MIAMI'S
TOP 10

TOP 10 Highlights of Miami

At its best, Miami is all pastel hues and warm, velvety zephyrs – a tropical reverie. The culture is sensuous and physical, often spiked with Caribbean rhythms and accents. Outdoor activities hold sway throughout the area, at the world-famous beaches and in the turquoise waters; the vibrant nightlife, too, attracts pleasure-seekers, while significant historical sights are around every corner.

1 SoBe Life

Ever since *Miami Vice* (see p72) drew attention to this fun-zone, hedonists have flocked for the beaches and nightlife (see pp8–9).

2 Deco District

The whimsical architecture on South Beach ultimately traces its roots back to 1920s Paris (see p13), but it underwent fruitful, exotic influences along the way and blossomed into Florida's own Tropical Deco (see pp10–13).

3 Calle Ocho, Little Havana

The Cubanization of Miami changed it from sleepy resort to dynamic megalopolis. Little Havana fuels the impression that Miami is Latin American at heart (see pp14–15).

4 Villa Vizcaya

One immensely rich man's aspiration to European grandeur and appreciation of Western artistic heritage led to the creation of what is probably Miami's most beautiful cultural treasure (see pp16–17).

5 Merrick's Coral Gables Fantasies

The 1920s boom saw a need to build not only structures but also an identity. George Merrick rose to the challenge and created fantasy wonderlands that continue to stir the imagination today (see pp18–19).

6 Lowe Art Museum

This major art museum, created by an endowment from George Merrick, has around 12,000 works of art, including masterpieces from cultures the world over, and from every age (see pp20–21).

The Wolfsonian 7

This superb museum (which began life as a storage company) owes much to its founder's passion for collecting 20th-century propaganda art and design artifacts of the period 1885–1945 (see pp22–3).

8 Gold Coast Highway A1A

Route A1A hugs the sands of the Gold Coast, wending through Florida's wealthiest and most beautiful areas (see pp24–5).

Key West 9

This mythic isle lives up to its reputation as the most outlandish free spot in the US. A frothy mix of maritime traditions and laid-back style (see pp26–7).

10 The Everglades

Taking up most of South Florida, the Everglades is a vast sea of swamp and sawgrass, dotted with subtropical forests and populated with prolific wildlife. It is also home to Native American Seminoles and Miccosukees (see pp28–9 & p41).

**TOP 10 SoBe Life**

The nickname for Miami's beautiful South Beach was inspired by Manhattan's SoHo, and it's become every bit as fashionable and hip as its New York counterpart. Now the "American Riviera" is an ebullient mix of beach life, club-crawling, lounge-lizarding, and alternative chic, attracting devotees from around the globe. Yet, SoBe's modern posh character is also nicely blended with just the right amount of tacky kitsch and downright sleaze.

News Café

Parking is a problem everywhere along here, so once you find a place, leave the car and walk. Be aware that you'll need to feed the meter a feast of coins, unless you choose one of the parking garages.

To participate fully in the SoBe experience, the News Café should definitely be your choice for eats.

Map R-S 3-6

**1 Ocean Drive**

Strolling, skating, or biking along this beachfront strip is the way the locals do it. From about 6th Street and north, take in the toned, tanned athletes, the abundant, ice-cream-colored Art Deco architecture (see pp10-13), and the people-watching cafés.

2 Lummus Park Beach

This swath of busy park and 300-ft (90-m) wide beach (*below*) stretches for ten blocks, from 5th St north. Much of the immaculate sand was imported.

**3 News Café**

The café-restaurant at 800 Ocean Drive continues to be action central for SoBe social life. Sit and read the morning paper, available in several languages, over a full breakfast – or just watch the action.

Beach Patrol Headquarters

4 Casa Casuarina

1114 Ocean Drive (not open to the public) was bought by fashion designer Gianni Versace in 1993 for \$3.7 million. He was gunned down on its steps in 1997. The Mediterranean-Revival style building was formerly called Amsterdam Palace.

5 Marlin Hotel Bar

The sparkling hotel at 1200 Collins Avenue (*right*) sports one of SoBe's best places to while away the time with locals. The décor is the apotheosis of the chrome aesthetic – everything seems to be made of curving aluminum.

6 Collins and Washington Avenues

These scruffier, funkier cousins of Ocean Drive offer kinky shops and top nightclubs, but also some fine Art Deco buildings of their own, including the Miami Beach Post Office.

7 Old City Hall

The 1920s Mediterranean-Revival, buff-colored tower (*left*) is a distinctive South Beach landmark. Its red-tile roof can be seen for blocks around. The building is now a courthouse.

8 Española Way

Between 14th and 15th streets, and Washington and Drexel avenues, Española Way is a Mediterranean-Revival enclave that is all salmon-colored stucco, stripy awnings, and red-tile roofs. It now houses boutiques and offbeat art galleries. Built in 1922–5, it was meant to be an artists' colony but instead became an infamous red-light district at one stage of its history.

Gay Renaissance

South Beach is now world famous as a top gay vacation destination. It is estimated that up to half of the Deco District apartments are gay-occupied. Rainbow flags are everywhere you look, indicating gay-friendly businesses. Gay festivals attract thousands from around the world, flocking to the all-night raves and beach parties. A culture of the Body Beautiful thrives here, which, combined with the constant ebb and flow of revelers, makes the area a vast playground for the sexually various. Gay people now enjoy considerable political clout, both locally and statewide.

9 Lincoln Road Mall

Built in the 1920s as an upscale shopping district, it became one of the country's first pedestrian malls in the '60s. Its current incarnation with art studios and galleries is the brainchild of the South Florida Art Center.

10 SoBe Clubs

Most of South Beach's top clubs are located on Washington and Collins avenues, between 5th and 16th streets. Few get going until at least midnight. Choose between straight, gay and mixed venues (*see pp76–7*).

TOP 10 Deco District

SoBe's Art Deco District consists of some 800 preserved buildings, the cream of them along Ocean Drive. This splendid array of structures embodies Miami's unique interpretation of the Art Deco style, which took the world by storm in the 1920s and '30s. Florida's take on it is often called Tropical Deco (see pp12-13), which befits the fun-and-sun approach to life. Often hotels were made to look like ocean liners (Nautical Moderne) or given the iconography of speed (Streamline Moderne).

Park Central

1 Guided tours are held on Wednesdays, Thursdays and Saturdays. Otherwise, a self-guided audio tour can be rented from the Art Deco Welcome Center.

2 Mango's Tropical Café, at 980 Ocean Drive, lives up to everything its name might imply – florid and steamy, and always very happening.

- 9 Cardozo Hotel
- 10 Cavalier Hotel

1 Park Central

A 1937 favorite by Henry Hohauser, the most famous architect in Miami at the time. Here he used the nautical theme to great effect.

2 Beacon Hotel

The abstract decoration above the ground floor of the Beacon has been brightened by a contemporary color scheme, an example of "Deco Dazzle," introduced by designer Leonard Horowitz in the 1980s.

3 Colony Hotel

Perhaps the most famous of the Deco hotels along here, primarily because its stunning blue neon sign (left) has featured in so many movies and TV series.

4 Waldorf Towers

Here is one of the first examples (1937) of Nautical Moderne, where the style is carried to one of its logical extremes with the famous ornamental lighthouse on the hotel's roof. Fantasy towers were the stock in trade for Deco architects.

5 Breakwater Hotel

The classic Streamline Moderne hotel (*left*) was built in 1939. It features blue and white "racing stripes," which give the impression of speed, and a striking central tower that recalls both a ship's funnel and Native-American totems.

6 Beach Patrol Stations

Even the lifeguard stations are done up in Deco on South Beach. Looking perhaps more like a homemade flying saucer that has just landed on the beach, these pink and yellow follies embody the spirit of fun that pervades the lifestyle.

8 Leslie Hotel

The Leslie (1937) is cockatoo-colored, white and yellow with gray accents (*below*) – a color scheme typical of those currently in favor along Ocean Drive. Originally, however, Deco coloring was quite plain, usually white with only the trim in colors. Nor were the backs of the buildings painted, since money was too tight in the 1930s to allow anything more than a jazzy façade. The Leslie's interior has recently been renovated.

7 Clevelander Hotel

Albert Anis used classic Deco materials – especially the glass blocks in the hotel's bar, which is now a top South Beach neon-lit nightspot. Typical Deco features include vertical fluting, geometric decorative touches, the "eyebrow" overhangs shading the windows, and the stripy lettering on the sign.

9 Cardozo Hotel

A late Hohauser work (1939) and the favorite of Barbara Capitman (*see p13*), this is a Streamline masterpiece, in which the detail of traditional Art Deco is replaced with beautifully rounded sides, aerodynamic racing stripes, and other expressions of the modern age. The terrazzo floor utilizes this cheap version of marble to stylish effect. It was reopened in 1982 and is now owned by singer Gloria Estefan.

10 Cavalier Hotel

A traditional Art Deco hotel (*left*), which provides quite a contrast to the later Cardozo next door. Where the Cardozo emphasizes the horizontal and vaguely nautical, this façade is starkly vertical and temple-like. The temple theme is enhanced by beautifully ornate vertical stucco friezes, which recall the abstract, serpentine geometric designs of the Aztecs and other Meso-American cultures.

Striking motifs on Tropical Deco buildings

TOP 10 Tropical Deco Features

1 Tropical Motifs
These include Florida palms and panthers, orchids and alligators, but especially birds, such as flamingos and cranes.

2 Ice-Cream Colors
Actually, most Deco buildings here were originally white, with a bit of painted trim; the present-day rich pastel palette “Deco Dazzle” was the innovation of Miami designer and Capitman collaborator Leonard Horowitz in the 1980s.

3 Nautical Features
What better way to remind visitors of the ocean and its pleasures than with portholes and ship-railings? Some of the buildings resemble beached liners.

4 Curves and Lines
This suggestion of speed is the essence of the Streamline Moderne style – it is an implicit appreciation of the power of technology.

5 Stucco Bas-Relief Friezes
These sculptural bands offered designers endless possibilities for a wonderful mix of ancient and modern motifs and themes.

Sunburst motif, Cardozo

6 Stylized, Geometric Patterning
This was a nod to the extreme modernity of Cubism, as well as, again, the power and precision of technology, espoused by Bauhaus precepts.

7 Fantasy Towers
Many Deco buildings try to give the viewer a sense of something mythical – towers that speak of far shores or exalted visions – and that effectively announce the hotel’s name, as well.

8 Neon
Used mostly for outlining architectural elements, neon lighting, in a glamorous range of colors, came into its own with Tropical Deco.

9 Chrome
What touch more perfectly says “modern” than a cool, incorruptible silver streak? Chrome is used as detailing on and within many buildings.

“Aztec” frieze, Cavalier

10 Glass Blocks
Used in the construction of many Deco walls, the glass blocks give a sense of light and lightness in a part of the country where indoor-outdoor living is year-round.

The Story of Tropical Deco

The Art Deco style took the world stage following the 1925 Exposition in Paris, synthesizing all sorts of influences, from Art Nouveau's flowery forms, Bauhaus, and Egyptian imagery to the geometric patterns of Cubism. In 1930s America, Art Deco buildings reflected the belief that technology was the way forward, absorbing the speed and edginess of the Machine Age as well as the fantasies of science fiction and even a tinge of ancient mysticism. The thrilling new style was just what was needed to counteract the gloom of the Great Depression and give Americans a coherent vision for the future. In Miami, the style was exuberantly embraced and embellished upon with the addition of numerous local motifs, becoming "Tropical Deco." Its initial glory days were not to last long, however. Many hotels became soldiers' barracks in World War II and were torn down afterward. Fortunately, Barbara Baer Capitman fought a famous battle

Streamline Moderne

to preserve the buildings. The Miami Beach Historic District was designated in 1979.

Deco Dazzle

In the 1980s, some 150 buildings were colored by Leonard Horowitz, to the dismay of purists.

TOP 10 Calle Ocho, Little Havana

Cubans live all over South Florida, but Little Havana has been their surrogate homeland since they first started fleeing Cuba in the 1960s. Don't expect much in the way of sights in this district – your time here is most profitably spent out in the streets, soaking up the atmosphere. The heart of the area is Southwest 8th Street, better known by its Spanish name, Calle Ocho. Its liveliest stretch, between SW 11th and SW 17th avenues, is best enjoyed on foot, but other points of interest are more easily reached by car.

Eternal flame

Mural on Calle Ocho

1 You will have a much easier time in this district if you can speak a good bit of Spanish, especially in shops or when phoning establishments.

2 The Versailles (no. 6) is an unmissable part of the Little Havana experience. The neophyte's sampler of Cuban food includes croquettes, roast pork, and sweet plantains.

For decades, male Cubans have gathered at the corner of SW 15th Ave to match wits over intense games of dominoes (right). The pavilion and patio were built to accommodate the players in 1976.

2 The Brigade 2506 Memorial on Cuban Memorial Boulevard

An eternal flame (top) honors the Cuban-Americans who died in the Bay of Pigs invasion of Cuba in 1961. Other memorials pay tribute to Cuban heroes Antonio Maceo and José Martí, who fought against Spanish colonialism in the 1800s.

4 Plaza de la Cubanidad

At the Plaza is a bronze map of Cuba and a flourish of banners (*above*) for the headquarters of Alpha 66, Miami's most hard-line anti-Castro group.

5 Little Havana To Go

If you're interested in Cuban memorabilia,

this is the store for you. You'll find cigars, music, clothes, art, and posters for sale. There's even a replica of a 1958 telephone book, complete with names, numbers, and yellow pages.

6 Versailles Restaurant

A trip to Miami is incomplete without at least a snack at this legendary institution. It's a Cuban version of a fancy diner, with mirrors everywhere and a constant hubbub.

7 Botánica El Aguila Vidente

Santería is a Cuban religion, combining Catholicism, the Yoruba culture of Nigeria, and Native American practices. This *botánica* is one of several establishments offering paraphernalia and spiritual consultations.

9 Woodlawn Cemetery

Here lie the remains of two former Cuban presidents, dictator Gerardo Machado, as well as Nicaraguan dictator Anastasio Somoza. There's also the founder of the Cuban American National Foundation.

10 José Martí Riverfront Park

This small, pretty park, lying partly under I-95, was dedicated in 1985 to commemorate the Cuban struggle for freedom. The site became a Tent City for many of the 125,000 homeless Mariel boatlift refugees in 1980.

One of the few real sights that Little Havana has to offer the casual tourist. Imitating Hollywood, pink marble stars embedded in the sidewalks (*above*) recognize not only Cuban celebrities, beginning with salsa singer Celia Cruz in 1987, but also all famous Hispanics with any ties to South Florida.

TOP 10 Villa Vizcaya

A trumped-up pastiche it may be, but Villa Vizcaya is undeniably grand and glorious, with the authentic feel of a 16th-century Italian palace. Which is exactly what its makers, industrial magnate James Deering, designer Paul Chalfin, and architect F. Burrall Hoffman, intended when they built it in the early 1900s. Embodying a 400-year range of styles, both the genuine and ersatz have been skillfully assembled to evoke another culture, another continent, and another age.

Take the guided tour for lots of juicy gossip about Mr. Deering's posh ways, as well as various legends, superstitions and quirks about many of the furnishings.

The Villa and its formal gardens

2 East Loggia This portico frames magnificent views of the sea and of the quaint breakwater known as the Barge. Carved in the shape of a large ship, it provides a perfect foreground to Key Biscayne, lying off the coast.

3 Italian Renaissance Living Room

The room includes a 2,000-year-old marble Roman tripod, a 15th-century Hispano-Moresque rug, a tapestry depicting the *Labors of Hercules*, and a Neapolitan altar screen.

4 Rococo Music Room

All flowers and fluff, the room (*left*) is graced with an exquisite Italian harpsichord from 1619, a dulcimer, and a harp.

6 Empire Bathroom

Few bathrooms in the world are more ornate than this marble, silver, and gilded affair (*below*). The bathtub was designed to run either fresh- or salt-water from the Bay of Biscayne.

5 Breakfast Room

Four massive ceramic Chinese Foo dogs guard the steps that ascend to what is probably the most bombastic room in the house.

8 French Rococo Reception Room

The assemblage is a mix of styles, but the overall look is of a salon under the 18th-century French King Louis XV. The tinted plaster ceiling is from the Rossi Palace in Venice.

7 Italian Renaissance Dining Room

Another echo of the antique Italian taste, featuring a 2,000-year-old Roman table, a pair of 16th-century tapestries, and a full set of 17th-century chairs.

Deering's Dream

Money was no object for industrialist James Deering. He wanted his winter residence to provide a sense of family history as well as luxury. Thus he bought up bits of European pomp, shipped them over, and reassembled them on this ideal spot by the sea.

9 Neoclassical Entrance Hall and Library

Though still 18th-century, the mood is considerably more sober in these rooms, which are in the English Neoclassical style, inspired by the work of Robert Adam.

10 Swimming Pool Grotto

In imitation of Italian Renaissance and Baroque architects, who were in turn imitating ancient Roman styles, this pool (*above*) extends under the house and resembles a natural cave or sea grotto.

**TOP 10 Merrick's Coral Gables Fantasies**

Coral Gables, one of the country's richest neighborhoods, is a separate city within Greater Miami, and feels it. Aptly described as the City Beautiful, its swanky homes line avenues shaded by giant banyans and oak, backing up to hidden canals. Regulations ensure that new buildings use the same architectural vocabulary advocated by George Merrick when he planned the community in the 1920s. Merrick's taste sometimes ran to the Disneyesque, but undeniably he created a wonderland of a place that has not lost its aesthetic impact.

Chinese Village

George Merrick

🗨️ Driving around Coral Gables can be tricky. Many of the streets have two names, and the signs are spelled out on stucco blocks at ground level, which can be hard to read, especially at night.

1 Biltmore Hotel Merrick's masterpiece has been refurbished and burnished to its original splendor, at a cost of more than \$55 million (*below*). Built in 1926, it remains one of the most stunning hotels in the country. It served as a military hospital during World War II and was a veteran's hospital until 1968. The 315-ft (96-m) near-replica of Seville's Giralda Tower is a Coral Gables landmark (see also the *Freedom Tower*, p83).

2 Venetian Pool The boast that this is the most beautiful swimming pool in the world is a fair one (*above & p99*). Incorporating waterfalls and a cave, it was fashioned from a coral rock quarry in 1923 by Merrick's associates, Denman Fink and Phineas Paist.

3 Chinese Village An entire block has been transformed into a walled Chinese enclave. The curved, glazed-tile roofs peek above the trees in vibrant colors, with Chinese red and yellow, and bamboo motifs predominating.

4 Congregational Church

Coral Gables' first church (above), built by Merrick in the Spanish Baroque style, is actually a replica of a church in Costa Rica.

5 Dutch South African Village

Northern Baroque frivolity meets hot-weather practicality. This charming collection of homes embodies the high-peaked façades and scrolls of typical Dutch architecture, along with the white stucco walls and red roofs associated with the Mediterranean. The style evolved as Boers adapted to African climes.

6 French Normandy Village

The most homogeneous of all the Villages at Coral Gables, this is all open timberwork, white stucco, and shake (cedar) roofs. Little alcoves and gardens here and there complete the picture-postcard look.

7 French Country Village

Seven mansions are built in various styles typical of the French countryside. Some have open timber, stone, red brick, and shake (cedar) roofs, others resemble the classic grange. One sports a marvelous turret.

8 French City Village

Here you'll find a series of nine graceful *petits palais* in the grand French style, looking almost as if a city block of Paris has been airlifted over. The most elaborate confection is on the north corner of Cellini and Hardee.

Merrick the Visionary

Merrick's dream was to build an American Venice. The massive project spawned the biggest real estate venture of the 1920s, costing around \$100 million. The hurricane of 1926 then the Wall Street crash of 1929 left Merrick's city incomplete and him destitute, but what remains of his vision is an enduring testament to his imagination.

9 Italian Village

The typical country type of Italian villa, with its red tile roof and painted stucco walls. Many later constructions have carried on the theme, so the original Merrick creations are almost lost in the mix.

10 Florida Pioneer Village

Imitations of the early plantation and colonial homes built by Florida's first aristocrats. The style incorporates Neoclassical, columned porches with the stucco walls of tropical tradition.

TOP 10 Lowe Art Museum

Founded in 1950, the Lowe was built in 1950–52 thanks to a donation from philanthropists Joe and Emily Lowe, and it has since become Miami's premier art museum. More than 13,000 pieces showcase many of the world's most important artistic traditions. Collectors keep on donating works so that even more expansion to the galleries is now necessary to display them all. Nevertheless, the most significant works are always on display, unless on loan to other museums.

2 Greco-Roman

Classical sculpture is represented by several marble carvings, including a Roman portrait bust of a matron. One of the best objects is a 6th-century BC black-figure krater (above), depicting Apollo, Artemis, and Leto.

1 Egyptian

The Egyptian collection is tiny but fascinating, especially the Coptic textiles, several intriguing fragments of which are displayed in frames on the wall. There is also a jewel-like portrait sarcophagus mask, intended to resemble the features of the deceased.

3 Asian

One of the Museum's strongest collections, featuring magnificent Chinese Neolithic ceramics (left), as well as bronze and jade pieces, and other ceramics from Neolithic times to the 20th century. There is also a strong representation of classic, folk and tribal art from India.

4 Ancient American

An excellent collection covers all eras and areas, from about 1500 BC to the 16th century. A Mayan pot with a jaguar and human bone design is very forceful. The silver disk from 14th-century Peru (below) is a very rare piece.

5 Native American

A Seminole shoulder bag (left) is the pride of this collection, beautifully executed using thousands of tiny, colored-glass trade beads. The Navajo, Apache, and Hopi art forms include textiles, pottery, basketry, and *kachina* dolls.

6 Renaissance

The small but exquisite collection of mostly Italian paintings includes works by Tintoretto, Dosso Dossi, Palma Vecchio, Bicci di Lorenzo, and Cozzarelli (right). There are also two lovely terra-cottas by Andrea della Robbia.

7 Baroque

This period in European art is epitomized here by painters from many countries, such as Jacob Jordaens, Lucas Cranach the Elder, Jusepe de Ribera, and Francesco Guardi.

8 Latin-American

Important holdings of 20th-century art by Hispanic artists include Fernando Botero of Colombia and Carlos Alfonzo, who was born in Cuba.

9 African

Works as diverse as the 16th-century cast bronze ring of the Yoruba people, depicting ritual decapitation, a Nok terra-cotta figure (right), and an Elpe or Ngbe society emblem assemblage all have an undeniable potency.

10 17th-Century to Contemporary European & American

Some extraordinary works on permanent display include *Americanoom* by Chryssa, *Modular Painting in Four Panels* by Roy Lichtenstein, *Le Neveu de Rameau* by Frank Stella, *Football Player* (left) by Duane Hanson, and *Rex* by Deborah Butterfield.

Museum Guide

The Lowe is located in the middle of the campus of the University of Miami, which is in southern Coral Gables and is easily accessible by the Miami Metrorail – just follow the signs. There is no particular order in which you are expected to visit the collections. Remember that several of the galleries are always given over to special temporary exhibitions.

TOP 10 The Wolfsonian

Strangely, the museum began life in the 1920s as the Washington Storage Company – Miami's wealthier winter residents used to store their valuables here when they were away. Eventually, in 1984, one Mitchell Wolfson, Jr. decided to buy it outright as a home for his vast assemblage of the rich detritus of modernity. It opened to the public in 1995. Over 70,000 objects include decorative and propaganda art, furniture, and much, much more.

1 Bridge Tender's House

Standing just to the north of the Wolfsonian's entrance, this remarkable 1939 building is a stainless-steel hexagonal structure designed in the Art Moderne style.

2 Mediterranean-Revival Building

The Spanish Baroque-style relief around the main entrance is a striking feature. The bronze flagpole brackets and finials date from 1914.

The Wrestler

3 Entrance Hall

The massive ceiling supports (*below*) reflect the Mediterranean-Revival style of the façade and are original to the building. So are the terra-cotta floors, the woodwork over the doors leading to the elevator vestibule, and the rough stucco walls. The stonework is unfinished according to Mediterranean-Revival tenets.

4 Fountain
Set under a skylight, the fountain was fashioned from an elaborate Deco window grille taken from the Norris Theater in Pennsylvania. Composed of over 200 gilded and glazed terra-cotta tiles, the richly floral decorative scheme belies the careful geometrical structure of the piece.

5 The Wrestler
The symbol of the Wolfsonian (*left*) confronts visitors as they approach the elevator. Its brawny, nude, life-sized form is made entirely of aluminum, perhaps the quintessential metal of 20th-century modernity.

8 Wooden Staircase

This fine piece of modern woodcraft (*right*) is fashioned from pine and steel. It came from the Curtis Bok residence, Gulph Mills, Pennsylvania, designed by Wharton Esherick in 1935.

9 Clarke Window

The stained-glass window (*below*) made for the League of Nations' International Labor Building in Geneva, Switzerland, in 1926–30, is an impressive piece.

Much of the available gallery space is used throughout the year for special exhibits, often with compelling themes that reflect the subjects of research at the University. Propaganda art has featured, showing how savvy designers have called upon the science of psychology to create highly persuasive images for businesses and governments.

Orientation

The Wolfsonian is both a museum and a design research institute attached to Florida International University. Three of the floors are used for offices, storage, and a library, and are not normally open to the public. Your tour should begin outside, progress to the Entrance Hall, then up the back elevator to floors 5, 6, and 7.

TOP 10 Gold Coast Highway A1A

The very best way to get a feel for the quality of life along the Gold Coast is to take a leisurely drive north on A1A. The road hugs the beach almost all the way and passes through some of the most beautiful natural settings and some of the wealthiest communities in the U.S. The 50-mile (80-km) route can be traversed in a day, but it's worth spending more time to take in the local color, from tropical nature preserves to fabulous mansions, all within sight of the sugary blond sands and the azure Atlantic.

This long barrier island of gardens and forests commands views of busy Port Everglades and a beach historically significant as one designated for African-Americans, in the days of segregation. It's now a gay destination (see p52).

3 Graves Museum of Archaeology and Natural History

Exhibits here include dinosaur fossils, dioramas of prehistoric Florida, African wood-carvings, Pre-Columbian pottery figures, Minoan bronzes, Egyptian statuary, and Native American collections. The museum's usually a big hit with kids.

4 Las Olas Boulevard, Fort Lauderdale

Fort Lauderdale's main street (above) boasts upscale shops and excellent eateries. At the river end, Las Olas Riverfront is a colorful theme mall, from which the Riverfront Canal Cruise departs (see panel).

9 The Breakers

The third hotel to be built on this site, the first two having burned down. However, the aura of America's Gilded Age (1880–1910) still clings to every aspect of this stylish abode (below), from the frescoed Italianate ceilings to the countless crystal chandeliers.

5 Bonnet House

This period home (built 1920) is full of the personality of the couple who created it, Frederic and Evelyn Bartlett. They were both artists, as is evident from the highly original murals, and the somewhat eccentric tropical gardens.

8 Flagler Museum

The "Taj Mahal of America," was Henry M. Flagler's (see p45) wedding gift to his third wife, who was half his age and an heiress herself. The trappings of royalty are everywhere, down to the hand-painted dinner service that once belonged to a French king.

10 Norton Museum of Art

Perhaps Florida's finest museum of art, featuring Impressionists, Modern Americans, and much more (see p42).

6 Gumbo Limbo Nature Center

An informative center, with a boardwalk that winds through mangroves and hammocks (raised areas) in Red Reef Park. It takes its name from the gumbo limbo tree, which has distinctive, red peeling bark.

All That Glitters

Here, all that glitters probably is gold! The Gold Coast may have got its name from gold doubloons that Spanish galleons used to carry along the intracoastal waterways, but these days the term refers more to the golden lifestyle of the many millionaires and billionaires who have winter homes here.

TOP 10 Key West

First recorded by Spanish explorers in 1513, this tiny island (key), just two miles by four (3.2 x 6.4 km), has changed in status from a pirates' den to the most prosperous city per capita in the US. Always attracting free-thinkers, eccentrics, and misfits, Key West has a uniquely oddball character that is still apparent despite the upscale tourism that has developed since the 1990s. The self-named Conch ("conk") inhabitants include many gays, writers, artists, and New-Agers.

Dedicated to the lure and lore of sunken treasure and the equipment (*left*) that has been used to retrieve it. Most impressive are the gold artifacts from 17th-century Spanish galleons.

Hemingway House 5

"Papa" Ernest Hemingway lived in this Spanish colonial-style house built of coral rock from 1931–40, and wrote many of his works here. Remnants of his stay include boxing gloves (*right*) and supposed descendants of his six-toed cats.

TOP 10 The Everglades

One of the planet's most fascinating ecosystems, the Everglades is a vast, shallow river system of swamps and wetlands, whose waters can take a year or more to meander from the Kissimmee River, northwest of Miami, into Florida Bay. At least 45 plant varieties grow here that are found nowhere else on Earth. It is also home to over 350 kinds of bird, 500 types of fish, and dozens of reptile and mammal species.

1 Tamiami Trail (US 41)

This was the first road to open up the area by linking the Atlantic and Gulf coasts. It passes pioneer camps, such as Everglades City and Chokoloskee, which have barely changed since the late 1800s. They mark the western entrance to Everglades National Park.

2 Everglades National Park

The park covers about one-fifth of the Everglades. There are elevated boardwalks, tours, canoe rental, camping and hotel and *chikee* lodgings (Seminole-style huts).

3 Big Cypress Swamp

This vast, shallow wetland basin is not a true swamp but a range of wet and dry habitats determined by slight differences in elevation. It is home to hundreds of species, including the Florida panther.

4 Shark Valley

This area, only 17 miles (27 km) from the western edge of Miami, has a 15-mile (24-km) loop road that you can travel by bicycle or on a narrated tram ride. It ends at a tower (left) that affords great views.

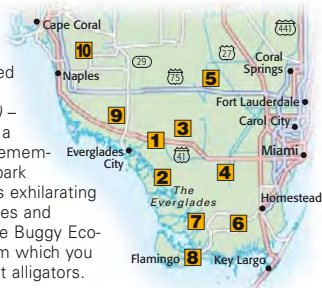

5 Ah-Tah-Thi-Ki and Billie Swamp

A museum here is devoted to Native American Seminole culture (*left*) – *ah-tah-thi-ki* means “a place to learn, or remember.” A wildlife park

nearby has exhilarating airboat rides and informative Buggy Eco-Tours, from which you might spot alligators.

9 Fakahatchee Strand

One of Florida’s wildest areas, a 20-mile (32-km) slough (muddy backwater), noted for the largest stand of native royal palms in the US, unique air plants, and rare orchids. There are boardwalks (*right*) and rangers on hand.

10 Corkscrew Swamp

A boardwalk takes you through various habitats, including a stand of old cypress full of nesting birds. The endangered wood stork has been spotted here.

8 Flamingo

Flamingo is called home by only a handful of park rangers these days, but it was once an outpost for hunters, fishermen, and smugglers, accessible only by water. Sportfishing, canoeing, bird-watching, and hiking are very good here.

6 Anhinga and Gumbo Limbo Trails

Both of these popular trails begin at the Royal Palm Visitor Center, the site of Florida’s first state park.

7 Mahogany Hammock

Farther along toward Flamingo, you’ll come to one of the park’s largest hammocks (fertile mounds), where a trail meanders through dense tropical growth. This is home to the largest mahogany tree in the country and colorful tree snails.

Preserving the Everglades

The Everglades evolved over a period of more than 6 million years, but humans almost destroyed its fragile balance in less than 100. In the 1920s, the Hoover Dike closed off Lake Okeechobee, the main source of Everglades water, and Highway 41 was built, further blocking its natural flow. Thankfully, environmentalist Marjory Stoneman Douglas reversed the march toward doom. Today, there are plans to build levees around the Everglades, to help keep the vital moisture in.

Though not well known for its beaches, the park's northern part is popular with surfers, and you can watch cruise ships gliding in and out of the Port of Miami.

TOP 10 Snorkeling and Diving

1 John Pennekamp Coral Reef State Park

Many say this park offers some of the best snorkeling in the world. Various boats can also be rented here, or you can take a more leisurely view from a glass-bottomed boat (see p115).

2 Biscayne National Underwater Park

Closer to Miami than John Pennekamp, the Biscayne National Underwater Park has almost as many good snorkeling possibilities. Here you'll find vivid coral reefs to dive among, and mangrove swamps to explore by canoe (see p108).

3 Looe Key National Marine Sanctuary

A brilliant coral dive location, and the closest great snorkeling to Key West. Accessible from Bahia Honda State Park (see p117).

4 Dry Tortugas National Park

Located almost 70 miles (110 km) west of Key West, these seven islands and their surrounding waters comprise a fantastic park. The snorkeling sights are exceptional, due to the shallow waters and abundance of marine life. You can snorkel directly off the beaches of Fort Jefferson or take one

of the trips to the wreck of the *Windjammer*, which sank on Loggerhead Reef in 1907. Tropical fish, lobster, and even goliath grouper can be found (see p129).

5 Key Biscayne Parks

Both Crandon and Bill Baggs Parks have excellent areas for snorkeling, in some of Miami's cleanest, clearest waters (see pp72-3).

6 Fort Lauderdale Waters

Fort Lauderdale has been awarded the Blue Wave Beaches certification for spotless sands and crystal waters, which add up to superior underwater viewing. Many of the most interesting parts of the three-tiered natural reef system here are close to the shore, though most require a short boat ride. In addition, more than 80 artificial reefs have been built to enhance the growth of marine flora and fauna. Ocean Promotion is one of the

Take the plunge right off the beach at Fort Zachary Taylor State Park, or join an expedition out to the reefs that lie all around this island (see pp26–7). TOP 10 Historic Sites and Monuments

1 Vizcaya
James Deering's opulent monument celebrating Western civilization and its rich artistic traditions has become Miami's most beloved social and cultural center (see pp16–17).

2 Ancient Spanish Monastery
Originally built in 1133–41 in Segovia, Spain, this monastic building was bought by William Randolph Hearst in 1925 and shipped to New York. The parts were eventually reassembled here in 1952, though, curiously, a few pieces were left over (see p91).

3 The Barnacle
Built in 1891, this is Dade County's oldest house, which cleverly uses ship-building techniques to make it storm proof as well as comfortable (without the use of air-conditioning) in Florida's steamy climate (see p100).

4 Coral Gables Merrick House
The house where the Merrick family lived in the late 1800s and where George Merrick, Coral Gables' master builder, grew up. The contrast between the modest surroundings of his home and the spectacle of his grandiose dreams is fascinating (see pp18–19).

5 Coral Castle
This monument to unrequited love speaks volumes about early Florida's place in US history as a refuge for misfits, eccentrics, and visionaries. Land was cheap (the creator of Coral Castle bought his acre plot for \$12 in 1920) and the population was sparse, so it was easy to do your own thing without being bothered. But how this gargantuan folly was actually constructed remains an enigma (see p107).

6 Brigade 2506 Memorial
Little Havana's Eternal Flame and monument garden remembers those who died in the Bay of Pigs debacle, attempting to reclaim Cuba from leftist revolutionary forces in 1961 (see p14).

7 Holocaust Memorial
Miami has one of the largest populations of Holocaust survivors in the world, so this stunning monument has extra poignancy. Sculpted by Kenneth Treister and finished in 1990, the centerpiece is an enormous bronze forearm bearing a stamped number from Auschwitz. The arm is thronged with nearly 100 life-sized figures in attitudes of suffering. The surrounding plaza has a graphic pictorial history of the Holocaust, and a granite wall listing the names of thousands of

Holocaust Memorial

concentration camp victims.

8 Opa-Locka
 Despite the rather seamy area it inhabits, "The Baghdad of Dade County" is worth visiting for its 90 or so Moorish-style buildings. They were built here by Glenn Curtiss during the 1920s boom (see p91).

9 Charles Deering Estate
 James Deering's half-brother built this winter residence for himself on Biscayne Bay. The original 19th-century house, Richmond Cottage, was destroyed by Hurricane Andrew in 1992, but it's been rebuilt and the entire estate refurbished since then, including the extraordinary Mediterranean-Revival mansion (see p107).

Stranahan House

10 Stranahan House
 Fort Lauderdale's oldest house, built originally in 1901 as a trading post for the Seminoles. The handsome two-story riverside house is furnished with period antiques, but it is the photos that best evoke the past, such as Stranahan trading alligator hides, otter pelts, and egret plumes with the local Seminoles. Such prizes were brought in from the Everglades in dugout canoes.

5 Ingraham Building
This Renaissance-Revival beauty is a don't-miss landmark in Downtown Miami, and it evokes all the glamour of the 1920s' boom era (see p85).

6 Bank of America Tower, International Place
I. M. Pei's striking take on the ziggurat theme so often used in Art Deco, looking for all the world like a stepped stack of CDs in various sizes. It's especially appealing at night when it's lit up with vibrant colors (see p84).

7 Atlantis Condominium
Built by Arquitectonica in 1982 and soon thereafter one of the stars of *Miami Vice*, this "building with the hole in it" is in danger of being overrun by the rampant construction going on all along Brickell. The "hole" is an ingenious 37-ft (11-m) cube cut out of the building's center, at the 12th floor. The roof is an oasis, with sprouting trees. ☎ 420 Jefferson Ave, Miami Beach

10 Key West Old Town
 Key West (see pp26–7) has the largest collection of 19th-century structures in the US. About 4,000 buildings, mostly houses, embody the distinctive local style. Many architectural features take their cues from elements used on ships, such as roof hatches to allow air circulation. One unique innovation is the “eyebrow” house, with second-floor windows hidden under a front porch roof overhang, providing shade in the unremitting heat.

Resembling a plump lighthouse, this colorful tower (built 1924) was the work of Denman Fink, George Merrick's uncle. TOP 10 Drives and Walks

Downtown Miami

1 Miami Beach to Tip of Key Biscayne

From South Beach, drive west on 5th Street, which becomes the MacArthur Causeway, I-395. Great views to be had over the water and the posh artificial islands, notably Star, Palm, and Hibiscus. Soon you'll be soaring over Downtown on the overpass that leads around to I-95, getting a bird's-eye view of the many skyscrapers, which are particularly attractive at night. Just before I-95 ends, take the exit for Key Biscayne. Stop at the Rickenbacker Causeway tollbooth (\$1). The high arching road offers more great views of the skyline and takes you to deserted Virginia Key and then to quiet Key Biscayne. 🗺 Map H3-4

2 Routes North

There are three ways to make your way by car north from Miami: Interstate 95 is the fastest, unless it's rush hour, but is really only to be used if you have a certain destination in mind. Highway 1 is closer to the sea, but is lined with local businesses practically all the way, so the stop-and-go traffic can be a real drag. A1A, however, makes the time spent decidedly worthwhile, rewarding the traveler with a range of natural beauty and elegant neighborhoods of the Gold and Treasure Coasts (see pp24-5 & 128).

3 Miami to Key West

You can do this drive in about three-and-a-half hours, but why hurry? There are great sights along the way, like the fantastic giant lobster at Treasure Village artists' colony. It's also definitely worth a stop to have a great seafood lunch or dinner on the water. Other attractions include parks and nature preserves (see pp36-7), and Perky's Bat Tower (see p49). 🗺 Map D4-A6

4 Everglades Trails There are several roads for exploring the Everglades: I-75, Alligator Alley; Hwy 41, the Tamiami Trail; or the less developed road (No. 9336) from Florida City. Off all of these roads, you'll find many opportunities for excursions into the wild (see also pp28-9 & 127).

5 Deco District With some 800 Tropical Deco wonders to behold, you can hardly miss; just walk or bike along Ocean Drive, and Collins and Washington Avenues between about 5th and 22nd Streets (see also pp10-13).
 ☉ Map R5-S1

6 SoBe Streetlife Almost synonymous with the Deco District. All the action is concentrated in three areas: Ocean Drive and the parallel streets of Collins and Washington (where most of the clubs are); the seductive Lincoln Road and the Española Way pedestrian malls (see also pp8-9 & 57).

7 Calle Ocho The main walking part of Little Havana lies along SW 8th Street, between about 11th and 17th Avenues. But interesting spots are quite spread out for blocks around, and most of them are best found by driving, then exploring on foot (see pp14-15).

8 Coco Village Always lively, usually with young, perky people, this is downtown Coconut Grove. As well as shops, outdoor eateries, and cafés, live bands often play in CocoWalk (see also pp98-105).

9 Key West Old Town The only sensible way to get around Key West is either on foot or by bike; there's so much detail to take in and, besides, parking is usually a problem here. A planned tour can be fine (see p121), but it's just as good to walk wherever inspiration leads (see also pp26-7).

10 Palm Beach To experience the essence of this wealthy community, begin your walk at Worth Ave. on the beach at Ocean Blvd. Walk west and check out as many of the fabulous shops as you dare. Continue on to Addison Mizner's pink palace, Casa de Leoni (No. 450), then take Lake Drive north to Royal Palm Way. Visit the Society of the Four Arts, then continue on north to the Flagler Museum. Finally, go east along Royal Poinciana Way and south to The Breakers (see p25).

4 Fairchild Tropical Garden
The tranquil, silvery lakes, broad vistas and lush, dappled retreats are capable of bringing out the romantic in anyone. Badly damaged by Hurricane Andrew in 1992, the gardens have made a brilliant comeback, and are certainly worth a stroll to inhale the fragrant, shaded bowers, and perhaps stay for dinner at the nearby Red Fish Grill (see also p107).

**Venetian Pool**

5 Coral Castle

One Edward Leedskalnin created this huge coral rock Valentine heart to win back his fickle love. She remained unmoved by his Herculean labors, however, and he died here alone in 1951 (see also p107).

Morikami

6 Morikami Japanese Gardens

The 1,000-year-old originals of some of these deeply peaceful settings were designed for Japanese nobility – places of inspiration for them to recite poetry to each other, or to seek solace in troubled times. Few places evoke the serenity and spiritual depth you can sense here, in the silent rocks and the murmuring cascades (see also p37).

7 Tantra

Aphrodisiac cuisine in an erotic arena evoke a sense of Indo-Persian culture. Real grass carpets and sensuous sculptures and paintings set the tone. Sublime Middle-Eastern and Indian fusion dishes are served in a somewhat desultory, yet suggestive, fashion in a candlelit ambience where palm fans softly spin. 📍 1445 Pennsylvania Ave • 305-672-4765 • \$\$\$\$

8 Red Fish Grill

Perhaps the most starry-eyed setting in Miami, with its shimmering bay views and evocatively lighted foliage. The potent backdrop of Biscayne Bay, Fairchild Tropical Gardens, and nearby Mattheson Hammock Park and saltwater Atoll Pool make this an unforgettable place to dine. Attentive service and delicious food (see p111).

9 Hotel Place St. Michel

French-style boutique hotel with an exquisite restaurant. Stay a night or two and you'll think you're in a chic little pension in Paris. The subtly lit bistro is a perfect place for a quietly intimate tête-à-tête, yet all this is within walking distance

of downtown Coral Gables (see also pp105 & 150).

10 Mallory Square, Key West, at sunset

Although you will most likely be there with a hoard of other sunset-viewers, the beauty of this moment and the general air of merriment will provide you with a memorable experience. Watch a tall ship sail in front of the huge setting sun, blazing orangy-pink at the Gulf's edge. True romantics should keep an eye out for the beguiling green flash that's said to occur just before the sun disappears below the horizon – if you catch it, it means good luck in love (see also p26).

Youngsters may also enjoy a visit to the finches in their elaborate cages, as well as a stroll around the gardens and the fountains within the grounds (see p99).

8 Museum of Science and Planetarium

The young and curious will find much to capture their attention and imagination in this multi-faceted facility. There are over 140 hands-on exhibits to explore the worlds of sound, light, and gravity, not to mention the chance to hug a dinosaur. NOWHERE ELSE ON EARTH seems to be so happily addicted to glamour as Miami Beach. All the traits of modern life are here, pushed to the limit: symbols of speed, wealth, and status are vaunted everywhere you look in this body-conscious, sexually charged resort. Key Biscayne, the next big island to the south, provides a stark contrast to the dynamism and self-consciousness of its neighbor; here you will find a tranquil and family-oriented atmosphere pervading parks, perfect beaches, and a scattering of museums.

Cavalier Hotel, Deco District

1 SoBe and the Deco District

Posh high-life and decadent low-life meet and the fun never stops in the vibrant beach-and-nightclub community of South Beach – otherwise known as SoBe (see pp8–9). The world-famous Deco District (see pp10–13), an essential element of Miami Beach, is beautifully preserved in hundreds of colorful, inspired buildings.

2 Parrot Jungle Island

See more than 3,000 species of animals and over 110 species of plants at this 18.6-acre theme park. The centerpiece is the beautiful tropical gardens, and a highlight is the park's world-famous bird show, with parrots, storks, macaws, cockatoos, cranes, a Blythe hornbill, and other unusual birds. But there are more than birds here: there is a huge collection of reptiles (including a rare albino alligator) and poisonous snakes, in the Serpentarium, and

a petting farm with lots of friendly animals. You don't even have to pay admission to enjoy the beautiful views at the Lakeside Cafe – it overlooks a sea of pink flamingos in Flamingo Lake. ☺ *Watson Island in Biscayne Bay nr the Port of Miami* • www.parrotjungle.com • 305-400-7000 • 9:30am–6pm • Adm

This Mayan-influenced Deco structure of the 1930s came of age in 1964, when John and Johanna Bass donated their extensive collection of art. 5 Miami Seaquarium
This has been a Miami institution since the 1960s, when the hit TV series *Flipper* was filmed here. Trained dolphins still swim in the cove where Flipper once swam, and you can join them under a trainer's watchful eye for a fee. There are live shows throughout the day, featuring sea lions and killer whales as well as dolphins. 6 Crandon Park
Key Biscayne is blessed with some of Miami's top beaches. Certainly the most impressive is this one, which is actually rated among the top ten in the country. Located on the upper half of the key, it's 3 miles (5 km) long and

Miami Vice

September 16, 1984, was a day that was to transform Miami almost overnight. It was the day *Miami Vice* debuted on TV, setting the stage for this city to conquer the world of high-profile glitz and hedonism. Suddenly the slick, cotton-candy-colored world of edgy outlaws, fast cars, and deals caught the global imagination, and Miami was the place to be.

7 Marjory Stoneman Douglas Biscayne Nature Center
Part of Crandon Park, this center contains a unique black mangrove reef of fossilized wood and roots along the northeast shore of Key Biscayne. Wearing suitable foot protection, you can wade in shallow waters to explore the underwater world. The nature center is named after the woman who almost single-handedly saved the Everglades from being overrun by housing developments, and it offers information and guided tours. 📍 4000 Crandon Blvd, Key Biscayne • *Map H4*

8 Harbor Drive
Winding along the western shore, this is the heart of Key Biscayne's upscale residential district. The lucky ones with houses on the outer side of the road have magnificent views of Downtown Miami from their back gardens. Although the area has its share of mansions, most of the houses are more modestly proportioned. Still, it's a rarefied neighborhood where flocks of ibis can be found picking away on someone's lawn. 📍 *Map G4*

9 Bill Baggs Cape Florida State Park
This beach, also rated among the nation's top ten, is conveniently joined to picnic areas and

pavilions by boardwalks across the dunes. The sugary sand is sometimes marred by clumps of seaweed, but it is the stinging man-o'-war jellyfish that you need to watch out for most.

10 Cape Florida Lighthouse
The oldest structure in South Florida has been standing sentinel since 1825. In 1836, it was destroyed by Native Americans, only to be reborn 10 years later. It has since withstood some blistering meteorological onslaughts, but the worst threat came from simple neglect following its dismissal from duties 1878. Only in 1966 did its renovation and preservation begin. 📍 *Map H4 • Tours at 10am and 1pm; 109 steps to the top*

A Walk Through the Deco District

Morning

📍 From the southern end of the District on **Ocean Drive**, at 6th Street, head northward, checking out not just the façades but also as many of the hotel interiors as you can. Many have unique design elements in the lobbies, bars, and gardens.

Between the **Leslie** and the **Cardozo** is the wonderful **Carlyle**, currently undergoing a major restoration.

Turn left after the Cavalier, and go to the next street over, **Collins Avenue**. Turn right on Collins and check out **Hoffman's Cafeteria** at 1450, built in curved Nautical style in 1939 by Henry Hohausser. Stop here for lunch.

Mid-afternoon

A little farther on, you'll find the **St. Moritz Hotel**, which features a cut coral façade and neon.

At 1685, you can't miss the all-white **Delano**, with its landmark winged tower. The outlandish post-modern interiors are by Philippe Starke, and contain original Dali and Gaudi furniture.

Next stop is the **Ritz Plaza**, with another fantasy tower in glass block. When you get to 21st St, turn left; on the next corner you will encounter the **Abbey Hotel**, with its marvelous salamander motif and Flash Gordon-style towers.

📍 Head back to Collins Ave, and at 1775 you'll find **The Raleigh Hotel** – it's a beautiful location for drinks.

1 Swimming
The hotel pool or the surging gray-blue Atlantic Ocean? This is Florida, and swimming is number one – snorkeling, too, in quieter areas, especially Crandon Park on Key Biscayne (see p72) and off South Pointe.

2 Volleyball
Anywhere there's a developed beach, you'll find a volleyball net and a quorum of players. Lummus Park is the best place to show off your skills to Miami's greatest beach bums, but South Pointe Park's a close contender.

3 Fishing
Deep-sea fishing out in the ocean, or the more conventional kind off a jetty or pier – both are readily available. The jetty or Sunshine Pier at First Street Beach on Miami Beach is good, or the breaker area just south of the Lighthouse on Key Biscayne.

4 Bicycling

5 Jet-skiing
At Hobie Island Beach (see p30) you can rent one of these exciting modes of fun on the water, or head over to Virginia Key and you'll find Jet Ski Beach, with lots of rental stands.

6 Tennis
There are plenty of tennis courts all over the islands. ☎ *Information about public courts*, Miami-Dade County Parks and Recreation Department, 305-755-7800 • *Flamingo Tennis Center*, 1000 12th St, S Beach

7 Golf

8 Windsurfing and Surfing
For windsurfing, the intra-coastal waterways are calmer and there's almost always a breeze; check out Windsurfer Beach on Virginia Key for rentals. For surfing, the waves on the Atlantic side are plenty gnarly; the best spot is just off First Street Beach.

9 Kite-Flying
A very popular activity, given the prevailing maritime winds. There's even a park especially for kite enthusiasts at the south end of Haulover Park.

10 Workouts
South Pointe Park has a "Vita Course," a fitness circuit you can huff and puff your way through while taking in the views of the port, and enjoying the relative spaciousness compared to the crowds of Lummus Park.

Downtown and Little Havana

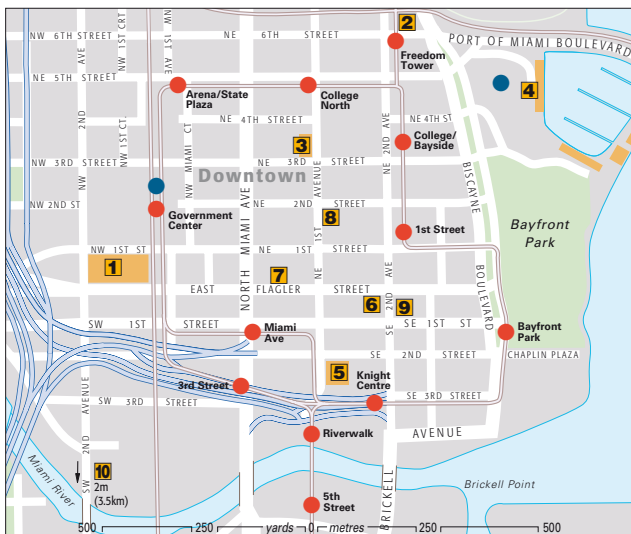

A LITTLE RUNDOWN, *this part of Miami is a foreign land for most Americans, but – if you are willing to make the cultural adjustment – it is a fascinating land. Here along the Miami River is where it all started in the late 1800s, but it took the arrival of Cuban exiles from the 1950s on for Miami to come into its own as a world player. On these brash streets, you will see that the influx from countries to the south has yet to abate and that the face of Miami is more Latino each day.*

Miami-Dade Cultural Center

1 Miami-Dade Cultural Center

Designed by the celebrated American architect Philip Johnson in 1982, the Mediterranean-style complex, set around a tiled plaza, incorporates the Miami Art Museum (see p42); the Historical Museum of Southern Florida (see pp42–3); and the Main Public Library, which contains four million books. ☎ 101 West Flagler St, Downtown • Map M2 • Library 9am–6pm Mon–Sat (to 9pm Thu), 1–5pm Sun

2 Freedom Tower

Downtown's landmark was built in 1925 in the Mediterranean-Revival style, inspired by the Giralda, an 800-year-old bell tower in Seville, Spain. Initially home to the now-defunct *Miami Daily News*, its role and name changed in the 1960s, when it became the reception center to process more than 500,000 Cubans fleeing Castro. It was restored in 1988 to create a Cuban museum, which is located in the lobby of the building. ☎ 600 Biscayne Blvd, Downtown • Map N1

Freedom Tower

3 US Federal Courthouse

This imposing Neo-Classical edifice, finished in 1931, has hosted a number of high-profile trials, including that of Manuel Noriega, the former Panamanian president, in 1990. The spartan jail cell where he awaited trial on international drug-trafficking charges is also in this building. The main attraction is the second-floor mural entitled *Law Guides Florida's Progress*, designed by Denman Fink, famous for his work in Coral Gables. It depicts Florida's evolution from a tropical backwater to one of America's most prosperous states. ☎ 301 North Miami Ave, Downtown • Map N1 • 8am–5pm Mon–Fri, closed public hols & during major trials

4 Bayside Marketplace and Bayfront Park

Curving around Miamarina, this shopping and entertainment complex is undeniably fun and the Downtown area's best attraction. It's not South Beach, but La Vida Loca echoes here, too, often with live salsa bands playing on the esplanade. Shops – including Guess?, Victoria's Secret, Structure, and Foot Locker – and 30 eateries, with everything from ice cream to paella, make it a happening place. To the south, Bayfront Park, designed by Isamu Noguchi, is extensive and can provide a pleasant interlude of greenery, water, monuments, sculpture, and striking views. ☎ 401 Biscayne Blvd at 4th St, Downtown • Map P1–2 • www.baysidemarketplace.com • 10am–10pm Mon–Thu, 10am–11pm Fri & Sat, 11am–9pm Sun

Left **Bank of America Tower** Right **Ingraham Building**

5 Bank of America Tower
 The city's most striking skyscraper is the work of architect I. M. Pei, perhaps most famous for putting the glass pyramid in the courtyard of the Louvre in Paris. This building is notable both during the day for its Op-Art horizontal banding across the stepped hemi-cylinders, and at night for the changing, sophisticated colors of its overall illumination. Built in 1983, the office building was known first as Centrust Tower, but it now bears the moniker of its current principal tenant. 📍 *International Place, 100 SE 1st St., Downtown • Map N2*

6 Gusman Center for the Performing Arts
 Built in 1926, this theater has a fabulously ornate Moorish interior and is housed in the similarly colorful and festooned Olympia Building. It began as a vaudeville theater, where Rudy Vallee used to perform, and Elvis Presley also gigged here. Inside, the hall looks like an Arabian Nights palace, with turrets, towers, intricate columns, and a crescent moon and stars in the ceiling. Buy a ticket to anything just to see it. 📍 *174 E Flagler St, at SE 1st Ave., Downtown • Map N2 • Box Office 305-372-0925*

Gusman Center

Gateway to Latin America

Two-thirds of Miami's population is of Hispanic origin. Pick up the *Miami Herald* and you'll see that the news of the day in Caracas, Bogotá, Managua, and above all Havana is given top billing. All these connections, for good or ill, have made Miami the US kingpin in dealing with Latin and South America.

7 Flagler Street
 Flagler is Downtown Miami's main drag – loud, bright, busy, and lined with small shops and street peddlers. Pop into the Galería International Mall (243 East Flagler Street, at SE 2nd Avenue) for cheap and tasty ethnic snacks, while on the next block is the stylish Gusman Center. On East Flagler Street at NE 2nd Avenue, look for the Alfred I. DuPont Building (1937–9), a paean to Art Deco in the Depression Moderne style. 📍 *Map N2*

8 Gesu Church
 This Mediterranean-Revival building in the Spanish Colonial style (built 1922) is the oldest Catholic church in Miami. Dozens of masses are held every week, in English and Spanish. The church is noted for its stained-glass

windows, which were made in Munich, Germany. The ceiling mural was restored in its entirety by a lone Nicaraguan refugee in the late 1980s. 📍 *118 NE 2nd St, Downtown • Map N1 • 305-379-1424*

9 Ingraham Building
Completed in 1926, this is a kind of Neo-Renaissance work: the building's twelve stories are clad in Indiana limestone and its roof sheathed in Spanish tiles. The interior is opulent, featuring a lavish ceiling decorated in gold leaf, with the building's insignia cast in brass. The lobby's light fixtures, the mailbox, and the office directory are all original. Picked out in gold on the elevator are scenes of South Florida wildlife. 📍 *25 SE 2nd Ave, at E. Flagler St, Downtown • Map N2*

10 Calle Ocho and Around

A slice of Cuban culture, liberally spiced up with all sorts of other Hispanic and Caribbean influences. Since Castro's Communist revolution in Cuba, Miami has become ever more Cubanized by wave after wave of immigrants from the embattled island they still long for as home (see pp14–15).

A Trip Through Calle Ocho

Mid-morning

📍 First stop, if you like a cigar, is **El Crédito** (see pp14 & 88) on SW 11th Ave. Just a few doors along you'll find the **Botánica El Aguila Vidente** (see p88). Let your eye wander over the shop's plethora of paraphernalia, most of all the colorful plaster statues.

📍 Next stop is at SW 13th Avenue, to pay your respects to fallen Cuban freedom fighters at the **Brigade 2506 Memorial Eternal Flame** (see p14), before a sortie into the delightful fruit market at 1334, **Los Pinareños Fruteria** (see p88).

📍 At the corner of SW 15th Ave, peek in on **Domino Park** (see p15) where there's always at least one game going on. And now comes time to stop for coffee and maybe a snack at the wonderful **Exquisito** (see p89). Try to grab one of the vibrantly colored tables outside.

Late morning

📍 Continuing on to the next block, at 1652, take in the exciting Latin American art at the **Agustín Gaínza Gallery** (see p88), where you're likely to meet the affable artist himself.

📍 After that, try a free-form ramble of discovery – but don't miss the gaudy entrance to **La Casa de los Trucos** (see p88), at 1343 – and when it's time for lunch, head for **El Pescador** (see p89), also on the north side of Calle Ocho. This is the place to go for delicious fish.

TOP 10 Walks, Drives, and Viewpoints**1 Bayside Marketplace**

Adjacent to the impressive American Airlines Arena, this complex feels part Disney theme-park, part international bazaar. Right on the waterfront, it's always good for a stroll (see p83).

2 Flagler Street

Walking through the heart of Downtown Miami is reminiscent of a marketplace you might encounter in Latin America – colorful, brash, rather seedy – and none too safe at night (see p84).

3 Calle Ocho Walk

The area between 11th and 17th Avenues is excellent for walking. You can check out ethnic shops and sample various Cuban delicacies along the way (see p85).

4 Architectural Walk

The buildings highlighted on pages 83–5 are lined up over about six blocks along NE–SE 1st and 2nd avenues. Another building worth a look is the Neo-Classical-Revival Miami-Dade County Courthouse, three blocks away. Don't miss the ceiling mosaics in the impressive lobby. ☉ Map N1–2

5 A Drive through Little Havana

To get the overall feel and extent of Little Havana, it's best to drive, from José Martí Park in the west to about 34th Avenue in the east, where the Woodlawn Cemetery and Versailles Restaurant are located (see p15).

6 Views of Downtown

Some of the best views of Downtown are afforded from the freeways. Coming across MacArthur Causeway from South Beach, you'll get some dazzling perspectives, especially at night. The finest view of the skyline is from the Rickenbacker Causeway. ☉ Maps P1 & M6

7 A Ride on the Metromover

The Metromover consists of two elevated loops around Downtown, so it's a great way to get an overview of the area (see p137).

8 A Calle Ocho Café

The Exquisito Cafetería (see p89) is the best on the street and a wonderful place to listen to the music and watch the fascinating street life all around.

9 A Stroll in José Martí Park

This charming little park by the Miami River is graced with colonnades and pavilions, Spanish-style clusters of street lamps, palm trees, and an excellent children's playground. ☉ Map M2

10 A Stroll in Bayfront Park

Right on beautiful Biscayne Bay, Noguchi designed this park "as a wedge of art in the heart of the New World." Here, in addition to Noguchi's sculptures you will find lush greenery, a small sand beach, tropical rock garden, cascading fountain, palms, and olive trees. ☉ Map P1–2

North of Downtown

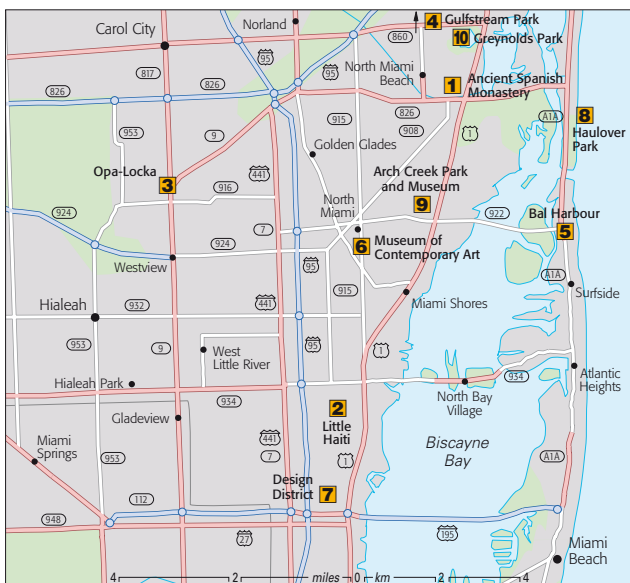

THE AREAS NORTH of Miami Beach and Downtown are an irreconcilable juxtaposition of urban sprawl and urban chic, of downtrodden ethnic and high-flying elite. Little is actually scenic, although the beaches are among the area's greatest. Indeed, much of northern Miami has the reputation of a slum. There's local color to be discovered, but the vibes can be less than welcoming, and you should be careful. Still, some of Greater Miami's most scintillating sights, including one of the oldest buildings in the Americas, and fine dining can also be found here.

A Tour of the Ancient Spanish Monastery

Morning

Drive north from central Miami on Highway 1 (also called Biscayne Blvd). The road is lined with shops – stop off at any that catch your eye. Turn left on NE 163rd St, then right onto W Dixie Hwy (also NE 22nd Ave). The **Ancient Spanish Monastery** (see also p91) is on the right after the canal.

You may well feel a sense of awe as you walk around this beautiful little piece of medieval Europe on US soil. Even European visitors, who have visited many such buildings in their homeland, might still marvel at the dedication of Hearst to put it here.

For the best route through the grounds, start at the gift shop/museum, exit to the patio, through the gardens, cloisters, interior rooms, culminating with the chapel, and back through the gift shop.

Among the notable sights are an 800-year-old birdbath, a life-size statue of the Spanish king Alphonso VII (the monastery was constructed to commemorate one of his victories over the Moors), and two of only three known surviving round stained-glass windows from the 12th century.

Coral Gables and Coconut Grove

CORAL GABLES AND COCONUT GROVE, taken together, constitute one of the most upscale neighborhoods in Greater Miami. The former is actually a separate city, while the latter is a district of Miami, its oldest, and the site of the Miami City Hall. Coral Gables was one of the nation's first "planned" cities and is consistently posh from end to end. Coconut Grove is a more variegated mosaic, historically the focus of Miami's intellectual, bohemian community but also incorporating the blighted "Black Grove", where the descendants of Bahamian workers often live in real squalor.

Biltmore Hotel

1 Biltmore Hotel

George Merrick was one of the visionaries who made Florida into what it is; this lavish hotel stands as a monument to his taste and grand ideas. Herculean pillars line the grand lobby, and from the terrace you can survey the largest hotel swimming pool in the country. Johnny Weismuller, the first movie Tarzan, used to teach swimming here, and the likes of Al Capone, Judy Garland, and the Duke and Duchess of Windsor came in its heyday. Weekly tours of the hotel and grounds depart from the front desk (see also pp18 & 146). Map F3

2 Venetian Pool

One of the loveliest and most evocative of Merrick's additions

to his exotic vision for Coral Gables. The pool is fed by springs and was the site of at least one movie starring Esther Williams, the 1940s water-ballet beauty (see also pp18–19 & 64). Map G3

3 International Villages

Merrick's architectural flights of fancy still add a special grace note to beautiful, upscale Coral Gables. All are private homes, but you can drive by and take in their unique charms (see also pp18–19). Map G4

4 Miracle Mile

In 1940, a developer hyped the town's main shopping street by naming it Miracle Mile (a mile if you walk up one side and down the other). Colorful canopies adorn shops as prim and proper as their clientele. Buildings of note are Merrick's Colonnade Building, at 169, with its splendid rotunda; the Doc Dammers' Saloon, with great photos of old Coral Gables; and, on nearby Salzedo Street at Aragon Avenue, the Old Police and Fire Station, 1939, with square-jawed sculpted firemen.  This compact, two-story center is the heart of Coconut Grove Village, and features some good shopping, dining, and entertainment. The atmosphere is, in fact, that of a village. The main attraction in the evening is probably the multiplex cinema. 📍 3015 Grand Avenue • Map G3 • www.cocowalk.com

Grand Plans in the Grove and Gables

The area called Coconut Grove was the first in the Miami area to be settled. Following the Civil War, in 1868, Edmund Beasley responded to the Homestead Act of 1862, claiming his 160 acres of land here, his free if he could only manage to live on it for five years and make some improvements, which he did. It took the genius of George Merrick, some 60 years later, to dream the notion of preplanning an entire ideal city – Coral Gables (see pp18–19).

oldest home. It was designed and built in 1891 by Commodore Ralph Munroe, who made his living as a boat builder and a wrecker (salvager). In fact, wood from shipwrecks was used to build the house, and it was inventively laid out to allow the circulation of air, all-important in those days before air-conditioning. Rooms are stuffed with old family heirlooms, old tools, and wonderful early appliances. 📍 3485 Main Highway, Coconut Grove • Map G3 • 305-448-9445 • www.floridastateparks.org • 9am–4pm Fri, Sat, Sun, Mon; by reservation Tue, Wed, Thu • Closed national holidays • 1-hour tours at 10 & 11:30am, 1 & 2:30pm • Adm

9 Peacock Park

In the 1960s, this was where the Grove hippies grooved, and on weekends now and when there's a festival, some of the old magic gets temporarily resurrected. The park is named after Charles and Isabella Peacock, who built the area's first hotel, the Peacock Inn, which at the time was the only hotel between Palm Beach and Key West. The park is now largely a baseball field, and there's also a rustic Chamber of Commerce building. 📍 2820 MacFarlane Ave, at Bayshore Drive, Coconut Grove • Map G3

10 Dinner Key

The name derives from the early days when settlers had picnics here. In the 1930s, Pan American Airways transformed Dinner Key into the busiest seaplane base in the US. It was also the departure point for Amelia Earhart's doomed round-the-world flight in 1937. The airline's sleek Streamline Moderne terminal houses the Miami City Hall, and the hangars are now mostly boatyards, though one is the famous Monty's Stone Crab Seafood House and Raw Bar (see p105). The marina here is now the most prestigious in Miami, so walk along and enjoy inspecting the yachts berthed here. 📍 5 Bayshore Drive, Coconut Grove • Map G3

A Tour of Coconut Grove Village

Morning

This walk is designed for Friday–Monday, because it begins with a tour of the **Barnacle Historic State Park**. Try to get there for the 10am tour, and notice the distinctive roof, which gives the house its name.

As you exit, turn left and go down to the corner of Devon Road to enjoy the Mission-style **Plymouth Congregational Church** (see p47), built in 1916. If they're open, pop into the back gardens.

Now walk back along Main Highway several blocks to 3500, the **Coconut Grove Playhouse** (see p38), a handsome Mediterranean-Revival building that dominates the corner at Charles Avenue. Continue along Main Highway to the next street, then stop for lunch and some top-notch people-watching at the every-busy **Green Street Café** (p102).

Afternoon

After lunch, walk up Commodore Plaza to visit 3168, the **Midori Gallery** (p104). Afterwards, continue on to Grand Avenue and turn right; go down a couple of blocks to the major intersection and cross the street into the shopping mecca **CocoWalk**.

On the next block, Rice Street, look up to admire the fanciful façade of **The Streets of Mayfair** mall (p104). To finish your tour, visit **Borders** (p104) on the corner of Grand Avenue and Mary Street for a drink and maybe a book on Grove history.

Morning

📍 To get to the **Charles Deering Estate** (see p107), drive south from Miami on Hwy 1 (also called the Dixie Hwy) and turn left on SW 168th St. Follow it until it deadends at the Estate on SW 72nd Ave.

A full tour of the grounds will take 3–4 hours. Follow the Entrance Trail to begin, and as you emerge from the mangroves you will encounter a splendid vista of Biscayne Bay. Note the water level marker, showing the inundation caused by Hurricane Andrew.

Richmond Cottage, the original structure here, was built as an inn in 1896. It was destroyed by Andrew in 1992, but has since been replicated. The elegant Stone House next door contains bronze and copper doors, portraits of the Deering family, a celebrated wine cellar, and more besides.

Head over to the Carriage House, where you can see a vintage gas pump. If you have time, take the Main Nature Trail, which crosses a handsome coral rock bridge, built in 1918. Finally, walk out through the historic Main Entrance, with its coral rock pillars and wood and iron gates.

The Keys

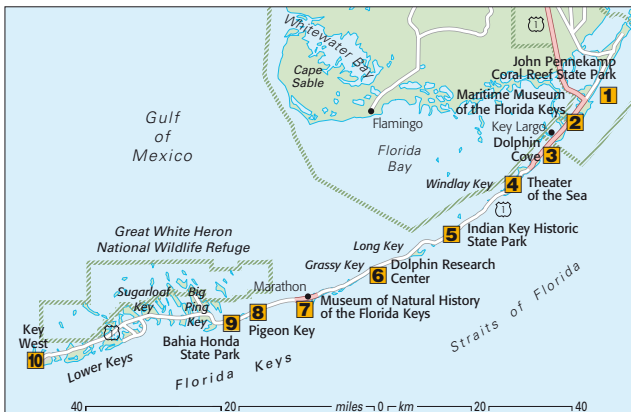

THE FLORIDA KEYS ARE A STRING OF WILD, *variegated gems hung in a necklace of liquid turquoise*. These islands still have abundant wildlife, including unique flora and fauna, as evidenced by all the parks and family attractions focusing on encounters with nature. Even so, at least 20 different species of Keys plant and animal life are endangered or threatened. This is a place for outdoor activities: water sports of all kinds, sportfishing, and hiking through the nature preserves and virgin tropical forests. Along the only route (US 1) that takes you from the mainland all the way out to Key West, you'll find everything from plush resorts to roadside stands selling home-grown produce.

1 John Pennekamp Coral Reef State Park

The park is best known for its fabulous underwater reaches, providing an unforgettable glimpse of coral reef life. You can also rent canoes, dinghies, or motorboats, as well as snorkeling and scuba gear, or choose a glass-bottom boat ride. Most destinations are actually located in the neighboring Florida Keys (Key Largo) National Marine Sanctuary. The shallow waters of White Bank Dry Rocks is especially good for snorkeling, as well as nearby Molasses Reef. At Key Largo Dry Rocks, the Christ of the Deep, a submerged statue, is popular for underwater photos. MM 102.5 oceanside • Map D5 • 305-451-1202

3 Dolphin Cove

This marine environment research center, set on a lagoon, will literally let you swim with the dolphins – for a high fee. You can go in as a non-swimming observer for a lot less money. Other programs include guided kayaking and snorkeling tours, back country eco-tours, and crocodile tours. By contrast, there's also a romantic champagne Sunset Cruise on the placid waters of Florida Bay.

4 Theater of the Sea

Did you know that dolphins feel like wet inner tubes and stingrays like Jello (gelatin)? After a visit here, you'd have first-hand experience. This is the world's second-oldest (since 1946) marine mammal facility and offers a wide variety of shows and programs. There are dolphin and sea lion shows or, if you prefer, you can swim with them here, too. For a big fee, "Swim With the Dolphins"

guarantees hugs, dorsal tows, and smooches. "Swim With the Sea Lions" includes flipper tows and hugs, too. "Swim With the Stingrays" is the least expensive – a snorkeling visit to the domain of the gentle creatures.

5 Indian Key Historic State Park

Tiny Indian Key has a surprising amount of history for its size (10.5 acres/4.25ha). An ancient Native American site, it was settled in 1831 by Captain J. Houseman, an opportunistic wrecker. A small community flourished under his autocratic rule, but in 1840 Seminoles attacked, killing the settlers. The Key was abandoned, and today only the outlines of the village remain, overgrown by vegetation impressive for both its variety and rampant growth. These are the descendants of plants belonging to Dr. Henry Perrine, a botanist who was killed in the raid. An observation tower provides splendid views. 📍 *MM 78.5 ocean-side • Map C5 • 305-664-9814 for ferry service*

6 Dolphin Research Center

A not-for-profit concern, whose main function is to research dolphin behavior and provide a rest home for sick and injured dolphins, or those worn out from theme-park living. There are exhibits, regularly scheduled lagoon-side walking tours, and special programs featuring the Atlantic bottlenose dolphins. “Dolphin Encounter” lets you swim and interact with the creatures. 10 Key West
 Rich in history and breathtaking beauty, the self-styled Conch (pronounced “conk”) Republic seems truly a world apart from the rest of the US (see pp26–7).

Duval Street, Key West

A Day's Walk on Key West

Morning

📍 Begin at about 10am. Start at the Southermost Point in the continental US, overlooking the Atlantic at the intersection of Whitehead and South Streets, where the marker informs you that Cuba is only 90 miles (144 km) away. Then head up Whitehead to the **Lighthouse Museum** and climb its 88 steps for a great overview of the island and beyond.

Next stop is **Hemingway House**, at 907; here you can take in a nostalgic trip through the writer's life as a Conch. Then move on to the **Green Parrot Bar**, at 601 Whitehead, to admire its age-old funkiness and have a drink before lunch. From here, head over to Duval Street, to **Mangoes Restaurant**, at 700, for a great lunch and equally stellar people-watching.

Afternoon

Afterwards, take a look at the Spanish Colonial façade of the **San Carlos Opera House**, and, on the next block up, the stained-glass windows of **St. Paul's Episcopal Church**. At 322, pay a visit to the **Wreckers' Museum**.

Now things might get very “Key West,” as you climb to the third floor of The Bull at 224 to find **The Garden of Eden** and see who's sunning themselves in this clothing-optional bar.

Farther along, stop at historic **Sloppy Joe's** bar. By now, it should be time for the famous sunset celebration, so head to Mallory Square and add your positive energy to the festivities!

TOP 10 Plants and Animals in the Keys

1 Key Deer
The diminutive Key deer (max. 32 in/81 cm tall) are found primarily on Big Pine and No Name keys. Docile and endearing, these tiny animals have returned from the brink of extinction in the last 40 years.

2 Coral
Although it appears to be insensate rock, coral is actually a living organism, and a very fragile one at that, easily damaged by the slightest touch.

3 Gumbo Limbo Tree
This unmistakable tree is found all over the Keys – called the “tourist tree” because its bark is red and peeling.

4 Palms
Although only a few species are natives – the royal palm, the sabal palm, the saw palmetto, and the thatch palm – a huge range of imported palms now adorn the islands.

5 Sea Turtles
These good-natured, long-lived creatures come in a wide variety of shapes and sizes. From the largest to the smallest they are the leatherback, the loggerhead, the green, the hawksbill, and the Ridley turtles.

6 Herons
These elegant birds include the great blue heron (white phase, too), the little blue heron, the tri-colored heron, the green-backed heron, and the black-crowned night heron.

7 Egrets
Similar to herons are the great egret, the snowy egret (distinguishable by its black legs and yellow feet), and the reddish egret.

8 White Ibis
Recognizable for its long, down-curving beak, this medium-sized white bird was sacred to the Egyptians.

9 Double-Crested Cormorant
Notable for its S-curved neck, distinctive beak, and spectacular diving skills, this is one of the most fascinating of Keys birds.

Heron in the Keys

10 Other Endangered Species
These include the American crocodile, the Key Largo wood rat and cotton mouse, Schaus swallowtail butterfly, and roseate spoonbill, all of which have either been hunted to near extinction or lost their habitats due to human encroachment.

TOP 10 Sports Activities in the Keys

1 Swimming
Some of the best beaches in the world are found in the Keys. Don't worry if the ocean temperature happens to fall below the usual 79°F (26°C) – most hotels have heated swimming pools.

2 Snorkeling and Scuba Diving
Since the Keys are almost entirely surrounded by America's largest living coral reef, the underwater world is one of the main treats the area has to offer.

3 Fishing
Deep-sea fishermen find the Keys to be paradise. With the Gulf Stream nearby, these waters offer the most varied fishing imaginable. Boat trips are easy to come by; try the Key West Fishing Club. ☎ *Fishing Club 305-294-3618 • www.keywestfishingclub.com*

4 Windsurfing
With prevailing winds and calm, shallow waters that remain so for miles out to sea, the Keys are windsurfing perfection. Most moderately busy beaches up and down the islands have shops that rent all the necessary equipment.

5 Parasailing
As close to growing wings as you can get, parasailing in the Keys is easy, safe, and unforgettable. Many small companies offer the experience, such as Sebago, on the Key West Bight. ☎ *Sebago 305-292-2411*

6 Bicycling
There is no doubt that bicycling is one of the best ways to see the Keys. The roads are fairly bike-friendly, especially in Key West, and bicycle rentals are readily available.

7 Boating and Sailing
The many dozens of marinas in the Keys are full of companies ready to rent you whatever kind of boat you would like – or to take you out, if you prefer.

8 Water-skiing and Jet-skiing
These more intense ways of enjoying the Keys waters are available wherever there's a marina, especially, of course in Key West and other developed tourist areas. Island Water Sport is one of the companies offering jetskis. ☎ *Island Water Sport 305-296-1754*

9 Golf
Golf courses are not as ubiquitous in the Keys as in the rest of Florida, but there are several good ones, for example on Marathon Key at MM 53.5 oceanside or a more expensive course on Key West.

10 Tennis
Good tennis clubs can be found on just about every developed Key – on Islamorada at MM 76.8 bayside, Marathon at MM 53.5 oceanside, on Key West, of course, and elsewhere.

Side Trips

IF YOU VENTURE OUT OF THE *more touristed confines of Greater Miami*, be ready for some mild culture shock. Not only is the rough-and-ready Native American way of life on the Everglades reservations apparent, but even the Gulf Coast and Treasure Coast enclaves can seem to exist in a world apart. Gone entirely is the international feel, and in its place is a sense of the old Florida.

View of the Gold Coast

its inception has been called the Tamiami Trail, which sounds like a Native American word but simply stands for Tampa-Miami, the cities connected by the road. However, it does take you deep into Seminole country, where you can experience the wonders of the Everglades. As you make your way to the Gulf coast, be sure to stop at Everglades City and Naples (see p128).

📍 Map A3-C4

1 A1A North along the Gold Coast

Starting just at the northern tip of Miami Beach is a stretch of beautiful, wealthy communities that goes on for at least 50 miles (80 km). As diverse in their own ways as the Greater Miami area, they add immeasurably to the cultural richness of South Florida and make an unsurpassed choice for beaching it, too (see pp24-5).

2 The Everglades, across Alligator Alley (I-75)

This is probably the easiest, fastest route across the Everglades: an Interstate toll-road with two lanes of traffic in each direction. It keeps you at arm's length from the swampy, teeming mass of it all, but there are several great stops along the way, as you pass through Big Cypress National Preserve and just to the north of Fakahatchee Strand State Preserve. 📍 Map B-C3

4 Loxahatchee National Wildlife Refuge

This is the only surviving remnant of the northern Everglades, a vast area of mostly sawgrass marsh that is so characteristic of the Everglades environment. The inviting public-use areas provide viewing opportunities for a large variety of wetland flora and fauna, including egrets, alligators, and the endangered snail kite. Activities include nature walks, hiking, canoeing, bird-watching, and bass-fishing. A 5-mile (8-km) canoe trail provides the best way to see and explore the refuge up close. 📍 10216 Lee Road, Boynton Beach • Map C-D 2-3 • 1-800-683-5873 • Sunrise-sunset daily • Adm

5 A1A North along the Treasure Coast

Palm Beach, on the Gold Coast, is the winter playground and shopping mecca of the rich (see p25). If you continue on A1A north of Palm Beach, the megalopolis gives way to the smaller, quieter towns of the Treasure Coast. These include Vero, the largest; Jupiter, which has no barrier islands; Stuart, with its charming historic district; rural-feeling Fort Pierce; and, at the northern extension of the Treasure Coast, the little fishing village of Sebastian. Vist these if you want to experience South Florida beach life without the hurly-burly of Miami. Map D1-2

6 Naples and Around

If you cross the Everglades, your inevitable first stop on the

Gulf Coast will be Naples. This wealthy beach city prides itself on a manicured beauty, 55 golf courses, and a soigné downtown area. There's a pleasant pier where you can commune with pelicans or do some fishing, and 10 miles (16 km) of pristine, sugary beaches, with warmer waters than the Atlantic.

Nearby Marco Island, the most northerly of the Ten Thousand Islands archipelago, is a good base for delving into the western fringe of the Everglades. It has been the source of significant Calusa Native American finds, some dating back 3,500 years. Map A3

7 Fort Myers

Though the town is historically famous as the base of operations for the 19th-century inventor Thomas Alva Edison, modern Fort Myers has become one of the main escapes for Midwesterners seeking a holiday by the sea, especially in winter. Its beaches have the feel of Indiana or Iowa about them, full of families without any of the Miami obsessions with style. The only problems you're likely to encounter are traffic snarls. Map A2

8 Sanibel and Captiva Islands

The Lee Island Coast offers an irresistible combination of sandy beaches, exotic wildlife, lush vegetation, and wonderful sunsets. The jewels in the crown are Sanibel and Captiva Islands, which offer a Caribbean-style laid-back atmosphere mixed with upscale shops and restaurants. Much of the territory is protected, and development has been limited: there are no condos and very few large hotels, mainly just houses and cottages scattered among the greenery. 📍 *Map A3*

9 Dry Tortugas from Key West

You can travel to the wonderful islands of the Dry Tortugas by seaplane or ferry from Key West. Companies offering trips include the Yankee Freedom and the Fast Cat. The day-long tours include food and snorkeling gear. Camping overnight is also possible. The most visited island is Garden Key, the site of Fort Jefferson (see also p32). 📍 *Map A5* • Yankee Freedom, 305-294-7009 • Fast Cat 1-800-236-7937

The South Florida Land-Rush

South Florida’s warm winter climate and economic upswing of the early 20th century made it seem a perfect place to build the American Dream. The 1920s saw South Florida’s first great land boom, when rampant development threatened to make the Everglades a memory. At the height of the boom, prime land could fetch \$26,000 per acre, but many would-be investors were bankrupted after being scammed into buying swampland far from the waterfront. The bubble definitively burst with the one-two punch of a hurricane in 1926 and the Great Depression a few years later.

freshwater lake in the US, covering 750 sq miles (1,942 sq km). Though not particularly scenic because of a high dike that was built all the way around it, it is well known for its excellent fishing opportunities. The towns around the lake are relatively undeveloped for tourism, some even rather grim. The best to use as a fishing base is pleasant little Clewiston. The main industry south of the lake is sugar cane – growers are often at odds with environmentalists who are trying to preserve the Everglades. 📍 *Map C2*

TOP 10 Planning Your Trip

1 When to Go/Climate

With its subtropical climate, South Florida is a year-round destination. However, late spring and summer can be uncomfortably hot, with rain showers almost every afternoon. The high season is from about December to April.

2 Length of Stay

Stay as long as possible. Besides the beach life, South Florida has a great deal to offer, especially in high season, when there seems to be a festival just about every week. Many hotels offer special deals if you stay by the week.

3 What to Bring

If coming from abroad, bring an international driver's license, a voltage converter, and any special prescription medicines you need. Also bring some good walking shoes, or, better yet, sandals. Otherwise, bring as little as possible.

- Canada 305-579-1600
- Germany 305-358-0290
- France 305-372-9798
- Italy, 305-374-6322
- The Netherlands 305-789-6646
- Spain 305-446-5511
- Israel 305-925-9400
- Japan 305-530-9090

4 Visas and Passports

Visa regulations may change without notice so it is always best to check before you travel. See www.USCIS.gov for information. Canadians need to show only proof of residence. You may need to be able to prove that you have sufficient funds to cover your stay, and, of course, you must have a return ticket.

5 Customs

Allowances for visitors over 21 years of age entering the US are: 1 liter (2 pints) of alcohol, gifts worth up to \$100, and 200 cigarettes, 100 cigars (but not Cuban!), or 3 lbs (1.4 kg) of tobacco. A number of goods are prohibited, including cheese, fresh fruit, meat products, and, of course, illegal drugs.

6 Money and Travel Insurance

Travel insurance is essential for foreign visitors – a minimum of \$1 million of medical coverage, including accidental death and emergency care, trip cancellation, and baggage or document loss. Travel with as little cash as you can manage, for safety reasons and to avoid questioning by customs officers.

7 Embassies and Consulates

Most major countries have diplomatic offices in

Miami. Most consulates are set up to help their nationals if they run into difficulties.

8 Guided Package Tours

Given Miami's dangerous reputation – though considerably improved of late – many travelers prefer to visit as part of an organized group. This can save a great deal of doubt and stress by answering many questions for you in advance. However, be aware that this type of tour tends to put you up in the least appealing parts of town. Choose a group tour that gives you a maximum of flexibility.

9 Weights, Measures, and Time

The US uses the imperial system of ounces, pounds, inches, feet, yards, miles, etc. (This book gives both imperial and metric values.) Voltage is 110-115 volts, and the electrical plugs have two flat prongs. Miami is in the Eastern Time Zone, five hours behind Greenwich Mean Time, and 3 hours ahead of California.

10 Language

Though English is widely spoken in the main tourist areas, bear in mind that the majority of Miamians speak Spanish as their first language. It is worth learning some basic Spanish phrases as a matter of courtesy.

TOP 10 Tips for Arriving in Miami

1 Airlines

Several major international and regional airlines serve the Greater Miami area, among them American, Continental, Delta, United, US Airways, AirTran, and Southwest; and from the UK, British Airways, Northwest, and Virgin Atlantic.

2 Airfares

The airline market in the US is quite volatile, with newcomers entering it every year, so bargains can be found – especially with a little time spent searching the Internet. Currently, for domestic flights, AirTran and Southwest are good. Flying mid-week is usually cheaper.

3 Miami International Airport

One of the busiest in the world, which can mean long lines at immigration. There may be lots of walking to do, too. There are tourist information desks and car rental counters outside the customs area, but they are not always staffed when you need them.

4 Fort Lauderdale-Hollywood International Airport

This is the area's second airport, less crowded but just as convenient and served by almost as many airlines as Miami Airport. It's the perfect choice if you're staying along the southern part of the Gold Coast.

5 Car Rental, Taxis, and Shuttle Buses

Options for getting from the airports into Miami are numerous: rental cars, shuttle services (*see below*), taxis, limousines, and shuttle buses to the Metrorail and TriRail lines.

6 SuperShuttle

This company, and other competitors, offers 24-hour door-to-door service for much less than the cost of a taxi. The catch is that you have to share with other travelers, so you may have to ride around for a bit while others are picked up or dropped off. You can book your pick-up on their website.

7 By Car

The major Interstates that lead to Miami are I-95, down the north coast, and I-75, from the Gulf coast. There's also Florida's Turnpike, which shoots down from Central Florida. These highways are well maintained, with welcome centers along the way. Highways 1, A1A, and 41 are not efficient choices unless you're exploring the Greater Miami area.

8 By Sea

The Port of Miami is, quite simply, the largest in the world. From here endless mammoth cruise ships depart for romantic Caribbean adventures. People arriving by private yacht have a choice of excellent marinas.

9 By Train

Amtrak serves Miami from everywhere in the US. Sleepers and restaurant service are available. For train service within the Miami area, there's the excellent Tri-Rail, which hooks up with the Metro-rail system up and down the Gold Coast.

10 By Bus

There's a bus station near the airport and one Downtown, at 100 NW 6th St, served by Greyhound, Trailways, and Metrobus. The buses are cheap but not very convenient if you have much luggage. Greyhound is a decent, though fairly slow, option for getting from Miami to Key West.

TOP 10 Tips for Getting Around Miami

1 Metrobus System

The Metrobus routes cover the whole Miami-Dade area, but don't expect them to hold to any schedule, or to come even once every hour. You'll need the correct change, a token, or a Metropass.

2 Metrorail and Metromover

Metrorail is a 21-mile (34-km) elevated rail system running from Hialeah in the north to Dadeland in the south. It serves Downtown, Coconut Grove, and Coral Gables. Metromover is a monorail extension of Metrorail that runs a circuit around Downtown (see p86).

3 Electrowave

This electric shuttle service is a fast, scenic way to get around South Beach. There are two separate routes, via Collins and Washington avenues. The cars are air-conditioned and smooth.

4 Taxis and Water Taxis

Taxi meters start at \$1.50 and click away speedily at \$2 a mile, so they're not a good deal for long distances. In Fort Lauderdale you may well decide to try a water taxi, just for the fun of exploring the "Venice of America."

5 Skate, Bicycle, and Scooter Rental

These zippy modes of transportation are

definitely the top choices for "doing" South Beach. Many stores will suggest self-guided tours and offer free skating lessons. If you want to ride the American Dream, rent a motorbike.

6 Rental Cars

Car rental in Florida can be expensive, but you can get better deals by looking for fly-drive packages, or by booking through the Internet in advance of your arrival. You'll need a valid driver's license, photo ID, and a credit card (cash or a debit card are rarely accepted). Watch out for hidden extras.

7 Road Rules

Freeways and toll-roads in Miami are generally good and fairly easy to negotiate, but the local drivers are another thing. Lane-changing at top speeds is a local sport, as are all sorts of other erratic habits. The result can be myriad fender-benders and some terrible traffic snarls.

8 Tours

There are tours all over Miami, some even include the Everglades, Fort Lauderdale, or a cruise. See www.key2miami.com for more information.

9 Limousines

Being a star-studded place, stretch limos are a common sight here, the longer the better.

10 Navigation

The grid system of road orientation and numbers (NW, SE, 1st, 2nd, Ave, St, etc) begins Downtown, with Flagler Street as one axis and Miami Avenue as the other. Confusingly, Miami Beach has its own system, as does Coral Gables, and many streets have one or even two extra names.

TOP 10 Media Sources

1 **The Miami Herald**

This daily newspaper is Florida's largest, and its weekly supplements *The Street* and *Weekend* are major sources of information about local entertainment and events.

2 **Miami New Times**

This is the main free alternative weekly, which you can pick up in many restaurants, stores, clubs, and drop bins all over town. It reviews restaurants, movies, clubs, etc.

3 **Key West**

The island's eponymous weekly newspaper features news about upcoming events, arts, theater, attractions, music, clubs, local news, features, and opinions. And like all true Conch undertakings, it's notoriously iconoclastic, taking on the local police and other authorities in articles.

4 **El Nuevo Herald**

This is Miami's Spanish-language edition, which naturally focuses more on issues and events relating to the huge Hispanic community.

5 **Hotel Magazines**

In the "tonier" hotels, you'll often find *Ocean Drive* and *Where*. The former is not much more than a super-stylish fashion vehicle. *Where* is an international publication – the Miami version, which comes out monthly, has some excellent basic

insights and even some captivating articles. Note, however, that all the restaurant listings are there because the owners paid to be included, rendering the reviews less than entirely genuine.

6 **Network TV**

The programming of the main national networks are carried by four Miami channels: Channel 4 is CBS, Channel 6 is NBC, Channel 7 is FOX, and Channel 10 is ABC. Unless your TV is connected to cable, this will be the configuration for receiving all the regularly scheduled sitcoms, sports, and news programming. The PBS station is normally Channel 2.

7 **Cable TV**

Most TVs you encounter in Miami will be connected to one cable company or another. Most likely this will mean that you receive not only the major networks but also CNN and MSNBC for news, ESPN for sports, the Weather Channel, Comedy Central, and Nickelodeon (for the kids). You might also be lucky enough to get all or some of the innovative HBO programming, as well as excellent Showtime offerings.

8 **English FM Radio**

Miami may seem mostly Spanish-speaking, but when you turn on the

radio, you'll find that most of the banter is still in English. There's the usual big-city mix of country, oldies, new rock, hard rock, jazz, and NPR (National Public Radio) programming and similar local stations, for people who want to hear the topics of the day intelligently considered by interesting thinkers.

9 **Spanish FM Radio**

There are, of course, several Spanish-language stations, featuring very high-energy programming and the compelling, non-stop rhythms of every sort of Latin American music, from more or less traditional to the very latest international Latino heartthrobs. It's not a bad way to practice your Spanish, particularly because some of the time the announcers are speaking an easy mixture of Spanish and English, often called Spanglish.

10 **AM Radio**

Since the quality of the FM signal is so much better – and allows for true stereophonic broadcasting – the AM dial in Miami is given over almost entirely to talk radio. Listeners call in to let off steam about whatever topic of the day the commentator has selected to get everyone worked up about. There are both English and Spanish talk radio stations in Miami.

TOP 10 Ways to Stay Healthy and Safe

1 Emergency Numbers

The emergency number 911 is toll free, including from payphones.

2 Security Measures

Always keep your antennae out for potential trouble (see p140). Park in well-lit areas, and keep doors locked and windows closed while driving. Make sure you know where you're going, or at least give that impression. Don't go into uncertain neighborhoods at night.

3 Mugging

If you follow the basic precautions, you're unlikely even to come close to being mugged violently, but do watch out for less aggressive crime. Pickpockets work the crowds, so keep valuables tucked away.

4 Walk-in Medical Services

Most area hospitals operate 24-hour emergency rooms, and there are a number of walk-in clinics. Look in the *Yellow Pages* under "Clinics." You can find 24-hour pharmacies in most areas.

5 Sunburn

The sun is intense here, especially when near the reflective beach and water. Wear sunblock or at least sunscreen at all times, and a hat. Avoid heatstroke by drinking plenty of liquids

and knowing when it's time to head for shade.

6 Insects

Biting and stinging insects, including annoying mosquitoes, can be a real nuisance between June and November. Wear insect repellent, especially when striking out for the Everglades. Other nasty critters are sand flies, which bite in the evening, and fire ants.

7 Riptides and Undertows

Some areas along the Atlantic have rough surf or are subject to strong currents. Small children, in particular, might be better off in some of the more protected waters away from the ocean, especially the gentle Keys waters.

8 Jellyfish, Stingrays, and Sharks

Stinging jellyfish, in particular the man-o-war, sometimes frequent the waters off the coast. Be careful of the ones washed up on the shore, too. Shark attacks are thankfully quite rare. Stingrays are generally gentle creatures, but be careful not to accidentally tread on one.

9 Hurricanes

Hurricanes are infrequent but devastating. If one should occur, follow the announcements on TV and radio, or call the National Hurricane Center.

10 Lost Property

Even though you have only a slim chance of retrieving lost property, report all lost or stolen items to the police. Keep a copy of the police report to claim insurance later. Most credit card companies have toll-free numbers for reporting a loss, as do traveler's check companies (see p141). If you lose a passport, contact your embassy or consulate (see p134).

TOP 10 Things to Avoid

1 **Bad Neighborhoods**

Most of these areas are in the northern part of Greater Miami, but be aware that just two to three blocks from popular Coco Village, the so-called "Black Grove" is unfortunately quite rundown and dangerous.

2 **Bigotry**

In outlying areas, outside the bubbles of Miami Beach, Greater Miami and Key West sophistication, you suddenly find yourself in Old Florida, where values can still be quite prejudicial if you are in any way "alternative."

3 **Age Restrictions**

Ordering alcoholic beverages in a bar if you are under 21, and having alcohol on the beach at any age are strictly prohibited. Needless to say, drunk driving is also entirely unacceptable – often roadblocks are set up on causeways leaving Miami Beach to nab suspicious drivers.

4 **Smoking**

Buying tobacco if you are under 18 is against the law in Florida. Not that it makes much difference if you're a smoker, as smoking in public buildings is illegal, and they're also considering making it illegal to smoke in bars. All restaurants are non-smoking and many hotels are entirely non-smoking.

5 **Forgetting to Tip**

Tipping is not an option in the US. Waiters and waitresses get minimum wage or less in the US and depend on whatever tips they clear. Very rarely, the gratuity will be automatically added to your bill, so check. If not, 15 percent of the total before taxes for lunch, and 20 percent for dinner is considered about right.

6 **Looking Like a Tourist**

To avoid the dangers of pick-pocketing, as well as the nuisance of being accosted by the occasional panhandler, try not to appear to be lost, and don't load yourself down with too much stuff, such as bags, cameras, maps, etc. How you dress is really not such an issue here, as everyone tends to dress down – lots of men even go shirtless all over South Beach streets. One thing that's a definite fashion no-no, however, is wearing socks with your sandals.

7 **Forgetting Your Sunscreen**

If you didn't bring any sunscreen or sunblock with you, go out immediately and buy a good one. Sunburn is the number one health hazard here, and the sun will get you, you are not an exception. Be sure to apply sunscreen liberally

and often, especially to the exposed areas you tend to overlook. If you go to the nude beaches, that advice goes double!

8 **The Velvet Rope**

Standing in line at a popular club can be a real drag – and you might not get in at all. Talk to your hotel concierge about getting you into the VIP lounge of the club of your choice. For a little extra money, you can save yourself a lot of time and potential disappointment.

9 **Law Enforcement**

Getting on the wrong side of the Miami cops is never a good idea. There are three separate law enforcement agencies here – city police, county sheriffs, and the highway patrol, and they are generally friendly and helpful, in the spirit of promoting Miami's image as a tourist mecca. However, in the same spirit, if they suspect you are a trouble-maker, they can be notoriously harsh.

10 **AIDS**

Sex without a condom in this pleasure-loving area is a really bad idea. Miami has the highest incidence of AIDS in the US, according to a 2002 study. Fortunately, most of the bars, especially the gay ones, have big bowls full of free condoms for patrons to help themselves to.

TOP 10 Money and Communication Tips

1 Exchanging Money

Except for American Express, there are virtually no exchange places as such, but you can go into any bank to exchange money. All in all, however, it's best to avoid this ritual (see below).

2 Automated Teller Machines

This is the most sensible way to get the cash you need. If you have an ATM card of any sort, chances are it will work in almost any machine and you will be able to draw cash out any time, up to your daily limit. There will be a fee, but the time and hassle you save is worth it. Don't forget your PIN!

3 Credit Cards

Doing anything in the US without a credit card is almost unthinkable, especially in a hotel.

4 Travelers' Checks

As a backup, travelers' checks can be useful, but these days they are outdated and almost pointless.

5 Banks

Banks are numerous and all have walk-up ATM machines handily located. If you must perform some sort of transaction inside, the hours are usually 9am–4pm, Monday to Friday, and sometimes later on Thursdays. Some banks are also open on Saturday mornings.

6 Sales Tax

Unlike in some countries, sales tax is not included in the marked price of anything, including restaurant meals. The only items sales tax is not added to are most groceries. Florida's sales tax at present is 6 percent, but local taxes can bump that up considerably. Hoteliers in Miami add on 12.5 percent to your bill.

7 Public Phones

You'll find these at gas stations, restaurants, hotels, on the sidewalk, and elsewhere. For long distance calls, it's easier to use a phonecard, which you can buy from any convenience store. Using your credit card is possible, too, but pricey. For making any call in Miami, even next door, you must dial the 305 area code, but not the 1 before it.

8 Cell Phones

If your cell phone (mobile) is not compatible with US networks, then renting a cell phone to use while here is a sensible option. You'll find vendors at the airport upon arrival.

9 Postal Services

Post offices are usually open from 9am–5pm on weekdays, with some open on Saturday mornings, too. Stamps are sold in many drugstores, hotels, and

department stores. All domestic mail goes first class, and you should use airmail for any overseas mail. If you want it to get there the next day in the US, go for Express Mail.

10 Fax and Internet Access

Internet cafés abound. Many hotels, and especially hostels, offer the service, too, usually for a charge. A good central Internet point in South Beach, just a block from the sand, is South Beach Internet. It's also a lounge and a decent restaurant where a certain amount of people-watching goes on – after all, it's SoBe!

TOP 10 Ways to Save Money

1 Fly-Drive Packages

To get the most out of Miami, you need a car. Some of the fly-drive packages can save a great deal of money.

2 Off-Season

There's no doubt that visiting the area out of season costs much, much less. Hotel prices can be reduced by up to two-thirds. It's true that the weather is a lot muggier, but the ocean breezes make beach life tolerable, and everything else is air-conditioned. Also ask your travel agent or check the web for promotional fares, but be sure to get all the details.

3 Discount Booklets

Coupon brochures – often with useful maps – are available free at most tourist stops or information desks. Savings can often be significant if you've got a large group or family to pay for. There are sometimes accommodations and tour discount coupons, too.

4 Free Sights

Not much is free here, apart from the stupendous beaches. But there are parks and gardens that charge no admission, and strolling around the busy streets doesn't have to involve any outlay. One of the greatest pleasures is watching the ships go by, either from the bottom of Miami Beach, at South

Pointe, or from Mallory Square in Key West.

5 Saving Money on Accommodations

It's always worth trying to bargain the price down a bit, since no rates are cast in concrete. You can get an especially good deal in many places if you negotiate a weekly rate. If you're traveling on business of any kind, you can also request a commercial rate.

6 Cheap Eats

Although there are many very expensive restaurants, there are many more chain fast-food franchises. If such fare disagrees with your palate, you'll also find excellent local eateries for good sandwiches. Otherwise, restaurants and bars often supply free food during cocktail hour, if you order a drink. Some restaurants also offer early bird specials for patrons dining between 5pm and 6pm.

7 Picnicking

You can have your picnic anywhere that there isn't a sign forbidding it. Many public parks and all state parks have tables and other facilities and you can take your snack to the beach with you, too. However, be aware that littering in the US is severely frowned upon, so dispose of all refuse in the bins provided.

8 Pay in Cash

Often when making a purchase of any kind, especially in a shop, you can negotiate a discount if you pay in cash, rather than by credit card. The shopkeeper will be saving the charge from the credit card company and willing to pass on some of that saving – usually 2–5 percent – to you.

9 Bicycling

Not only is it healthier, allowing you to work on your tan and breathe in the energy-charged air here, but it's also one of the very best ways to get around most of the prime areas in South Florida. Biking around South Beach, Key Biscayne, Key West, and even along certain trails in the Everglades is, for many, the only way to go, and the money you can save is significant.

10 Shop Wisely

Whatever you're in the market for, from tickets to trinkets, take the time to do a little research and price-comparison. Chances are you can find the same or similar item for much less if you shop around. If it's a toiletry need, for example, head for one of the large, all-purpose drugstores, where there are generic brands of almost everything, from contact lens solution to mouthwash, usually at half the name-brand price.

TOP 10 Senior and Disabled Travelers

1 Retirees

For decades, all of Florida has been retirement heaven – or “God’s Waiting-Room,” as it’s sometimes not so graciously called. Hence, there are many facilities for senior citizens.

2 Senior Travelers

Traveling in South Florida is relatively easy for seniors, and there are good programs to allow seniors to get the most out of their experience here. Contact Elderhostel and Interhostel.

3 Tips for Seniors

Take advantage of the extra time you’ve earned, allowing yourself to get to know Miami in greater depth than the fly-by tourist. Use the cooler modes of getting around – on South Beach the air-conditioned Electrowave, and on Key West the shaded and breezy Conch Tour Train.

4 Resources for Seniors

Membership in the American Association of Retired Persons is open to US and Canadian residents age 50 or over. They provide up-dated travel information and discounts. Elderhostel and Interhostel are for people 60 and over.

5 Discounts and Freebies

Senior citizens are eligible for discounts on travel, car

rental, accommodations, museum entrance, and more. Take your ID. Sometimes the definition of “senior” can be as young as 55! If you’re a US citizen or permanent resident, get a Golden Age Passport, which entitles you to free entry into all national parks, monuments, and historic sites.

6 Disabled Travelers

Generally speaking, the area is well-set-up for disabled travelers. Mobility International USA and the Society for the Advancement of Travelers with Handicaps (SATH) have more information.

7 Accessibility to Buildings

All public buildings in the US are required by law to provide wheelchair access. However, older Deco hotels and many of the old guesthouses might have only one disabled-accessible room.

8 Transportation

Public buses “kneel,” and the other public forms of transportation also have wheelchair access. Some taxis and car rental companies have special equipment: ask in advance.

9 Tips for the Disabled

For getting around such areas as South Beach or Key West, take full advantage of electrically powered transport, either

your own wheelchair or a rented one. The heat and humidity can make exertion uncomfortable.

TOP 10 Accommodation Tips

1 Area Options

Every sort of accommodation is available in South Florida, from a simple dorm bed in a hostel to a villa in an unbelievably luxurious resort on its own island. Most of the hotels, motels, and the like are on or near the beach, or at least some body of water. Inland, good choices might put you in an interesting and colorfully ethnic urban area, or in a quaint old Everglades town.

2 Needs and Desires

The best way to decide what suits you best is to read up on this fascinatingly rich destination. If it's the outdoors and sports you're after, head directly for the Keys. If it's world-class nightlife, the choice is South Beach.

3 Price Range

The price range is vast. Even on South Beach in high season, just two blocks from the beach, you can find a room for two, with private bath, for as little as \$25 per person per night. Or, a block away, a penthouse suite in some fabulous Deco landmark is up for \$2,500.

4 Special Deals

Be aware that many hotels have a minimum stay requirement, but often offer a good deal if you book by the week.

5 Making Reservations

If you want to go for the bargain accommodations in high season, it's crucial that you book as early as you possibly can. Make sure the reservation is solid by guaranteeing it with a credit card, and doubly confirming it by way of both fax and email. If you're expecting to arrive late, find out the latest acceptable arrival time before your reservation is subject to cancellation.

6 Without Reservations

Trying to find something on the spot from December to April is not recommended, at least not in South Beach or Key West, especially on weekends. It might take a long time to find, and you run the risk of having to pay even more than top dollar. Taking pot luck is only a good idea in low season.

7 Tipping

The usual practice is to tip the bellboy \$1 per bag, both when he brings your luggage to your room and when you depart. If you leave your luggage in storage, the tip should be the same. If your hotel has valet parking, you should tip the guy \$2 or so each time he delivers your car to you. If you enjoyed their service, you can also tip the front desk staff and concierge whatever feels right.

8 Hidden Extras

There can be many of these, so get it all clear from the start. If there's valet parking, that can cost about \$15–20 per day. Phone calls made from your room phone generally start at 50 cents each, and can be charged on a per-minute basis in some cases. Finally, when you check out, you will notice a rather hefty hotel tax of at least 10 percent has been added on, depending on where the hotel is in South Florida.

9 Traveling with Kids

Family travel is the bread-and-butter of South Florida tourism, and every major hotel or resort offers a wide range of activities and services – supervised play areas, baby-sitting, special games, coloring books, etc. Usually children under a certain age (sometimes as high as 18) can stay free in their parents' room. In addition, many restaurants offer kids' meals at reduced prices.

10 Parking

Valet parking is convenient, but often terribly expensive, and it's impossible to keep the 24-hour meters fed. The only sensible option is to put your car in a parking garage, where you can get a more reasonable rate, and leave it.
