GOING GREEN

The following attractions, accommodation, cafés, pubs and restaurants have been selected by Lonely Planet authors because they demonstrate a commitment to sustainability. We've selected hotels, pubs and restaurants for their support of local producers or their devotion to the 'slow food' cause – so they might serve only seasonal, locally sourced produce on their menus. We've also highlighted farmers markets and the local producers themselves. In addition, we've covered accommodation that we deem to be environmentally friendly, for example for their commitment to recycling or energy conservation. Attractions are listed because they're involved in conservation or environmental education or have been given an ecological award (for example, Blue Flag beaches).

For more tips about travelling sustainably in Ireland, turn to the Getting Started chapter (p21).

We want to keep developing our sustainable-travel content. If you think we've omitted someone who should be listed here, or if you disagree with our choices, email us at talk2us@lonelyplanet.com.au and set us straight for next time. For more information about sustainable tourism and Lonely Planet, see www.lonelyplanet.com/responsibletravel.
