People suffering from mental disorders, epilepsy, or fundamentalism are advised to refrain from engaging in any of the aforementioned exercises.

This book is dedicated to Iris Clark and Rachel Lunt.

Gladys Iris Clark is one of the most highly respected members of the Sedona metaphysical community. Her *Keys of Enoch* study group is the longest running *Keys of Enoch* group in Arizona. Many of Sedona's most spiritual and intelligent people have attended, and continue to attend her study group. Iris is a very special woman, and as she was contacted by extraterrestrials in 1926, she deserves to be noted as one of the first contactees of this century. Iris attributes many of her interesting life experiences and longevity to the energy the ET's sent her during her first contact experience.

“They zapped me! And it was ecstasy! My heart burned, not with pain, but with intense Love. Right in the center of my heart was this thrilling, beautiful sensation.”

Mrs. Clark will be remembered mostly for her literary contributions. She is the author of *Lone Line Rider* and *Forever Young: How to Attain Longevity*. Iris also contributes to the *Sedona Journal of Emergence*.

Rachel Lunt was called to Sedona over 35 years ago, and through a series of spirit-guided adventures, she found and purchased the parcel of land at the mouth of Long Canyon, which we know as “Rachel's Hill.” Rachel has no doubt that the spirits of this place brought her here, and that the spirits want the hill to remain a protected place that will always be accessible to people who want to experience the sacredness of God's creation.

She has many interesting stories about paranormal occurrences on or near her hill. Her favorite UFO story is about the time she and three of her friends saw two colorfully lit flying saucers fly in low over her property.

Rachel Lunt's dream is that someday her property will connect with the land below. She envisions a world healing center that will specialize in education, transformation, and healing. If you share her dream and have access to significant amounts of cash, the 135-acre parcel located to the south and west of her property may be waiting for you.

In 1987, Rachel's Hill was “Dedicated to the Oneness of All.”

INTRODUCTORY NOTE

I am a native of Yavapai County, Arizona, born just 30 miles overland from Sedona in Prescott, Arizona. As I view my life I can clearly see that I have been prepared to be a type of Shaman, a mystic and a healer who interprets Spirit for the people. And while I know of many people whose life stories seem even more magical and mystical than my own, I can see that I definitely have a key role in helping many other people find the magic in their lives.

I have felt for several years that, as a general rule, true mystics should keep the power of their experiences to themselves. It is a “give-away” of personal power when a person casually shares their stories of magical experiences with the world. At this point, however, I feel it is appropriate for me to share some of my experiences with you in order that you may be empowered to seek the Truth as well. May this book inspire you to take increased responsibility for your life and that of Humanity’s many lives as well.

During my meditations in Sedona I was asked to produce a book that would serve as a general guide to understanding what the “UFO” phenomenon means and how we can make this information useful. This book will be recognized as one of the most advanced books on the subject of alien contact. The existence of “UFO’s” and “aliens” challenges our deepest and most sacred beliefs, including who or what God is, who and what we are, where we came from, and, most importantly, where we are going. In fact, the existence of beings from other stars brings into question everything we have been taught to believe, requiring us to expand our consciousness to accommodate entirely new definitions of space and time.

The UFO story is a slippery subject to say the least. Writing a book such as this has a definite effect upon the consciousness. In fact, from time to time, I have found myself somewhat overwhelmed with information; yet, when I write I often feel higher consciousness moving through me and I know I am not alone. The inspiration for this work is the Universe itself, the God-consciousness that is found in all things. I am a servant of the Light, and I am an interpreter of the mysteries of space and time.

One of the most notable reasons that I have been selected to write this book is that I have been consciously following a path of Power since I was 18 years old. What this means in particular is that on many occasions I have prayed to the Great Spirit for help, guidance, and protection. Many times I have offered my prayers on the Solstices, the Equinoxes, and the full moons, and many times I have made my prayers at the Power Spots. This is why I was chosen to write this book. I give thanks to the Great Spirit for all my blessings and I tell you that I have been blessed with many things, both spiritual and material. The Great Spirit put a roof over my head and continues to bless me because I have asked for help, guidance, and protection, and because I offer myself in service to others.

A NOTE ON THE KEYS OF ENOCH & THE ACADEMY OF FUTURE SCIENCE

Many of the ideas in this book are adapted from Dr. J.J. Hurtak’s book, *The Keys of Enoch*. Dr. Hurtak was given *The Keys of Enoch* when he was taken aboard an

interdimensional craft of Divine Light, a “Merkabah.” *The Keys of Enoch* are a testament of the Will and the Wisdom of the Highest Universal Intelligence. *The Keys of Enoch* teaches Love, Christ Consciousness, Free Will, and planetary ascension.

The 64 “Keys” explain many aspects of creation and are therefore complex and scientific. In this book I have done a simple interpretation of the Keys so that the information they contain can become more widely available. Ultimately, many of the people who read the *Sedona UFO Connection* will want to obtain copies of *The Keys of Enoch*. (See below for ordering information.)

It is important that I make it clear that the Vortex Society is not directly affiliated with Dr. Hurtak’s association or The Academy for Future Science, and that my interpretations of *The Keys of Enoch* are my own *and they may not agree* with the Academy’s interpretations.

The Academy for Future Science has a large selection of books, tapes, and audio cassettes on the subjects of “future science” and religion. The Academy also offers music tapes that feature the sacred names. *Songs of Ascent* by Rex Houston is a favorite selection that is also available at metaphysical bookstores through New Leaf distributors.

The Academy for Future Science sponsors thousands of study groups throughout the world. You may contact the Academy to find groups that may be operating near your home. Please allow several weeks for reply as the office staff of the Academy consists of only Dr. Hurtak, his wife, Desiree, and their secretary.

Dr. Hurtak is very busy and, as a general rule, unable to personally answer letters. If you have questions, it is suggested that you write for a copy of the Academy’s catalog, and then pursue the educational materials that are offered, including, of course, *The Keys of Enoch* itself. (*The Keys of Enoch* is a quality hard-bound book, and as it is a very specialized subject, it has been necessary to keep the price in the \$40 range.)

We are looking forward to Dr. Hurtak’s next book as it promises to be a rather notable work. Dr. Hurtak has let it be known that it will validate much of the information in the Keys.

UNDERSTANDING OUR CONNECTION WITH THE STARS

**THIS PLANET IS A DIVINE CREATION
IT IS A SPACESHIP ON AN INFINITE JOURNEY
THROUGH SPACE AND TIME.
WE ARE THE OPERATORS OF THE PLANET EARTH.**

THE BUG-EYED WEIRDIES HAVE COME TO TOWN

As I slept, an ET crept into my dream... “Hello, I come in the name of the One. I would like to do some things with you. May I? This is a test...” Strange energies began flowing through my body, causing me to shake. As my conscious mind merged with my dreaming mind, I became happily amazed by the reality of the situation. I was having a dream that was unlike any other I had experienced. I was sharing a dream with a strange alien entity!

As my consciousness shifted from the dreaming world to the here and now, I began losing contact with the alien. I felt I was failing the test so I sent the ET a thought: “More, give it to me, I can take it!” I think my outburst startled the entity a little, and soon the dream disappeared.

I awakened, still shaking, feeling very connected to the energy of the dream. My mind was racing. It was incredible! I had just had an astounding paranormal experience. **AN ALIEN HAD COME INTO MY DREAM!**

I was amazed! Science fiction had become reality; I had been contacted. There was no doubt in my mind that my dream was real. For whatever reason some sort of alien intelligence had come into my dream and done something to me that had made my body shake as if it were being supercharged with Life Force energy.

I had not experienced any pain during this dream, but upon awakening, and ceasing to shake, I found that my body felt like it wanted to lie still and integrate the energy. I was exhilarated! I had been “zapped” by an ET while sleeping. Soon I found myself wide awake and I was very excited. I knew that the entity who had come into my dream was standing beside my van at that very moment.

My mind raced. I had no doubt that I was in telepathic contact with an ET. **I knew** that a strange creature was just outside my van, **I knew it**. I was so sure of this that I did not even get up to look out. Can you imagine that? My little earthling mind was blown! I did not even get up to see the ET! **I knew it was just outside the window**; I did not have to look. **I knew it**. I simply lay still in wonder and amazement, sensing the energy in my body.

After a short period of time I began to come more into the here and now, and thought about taking a look, but then, if I looked, I might be compelled to go outside the van and face the alien in the flesh. This frightened me a little so I just lay still.

After a few moments I felt strongly compelled to look, but I still refused to do so. Soon the energy shifted again and, suddenly, something gave a single knock on the rear door of the van, just inches from my head. Immediately I knew that this knock was a signal that I could trust my feelings; an ET was present.

At that point I knew that the ET was going back towards the Vortex and if I wanted to see it this was my last chance. I stayed in bed. I never looked out but **I knew it was there**. I did not need to look. (But if I had, I think I would have seen a Zeta Reticulan.)

All this occurred while my girlfriend, Karen, slept next to me. I allowed more than a year to pass before I told her what had happened. This event was so extraordinary, perplexing, magical, and personal that I decided to keep it to myself. Yes, Sedona is a strange place, and science fiction does sometimes become reality.

This event took place in 1989, at the Airport Vortex. Since the time of this encounter I have had plenty of time to think about my experience, and I am glad that I did not attempt to “make contact.” I now realize that this event could have ended up with me on the cover of the *National Enquirer*, with the headline:

“SEDONA MAN MADE PREGNANT BY SPACE ALIEN!”

(Or perhaps something worse.)

As the years have gone by I have had an opportunity to gather many of the pieces of the UFO puzzle together. In doing so I have found that chasing after phenomena such as a UFO sighting or a contact with a weird alien life form such as a “grey” is a comparatively low-level experience when compared to what can be accomplished by a person who truly desires to have contact with the star beings who hold the keys to planetary transformation.

It is rather naive to believe that aliens do not exist, and I shall waste no ink trying to prove the obvious. Instead, I will demonstrate that our history is woven through with contact from both positive and negative extraterrestrial civilizations. And I will show the readers of this book how they can protect themselves from negative aliens and align themselves with positive aliens.

Will it surprise you or disappoint you to find that the “aliens” I work with are not “cute” (?) little bug-eyed “ET’s” but rather, the higher-dimensional, Light Body Entities that are referred to as “Angels” in the Bible, and that these Ultra-extraterrestrials operate in opposition to the “bug-eyed weirdies”?

There is great hope for the future because the Ultra-extraterrestrial Angels are offering their services to us as guides through this time of planetary transition. They are not, however, offering us a free ride off this planet. In fact, the message coming to us from the Legions of Light is clear. We must clean up our act, or else. We must go beyond escapist fantasies and realize that every second of our lives we are traveling through space on a wondrous space-time vehicle, planet Earth. And as a species, we are all in this together. Either we clean up our bodies, our thoughts, and our planet or there will be cause for great regret. If there ever is a planetary evacuation, it will be because we have failed. Then comes the question of whether you will be qualified to be picked up or whether you will get the opportunity to witness the end.

Wouldn’t it be better to save the entire planet?

Ultra-extraterrestrial sources assure us that we have the ability, through the use of ceremony and prayer to “activate the Ascension.” And that in fact, this is what we are expected to do in order to earn our right to Galactic Citizenship. These sources also assure us that the time is now.

SEDONA SPEAKS

THE SEDONA UFO CONNECTION IS ABOUT CONNECTING WITH POSITIVE EXTRATERRESTRIAL INTELLIGENCES THAT ARE HERE TO HELP THIS PLANET THROUGH THE ASCENSION. THE SEDONA UFO CONNECTION IS NOT ABOUT "FLYING SAUCERS."

The *Sedona UFO Connection* is not about flying saucers. It is time for us to move beyond the stage of doubt, sensationalism, and denial, and begin to deal with the extraterrestrial question on a higher level, that of preparation for contact and graduation into the Greater Body of Light.

In this book we will examine many things that I feel are relevant to our understanding of what the existence of extraterrestrial intelligence and interstellar flight mean to Humanity on planet Earth. In brief, I will state that I believe the bulk of the information coming to us from Ultra-extraterrestrial contact indicates that our species and our planet are going through a process that can best be defined as "ascension." We will explore what I believe to be some of the more important ideas that relate to ascension. This book should be considered a state-of-the-art communication on the subject, *Sedona Speaks*.

The Sedona UFO Connection is meant to be an accessible primer of the basic concepts of divine attunement and ascension. The entire second section of this book is devoted to giving the reader a basic understanding of Light Body Yoga and energy work, as well as detailed information about how one can accelerate their spiritual progress through the invocation of Angels, masters, benevolent extraterrestrials, or other inner-plane helpers.

The information in this book will help you wherever you are, and I am certain that many of the people who read this book will put the spiritual exercises in it to use. I am also certain that many of the people who do so will find that they rapidly access energies and vibrational realms that accelerate their ascension.

The nation is looking to Sedona as the focal point of the new spiritual awakening that has been predicted. As a prominent member of the Sedona metaphysical community, I believe that it is important to make an intelligent statement on the subject of extraterrestrial contact.

We are no longer trying to prove that UFO's exist. We are now showing Humans how to understand what their existence means and how we can connect with what the "star people" have to offer. As for Sedona's role in the ascension process, I believe that Sedona is going to be one of the primary contact areas between Humanity and the extraterrestrial hierarchies, and that over the next few years Sedona is going to attract and produce a rather notable lineage of Light Workers and Rainbow Warriors who will lead the quest for planetary ascension. I believe that ultimately Sedona will be recognized by all as a planetary center of Light and knowledge.

I am in a unique position in that I have been selected by Spirit to be a leader of this movement. ("A" leader, not "the" leader.) I am hopeful about what can be accomplished but I want to make it clear that this path requires work and dedication.

THE LAW OF ONE

The Law of One states that there is but one primary law in the Universe, the Law of One. This Law states that all things emanate from the same source, the Infinite Creator,

the One. The Law of One can be applied in two ways: service to others, and service to self. The Hierarchy of Higher Evolution and the Brotherhoods of Light practice service to others. The Fallen Hierarchy of the Nefilim practices service to self.

Service to others means to continuously channel and reflect the Infinite Spirit of the Source Creator back to all other entities. Service to others can be equated with Christ-consciousness.

Entities that practice service to others are constantly evolving into higher-dimensional realms because they are in harmony with the Infinite Light of the Most High.

Service to self is a state of being wherein an entity no longer gives freely of the gifts he receives from Spirit. When entities operate in service to self they cut themselves off from the Divine Grace, and in their resulting hunger for spiritual sustenance, they appropriate the power of others. Service to self is sorcery and vampirism.

The space hierarchies that practice service to self are cut off from the Infinite Light. They are therefore subject to the de-evolutionary inward spiral of entropy. This causes the genetic stock of their species to slowly degenerate and lose vitality. It is this type of alien life form that *The Keys of Enoch* refers to as the “Grotesquerie of the Lower Heavens.”

The strange alien life forms we are encountering, such as those from the star Zeta Reticulum, are the product of the fallen Elohim, the Nefilim. They are degenerating because they are not in harmony with Divine Grace. Their bodies are losing their vitality and the ability to reproduce. They are here in a last bid for survival. Apparently, they have begun breeding with us. I am not qualified to say if this interbreeding is good or bad. It does, however, appear to be a very serious situation, and if it were not for the intervention of the Elohim and their hierarchy of “Higher Evolution,” we might find ourselves in dire straits.

The Keys of Enoch makes it clear that the power of the Divine Creator is Infinite Love; therefore, as the game of the fallen hierarchy comes to a close, many of the Nefilim and Grotesquerie will once again reunite with God’s Infinite Love and be forgiven. So let us remember not to feel hate or anger towards these entities. Let us instead concentrate on re-establishing our connection to the Holy Spirit, therefore placing ourselves beyond their control.

GOD, ANGELS, AND EXTRATERRESTRIALS

The existence of “UFO’s” demands that we modify our ideas about who and what God is.

While no extraterrestrial group that I know of denies the existence of the Supreme Deity, the existence of the extraterrestrials themselves challenges our idea of who or what God is. And it throws into question all of the basic premises upon which our religions,

and our society are based. Dare we allow ourselves to accept the fact that the word “God” is actually a generic term that has been used to describe any entity which possesses paranormal “god-like” abilities?

An important point that needs to be understood is that the original Old Testament texts never refer to God as God. In fact, the word “God” came into use long after the original texts were written. This is a fact that has been purposefully overlooked by the Church for centuries, as the various names for God used in the Old Testament imply that there is, in fact, more than one god entity.

The original Old Testament uses several names to describe God, including YHWH, JVHV (Jehovah), Lord God of Hosts (Adonai ‘Tsebayoth), Adonai, El Shaddai, and Elohim. In order to hide this apparent contradiction of the first commandment, most common English translations of the Bible substitute the words, “Lord,” “Lord God,” and “God” for the original Hebrew names. And while the introductory notes to some Bibles may mention the fact that the original text used the God names YHWH, JVHV, Adonai ‘Tsebayoth, and El Shaddai, most Bibles never mention the title “Elohim,” despite the fact that this word is used approximately 2,500 times in the Old Testament. Apparently, establishment Bible scholars have tried to obscure all references to the Elohim because, more than any other god name, Elohim implies that God, in the Biblical sense, is not exclusively a singular being but a multitude of beings. I discuss this in further detail in Section 2.

Acceptance of the existence of the Elohim is very important if one is to understand the reality of the extraterrestrial intelligences and the hierarchies that exist in the stars and the myriad of universes. Elohim, according to *The Keys of Enoch* (Key 208:1) are the supreme creative order of the Lords of Light (the “creator gods”). Normally, we would think of the Elohim as Angels. In New Age parlance, we might also refer to the Elohim as El’s (Elders). Interestingly enough, we find that early Hebrew scholars interpreted the first verse of Genesis to read: “In the beginning, He created Elohim, along with the Heaven and Earth.”

The Old Testament, in Genesis 6:2, also mentions entities known as the “Sons of God.” These entities are identified in Genesis 6:4 as “Nefilim.” (In the King James Bible, Nefilim is translated as “giants.”) *The Keys of Enoch* identifies the Nefilim as the fallen hierarchy (Key 306, 28-38) “... who tempt the intelligence with similitude...” sons that serve the lower light and not the Living Light. (The classic Bug-Eyed Weirdie is a Nefilim entity.)

Fundamentalist Christians, of course, do not like hearing any of this as their system of thought demands that they not listen to any information that contradicts what they have been told to believe. To them God is God, and there is no hierarchy, in spite of the fact that the language of the Old Testament makes it clear that God works as a hierarchy (through the Elohim) and that there is also a lesser race of “fallen Elohim,” the “Nefilim,” who, operating under the law of Free Will, choose to disregard the Will of the Most High (and exploit the ascending mortals of the lower heavens).

UNDERSTANDING OUR CONNECTION TO THE STARS

The Arcturians, the Orionids, the Sirians, and the Pleiadians are the four primary extraterrestrial groups that are credited with seeding and guiding Adamic life on this planet.

In our local Universe, the star Arcturus functions as a midway station for star evolution, consciousness controls, and *soul progression*. Arcturians tell us that they exist as fifth-density Light beings. They appear as Angels, or Elohim to us.

The stars of Orion are focal points for the threshold commands from the Great Central Sun. "Orion is in the image of the creator gods." (Key 201:35) The threshold commands of our genetic codes are transmitted into our local Universe through the Orion midway stations.

The Pleiadians manifest universal energy patternings of these threshold commands as physical forms. The Pleiades are the "cradle and throne of our consciousness." (Key 106:5, 9) The symbol for positive Pleiadian energy is the cross. (Key 106:32)

The various extraterrestrial groups represent the archetypes of the Human experience. In fact, the signs of the zodiac have little to do with patterns "seen" in the stars. The mythic images that our ancestors projected onto the constellations are, in actuality, a reflection of the type of energy / intelligence and / or civilization that each constellation produces.

Over the years a lot has been said, both good and bad, about the extraterrestrials that come from the Orion, Sirian, and Pleiadian systems. What we must realize is that these three constellations are home to both positive and negative interstellar civilizations, and that the true test for these entities is if they recognize the sanctity of the Adonai 'Tsebayoth. (Respect of Free Will is not a reliable test of alien character, as Free Will can be manipulated.)

888

In the Old Testament, Job 38:31, YHWH refers to his abilities in a verse that makes direct reference to the Pleiades and Orion, and indirect reference to the negative civilization of Ursa Major, the Bear.

Can you bind the beautiful Pleiades?
Can you loosen the cords of Orion?
Can you bring forth the constellations in their seasons? Or lead the bear with its cubs?
Do you know the laws of the heavens?
Can you set up God's dominion over the Earth?

888

"Seek him that maketh the seven stars and Orion, and turneth the shadow of death into the morning, and maketh the day dark with night, that calleth forth the waters of the sea, and poureth them out onto the face of the Earth, YHWH is his name." (Amos 5:8)

***THE TWELFTH PLANET
AND THE STAR GODS OF THE MIDDLE EAST***

The ancient records of the first civilizations in the Middle East, Sumeria in particular, give detailed accounts of how Adamic Life (Hu-man) was brought to planet Earth by extraterrestrials. Yet, establishment scholars (at least publicly) downplay all significance of these stories of gods and men by referring to them as myths.

The academic establishment's refusal to accept the validity of the official records of the Sumerians indicates that this information is so incredibly controversial and contradictory of our established social beliefs that it must be ignored, or all other things we believe will come into question as well. Fortunately however, one of the great scholars of Middle Eastern culture, Zecharia Sitchin, does not agree with the establishment. He believes that the records the Sumerians left behind are factual, that "gods" did indeed descend "from heaven" and walk with men, and that these gods were of flesh and blood.

After reading Mr. Sitchin's book *The Twelfth Planet*, I had a new perspective on history and theology. God was no longer just a burning bush that said, "I AM that I AM." God had become a civilization of physical beings from space that used genetic engineering to create Adamic life suited to the environment of this planet. Once again, science fiction had become reality.

According to the Sumerian texts, our solar system has twelve planets: the Sun, the Moon, and the nine known planets, totaling eleven, with a twelfth planet, Nibiru, that emerges from deep space every 3,600 years. The twelfth planet was referred to as the planet of the gods. The Sumerians referred to these gods as "Anunaki," the sons of the god Anu. The Anunaki are credited with combining their "seed" with that of the "beasts," such as the Cro-Magnon man, thus adapting the Adamic life-form to planet Earth.

There are, of course, many theories as to the identity of the Anunaki, but I will suggest that they are Pleiadian, and that the twelfth planet is, in fact, a huge starship. Not only do numerous channeled sources make claims such as this, *The Keys of Enoch* also makes it clear that the Pleiadians delivered to this planet the threshold commands from the Orion Lords of Light which contain the divine template for Adamic life. (Key 106)

There are rumors that some NASA scientists have leaked information to top UFO researchers which confirms that a large object has entered our solar system and that it may pass near the Earth in 1996. (The year 1996 marks the halfway point between the Harmonic Convergence, August 17, 1987, and the end of the 26,000-year Great Cycle of the Mayan Calendar on July 26, 2012.) We are told that this information is being kept "secret" because there is concern that this object may have sufficient gravitational attraction to cause the Earth to shift on its axis, and that this information could cause widespread social panic. It is theorized, however, that inner circles of the government suspect that the Anunaki do indeed exist, and that their concern is not whether our planet will shift on its axis, but rather, what the return of the Anunaki will mean to us as a species.

THE STAR GODS OF ANCIENT EGYPT

Like the Sumerians, the ancient Egyptians made many direct references to gods that came from the stars. Dare we allow ourselves to believe that the Egyptian "god myths" might be based in fact? Does logic stand on the side of archaeological heretics who

believe that the records of the ancients speak for themselves? Why do many establishment archaeologists often refuse to look at artifacts that do not conform to their theories, or, as in the case of the Sumerians or Egyptians, refer to these records as myths, thus inferring that whole societies were hallucinating?

In perusing through Sir E. A. Wallis Budge's translation of *The Egyptian Book of the Dead*, I have been able to determine that Sirius and Orion are two stars that are mentioned repeatedly in Egyptian mythology as "being in the region of imperishable stars." These stars are in what the Egyptians referred to as the Phoenix constellation. I believe that this constellation consists of Sirius, the Belt of Orion, and the Pleiades.

888

The life of an Egyptian priest-king was considerably different from that of any group of Humans who have walked this Earth since. These people had access to Universal energies; they had power that transcended wealth or social status. They were descendants of the star gods, and the ways of the Yoga of the Limitless Light were known to these priest-kings. The higher science these old ones knew was based on direct knowledge and interface with the Universal energy field, Ka-huna. They understood the natural physics of the Universe and the laws of Universal Harmonics. The Egyptian priest-kings were magicians and high-level yogis. Their original role was to elevate the rest of Humanity. This task had little to do with the high-tech mechanization of our space-age society.

Most of the artwork found in temples was for the education of the temple initiates. Many of the texts of the ancient Egyptians describe Yoga practices. This is one of the reasons why many esotericists state that most university scholars do not understand the hieroglyphics. They contain hidden metaphysical meanings that many scholars either know nothing of or cannot accept into their limited reality. Many of their murals describe sequences of positions to be held for working with energy. (Many asanas of Egyptian Yoga are done standing, as in Tai Chi.)

The goddess Isis is often depicted sending energy out of her hands for healing. Her teachings are thought to be the origin of the science of projecting Life Force Energy from the body for the healing of others, as practiced in Reiki, Seichim, etc. If you examine reproductions of the temple paintings of the Egyptians, you will almost certainly find depictions of Isis projecting energy into Osiris, thus bringing him back to life after his murder and mutilation by Isis' brother, Set. Another common image is of rays of energy projecting from the winged disks found over most god-images. These rays are understood by adepts to depict various types of life-giving energy radiations that transcend the usual definitions of light. This image is symbolic of the type of energy that today's Light Workers are once again becoming aware of.

Egyptian Light Body Yoga was passed down from the star gods. The energies accessed through practicing this form of Yoga are both Universal, stellar, and solar.

Egyptian Yoga is far more powerful and transformational than the Hatha Yoga that is commonly practiced in the West, as its primary focus is on working with the energy of the Spirit, not the flesh. Egyptian Yoga is synonymous with magic and metaphysics and is the basis for most of the metaphysical practices in the West. It is interesting to note that the teachings of the Four Directions, the cross and the circle, have their roots in Egyptian magic. The Temple of Isis at Heliopolis is, in fact, a "Medicine Wheel." The teaching of

the Tree of Life, as practiced by the Hebrews, is also thought to have originated in Egypt. Moses is credited with bringing this and many other metaphysical teachings into the Hebrew religion. Another little known fact is that when the Egyptian Empire finally began to fall apart, some of the priests took the sacred Light Body teachings to Tibet. This is one of the reasons why the Yoga practices of the two countries are so similar.

KA-HU-NA: THE SPIRIT OF LIGHT

While we are on the subject of Egyptian Light Body Yoga, I think it is appropriate to mention why I frequently refer to Humans as Hu-mans. The word Human is a magical code. “HU” is light, and “MAN” is mind. The word Human is not gender specific, in spite of what some feminists say. Hu-na is Universal Power, Ka is Spirit; a Kahuna is a mystic who has learned how to work with Spirit and Universal power. Huna is a universal teaching that is far older than the Egyptian culture. Today’s Kahunas firmly believe that Huna was practiced in Lemuria long before the Egyptian civilization began.*

As a child I was led to believe that the Egyptians were evil because they enslaved God’s people. This is yet another erroneous fear-based belief that is only partially founded in truth. The fact of the matter is that the history of ancient Egypt spans many centuries, during which time both positive and negative factions had opportunities to rule. Therefore, it is impossible to categorize the Egyptians, or their spiritual practices, as either “good” or “evil.” Upon researching this subject, we find that, over the years, the priests of various gods sometimes changed their positions in regard to what today’s Westerner would consider positive or negative. We also find that whoever, or whatever the gods of the Old Testament were, they did have affiliations with the Egyptian gods. The story of Joseph is a good example of this. We find in Genesis 41:44 that Joseph took a wife who was the daughter of a priest of the city of On. (No mention is made of which god this priest served.)

The city of On mentioned in the Old Testament is the Egyptian city Anu, which later became known as Heliopolis. Anu, as you may remember, is the Sumerian god whose sons are credited with both the creation of man and the founding of civilization. The Egyptian city Anu was perhaps the last place where the star gods’ lineages had direct contact with Humans in a temple culture. (Long after the gods withdrew, Heliopolis remained a center of spiritual study.)

One of the conclusions we can draw from this is that the star gods have not always been completely exploitive of the Human race. They set up schools of advanced spiritual teachings that could be accessed by Humans as they became ready for them. The concept of being ready for this type of teaching is one of the keys to understanding the phenomenon of the star gods in relation to the development of civilization. The Human race is an evolving species. (See Key 314:67, 84.) During the ancient times, the native Earth Humans of the ancient lands were not ready to access the sacred Universal energies; they were busy experiencing reality as young Earth souls. The challenge of the day was to acquire experience as a physical being.

Because much of the Egyptian and Sumerian imagery seems primitive, simplistic, and bizarre, you may find yourself skeptical of claims that these people had contact with advanced, extraterrestrial intelligence. I will suggest, however, that one of the reasons

that the records left by the Egyptians and Sumerians seem so primitive is that they were designed by higher intelligence to communicate on the level of the average Egyptian temple initiate of the day.

There can be no doubt that the Egyptian priest-kings were very much aware of the fact that language is the structure of reality. The “primitive” hieroglyphics we see on the temple walls are in fact powerful thought-seed symbols that contain several levels of meaning. On one level these symbols carry information directly to the subconscious mind, bypassing the conscious mind entirely. The Egyptians knew that within the mental body, thought is non-linear. It exists as image / information / energy packets which we can describe as “gestalts.” It is understood by the schools of metaphysics that the brain processes these gestalts and turns them into linear information.

One of the most famous stories of Egyptian mythology is that of the goddess Isis stealing the sacred word from the god Ra. After Isis obtained the sacred word, she became the most powerful of the gods. In *The Egyptian Book of the Dead*, we find these words: “Behold, the goddess Isis lived in the form of a woman who had knowledge of words of power...and a mighty goddess by means of the knowledge of the Name of the Holy God.” (***, p. 122) In light of what we now know about the Kabbalah and the Hebrew language, I think it is reasonable to assume that this knowledge of “the Name of the Holy God” had to do with a high initiation into the mysteries of the Language of Living Light. (Be sure to read the Ascension Yoga section of this book.)

The sacred texts of the Egyptians often refer to the existence of an ultimate, *unseen*, or Holy God. It seems that they are talking about the Universal deity who is the primary cause behind all creation. But we must also realize that through the various dynasties, the attributes and identities of the gods were altered by the priesthood, according to the opinions of whoever was in power at the time. Therefore, in the various writings of the dynasties, several gods, including Ra, Ptah, Osiris, and Amen were given the title of “ultimate god,” “unseen god,” or “creator of all.” Currently, among Christians, it is popular to use the name of a later Egyptian god, Amen Ra, to denote the existence of, and to pay tribute to the unseen god behind all things, AMEN.

An important example of how gods rose and fell from the grace of the priests is that of the god Set. During the time of the older Egyptian dynasties, Set was considered a benevolent god. In later dynasties, as the priesthood began to invent the concept of hellish torments that awaited those who did not do as they were told, Set became the dark lord of the underworlds, the archetype of what we now refer to as Satan.

Set was the murderer of Osiris, the “reborn god” who returned from death to offer the promise of rebirth to all. The Osirian myth has unmistakable parallels with the life, death, and resurrection of Christ as recorded in the New Testament. Yet, today we find that Osiris, the once revered guardian of the souls of men, is now denounced by some as “the devil.”*

ASTRONOMICAL PROOFS OF SUMERIAN AND EGYPTIAN STAR GOD CONNECTIONS

Establishment scholars have no explanation for the advanced astronomical knowledge of the ancients. It is simply ignored.

One of the most convincing pieces of evidence that suggests the Sumerians were in contact with extraterrestrial intelligence is the fact that they had advanced astronomical data which is impossible to collect without either modern telescopes or direct observation from spacecraft. They knew of the existence of Pluto, Uranus, Neptune, and the meteor belt thousands of years before their “discovery” in modern times.

While establishment archaeologists have no explanation for the Sumerian’s knowledge of the outer planets, many of them do allow for the existence of another planet beyond Pluto. *The New York Times* ran a cover story a few years ago in which they stated that scientists were so sure of the existence of this planet that the only thing left to do was to name it. (See the last chapter of Zechariah Sitchin’s *Genesis Revisited*.)

SIRIUS NOTES

The Egyptians had advanced astronomical data about the Sirian star system that would be impossible to collect without some of our most advanced technology or direct knowledge. They knew that the star Sirius was a double star thousands of years ago; this was “discovered” by modern astronomers in 1972. This is considered to be one of the most significant and amazing scientific confirmations of the existence of the star gods. How could the Egyptians have known that Sirius was a double star unless they had contact with extraterrestrials? (As they often claimed.)

And while this in itself appears to be a fairly amazing confirmation of extraterrestrial contact, researchers have also discovered that the primitive Dogon tribe of Sudan bases its religious observances upon various astronomical aspects of Sirius A and Sirius B. These primitive people also know the time it takes for the smaller Sirius B to orbit around Sirius A! (Fifty years.) How the Dogon came into this knowledge is open to debate, but as Sudan is close to Egypt, we might infer that this knowledge came through the Egyptian mystery schools.

The ancient Egyptian texts claim Sirius B is the source of the star gods’ power, and that Horus is the chief director of this energy.* The symbol of the Eye of Horus is representative of the threshold commands of the Most High, as administered by the Brotherhood of Light.** The Dogons call Sirius B the eye star.***

The ancient Egyptians began their year on July 23, the day when Sirius aligns with the Sun and the Earth at dawn, thus becoming the “Sun behind the Sun.” This day begins what we refer to as the “dog days,” July 23 - Sept 8. This is the time when our connection to Sirius is said to be the strongest, and is a powerful time to perform ceremonies asking for activation of the Light Body. The best time for these ceremonies is presumably at dawn.

PLEIADIAN CONFLICTS

ASHTAR, SEMJASE, and THE KEYS OF ENOCH

The Keys of Enoch claims that we were created through the work of the Pleiadians, and that the Pleiadians will return to help us through the Ascension. We must realize, however, that the Pleiadians are testing us, and that some of them are aligned with the fallen hierarchy.

One of the most interesting and well-documented cases of alien contact is the Billy Meier case. Since the mid-70s, Mr. Meier has been visited by various humanoid entities claiming to be from the Pleiades. His primary contact has been with a female Pleiadian named Semjase. Mr. Meier also reports contact with several other Pleiadian entities including Ptah and Quetzal. (The name Ptah sounds distinctly Egyptian, as in the name of their great god Ptah Ra. The name Quetzal, on the other hand, reminds us of the Mayans' white god Quetzalcoatl, the "plumed serpent." Both of these entities are generally considered to be positive.)

Mr. Meier's material is unique in that it was obtained through *direct physical contact*; it is not channeled. Some of the best photographs of flying saucers come from the Meier material because, at the request of the Pleiadians, Mr. Meier took many still and motion pictures of Pleiadian craft.*

Semjase's group claims that they want to help Humanity, but because they operate under the law of Free Will, they cannot force themselves upon us. But they can, however, reveal themselves to us and offer to be of some assistance which, at this point, consists of supplying information to Humanity so that we can "make the right choices." The message of these Pleiadians is for the most part quite similar to the messages given by many other extraterrestrial groups and their channels: learn to love, and peace and healing will follow. Each individual needs to claim his own power. Semjase's group adds an interesting twist to these teachings in that **they claim that Jesus Christ did not die on the cross**. (According to the *Lear Report*, the Zeta Reticulans also make this same claim.) This particular claim, however, has become a bone of contention with Dr. Hurtak, the Academy of Future Science, and just about everyone else who believes that Jesus Christ is the Son of the Universal Creator.

The Semjase group's non-belief in the divinity of Jesus Christ seems to indicate that they are aligned with the Luciferian hierarchy. In further confirmation of this theory, we have noted that these Pleiadians appear to be as firmly grounded in physical reality as the Zeta Reticulans; they have not ascended. The Semjase group's dependence on artificial Merkabah technology and physical craft also seems to indicate that they are using Luciferian technology. (See Appendix 2.)

Semjase has also clearly lied to Mr. Meier about the role of the Zeta Reticulans, as she told him that the mission of the Zetans was "nothing of importance." (See *Messages from the Pleiades II*, p. 34*)

"Commander Ashtar," as channeled by Tuella and several hundred other channels, has been the focal point for a great deal of interest among people who study extraterrestrial phenomena. During the '70s and '80s, Ashtar claimed that his group of Pleiadians was soon going to conduct a mass evacuation of the planet. Ultimately however, after the predicted date for the mass evacuation had passed uneventfully we were told that the "lift-off" had become unnecessary because the group consciousness of the planet had unexpectedly changed for the better, and that as a result, we had been able to stabilize the planet with our prayers and other correct actions.

I had always had my doubts as to whether Ashtar ever existed, except as an aspect of the various channels' subconscious minds and the uneventful passing of the lift-off seemed to confirm my doubts. In doing research for this book, however, I found several direct references to Ashtar in *Messages from the Pleiades II** which, if nothing else, seem to validate that he does indeed exist, and that his mission is not in harmony with that of

the Semjase group. In fact, we find that Semjase's brother Quetzal has some rather interesting things to say about Ashtar.

Quetzal states that Ashtar's real name is Aruseak, that he is a cousin of what he refers to as "the highest Gizeh Intelligence,"* and that the Gizeh Intelligence often operates in opposition to Semjase's group (p. 30, 39-43*). Quetzal also makes the rather bizarre claim that Ashtar's group backed Adolph Hitler (p. 13*). This is quite a claim in light of the fact that Ashtar always makes an effort to talk about the ways of love and the teachings of Christ. In fact, Ashtar claims the entity who was Jesus now goes by the name "Sananda," and resides with Ashtar in their starship. (?) Quetzal also claims that Ashtar's group was responsible for the miracle of Fatima (p. 20*). If this is true, it is totally incongruent with Ashtar's alleged sponsorship of Hitler.

888

Dr. Hurtak points out that the Angel "Samyaza" is specifically mentioned in Chapter 7 of *The Book of Enoch* as the leader of the rebellious angels who corrupted men. He is of the opinion that the Pleiadian Semjase has a connection with this fallen angel. It seems clear that Billy Meier's Pleiadians, the "Semjase group," are at definite odds with Ashtar as well as with the Hierarchy of Higher Evolution. It seems clear that the Pleiadians represent both divine and fallen thought-forms and that their mission has been not only to bring Adamic life to this planet, but to test us to see which hierarchy we will align ourselves with. I suggest that you be very discerning about dealing with any group that claims Christ did not die on the cross. (See Key 107:32.)

BUG-EYED WEIRDIES

One of the most noticeable trends in modern UFO literature is the reports of odd-looking aliens abducting Humans and subjecting them to bizarre genetic experiments. It seems that these grotesque aliens are attempting to breed with Humanity. While it is difficult to know whether or not this interbreeding is in our best interests, it certainly appears that it is not.

As these stories have begun to enter mainstream thought, we have found that the Zeta Reticulans have begun claiming, through various channels, that we need their help for our continued survival, and that our evolution as a species depends on our receiving some of their genetic material. One channeled source has even gone so far as to say that they are going to "improve" Adamic life on this planet. (See the channeling by Barbara Sanne in the *Sedona Journal of Emergence!* November 1992, p. 37.) This is quite a claim, and as there is currently no way for us to prove that what they are up to is in our best interests, I suggest that we rely on *The Keys of Enoch* as our guide for dealing with these strange life forms.

There is evidence to suggest that some groups of grotesque aliens may have turned away from their origins and realigned themselves with the Adonai 'Tsebayoth. If this is true, the aliens that have done so will respond favorably to the sacred mantram. Key 107:26 tells us that at the end of the current cycle, some of the fallen Elohim will return to the Light. Could it be that some of their creations will also capitulate? Could it be that some Zetans are aligning themselves with the Hierarchy of Higher Evolution? Are they

attempting to assume Human form so that they can merge with the Source Creator? Will both our species go to the Light together, or are they simply attempting to take over our planet and our bodies?

In support of the idea that some grotesque aliens may not be aligned with the fallen hierarchy, we may take into account the fact that Sharon Davis, one of Sedona's most gifted, and psychic, spiritual healers has been assisted in her work on several occasions by entities that resembled Zeta Reticulans, yet had strong, love-filled auras. In light of this, we must remember that Love is not compatible with entities who have a negative agenda. It is inconceivable that these entities could radiate Love and not be in harmony with the Infinite Mind, isn't it?

Sharon's experience with these odd-looking humanoids seems to indicate that not all "grotesque aliens" are at odds with Humanity. It also seems to indicate that not all "grays" are as emotionless as some may claim. Beyond these observations, we also find that these experiences help illustrate the illusive and contradictory nature of extraterrestrial contact.

It is natural for most Humans to rebel against the concept of inbreeding with aliens or giving up our planet, and it is quite appropriate that we do so. So as we wait for the ultimate truth of this situation to become revealed, I think it is advisable that we begin taking the material in *The Keys of Enoch* seriously, and begin creating protective energy fields around ourselves through the use of the sacred mantram. (See below.)

UGLY RUMORS

Today it seems that the main focus of UFO research and public interest in UFOs is on tales of conspiracy between weird aliens and various world governments including that of the United States. There are stories of illegal treaties, underground bases, abductions, genetic experimentation, and possible drug deal-ings to pay for covert operations. It is my belief that many of these stories are true.

As for what I wish to focus on however, that is a different story. I have decided to take a different path from that offered by the fear merchants, and I advise the readers of this book to do the same. There is no reason to spend much time or energy resonating with the fear and paranoia that surrounds much of this material. Your time is much better spent raising your vibrations so that you will be able to rise above the reality of the negative space beings.

888

It is, however, good to be informed; then you will better understand what must be done. If you would like to obtain information that confirms the existence of aliens, conspiracy, and guns for drugs, I suggest these books from the Secret Information Network: *The Secret Space Program*, and *The Secret History of the New World Order*. (See below.) As a note, I would like to add that much of the controversial information that we are gaining access to has been leaked by insiders who have risked their lives to bring the truth to the American people. Two of the most notable of these are Virgil Armstrong and William Cooper.

Mr. Armstrong had first-hand experiences with a captured UFO while he was serving in the Army shortly after World War II. He is credited with being the first former member of the intelligence community to give public lectures about the reality of extraterrestrial contact and the government cover-up.

Mr. Cooper has written a book (see below) that details his experiences in the Navy as a crewman on a nuclear submarine and his later admission to an inner circle of Naval intelligence that works with secret government operations involving extraterrestrials. I recommend Mr. Cooper's book, but I advise the reader not to allow themselves to get caught up in Mr. Cooper's "Armageddon mentality." We must remember that as nice as he is, he was once one of "them." He volunteered for Vietnam, he resonates with war, and he apparently does not understand the spiritual solution to this problem.

I also want to mention that I disagree with Mr. Cooper's assertions that Osiris is Satan, or that the Eye of Horus is Luciferian. He obviously got his information from a pamphlet put out by some of my Protestant fundamentalist relatives. Other than that, his book is worth reading.

I personally recommend the following two books from the Secret Information Network, P.O. Box 3185, Dept. A, West Sedona, AZ 86340: *The Secret Space Program* and *The Secret History of the New World Order*.

William Cooper's *Behold a Pale Horse* is available from Light Technology, P.O. Box 1526, Sedona, AZ 86339, \$20

DIVINE ATTUNEMENT and DIVINE PROTECTION

KODOISH, KODOISH, KODOISH, ADONAI 'TSEBAYOTH

"Metatron also explained to me that the salutation Kodoish, Kodoish, Kodoish, Adonai 'Tsebayoth should be used to discern the spiritual from the negative forces. In fact, this salutation is so strong that negative forces cannot remain for any length of time in the presence of its vibration." (Key 305:42)

Key 305 of *The Keys of Enoch* tells us that the mantram "Kodoish, Kodoish, Kodoish, Adonai 'Tsebayoth," "(Holy, Holy, Holy, Lord God of Hosts) is "the measure and cycle of all states of matter / radiation," and that it creates resonance between all levels of creation and the primary Source Creator. Those of you who are familiar with the New Testament's Book of Revelation and the vision of St. John will recognize "Holy, Holy, Holy, Lord God of Hosts" as the mantram the four entities surrounding the throne of God chant.

"Kodoish, Kodoish, Kodoish, Adonai, 'Tsebayoth" ties all rhythms of the body together with the spiritual rhythms of the Overself. When we chant this mantram, our Christ Overself bodies are quickened into direct work with the physical body. It is suggested this mantram be incorporated into our daily meditation practices, as it is known to be the most important key to divine attunement. (Key 305:7, 26, 28, 36)

The Keys of Enoch tells us that the seventy-two "Sacred Names" (of God) can be sung or spoken in order to invoke the various aspects or qualities of the Godhead such as YHWH, El Shaddai, Metatron, Jah, Jehovah, and Michael.

Modern languages such as English do not have word meanings that match their sound / vibration / wave envelopes. The result of this is that English has very little power compared to the sacred languages of Hebrew, Tibetan, Sanskrit, Chinese, and Egyptian.

The sacred names produce specific sound / vibration / wave envelopes that are in harmony with powerful reality-creating God forces. Vibration is the key to the power of the sacred names. When they are properly intoned, these names become physical manifestations of the thoughts of God that have the ability to purify, cleanse, heal, protect, and make sacred our bodies, our homes, and ultimately our planet.

Correct pronunciation of the sacred names is important. Unfortunately, it is difficult to convey the proper pronunciations with the written word. Therefore, I suggest that you contact the Academy of Future Science office and obtain their catalog of tapes and books.* The Academy can also help you locate groups of people in your area who study *The Keys of Enoch*.

There is a well-documented case of the abduction by aliens of a young woman and her child near Taos, New Mexico, in 1981, during which the woman and her son won freedom through the use of the Sacred Mantram:

“Kodoish, Kodoish, Kodoish, Adonai ‘Tsebayoth.”

It is my understanding that this woman also invoked Cosmic Law by telling her captors that she did not want to go with them, and that they were *violating her Free Will*. Her invocation of Cosmic Law is important to note as we are led to believe that while negative extraterrestrials will manipulate Free Will, under Cosmic Law they are not allowed to violate the Free Will of any entity who requests to be left alone. This woman had the sense to call these entities on their transgressions and they had to release her.

Demanding that one be left in peace is one of the keys of exorcism. Entities can also be cast out in the name of the Most High, Adonai ‘Tsebayoth, or Christ Michael.

MUSIC

Music has traditionally been used to accompany sacred words and we are looking forward to new compositions and musical ideas that will increase the power of the sacred languages. Dr. Hurtak believes that sacred music has the power to reach more people than any other form of communication, and that sacred music will become the unifying factor in bringing all types of people together.

If you do not have musical training, please take note of the fact that the Human voice is considered to be the most beautiful, versatile, and powerful of all known musical instruments. So by all means, sing! Bring the use of the sacred names into your Medicine Wheels. It is time for the vocal cords of America to loosen up and come alive.

WALLS OF SOUND

Dr. Hurtak believes that in the next few years humanity will develop “weapons systems” that use sound to repel negative extraterrestrial intelligence. The sound patterns

of some of these systems will be based upon the “Kodoish, Kodoish, Kodoish, Adonai ‘Tsebayoth” vibration.

The idea of using “walls of sound” and “sound beams” to create areas of protection from the fallen hierarchy is a very advanced idea, and I suggest that if you have technical knowledge of music, sound, and / or electronics, you put your talents to use creating systems that use the Sacred Mantras and the Sacred Names. If you come up with anything notable or fun, please let Dr. Hurtak and myself know.

FUTURE MEMORY AND SCIENCE FICTION

Science fiction and fantasy are tools that the group consciousness of Humanity uses to carry our definitions of reality into the future. My favorite definition of science fiction is “future memory.”

As a teenager I was deeply moved by Arthur C. Clarke’s science fiction novel, *Childhood’s End*. This novel records a profound vision of the future, a time when our planet is visited by strange aliens who oversee what can best be described as the Ascension of Humanity. This Ascension process involved the use of planetary ceremony to alter the very structure of reality. As I look back in time and gaze at my younger self, I understand why this novel had such a profound effect upon me -- I was experiencing future memory. Within my inner being I knew that I would live to see the ideas put forth in this novel become reality.

The group consciousness works through visionaries such as Arthur C. Clarke to prepare us for new realities. No longer is *Childhood’s End* a fantasy; the aliens are here. The question is, are they here to help us or exploit us?

THE PLOT

Giant alien craft suddenly appear over every major city. The aliens have assumed control! They warn our generals not to attack, saying, “We are invincible! You shall do as we say!” The aliens then embark on a program to solve the world’s problems and redistribute the world’s wealth. During the first phase of this pro-gram, the aliens never reveal their physical form. After the restructuring of society is completed and several generations of earthlings have come and gone, the aliens then reveal themselves as horned, scaly creatures with tails and hooves, who resemble what we might call “devils.”

One of the most interesting premises of *Childhood’s End* is that the aliens who came here to assist in Humanity’s ascension could not reveal themselves until Humanity had been prepared to accept them. If, upon arriving on our planet, they had simply come forward, revealed their appearance, and told us we were going “into another dimension,” it would have caused a disastrous panic.

Are the weird alien life forms that we are encountering here to assist our evolution into the higher realms, or are they here to exploit us? None of us knows the complete truth, but we must remember not to overlook any possibilities. What research suggests is that today, none of us are able to see the “big picture.” The idea of positive and negative aliens might be as much of a smoke screen as anything else they have pulled on us.

Nonetheless, *The Keys of Enoch* seems to speak with authority when it refers to the existence of fallen hierarchies and grotesque aliens, and I think it is advisable for us to take the information given in the Keys seriously. *We should begin to measures to protect ourselves through the use of the Metatronic science of Divine Attunement and the practice of Ascension Yoga.* (Key 107:32, 301:7, 307:58)

THE BOOK OF ENOCH

The Book of Enoch is often confused with *The Keys of Enoch*. These are two separate books that were written by the Master Enoch. (Genesis 5:21 - 24, Jude 14.) Master Enoch is the first son of the seventh generation of first-born sons from Adam. Enoch was the first person in the Bible to ascend. As Genesis 5:21 tells us, "Enoch walked with God; then he was no more, because God took him away." This ascension is one of the most notable and mysterious events in the Bible because, like Jesus, "God took him away," yet unlike Jesus, almost nothing else is said.

In 1773 rumors reached Scotland that an obscure Ethiopian monastery had a copy of a book that had been authored by none other than Enoch himself. Intrigued by this rumor, Scottish explorer James Bruce subsequently made the journey to Ethiopia where he was successful in obtaining the copy of the *Book of Enoch* from which we draw today's English translation. As a later confirmation of the antiquity of this book, another copy of the *Book of Enoch* was found with the Dead Sea Scrolls.

Many scholars believe that the *Book of Enoch* should be included as one of the books of the Bible. It is a truly fascinating, first-hand account of Enoch's life as a grandchild of Adam and Eve. Enoch states that because he was found to be exceedingly devoted to God, he was chosen to be taken up into Heaven and given knowledge of the Universe. During his journey to the heavens, he was given knowledge of the written word and instructed to record various things that the Archangels Michael, Gabriel, and Uriel revealed to him. He was then charged with reporting these things to his fellow Humans. This was apparently the beginning of the written word for Humans of planet Earth. Legend has it that Enoch actually wrote 365 books, one for each year of his life.

In the *Book of Enoch*, Enoch makes many references to entities known as "Watchers." He denounces the Watchers rather soundly on several occasions for "leading men astray." It is commonly believed by UFO researchers that the Watchers were, in fact, the Nefilim mentioned in the Old Testament. In following this line of thought, we can theorize that the *Book of Enoch* may have been suppressed by the Nefilim because it revealed too much information about the exist-ence of the Nefilim. Remember, as long as an enemy is invisible, it is invincible.

THE KEYS OF ENOCH

The information given in *The Keys of Enoch* serves as a bridge between the Infinite Mind of God and the minds of Humanity. The information given in the Keys transcends everything the common Earthling has been taught. It is the teaching for our age; it is the manual for the Ascension.

The Book of Knowledge: The Keys of Enoch, published and taught by the Academy for Future Science, is one of the most unique books in the planetary library. Dare we allow ourselves to believe that *The Keys of Enoch* is in fact exactly what it claims to be: a direct communication from the highest celestial hierarchy, delivered to this planet by Ultra-extraterrestrials under the direction of the Source Creator of all things?

In the introduction to *The Keys of Enoch*, Dr. J.J. Hurtak makes the declaration that he was given the Keys during an experience wherein he was taken before the Throne of God by an Interdimensional Light Vehicle known as a Merkabah. (See below.) Dr. Hurtak further declares that he is not the author of the Keys, but that the author of *The Keys of Enoch* is one of the aspects of the Godhead called Metatron.

The Keys of Enoch is Metatronic science, providing “the disciplines to create and completely restore life systems of creation in the **outer Universes**.” *The Keys of Enoch* refers to Metatron as “the visible manifestation of **The Deity**.” Metatron is the “Logos,” the Creator of the Divine Word. In Hebrew this entity’s name is “El Shaddai.”

888

Upon examining *The Keys of Enoch*, it becomes difficult to imagine it is the product of Dr. Hurtak’s imagination. The Keys are complex, scientific, and detailed. *The Keys of Enoch* gives very interesting answers to the big questions as well as providing us with very plausible explanations for the understanding of who or what God is, how God creates all things, how and why human beings were created, and why, in spite of the fact that we are told that God is infinitely wise and loving, there is hate, anger, disharmony, and destruction. Dare we allow ourselves to imagine that *The Keys of Enoch* are truly a direct communication from God? Why not? The Keys certainly do not tell us to do anything most of us would consider to be bad. In fact, the Keys encourage us to take a deeper look at the teachings of the Master Christ and the Old Testament. Mr. Hurtak informs us that *The Keys of Enoch* was brought to us at this time because our planet is indeed in a time of transformation that will take us beyond all of our current definitions of reality. We are in fact being retrieved by the Infinite Mind and rescued from the distortion of existence in the outer Universe. This process is known as Ascension.

The Keys of Enoch offers Humanity a scientific and religious understanding of this process. It can be understood in its simplest terms as working with the feminine aspect of divinity, the Holy Spirit (Shekinah), in establishing a Pillar of Spiritual Light around the body that forms a bridge between the physical aspects of the body / mind and the Christ Overself (Atman), which is focused in the ninth chakra.

The Keys of Enoch are based upon the science of understanding language as the structure of reality. Everything we can know exists as language. Consciousness is language. Without the dialogue of self-reflection, consciousness cannot exist. Language / consciousness originates from the Universal Logos, Metatron, as the Master “I AM” Threshold Commands. Consider this classic metaphysical formula given to us in the New Testament: “In the beginning was the Word, and the Word was God.”

The Infinite Mind of God expresses itself with pure energy emissions, the “Living Language of Light.” This Language of Light exists on all levels of creation from

subatomic to cosmic, organizing the Holy Spirit, Shekinah, into the harmonic structure of the Universe. Language creates the patterns that create reality.

The Language of Living Light functions as the bridge between our limited third-dimensional minds and Universal God-consciousness. The highest level of mystical knowledge is the understanding of language as the structure of reality. To have total control of the use of language in speech and thought is to have total control of reality. (See the teachings of Don Juan.) Language is energy, and all energy is a form of language. (See Jose Arguelles' *The Mayan Factor*.) Language creates and connects all facets of the Universal energy matrix.

In the three-dimensional reality of planet Earth, the language of God is expressed in Hebrew. Key 215:63 tells us, "In essence the flame scriptures were composed out of living geometries of God's Word, extended to connect with the vibratory resonance grids of the Earth." In Key 305:22 we are told, "The sacred Language is thoughts of God...."
