### Introduction

---

Reading can be defined as “the act of decoding graphic material in order to determine its message.” To put it another way, reading consists of coming back to speech through its graphic symbols. In short, meanings reside in the sounds of the spoken language. Speaking a language is the necessary first step to acquiring the ability to read a language with meaning.

The recorded portion of the reading materials for this course will be found at the end of most units. You can do the readings as it is most convenient for you. They can be done individually with each unit or at a more appropriate time after the unit. Instructions on how to proceed with the readings are contained in the audio portion of the course.
