GreenDex

The following is an index of the businesses, events and organisations in Malaysia, Singapore and Brunei that are doing their bit for the environment, sustainable travel and enabling greater cultural understanding. Our decisions about what to include were informed by the work of regional bodies such as Wild Asia (www.wildasia.org) and the opinions of local experts. The index is not exhaustive but does provide a place to start for those who like to make informed choices in how they spend their vacation time and money.

Choosing sustainable travel products, just like running a business that is eco-friendly, is not an exact science and is also a continuous process. We know we haven't got it 100% right yet! We very much welcome feedback on our selection via lonelyplanet.com/contact as well as recommendations for anything that we should be including in this list the next time around. For more information on travelling responsibly see p21 and lonelyplanet.com/responsibletravel.
