## GREENDEX

### GOING GREEN GREENDEX

With one of the world's best public transport systems, a relatively enlightened recycling programme and a population that has always made do without clothes dryers, large cars and central heating, Kyoto is a relatively green city. You can do your part by patronising some of the earth-friendly businesses listed here. For more hints on how to minimise your environmental impact, see Sustainable Kyoto (p18) and the Climate Change & Travel boxed text (p182).
