## **Preface**

This dictionary aims to provide the basic vocabulary of terms used in the leisure, travel and tourism industries; the fields covered include catering (restaurants and kitchens), hotels and guesthouses, travel, insurance and health and safety, together with terms relating to general business, such as accounts, personnel etc.

For this new edition of the dictionary we have expanded and edited the text to keep pace with changes in the industries. For example, readers will find terms related to food and drink (including different diets and types of coffee), ecotourism, extreme sports etc. At the same time, to make the dictionary more useful to students, we give phonetic transcriptions for all the headwords.

The main words and phrases are defined in simple English and in some cases the definitions have been expanded by explanatory comments. We also give quotations from specialist magazines and other publications relating to the subjects. The supplements at the back give additional information.

We are grateful to many people who have contributed to the work, in particular Joseph Armstrong and Hazel and David Curties who read the text and provided many valuable comments for the first edition. Also, many thanks to Marzena Przewczek for her invaluable contributions to the text.

## Accommodation ratings

In response to consumer demand, VisitBritain, the Automobile Association and RAC created one overall rating scheme for serviced accommodation, using stars to represent hotels and diamonds for guest accommodation (guesthouses, inns, farmhouses, bed & breakfasts).

### Serviced Accommodation: Star ratings

Star ratings symbolise the level of service, range of facilities and quality of guest care that you can expect. Hotels are required to meet progressively higher standards as they move up the scale from one to five stars.

The gradings are:

- ☆ Practical accommodation with a limited range of facilities and services, but a high standard of cleanliness throughout. Restaurant/eating area. 75% of bedrooms with ensuite or private facilities.
- ☆☆ Better-equipped bedrooms, all with ensuite/private bathroom and a colour TV. A lift is normally available. Dinner available.
- ☆☆☆ Higher standard of services and facilities including larger public areas and bedrooms, a receptionist, room service, laundry.
- ☆☆☆☆ Accommodation offering superior comfort and quality; all bedrooms with ensuite bath, fitted overhead shower and WC. Spacious and well-appointed public areas. More emphasis on food and drink. Room service for all meals and 24 hour drinks, refreshments and snacks. Dry cleaning service. Excellent customer service.
- ☆☆☆☆☆ A spacious, luxurious establishment offering the highest quality of accommodation, facilities, services and cuisine, with a range of extra facilities. Professional, attentive staff should provide flawless guest services.

### Serviced Accommodation: Diamond ratings

Diamond ratings for guest accommodation reflect visitor expectations, where quality is seen as more important than facilities and services. Guest accommodation is required to meet progressively higher standards of quality and guest care as they move up the scale from one to five diamonds.

- ◇ Clean, comfortable accommodation, providing breakfast.
- ◇◇ Good overall level of quality and comfort, more emphasis on guest care.
- ◇◇◇ Well-maintained, a good choice of breakfast dishes, a very good level of customer care.
- ◇◇◇◇ An even higher level of quality and comfort. Very good levels of customer care.
- ◇◇◇◇◇ Exceptional overall quality in furnishing, rooms and customer care, anticipating guests' needs.

## Accommodation ratings *continued*

### Self-catering Accommodation

All properties have to meet an extensive list of minimum requirements before they can be considered for a star rating. Serviced apartments provide self-catering accommodation with additional elements of service, such as a 24-hour concierge service, or a 5 out of 7 day cleaning service.

- ☆ Acceptable overall level of quality. Adequate provision of furniture, furnishings and fittings.
- ☆☆ Good overall level of quality. All units self-contained; 2 bathrooms where there are eight or more guests.
- ☆☆☆ Good to very good level of quality. Good standard of maintenance and decoration. Ample space and good quality furniture. All double beds with access from both sides. Microwaves.
- ☆☆☆☆ Excellent overall level of quality. Very good care and attention to detail. Either access to washing machine and drier, or a 24-hour laundry service.
- ☆☆☆☆☆ Exceptional overall level of quality. High levels of décor, fixtures and fittings, together with excellent standards guest services. Excellent range of accessories and personal touches.

### Holiday, Touring and Camping Parks

Every year the National Tourist Boards inspect more than 1,000 parks. They assess over 50 separate aspects of the parks, from landscaping and layout to maintenance, customer care, and most importantly cleanliness.

- ☆ Acceptable – to achieve this grade, the park must be clean with good standards of maintenance and customer care.
- ☆☆ Good – all the above points plus an improved level of landscaping, lighting, refuse disposal and maintenance.
- ☆☆☆ Very good – most parks fall within this category; three stars represent the industry standard. The range of facilities provided may vary from park to park, but they will be of a very good standard and will be well maintained.
- ☆☆☆☆ Excellent quality – careful attention to detail in the provision of all services and facilities.
- ☆☆☆☆☆ Exceptional standards can be expected from these parks, with the highest levels of customer care and attractive surroundings. All facilities will be maintained in pristine condition.

As well as the star rating, all parks have a designator to explain the type of accommodation.

**Holiday Parks** offer caravan holiday homes for hire or for sale.

**Touring Parks** are for people who want to take their own touring caravan, motorhome or tent.

**Camping Parks** have pitches available for tents only.

Many parks offer combinations of these, for example ‘Holiday and Touring Park’ or ‘Touring and Camping Park’.

## **Accommodation ratings** *continued*

### **Hostels: Star ratings**

Hostels are rated from one to five stars. They must meet a minimum entry requirement for both the provision and quality of facilities and services, including fixtures, fittings, furnishings, décor and any other extra facilities. The more stars, the higher the overall level of quality.

**Group Hostels** provide hostel style accommodation that caters for groups only.

**Bunkhouses** offer a similar style of accommodation to hostels, but usually with more limited service and facilities, usually on a self-catering basis. Bunkhouses are not star rated but meet the same minimum requirements as hostels, where applicable.

**Camping Barns** provide very simple self-catering accommodation. Often referred to as 'stone tents', they have the advantage of being roomy and dry. Camping Barns are not Star rated and will be assessed as being fit for the purpose, meeting a specific minimum entry requirement.

### **Campus Accommodation: Star ratings**

Campus accommodation includes educational establishments such as universities and colleges with sleeping accommodation in halls of residence. It is rated from one to five stars.

### **Holiday Villages: Star ratings**

Holiday villages are rated from one to five stars. A holiday village usually offers a variety of types of accommodation, with the majority provided in custom-built rooms (e.g. chalets, hotel rooms). A range of facilities and activities are also available which may, or may not, be included in the tariff.
