Created: 7/5/2012 CR

Revised:

Amount	Measure	Ingredient	Preparation Method	Product No.
0.025	kg	Chili powder		20-100001276
0.025	kg	Chili flakes		20-100001275
1.000	lt	Oil		20-100001608

Method of Preparation:

- Combine the ingredients in a heavy saucepan and heat to 180 degrees F.
- Cook over low heat until a thermometer inserted into the oil registers 180 degrees F, about 5 minutes.
- Cool a little and taste to check heat, add more chili flakes if needed
- Steep and cool
