Government Circles

The Truth This Time - Cheesefoot Head Entity and Consciousness

Colin will talk about the absolute necessity for transition into a new period of research and disclosure by setting forth the truth and facts as accurately as they are known and not losing the opportunity afforded us by once again accepting spin and distortion to support one or another government agenda.

He will give examples of what he believes has been a discouraging start by the United Kingdom Government. He will then address specifically a broad based research of crop circles and UFO's under the banner of 'Consciousness' and how they could be one and the same in ways we have not hitherto considered. He will concentrate on one of the strangest events he has witnessed in 26 years of research into the crop circles - the Cheesefoot Head 'Entity' from 1989.

Also addressed will be the removal of a document from his website that questioned his version of the UK government's and Royalty's lack of involvement or interest in the crop circles and demonstrate this as an example of how we could fall into the trap of accepting new open policies without scrutiny.

The Conference runs from 17-19 April 2009 in Washington D.C. Colin will make a one and a half hour presentation starting at 12 Noon.
