be transmitted through the ground using ELF waves. Nothing stops or weakens these signals. The Russians retrieved Tesla's papers when they were returned to Yugoslavia after his death.

In Mexico, Puharich continued to monitor the Russian ELF wave signal and the higher harmonics (5.340 MHz) in the MHz range. He was somehow induced to work for the CIA and he and Dr. Robert Becker

designed equipment to measure these waves and their effect on the human brain.

Puharich started his work by putting dogs to sleep. By 1948/49, he had graduated to monkeys, deliberately destroying their eardrums to enable them to pick up sounds without the eardrum intact.

He discovered a nerve from the tongue could be used to facilitate hearing. He created the tooth implant that mind-control victims are now claiming was put in by their dentist, unbeknownst to them, and causing them to hear “voices in their head.’ These were placed under caps or lodged in the jaw.

Implants are now smaller than a hair’s width and are injected with vaccine and flu shots. Millions have had this done unknowingly. These “biochips’ circulate in the bloodstream and lodge in the brain, enabling the victims to hear “voices’ via the implant. There are many kinds of implants now, and it is estimated that 1 in 40 people are recipients of these tiny implants due to alien abductions.

However, others have suggested that one in 20 might just be a more accurate statistic.

https://upload.wikimedia.org/wikipedia/commons/8/81/GWEN_Repeater.JPG

The fake alien abduction – these revealed by many victims – are actually engineered by the U.S. military, using advanced technology to create holograms (4th dimensional pictures) or holographic spaceships outside.

This holographic, advanced technology can actually create a scenario whereas the person believes he/she is going into a spaceship. However, once inside, the aliens are in masquerade; they are actually military personnel outfitted in full costumes, masks et al..

Certainly real abductions occur, however, the “alien abduction” scenario has been most useful to the military in confusing the over all issue. This clouding tends to halt any further investigation into a government participation and inevitably absolves them of any accountability.

They are banking on the poor helpless victims feeling too intimidated to reveal such a shocking episode, lest ridicule be visited upon them.

- Are the global masters forcing us to respond to an artificially induced vibratory rate?
- Those power mongers who want this planet to have a sudden leap in evolution, populated only by the psychically aware and therefore superior class of human?
- What about the billions of people who are commonly referred to as “useless eaters”; are they to be conveniently disposed of by electro-magnetically-induced cancers and diseases?

It certainly causes one to stop and ponder this catastrophic situation.

The physics and engineering behind electromagnetic disease transmission are frightening. Diseases can be reproduced as “disease signatures” in that the vibration of a disease can be manufactured and sent on to be artificially induced. (The brainwave pattern of hallucinogenic drugs can also be copied and sent by ELF waves to induce “visions”).

Once diseases are sprayed in the air, electromagnetic waves attune to the disease by using harmonics and sub-harmonics, which in turn make them even more lethal and infectious; actually a more apt description would be deadly, as in inducing death.

The skies are filled daily with chemtrails, those crisscrossed white patterns that are sprayed out across the heavens in the United States and other countries.

Are these like contrails that jets emit behind them? Not exactly... contrails dissipate rather quickly, but the chemtrails – those feathery streaks that linger – are deliberately being sprayed and contain insidious chemicals (retrieved, analyzed and proven) which affect the state of consciousness, producing apathy.

This is only one “program” that has been initiated to keep the populace in a continual apathetic state. Add to this, the fluoridation of the drinking water, aspartame nutri-sweet, etc., and other highly-questionable drugs.

Fluoride disables the willpower section of the brain, impairing the left occipital lobe. Both fluoride and selenium (in additional amounts) can produce strange effects; one common symptom is that of “hearing voices”.

ELF waves create disturbances in the biological processes of the body, activated on a large scale once the body has been exposed to the aforementioned disease-causing chemtrails.

Some chemtrails have been analyzed under laboratory conditions, the elements shown to cause cleavages in spatial perceptions, blocking the interaction of various amino acids that relate to higher-consciousness. Some were also shown to increase dopamine in the brain thereby producing a listless, euphoric state of lower reactive mind.

This is done to basically create confusion, rendering a person unable to differentiate between the real and illusionary. In addition, some of these chemtrails could be connected with the many UFO abductions occurring on a global massive scale.

Many victims, some recalled under hypnotic regression, have witnessed other abductees laid out on tables (in a sort of assembly line operation) and in the process of being implanted.

Intelligence agencies are in league with each other, behind this disablement of the masses to such a degree where they can't even fight back. In order to implement their plans, that of total control of the populace, they need the overall “frequency” of each victim to function at a specific rate, below the threshold of awareness.

Could this be part of a greater plan with mind-control transmitters covering the whole of USA and England, cleverly disguised as cell phone towers and trees? The power from microwave towers may be turned up to such a level that people will die.

A brain functioning at beta-level (above 13 Hz) is agitated and cannot change the perceptions if it is

artificially stabilized to that frequency by technological methods. This frequency may also increase body electricity in others, giving them psychic powers. Is this linked to the new-agers claim of a 12-14 Hz Schumann Resonance, inching us towards the 4th dimension?

Stimulants ingested globally from higher-caffeine, genetically modified plants, may also make an impact on the “global-brain” in the ionosphere that is collecting our brainwaves.

New-age channelers say we are going into a 4th dimensional frequency. They “heard” the voice of some “ET” who informed them of this.

However, some “ETs” are just plain earthians in disguise. Using Tesla Technology, Prisoners in the Utah State Prison were bombarded with voices from a “purported” ET, each prisoner receiving the same identical message. Curious, indeed. Today, it is relatively simple to produce these “voices in the head.” Implants/microchips are no longer necessary.

In 1988, an inmate in Draper Prison, Utah by the name of David Fratus wrote: “I began to receive or hear, high-frequency tones in my ears. When I plugged my ears, the tones were still inside and became amplified. It’s as if they had become electrified echo chambers with the sounds coming from the inside out.

I then began to hear voices, right in my inner ears and just as vividly as though I were listening to a set of stereo headphones. The end result is that I am now having my brain monitored by an omnipotent computerized mind reading or scanning machine of some sort.” Hundreds of inmates at the Gunnison Facility of the Utah State Prison and the State Hospital were subjected to this brand of mind-control, used as test subjects like rats in a lab.

In the early 1970s, this was revealed in the Utah U.S. District Court.

While incarcerated, these inmate test subjects, having been subjected to this Tesla-wave mind-control, tried to seek restitution in the courtroom. Unfortunately, they were unsuccessful.

The University of Utah researched how Tesla-waves could be used to manipulate the mind into hearing voices, overriding and implanting thoughts into the mind, in addition to reading thoughts. They also went about developing eye-implants. Cray (The Cadillac of computers, ultra sophisticated) computers, using artificial intelligence, monitor the victims of government produced implants, sending pre-recorded sound bytes or occasional live messages.

They are picked up by satellite and relayed to whatever large TV broadcasting antenna, GWEN tower or other antenna that is nearest the victim. It is believed that some types of implants pick up the signal and broadcast the correct Tesla-wave pattern to create voices within the victim.

The tracking implant keeps the staff and the satellite system informed every few minutes as to exactly where to send the voice signals. The master computer and central HQ for this is reported to be Boulder, CO. It is thought that transponders are being made there.

The central cellular computer is in the Boulder, CO National Bureau of Standards building. AT&T is also cooperating; several agencies work together on this.

Tim Rifat of UK wrote that “this inter-cerebral hearing” is used to drive the victim mad, as no one else can hear the voices transmitted into the brain of the target. Transmission of auditory data directly into the target’s brains using microwave carrier beams is now common practice. Instead of using excitation potentials, one uses a transducer to modify the spoken word into ELF audiograms that are then superimposed on the pulse modulated microwave beam.

On March 21, 1983, The Sydney Morning Herald published this by Dr. Nassim Abd El-Aziz Neweigy, Assistant Professor of Agriculture, Moshtohor Tukh-Kalubia, Egypt.

This article stated: “Russian satellites, controlled by advanced computers, can send voices in one’s own language, interwoven into natural thoughts.

They can target the population of choice with this diffused artificial thought process. The chemistry and electricity of the human brain can be manipulated by satellite and even suicide can be induced.

Through ferocious, anti-humanitarian means, the extremist groups are fabricated, the troubles and bloody disturbances are instigated by advanced tele-means via Russian satellites in many countries in Asia, Africa, Europe and Latin America.” Another source says that these have been fed with the world’s languages and synthetic telepathy will reach into people’s heads making people believe God is speaking to them personally to enact the Second Coming, complete with holograms!

The Russians broke the genetic code of the human brain.

They worked out 23 EEG band-wave lengths, 11 of which were totally independent. So if you can manipulate those 11 you can do anything. NSA’s (U.S. National Security Agency) Cray computers can remotely track people just by knowing the specific EMF waves (evoked potentials from EEGs in the 30-50 Hz, 5 milliwatt range) of a person’s bioelectric-field.

Each person’s emissions are unique and they can remotely track someone in public.

Now if this isn’t a horrifically frightening thought, I don’t know what is.

Evoked potentials officially do not exist in physics, but in 1873 a Scotsman, James Clerk Maxwell, discovered that electromagnetic waves have 3 components. He discovered waveforms that exist at a certain number of right-angled rotations away from the electromagnetic field. These are hyper-spacial components, not subject to constraints of time and space.

He claimed that electromagnetic radiation waves were carried by the ether and the ether was disturbed by magnetic lines of force. The hidden component is called only “potential’ now and not normally used except for covert hyper-dimensional physics and to manipulate consciousness itself via electromagnetic-waves covering vast areas of the planet.

Approximately one person in 3000 is sensitive to this magnetic waveform component, the telepathic types, (according to a writer called “Majix”), and we are all capable of tuning into this magnetic component by tuning our subconscious to it. Maxwell’s successors thought potentials were akin to mysticism because they believed fields contain mass which cannot be created from nothing.

This is what potentials are – both literally and mathematically – an accumulation or reservoir of energy, consequently this hasn’t been taught in mainstream physics.

Subliminal words (in the correct electromagnetic-field and attuned to the human brain) that express human consciousness can enter our minds at a subconscious level. Apparently, our brain activity patterns can be measured and stored on super-computers. If a victim needs to have subliminal thoughts implanted, all that is necessary is to capture that brain activity pattern, (saved on the mega computer) and target or match up that person’s pattern.

The targeted or specified person is then sent low frequency subliminal messages that they actually think are their own thoughts.

The researcher Majix says our brains are so sensitive, that they are like liquid crystal in response to the magnetic component of the earth. We are sensitive to earth’s magnetic changes, changes in the ionospheric cavity and resonate those frequencies ourselves. We are incredibly complex entities, beyond the layperson’s comprehension. Our brains are indeed a type of bio-cosmic transducer.

Physicists in Russia have conducted in-depth studies on the effects of the mean annual magnetic-activity, electro-magnetic and electro-static fields on human behavior and the physical body.

These electromagnetic and electro-static fields can be likened to what is popularly known as biorhythms. These magnetic frequencies can be manipulated from a very simple piece of equipment operated at extremely low power levels; our brain waves can mimic magnetic frequencies.

From half a second to 4 seconds later, the neurons and brain waves are driven exclusively by this device; power levels almost nonexistent.

All one needs is a circularly polarized antenna, aimed up at the ionospheric cavity and they can then manipulate the moods of everyone within a 75 sq. mile area. The body picks up these “new” manipulated waves and begins to correspond immediately. What is known as the “sleep” frequency will make everyone become tired and sleep.

In Let’s Talk MONTAUK, Joyce Murphy presented data that showed that experiments on the 410-420 MHz cycle have been done which could affect the “window frequency to the human consciousness” as a whole.

More info on this is available on the internet website.

Preston Nichols, previously mentioned herein, learned from his experimentation with his radio equipment that whenever a 410-420 MHz cycle appeared on the air, a psychic's mind would be "jammed," finally tracing the signal to Montauk Point and the red and white radar antenna on the AF Base there."

In *Encounter in the Pleiades* by Peter Moon and Preston Nichols, Nichols wrote that,

Dr. Nicholas Begich, an expert of HAARP, has picked up 435 MHz signals connected to HAARP and that a mind control function is currently being employed. He claims that 400-450 MHz is the window to human consciousness because it is our present day reality's background frequency.

Tim Rifat wrote in his *Microwave Mind Control* in the UK article that cellular phones use 435 MHz.

The United Kingdom police use 450 MHz exclusively. Dr. Ross Adey used this frequency for CIA behavioral modification experiments. Police have a vast array of antennae to broadcast this frequency all over UK.

Adey used 0.75mW/cm² intensity of pulse modulate microwave at a frequency of 450 MHz, with an ELF modulation to control all aspects of human behavior. 450 MHz radar modulated at 60 Hz greatly reduced T-lymphocyte activity to kill cultured cancer cells.

A study in the USA of their 60 Hz power lines repeated this.

Through much study and analysis on this varied topic, independent scientists have concluded that HAARP is slicing up the ionosphere – the world-brain – like a microwave knife, producing long tear incisions and destroying the membrane that holds the reservoir of data accumulated of all earth's history.

However, there can be hope if we are aware of all the possibilities that exist. A healer called Mr. A claimed to have received "Ancient Wisdom" from the earth's protective Magnetic-Ring of energy which stores within it all knowledge since time began.

Ruth Montgomery wrote about this healer in *Born To Heal*.

He claimed that if our energy flow is cut off from this magnetic field, (the protective atmospheric magnetic-ring) then the Universal Supply is obstructed and we are no longer in tune with these advantageous frequencies, therefore we begin to get sick.

The Power from this travels in split-seconds around the world and is available to anyone who is capable of receiving and handling it.

The waves from The Ring were automatically translated into words in the healer's mind and interpreted as wisdom to diagnose and heal others; this ability coming from the storehouse of knowledge that has been present since the beginning of time. By tapping into this storehouse, he produced instant miracles, knitting broken bones and removing arthritis.

A photo was produced that displayed forked lightning emitting from his fingers.

That which we term "reality" – as understood mentally by our thinking processes – is being altered and changed into different expressions to allow complete control of our personal reality – a complete absolution

of that which has been normally operative in a divinely ordained, natural frequency.

We must not allow them to succeed because of the global masses' ignorance of this very advanced technology.

These elevated scientific methods have been suppressed for many years and only those very few people in power have been privy to this information and obviously used it with no "good intention" in mind.

Do you want to be turned into a zombie, a robotic, controlled entity walking around in an apathetic state, or do you want to live life as a vital, vibrant human being... as the Divine Creator intended for you?

We, as united peoples, can turn the tide...

#3 HOW IS GOOGLE INVOLVED WITH THE GOVERNMENT?

If you've read this far, at this point, all I can tell you is you just can't make this stuff up. Period. We've all been told that Larry Page and Sergey Brin were the guys who thought up and founded Google right? Not so fast! In 1999, the CIA created its own venture capital investment firm, In-Q-Tel, to fund promising start-ups that might create technologies useful for intelligence agencies. But the inspiration for In-Q-Tel came earlier, when the Pentagon set up its own private sector outfit. Guess who got the bulk of their money and direction from that "private sector outfit?"

INSURGE INTELLIGENCE, is a new crowd-funded investigative journalism project, that broke the exclusive story of how the United States intelligence community funded, nurtured and incubated Google as part of a drive to dominate the world through control of information. Seed-funded by the NSA and CIA, Google was merely the first among a plethora of private sector start-ups co-opted by US intelligence to retain 'information superiority.'

Both Pieces are long, but every last detail almost down to a timecard punch is in there regarding when

the young Page and Brin would meet with their government handlers.

I'm not saying Google isn't a privately owned company with shareholders etc., but I'm telling you the CIA has been in there since day 1! Every ounce of what is going on, is so those in power can better control the masses, or "their subjects."

[How the CIA MADE Google – PART I](#)

[Why Google Made the NSA – PART II](#)

#4 THE UNTHINKABLE!

If you recall, in the first video, there was talk about how the towers could take out (kill) entire towns, and what if an Artificial Intelligence program run by Google or Lucent "accidentally" took out a town? Like I said earlier, you can't make this stuff up... what if I told you the CIA and the Head of Bilderberg created an Artificial Intelligence program that directed our military's movements, and they called it, "SKYNET" of all things? Shoot me if I'm lying.

This past summer, Operation Jade Helm was more than just a simple military exercise. If you understand the technologies that were used, you'll see that Jade Helm was more of an intelligence operation using "Geospatial Intelligence Mapping." In military terminology, "the human domain," or "the human domain analytics," refers to anything dealing with people. The battlefield of the future is not going to be between Nation states, rather there is literally a war on for your mind. It's going to be about "Total Information Awareness." He that controls information, controls.

To briefly recap and save some time, “JADE” is an ARTIFICIAL INTELLIGENCE software application the military is now using that allocates manpower and equipment on-the-fly based on prior experience, prior events, and the capability of being able to “predict criminal activity.” It is an A.I. application that learns which tactics and personnel were most successful in different scenarios, and then builds on its knowledge as it goes. That is what the “JADE” part of Jade Helm. JADE took the “helm” (lead) in the exercise, and hence the title “JADE HELM.”

The software itself that ran “Operation Jade Helm” is from a company called, “Palantir,” and we know Palantir was funded by the CIA. What we don’t know is whether Bilderberg Chief Peter Thiel asked the CIA to fund the program and build it for him, or if the CIA funded and built the program, and then asked Thiel to run it.

Either way, the CIA’s Frankenstein is being run by the New World Order’s Top Henchman, using YOUR tax dollars, and can position military assets at an alarming rate all over the country, and YOU are the pawn. By the way, how sick are these people to name the project “SKYNET.” Remind you of any movies you’ve seen? [Hint: Terminator Series]. As if you’re not probably insanely creeped out already right now, you haven’t even seen the videos below, or heard the icing on the cake yet. The following is really an audio interview. It is so mesmerizing, it rivals ALMOST any movie out there.... it’s THAT good!

WARNING: THIS VIDEO IS NOT FOR THE FAINT OF HEART:

In the video below, which is about 30 minutes, but will feel like 30 second because you’ll be on the edge of your seat from start to finish, get a FULL picture of what the Artificial Intelligence software is capable of. Former guest host of Coast to Coast John B. Wells said the following to the person he interviews in the video:

“EVEN IF EVERYTHING YOU SAID IS WRONG, AND I DON’T SUSPECT IT IS, IT’S STILL JUST SO COMPLEX, AND SO DIABOLICAL, AND SO SCREWED UP, BUT IN THIS BEAUTIFULLY ENGINEERED WAY, IT’S EXTRAORDINARILY MONSTROUS!”

Electromagnetic Frequency Mind Control Weapons
By Stephen Lendman

Directed energy weapons include lasers, high power microwave, and millimeter wave models among others. A relevant December 2007 Department of Defense (DOD) report called them a “transformational game changer in military operations, able to augment and improve operational capabilities in many areas,” for both lethal and non-lethal purposes.

Access the full text through the following link:

<http://www.acq.osd.mil/dsb/reports/ADA476320.pdf>

Among other applications, EMF weapons/devices are used for harassment, surveillance and mind control. Agencies like the Pentagon, CIA and NSA use them to monitor people, manipulate their minds, harm, and at times kill them. The Navy Times called them the “most feared and controversial weapon(s) of (the) modern age.”

Human experiments in America go back decades, an earlier article addressed MK-ULTRA (and others), accessed through the following link:

<http://sjlendman.blogspot.com/2010/02/mk-ultra-cias-mind-control-program.html>

Begun in 1953, it was the code name for a secret CIA mind control program to perfect a truth drug. It followed earlier WW II hypnosis, primitive drugs research, and the US Navy’s Project Chatter, identifying and testing drugs on both animal and human subjects. These and other experiments aimed to control human behavior through psychedelic and hallucinogenic drugs, electroshock, radiation, graphology, paramilitary techniques, and various psychological/sociological/anthropological methods, among others.

They comprised a vast open-field of mind experimentation, using anything that might work, legal or not on willing and unwitting subjects. For example, Dr. Ross Adey worked on the CIA’s Pandora Project, using microwaves to send signals to human brains. Cataloguing the results, he showed how they affected emotional and pathological states. He also learned that human brains could be controlled remotely through extremely low frequency modulated microwave beams, able to cause psychological and physical harm.

People could be turned in zombies, their minds easily controlled. Physical harm also resulted, affecting their blood, cardiovascular system, cells, central nervous and digestive systems, glands, metabolism, reproduction, eyesight, and hearing. In addition, subjects could be made suicidal or driven mad. Moreover, sounds and speech can be placed in victims’ brains, actual voices they can’t control or stop.

Other effects include unexplainable burning, itching, tickling or pressure; “humming” or “buzzing” causing sleeplessness and anxiety; loss of body control, producing sudden twitching or jerking of an arm or leg; and feelings of dread, rage, lust, sorrow, or other emotions that come and go quickly.

Moreover, microwave cooking can heat people to death by increasing the radiation field intensity, causing local hot spots in eyes, gall bladders, and other body parts. Paralysis can also be induced. Memories are erased or impaired. Cancerous cells can be produced, and behavior modified the way authorities wish, even turning people into killers, microwave signals directing them. The entire mobile phone network can be used for these purposes, yet people are unaware of what’s happening.

Post-WW II, human radiation experiments were conducted, affecting thousands of US citizens. Millions more were exposed to radioactive fallout from over 200 atmospheric and underground tests. At the Nevada site in the 1950s and 1960s, detonations affected over 200,000 “atomic vets,” thousands more downwind also in Nevada, Utah, Colorado and New Mexico. These and numerous other physical and psychological experiments caused enormous harm to hundreds of thousands of unwitting people, victimized by their own country.

Electronic harassment and mind control technologies direct energy through lasers, radio frequency energy beams, holography, interferometry, electromagnetic radiation, radio and sound waves, satellites, radar, miniature electronic robots, smart dust, and other means. All do it invisibly over thousands of miles. They can penetrate walls, buildings, metals, concrete, mountains and thousands of miles of earth.

Intersecting energy beams create radiation pockets in victims, engineered to contain sound waves, messages, heat and pressure stress, simulated forms of electromagnetic radiation, telepathic images, as well as holographic and virtual reality simulations. Directed energy beams can also track, locate and target people harmfully. They can only be blocked by force fields or materials that absorb or deflect them. What they are remain top secret.

Bush I declared the 1990s “The Decade of the Brain,” an effort “to enhance public awareness of the benefits to be derived from brain research,” keeping its dark side hidden.

The Pentagon’s DARPA (Defense Advanced Research Projects Agency) conducted research and development in “augmented cognition,” what universities call “cognitive science.” It’s the interdisciplinary study of how information is represented and transformed in the brain. The Pentagon’s purpose was for military applications, including manipulating the emotions and behavior of adversaries.

Used globally, it’s applicable individually, for crowd control, or larger groups, using millimeter waves, pulsed energy projectiles, and high power magnetic weapons, subjects unaware of what’s hitting them.

The NSA’s Signals Intelligence (SIGINT) involves decoding EMF waves to tap into computers wirelessly and track people. Using EMF Brain Stimulation to monitor individuals, organizations

and nations, it complements the CIA/Defense Intelligence Agency's (DIA) Human Intelligence (HUMINT), and National Geospatial-Intelligence Agency's Imagery Intelligence (IMINT). NSA's DOMINT can track millions of people simultaneously. It can also inflict harm, control subjects psychologically and kill.

In conflict zones like Iraq and Afghanistan, "Project Sheriff" is used to give "troops working in urban terrain more options" against combatants and noncombatants alike. Humvees and armored personnel carriers have been retrofitted with non-lethal weapons, including microwave-like pain rays (an Active Denial System) and a Long Range Acoustic Device emitting earsplitting sounds.

Pulsed Energy Projectiles (PEPs) travel nearly at the speed of light. With pinpoint accuracy, they emit invisible laser pulses, electromagnetic radiation, stunning targets, knocking them off their feet, paralyzing them in pain. Their long-term effects, however, are unknown, including on the brain.

Voice to Skull directed acoustic devices are neuro-electromagnetic non-lethal weapons, able to produce mood-altering sounds in a person's head. Remote Neural Monitoring (RNM) uses satellite transmitted extra low frequencies (ELF) to send voice to brain communications. Long Range Acoustic Devices (LRADs) are used for crowd control. They produce 150-decibel acoustic beams, "designed to communicate with authority and exceptionally high intelligibility in a 15 – 30 degree beam." They emit verbal challenges over distances beyond 500 meters, with warning tones to influence behavior. They can also inflict physical harm, manipulate minds, and cause death.

The field of Augmented Cognition includes Transcranial Magnetic Stimulation (TMS), used therapeutically and for military purposes. The latter is to emit close proximity electrical impulses to the brain to affect mood, sleep patterns, and improve cognitive abilities in areas of learning, memory, attentiveness, visualization, and decision-making. The long-term neurological effects are unknown. The potential for human harm is considerable.

Transmitted over long distances, silent psychotronic weapons can cause illness or death for no apparent reason. In his 1970 book, "Between Two Ages," Zbigniew Brezezinski, discussed technologies to conduct secret warfare, saying:

"It is possible – and tempting – to exploit, for strategic-political purposes, the fruits of research on the brain and on human behavior....Accurately timed, artificially excited electronic strokes could lead to a pattern of oscillations that produce relatively high power levels over certain regions of the earth....In this way, one could develop a system that would seriously impair the brain performance of a very large population in selected regions, over an extended period."

Most people know nothing about directed energy weapons, manipulating, incapacitating and killing many thousands who have no idea what hit them. America has been a longtime global offender, developing and using them for decades to surveil, harass, intimidate, manipulate, torture, and kill. They can also read minds and turn people into zombies. Why? To achieve total unchallengeable control.

So-called “non-lethal weapons” can be as harmful as killer ones. Ongoing research, in fact, is chilling. Waging war on human minds and bodies, it’s morally, ethically, and legally indefensible. Continuing, however, atrocity technologies are produced, mostly without public knowledge or that governments like America use them against their own people and others. For ill, of course, not good. The drones and robots will be used to control us in about 20 years time and a lot of military hardware is being built with the excuse that it save lives when we start wars for the banker on the other side of the world.

Google is scum and it's A.I is being used on the data it collects about you today and the data will be scanned again as the A.I gets better and will know what time you will get out of bed tomorrow before you do.

I am not sure how it can be stopped but no one is asking us to think before we go more down this road

A minor thing, but being an engineer working with magnetic devices I noted that the author got the magnetic flux flow direction wrong. It flows from the North pole and into the South pole. No big deal.

     They need to be immediately made inoperative! Check their weakness areas like power lines going in, or dishes. How many of you taken target practice? Remember too, their are cameras at all street corners that they can monitor you, so imagine if they don't see whats going on, or coming for them?

DO YOU KNOW WHAT TO DO, once Martial Law Starts? Ground Zero is in YOUR VERY OWN TOWN! Do you know who each of you will first encounter when Martial Law starts? Think for a moment. Do you know what to do for your to have your community take back your local city from the criminal gov, and then expand out to your neighboring town?

Please, this is the only truly honest plan for We The People to regain our nation once it goes down the toilet! Prove me wrong! You need to know what to do to remain free and remove the criminal gov in your very own city!

<https://beforeitsnews.com/protests-demonstrations/2015/03/martial-law-a-citizens-handbook-2455546.html>

If you are a Freedom Loving American who is sick and tired of the Gov criminal in DC and in your city, here is a older story that I found that everyone can do in each city. Ground zero is your very own city, street and local police departments. That is Ground Zero – not against the military forces, but your very local criminal mayor, police and judge. Once Martial Law starts, your first encounter will be just them – your local Police. So if you want your community free, your free citizens need to contain your local mercenary for profit criminal gov and corporations – YOUR LOCAL POLICE, MAYOR, JUDGE and ALDERMEN!

Your Local police will be ordered and trained to quell you so the elite can remain in power and continue to control you; even during Martial Law. Your local Police will shoot anyone who does not follow their corporation illegal Laws, so your #1 fact is to contain your police officers, and then We The People can then regain your community back. Make Sense?

Read more peaceful tactic's that each and every city can do to get your freedom back. This is not a bogus plan, as 99% of others, but one that give physical approaches on what to do.
