GreenDex

The following attractions, accommodation, cafés, pubs and restaurants have been selected by Lonely Planet authors because they demonstrate a commitment to sustainability. We've selected cafés, pubs and restaurants for their support of local producers or their devotion to the 'slow food' cause, meaning they serve mainly seasonal, locally sourced produce on their menus. We've also highlighted farmers markets and the local producers themselves. In addition, we've covered accommodation that we deem to be environmentally friendly for its commitment to energy conservation, recycling or some other element of sustainability. Attractions are listed because they're involved in conservation or environmental education. Some are indigenously owned or operated, thereby maintaining and preserving local identity and culture. For more tips about travelling sustainably in East Coast Australia, see p24. We're continuously developing our sustainable-travel content. If you think we've omitted someone who should be listed here, or if you disagree with our choices, email us at talk2us@lonelyplanet.com.au and set us straight for next time. For more information about sustainable tourism and Lonely Planet, see www.lonelyplanet.com/responsibletravel.
