## RAF Bentwaters Update After December 2010 Return to Rendlesham Forest with Former USAF John Burroughs and Jim Penniston

© 2011 by Linda Moulton Howe

*“It was like Jim went into a trance and he started acting like he was re-living it from thirty years before. He acted like he was walking around it (black, glassy, triangular craft in forest).”*

- USAF Airman 1st Class John Burroughs, December 26, 1980, Rendlesham Forest near RAF Bentwaters/Woodbridge, England

*“On a repeat of coming back touching these symbols, I get a bright light and I can't see. ...I just see these symbols (zeros and ones).  
...they are coming at me fast!”*

- USAF S/Sgt. James Penniston, December 26, 1980, Rendlesham Forest near RAF Bentwaters/Woodbridge, England

**January 28, 2011 Albuquerque, New Mexico** - Thirty years ago on December 26, 1980, around 3 AM, USAF Airman 1st Class John Burroughs, USAF Staff Sergeant James Penniston and USAF Airman Ed Cabansag were in Rendlesham Forest under orders to investigate highly strange and colorful aerial lights. According to signed and dated statements at the time, John Burroughs and Jim Penniston came close to the lights and a “craft of unknown origin” on the forest floor. Jim Penniston described approaching a 9-foot-long by 6-foot-high triangular object and touching its black, glassy surface. As his fingers went over raised symbols “like Braille” in a 3.5 foot long section toward the pointed end of the craft, S/Sgt. Penniston's mind was telepathically flooded with binary code and some information about the intelligence behind the craft and lights.

Airman John Burroughs did not remember the craft or S/Sgt Penniston touching symbols. Burroughs has never been able to fully recall what happened to him that night, but the rumors have long been that he “jumped up on” a craft in the forest or was taken up in a beam of light.

## Where Was the December 26, 1980, Encounter?

On Christmas morning, December 25, 2010, I joined John and Jim returning to Rendlesham Forest for the first time together since December 26, 1980. We drove from the East Gate down the same road they traveled thirty years ago. The question for both of them was exactly where did they have their closest encounter with the lights and why don't they remember the same details?

East Gate road towards Rendlesham Forest.

**L-R:** Former USAF Staff Sergeant James Penniston; Earthfiles Reporter and Editor Linda Moulton Howe; and former USAF Airman 1st Class John Burroughs on December 25, 2010, searching for the original December 26, 1980, site where Jim, John and Ed encountered lights and craft in Rendlesham Forest not far from the East Gate of the historic RAF Bentwaters/Woodbridge AFB.

Over the three decades since the Rendlesham Forest phenomena, various maps and sites have circulated, including the one below produced from statements by Jim Penniston about where he and John Burroughs and Ed Cabansag had the dramatic December 26, 1980, encounter at 3 AM. This map shows the orange-colored route from the East Gate to a right turn on a logging road and then a left onto a road through the forest toward an open farm field where an orange circle marks the alleged site of the encounter - a site that we now know is not correct.

Older version of Jim Penniston route in orange-color from East Gate to right on logging road to left on another road (# 8 or # 10) through forest towards the open farm field. During the December 25, 2010, return to Rendlesham Forest for the first time since December 26, 1980, John Burroughs felt that the orange dot in the above map was not correct, but should be further south near the finger of trees that juts westerly into the farm field. Map by John Rackham, U. K.

After walking through the forest day and night on December 25-26, 2010, John Burroughs did not feel that the site at the center edge of the farmer's field now marked by a picnic table and UFO signs was correct. He remembered that he and Jim Penniston could only see the Orford lighthouse beacon after they moved across a short field and past a farmhouse. At the modern site marked by a picnic table and UFO signs, there is a farm house straight across the open field. Then there is a second, larger house to the right and then we realized there was a *third* farmhouse at the eastern end of the finger of trees.

We drove by the third farmhouse on the street side and could see animals there. In his memory and December 1980 statement, John Burroughs described hearing a noise "like a woman was screaming." Jim Penniston remembers farm yard animal sounds and deer running straight towards him when he and John were walking in Rendlesham Forest trying to follow the aerial lights from the tall forest trees and ran into a small open field next to a larger field.

**Capel Green and Rendlesham**  
 Mysterious intense electrostatic energy source.

**Yellow line** on far left identifies first farm house. **Orange line** is larger second farm house. **Half way between the yellow and orange lines** on the horizon is the faint dot of the Orford lighthouse beam that shines once every six seconds as it rotates. The **center white line** is the third farm house behind the finger of trees that glowed a dim orange at night because of interior incandescent lamps. The **blue circle** indicates water in the marshy line of trees. The **red circle near Capel Green small field** is where a TriField meter pegged at its highest electrostatic reading after midnight on both December 26 and 27, 2010. Time exposure image © 2010 by Winston Keech; graphic overlay by Earthfiles.

**L-R: Light orange** straight path from left turn off logging road going east straight toward Capel Green, the small, L-shaped field separated by finger of trees at southern end of large farm field.

**Red circle** in area where John Burroughs reported the TriField meter pegged at highest electrostatic level after midnight on December 26 and 27, 2010, at the end of the finger of trees in Capel Green. **Blue circle** marks the watery marsh in the finger of trees that would explain why both John Burroughs and Jim Penniston reported getting wet during their December 26, 1980,

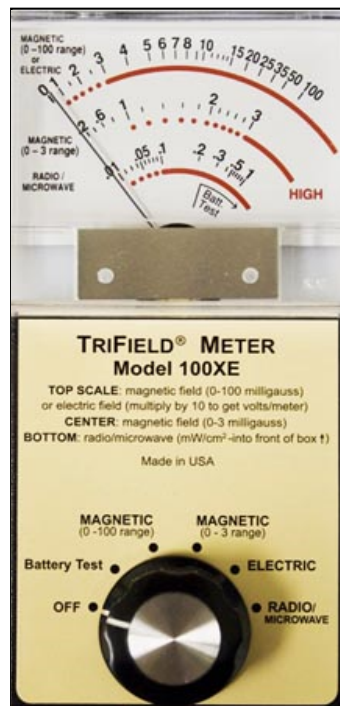

3 AM, chase of aerial lights and after encounter with the black triangle in Rendlesham Forest near Capel Green. **White circle** marks the third house that has animals and glowed dim orange from interior incandescent lamps. **Orange circle** marks second, larger house next to **yellow circle** first farm house across from **pink circle** of picnic table and UFO signs, which is NOT the correct location of the encounter. Graphic overlay of Google map by Earthfiles.

TriField Meter

I had asked my friend and U. K. engineer Winston Keech, who owns The Power Collective in England, to join us with his infrared, nightwatch, and timelapse cameras as well as his TriField meter that can measure microwave, magnetic and electric fields. Around midnight going into December 26, 2010, Winston and I walked with the TriField meter into the large farm field. Near the center of the field, the meter pulsed and both of us felt electrostatic energy on our backs, necks and heads.

Then John and Jim walked together after midnight on December 26th, around the finger of trees that juts westerly out into the field from the third farmhouse (white circle in above aerial). At the red circle area, the TriField meter pegged with a loud noise as high as it could go in the electric/electrostatic range.

Winston Keech: “When I first detected the anomaly after midnight on December 26, when you and I were near the center of the big farm field, it was set to ‘SUM’ where the meter adds the readings for both electrostatic and magnetic field variations. A quick check on radio/microwave showed nothing out of the ordinary and so no RF breakthrough signal was present to affect the meter's circuitry or the reading accuracy. So I reverted to checking first the ‘magnetic’ setting - which showed no abnormal reading. Therefore having identified by elimination that it was an electrostatic field variation alone, I finally maintained the ‘electric’ setting, which showed the enormous anomalous readings, with a regular 1 meter periodicity within the field. That's also where the meter was set when John and Jim made their long walk around the field to the finger of trees near Capel Green and it pegged with noise.”

U. K. engineer Winston Keech's TriField meter pegged out in the electric/electrostatic range at maximum high making a loud noise on both December 26 and 27, 2010, after midnight at a site near the end of the grove of trees surrounding a watery marsh. Both times, John Burroughs was near the meter.

[ Editor's Note: The TriField Natural EM Meter was designed to do field measurements for special research. It detects changes in extremely weak static (DC or natural) electric and magnetic fields, and signals with both a tone and the movement of a needle-type gauge if either the electric or magnetic field changes from previous levels. The meter is sensitive to magnetic changes of as little as 0.5% of the strength of the Earth's magnetic field, and the tone will sound whether the field increases or decreases. A radio and microwave

detector is also included, which reads radio power directly. Because man-made AC electric and magnetic fields are very common and could interfere with readings of static fields, the meter has been designed to ignore AC fields. Normal construction materials don't block magnetic fields, so the meter can be placed indoors and will work equally well, and due to the built-in tone, it can be used in the dark and will sound the tone at whatever level of field the user sets. See **AlphaLab Inc.**]

## Finding the Original Craft Encounter Site in Rendlesham Forest

During daylight on December 27, Jim and John think they found the area in Rendlesham Forest where Jim touched the symbols on the black, glassy, triangular craft. From the rolling, fern-covered forest floor (below), they walked down a forest berm straight east only a few yards. They came to the first wire strand fence and a few feet further a second wire strand fence that Jim remembers tripping over, falling to the ground and John helped him back up. That second wire fence runs along the western edge of Capel Green and the big farm field.

Jim Penniston looks eastward towards Capel Green as John Burroughs points south on December 27, 2010. The two had been a little further back in the Rendlesham Forest where Jim seemed to be taken over by recall of their encounter on December 26, 1980. In front of them unseen are two separate wire fences that we climbed over to get into the Capel Green field straight east of the wooded site where Jim remembers walking around a black, glassy, triangular craft and touched its raised symbols “like Braille.”

Image © 2010 by Linda Moulton Howe.

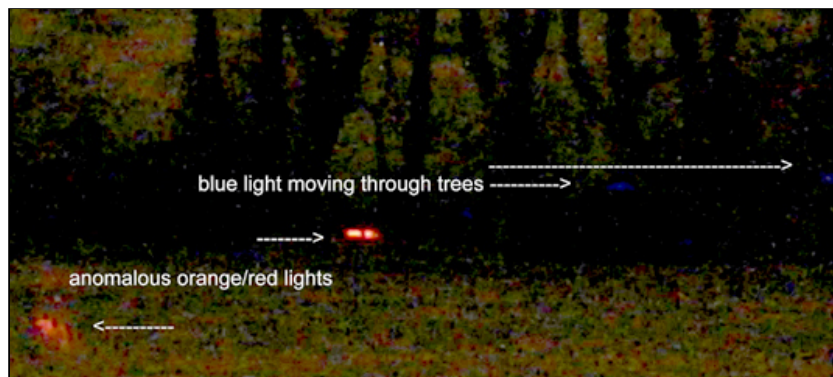

Jim and John walked from the wire fences straight east to Capel Green small field where they are standing in this photograph. The Capel Green northern boundary is the finger of trees (far right) that surrounds a watery marsh. Both men remember getting wet on December 26, 1980, while they kept on running after mysterious aerial lights following their close encounter in the tall trees about 300 feet west from where they are standing.

Image © 2010 by Linda Moulton Howe.

Foreground water in finger of trees on northern border of Capel Green and looking beyond to big farm field. Image © 2010 by Linda Moulton Howe.

The next night after midnight on December 27, 2010, I went with John and Winston Keech back to a place near the Capel Green finger of trees for a night watch with Winston's IR (infrared) cameras and his TriField meter. I videotaped the men in infrared while John and Winston walked to the west end of the finger of trees to see if the meter would peg again at the highest level as it had the night before. It did and John thought he saw one or two blue lights move in the trees around the same time. That night one of Winston's time lapse cameras captured a "blue light moving through trees and anomalous orange/red lights" in front of the finger of trees.

Ping pong-sized balls of blue light and orange glowing anomalies in the Capel Green trees near Rendlesham Forest, Woodbridge, England, around midnight December 27-28, 2010. Time lapse image © 2010 by Winston Keech.

That second night, John and Winston were walking on the north side of the finger of trees when they both saw that the third house at the end of those trees had a dim, orangish glow, apparently from incandescent lamps left on inside the house at night. We drove by the house on the street side and could see the orange glow of interior lamps. This might relate to Lt. Col. Charles Halt's observation on December 28, 1980, that he could see red-orange light reflected in the windows of a farm house. Or it might be a combination of the interior lamps and whatever the aerial object was that emitted red-orange, blue and white light.

Infrared image on December 27, 2010, looking across Capel Green small field on south side of finger of trees. John and Winston were on the north side of the trees when they saw the third house windows dimly glow orange. I was running the IR video camera, but could not see the orange glow from my position.

However, this IR frame shows the white heat from the third house windows identified above as "orange light in trees, farmhouse." IR camera Winston Keech.

In the middle of January 2011, after two weeks back in the United States, I asked John and Jim if they would discuss for Earthfiles and Coast radio their return to Rendlesham Forest and the farm field.

---

### Interview:

**John Burroughs, former USAF Airman 1st Class in C Flight Law Enforcement, RAF Bentwaters/Woodbridge, December 1980, now a resident of Phoenix, Arizona:**

"The first night (December 25-26, 2010), I definitely felt some kind of energy on me. It felt like it was going up my neck, and the TriField meter itself pegged out. It didn't move. It was staying strong right in that whole area (western end of finger of trees marked by red circle in above images).

IN FACT, THE NEEDLE WAS AS HIGH AS IT WOULD GO (electric range) AND DID NOT DROP.

Right, it would not drop. It was banging, wanting to go further and it couldn't go any further, yes.

THE NEXT DAY, WE ARE IN THE TALL TREES OF RENDLESHAM FOREST ALONG THAT EDGE. THERE IS CAPEL GREEN AND A BIT OF THE FARMER'S FIELD AND THEN YOU ARE IN RENDLESHAM AND THAT'S WHERE WE WERE WHEN JIM SEEMED TO BE OVERCOME BY A FEELING, 'THIS IS WHERE WE WERE, JOHN' WHAT IS IT THAT YOU FELT HAPPENED?

Well, when Jim walked away with you to the trees and then motioned for me to come over and then he showed me where the berms were. [ Berms are manmade earth mounds, often dug to prevent soil erosion.] Then he said, 'I remember tripping here. Then I went forward.'

It was like Jim went into a trance and he started acting like he was re-living it from thirty years before. He acted like he was walking around it (black, glassy, triangular craft in forest). He was acting like it was there and he was seeing it and then he acted like he touched it. And then, it almost appeared to me like his whole body shook."

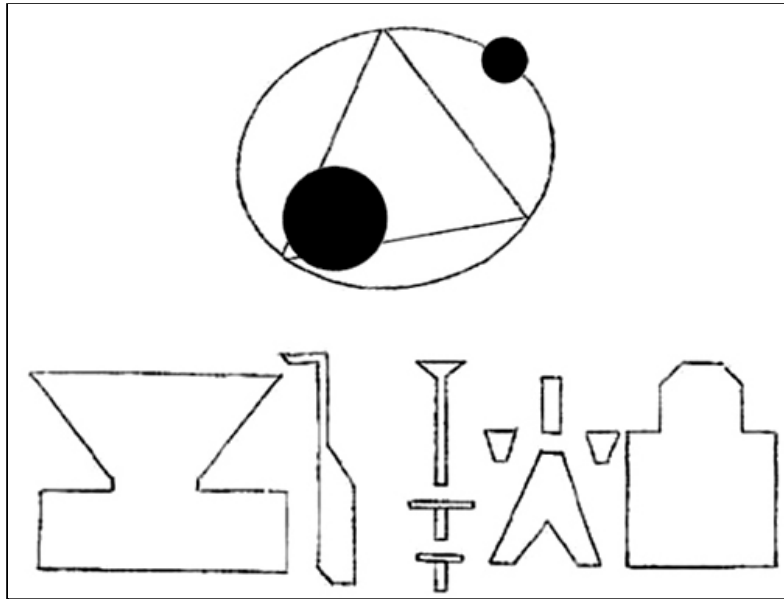

Jim Penniston said his recall was so strong in front of us in Rendlesham Forest near Capel Green on December 27, 2010, that he could see, hear and feel what happened there thirty years ago. Here now is what he told me.

## Jim Penniston's Vivid Recall of Touching Symbols and Activating Binary Code

**Jim Penniston, former USAF Staff Sergeant and C Flight RAF Woodbridge Security Supervisor on December 26, 1980, RAF Bentwaters/Woodbridge, now a resident of Freeport, Illinois:** "We were like within ten or fifteen feet of the craft. When I approached the craft, the physical air and the surroundings changed. It was like as if a bubble (a frequency field) was around the area that measured maybe ten to fifteen feet out from this craft. Once I entered that area, different sensations happened.

YOUR SKIN AND YOUR HAIR WERE AFFECTED?

Skin and hair were like a feeling of electricity. On my clothes, too! Deadening of sound. Then it seemed like everything ran to slow motion. The recall was so strong - the fabric of the craft as I was touching it is very smooth. It looks like black glass. Symbols are running three feet long and a few inches high.

Updated and corrected symbol shapes by James Penniston on December 16, 2010, after Earthfiles discussed his August 26, 1994, hypnosis transcript (below) with Jim. He said the symbols were raised like Braille on the surface of the black, glassy, triangular craft and each symbol had the texture of sandpaper. The symbols covered a length of about 3 feet on the craft's surface, each symbol averaging about 3 inches high, according to hypnosis.

Then I started touching them. It was actually rough like the feeling of sandpaper. So, I traced with my hands each symbol just out of *awe* - not sure what I'm seeing!

On a repeat of coming back touching these symbols, I get a bright light and I can't see. I have no other vision - I can't see what is going on around me. I just see these symbols (zeros and ones). They start running in front of me. And they are fast - they are coming at me fast!

ARE YOU SEEING THE ZEROS AND ONES LIKE THEY ARE IN THE AIR IN FRONT OF YOU?

No, they are in my head. I cannot see nothing except those (zeros and ones).

AS IF THE TECHNOLOGY HAS SOMEHOW TAKEN OVER THE SYNAPSES IN YOUR BRAIN IN ORDER TO PLACE THESE VIVID ZEROS AN ONES?

That's when the activation happened, yes. They over-rode my vision and everything, yes. That was startling and very strange - a very scary moment. You have no control of what is going on.

THEN WHAT HAPPENS?

Seemed like it was given to me very fast. Then I got the bright light again and that's when the coding stopped.

## Jim Penniston Writes Zeros and Ones in His Notebook

"I go back home and I finally get about four or five hours of sleep, but I'm awakened

because I just can't get these symbols (zeros and ones) out of my head - almost like you're going crazy! I mean, I know I had a shock. I know it was trauma. I'm wondering if I'm OK? Why would I have these rushing through my head like this?

THE ZEROS AND ONES.

Oh, yeah! It was just unmanageable, it really was.

IN YOUR HEAD, WERE YOU SEEING COLOR?

No, they were black and white. I grabbed my notebook again because I wanted to look at the symbols I recorded.

YOU MEAN THAT PANEL ABOUT THREE FEET LONG AND ABOUT 1.5 FEET HIGH ON THE GLASSY SURFACE THAT WERE TRIANGLES AND CIRCLES IN THOSE ODD PATTERNS.

Right, and I had recorded them in my notebook. I was just going back and looking the next day (December 27, 1980), and I still have these ones and zeros in my head. It just keeps repeating!

So, I said, 'Well, I could write those down. Maybe it will help to write them down.'

I just flipped the pages open and started writing more in the notebook and all of a sudden they stop. I don't have any more. I don't have any more symbols (zeros and ones) in my head. They stop!

I go, 'It's that easy? Just write them down?' They were gone. I didn't have to worry about the symbols - they were just gone.'

Click here for: [January 2011 in-depth Earthfiles reports about Jim's binary code and analysis.](#)

## What Energy Pegged Tri-Field Meter?

As John and I watched Jim moving and talking in the Rendlesham trees, John suddenly thought he saw some kind of energy around Jim - and then it was gone!

**John Burroughs:** "And then at that point, I had a weird feeling that the whole energy force was gone and I made a comment right afterward, 'The energy source I think is gone!' And then that night, Winston Keech went back out into the field (Capel Green) and it was gone.

THE NEXT MORNING, WHAT DID WINSTON TELL YOU?

When I saw him in the morning, he was totally shocked and could not believe that there was no energy source (where it had pegged the TriField meter for two nights in the electric/electrostatic range).

WINSTON CHECKED IT WITH THE SAME TRI-FIELD METER THAT ON THE NIGHT OF DECEMBER 25 AND 26, 2010, WE GOT THE STRONG PEGGING. THEN SUDDENLY AFTER MIDNIGHT ON DECEMBER 27TH, HE WALKED ALL AROUND THAT FINGER OF TREES AND HE COULD NOT GET ANY HIGH READING ANYWHERE ON THAT TRI-FIELD METER.

Right. He could not get any readings. One thing I said earlier to him out there is that I felt the energy moved back towards the coast.

AND I WAS RUNNING HIS IR (INFRA RED) CAMERA. WHEN YOU CAME BACK, I REMEMBER THAT YOU SAID, 'IT LOOKED LIKE I SAW A BLUE LIGHT IN THE TREES.'

Right, it clearly looked like for brief seconds that you could see like almost a little blue something floating along into the finger (of trees) area and even starting to go out into the field, yes. There's an energy source out there.

I'm not telling you it's E. T. or what it is. It clearly is some kind of blue-type energy picked up on camera. What that means, I'm not sure, but there is no doubt in my mind there is some kind of energy field or source out there in that field in that area.

WHEN YOU WERE WALKING WITH WINSTON AROUND THE FAR WESTERN POINT OF THAT FINGER OF TREES ON THE NORTH BOUNDARY OF CAPEL GREEN, AS YOU WALK AROUND THOSE TREES, YOU ENTER THAT HUGE FIELD.

Right. It's interesting to me that the energy field is still there.

AFTER ALL THESE YEARS.

After all these years.

BUT WHY WOULD IT GO AWAY ON THE THIRD DAY AND NIGHT?

I honestly don't know. I mean, it could be coincidence that I just felt it. And it could have been back further by the house. It could be a shifting field. I really can't explain why I got that feeling, other than just the way that Jim was acting. And just the feeling I got afterwards. But I can tell you this: I believe it is still there - I just believe it moved back further. And I believe if you went back out there and looked, you would find the energy field still out there somewhere in that area.

## In December 1980, John Burroughs Never Knew About Jim's Binary Code

THERE HAS BEEN A LOT OF INTEREST AND CONTROVERSY ABOUT THE FIVE SCANNED PAGES OF ZEROS AND ONES THAT JIM NEVER MENTIONED IN THIRTY YEARS UNTIL WE WERE FILMING IN PHOENIX ON OCTOBER 2, 201. YOU WERE SHOCKED. I WAS SHOCKED WHEN JIM SAID, 'I REMEMBER WRITING DOWN ZEROS AND ONES.'

BUT OVER THE 30 YEARS, JIM NEVER SAID THAT HE WROTE DOWN ZEROS AND ONES. WHAT WAS YOUR REACTION TO THE FIVE SCANNED PAGES THAT HE HAS PROVIDED?

Jim never approached me and said he had ever written anything down. The only time Jim talked anything about having any problems - this (encounter) happened on a Thursday night into early Friday morning (December 25 to 26, 1980 at 3 AM to sunrise). Then Friday night into Saturday (December 26 to after midnight Dec. 27), they had another incident. Then I was back out there Saturday night with Col. Halt into Sunday morning (December 27 to after midnight to sunrise December 28, 1980).

DECEMBER 28, 1980.

Right, December 28th. On that Sunday evening on our (C Flight) last day of break and Jim had been gone, I went down to his house to tell him what happened on that Saturday night with Col. Halt to tell Jim, 'You wouldn't believe that more stuff happened!'

Jim just seemed shook up and said he was having feelings coming to him, things that he could not understand and it was bothering him. They were the kind of things he did not feel comfortable with because it just was not normal. That much I remember, but at no time did anything come up with, 'I'm writing down zeros and ones,' or anything like that.

WHAT WAS ESPECIALLY INTERESTING TO ME WAS TO GO BACK TO HIS 1994 HYPNOSIS SESSION AND REALIZE THAT HE MENTIONED THE INTELLIGENCE PEOPLE WHO WERE PUTTING HIM UNDER SODIUM PENTOTHAL HYPNOSIS SOME TIME AFTER DECEMBER 26, 1980. THEY ASKED HIM AS IF THEY ALREADY HAD SOME OTHER KNOWLEDGE - THEY ASKED JIM PENNISTON ABOUT ACTIVATING BINARY CODE.

MILITARY VOICES

I understand.  
WHAT DO YOU UNDERSTAND ABOUT THE CODE?  
I'm the interpreter. They need interpreters. The lights.  
THE LIGHTS. SO WHAT IS THE CODE SAYING?  
You can't read these codes unless you have an interpreter.  
I understand what's going on now.  
WHAT'S GOING ON?  
The symbols.  
THE SYMBOLS — WHAT DO THEY MEAN?  
Oh, it's information being exchanged. That machine —  
that's for interpreters, there's lots of interpreters.  
YOU ARE AN INTERPRETER?  
Yes.  
CAN YOU INTERPRET THAT CODE FOR ME?  
Yes.  
DO THAT NOW.  
Explain. Mission. Purpose.  
AND THE MISSION IS?  
Contact.  
DO THEY SAY CONTACT WITH WHAT?  
Us.  
PURPOSE?  
Research.  
FOR?  
To help them.  
TO HELP THEM WITH WHAT?  
Themselves. *They are time travelers. They are us.*  
(Howe's emphasis.)  
THEY ARE US FROM?  
The future.  
HOW FAR IN THE FUTURE?  
A long time. Very long time.  
WHAT DO THEY NEED FROM HERE?  
They need something from all interpreters.  
WHAT DO THEY NEED?  
Not sure, but it has to do with chromosomes?  
Or something like that.  
AND HOW DO THEY GET THAT?  
They take it.  
FROM WHERE?  
From the other people's bodies.  
FROM WHAT PART OF THE BODY?  
Depends.  
WHERE DID THEY TAKE IT FROM YOU?

▲  
101

Didn't.

**BUT YOU WERE AN INTERPRETER.**

We only interrupted. ...*They* (time travelers) were interrupted. They are having problems. The program's ... I understand what they are saying, but they weren't supposed to be there. They are having problems. The odds are against them.

**YOU WEREN'T SUPPOSED TO UNDERSTAND THE PROGRAM?**

No. By touching these things (raised symbols on surface of craft), I activated these things.

**YOU TOUCHED THE SYMBOLS AND YOU SET OFF A PROGRAM?**

Yes. It was repairing itself. All they wanted was a place to stay while it repaired itself.

**AND BY TOUCHING THE SYMBOLS, YOU DISRUPTED THE REPAIR PROGRAM?**

I activated a binary code. The two (govt.) men want to know why.

**AND WHAT DO YOU ANSWER THEM?**

They ask me if I ever had any other encounters with them (lights and time travelers)? I haven't. They are discussing it between themselves. The situation. They've got a problem.

**WHAT'S THEIR PROBLEM?**

Their (govt.'s) problem is because I can't tell anybody. They ask no more questions about the craft. And they want to know what to do with me."

Penniston explained chromosomes were gathered for different reasons, particularly to help the time travelers because they have a "physical problem" and he felt sympathy for them. Penniston said the time travelers have "been coming here for a long time, at least thirty or forty thousand years, trying to sustain their children in the future. He explained that the children have hairless, humanoid bodies with pale skin and very large eyes "to take in more light" because the future earth will be different.

**"THEIR COMING AND GOING, IS IT GOING TO HAVE ANY NEGATIVE EFFECT ON US?**

No. It won't hurt us at all.

**WILL IT ALTER OUR FUTURE AT ALL?**

Not sure.

**IF FOR SOME REASON THEY CAN'T GET THESE CHROMOSOMES, WHAT WILL HAPPEN TO THEM?**

They will die.

DID YOU AND JIM PENNISTON EVER GET TOGETHER AFTER SUNDAY NIGHT, DECEMBER 28, 1980, TO DISCUSS WHAT HAD HAPPENED ON DECEMBER 26, 1980?

Other than when we got called in when we got called back to duty and had to write statements and turn them in, other than that, we didn't talk about it. It was making Jim very nervous and upset because what he was feeling was not something that he could explain or understand. And that's as far as Jim had ever mentioned or talked to me about anything that could relate possibly to the (binary) codes, other than on that day when we were filming (Oct. 2, 2010) and I saw in his notebook zeros and ones. And I'm going to be honest, I had no idea. I've heard of binary codes and I understood they have something to do with computers and computer programming, but I honestly did not know anything more about it. So, I was completely taken aback about the fact that Jim had written something down, number one - and number two, I honestly did not understand how important it was as far as what could come out of it. I understood that he had clearly written something down, but as far as what it meant, I had no idea at that point.

THE ONE THAT DR. DREW AND DR. REED THINK IS MOST LOGICAL (LATITUDE AND LONGITUDE) IS THE ONE THAT SEEMS TO BE VERY CLOSE TO THE CENTER OF WOODBRIDGE. SOME PEOPLE HAVE EVEN SUGGESTED THAT IF YOU ALL WERE DEALING WITH SOME OTHER INTELLIGENCE IN SOME KIND OF A PROBE OR CRAFT, IT MIGHT HAVE BEEN A SIGNAL THAT JIM PICKED UP THAT RELATED TO WHERE IT WAS - NEAR WOODBRIDGE, ENGLAND.

The thing to me that is important now is to identify what the energy source is; to see if there is anything else out there in these (latitude/longitude) coordinates that mean anything; to maybe go to something to see if there is an energy source there.

I understand everybody wants to speculate on could it have been contact - and I'm not against any of that. But what is important to me is to see if there is anything important in these 24 locations (latitude/longitude from binary stream has no specified decimal point, therefore there are 24 potential lat/long references) and not worry about is it E. T.? Or what else it could be?"

<p><b>EXPLORATION OF HUMANITY</b>    <b>unclear</b>    <b>8100</b></p> <p><b>52.0942532 N (north)    1.3131269 W (west)    CONTINUOUS</b></p> <p><b>FOR PLANETARY ADVANC(E)</b></p> <p><b>FOURTH COO(R)DINATE (time?)    CONTINUOUS?    unclear    BEFORE</b></p>
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Summary of 5 pages of Jim Penniston's December 1980 hand-written binary code after December 26th encounter with lights and triangular craft of unknown origin in Rendlesham Forest near Capel Green farm field in Woodbridge. Translation by Dr. Horace R. Drew and Dr. Mike Reed on November 11, 2010.

0.5209 N	Ocean (South of Ghana, Africa)	Ocean (South of Togo, Africa)	Jungle (Gabon, Africa)	Ocean (East of Palau Kanobe)
5.209 N	Ocean (South of Ghana, Africa)	Ocean (South of Togo, Africa)	Jungle (Cameroon, Africa)	Ocean (S.W. Of Palay)
52.09 N	Airport Runway, ( Doxford, England)	In Town (Woodbridge, England)	West side of Luckewalde (Germany)	Mountain Wilderness (Middle China)

Far left vertical column: possibilities of latitudes North, depending upon placement of the decimal point. Top, extending left to right, are the possible West Longitudes. Those latitude and longitude combinations produce 12 possible options. Then the same latitudes North are placed with the left to right East Longitude possibilities. Those latitude and longitude combinations produce another 12 possible options for a total of 24 latitude and longitude options.

For further reports about the RAF Bentwaters/Woodbridge December 1980 phenomena, please see my book *Glimpses of Other Realities, Vol. II: High Strangeness* in the **Earthfiles Shop**. There are also dozens of other reports in the **Earthfiles Archive**.
