Revised:		

Amount	Measure	Ingredient	Preparation Method	Product No.
2.500	kg	Tarragon Water		20-100000881
0.050	kg	Salt		20-100001305

Method of Preparation:

- Pick the leaves from the tarragon stems.
- Blanch the leaves in boiling salted water for 30 seconds. Refresh the leaves until cold. Squeeze out the water and place the tarragon leaves in a high speed blender and blend with a little hot water.
- The mixture should be smooth.
- Strain overnight in a muslin cloth.
