How to Use This Cookbook

Navigating ...Getting About

There are easy ways to navigate with electronic cookbooks that are impossible with hard copy books.

IF YOU ARE A PC (Personal Computer) USER ...

On the left you'll find a tab called "Bookmarks." If you click the tab you'll see a list of every page and recipe in the cookbook. Just click the title of the page you want to see and "PESTO!" You're there!

You can also click the "Pages" tab on the left. You'll see all the pages contained in the book as "thumbnails." Click on a page and you'll be there! Use the scroll bar next to the thumbnail pictures to see more pages.

You can also use the navigation bar at the bottom of each page to scroll continuously through the book, page-by-page.

IF YOU ARE A "MAC" USER ...

1) View it in Adobe Acrobat

*Note: You must have version Acrobat 7.2.8 or higher (free at www.adobe.com/downloads/).
Previous versions are not compatible with the Intel Core 2 Duo processor.*

Launch Acrobat 7.0.8 and open the book from the Acrobat pull down menu (or by using "COMMAND O") then simply follow the same procedures as the PC users.

2) View it in Preview.

Click on the "Drawer" in the tool bar. A list of chapters and recipes will appear. Click on the desired recipe page and you'll be there!

You can also use the navigation bar to scroll through the book, page-by-page.

FOR EVERYBODY ...

Hyperlinks ...

On the Table of Contents pages you will see that every page title is underlined. If you click on the page title, you will be taken to that specific page.

On most pages in my cookbook you will find some other hyperlinks - words that are underlined - and can be clicked on to take you to my website to obtain additional recipes and information. Of course you must be online to use this function.

To make it even easier to find certain recipes that have two main ingredients (such as pasta and seafood) I have duplicated these particular recipes and filed them under both categories.

ENJOY the food and the company of those you share it with!

Denver Omelet

Preparation Time: 8 minutes

Servings: 1-2

This is one of the best and best known American omelets. If it is scrambled and placed between slices of toast it becomes a Denver sandwich and is equally as good.

[Cooking Conversion Table](#)

Ingredients:

- 1 1/2 teaspoon of butter and oil (vegetable or peanut)
- 3 – 4 beaten eggs, seasoned with salt and pepper
- 1/4 cup diced cooked ham (diced means cut into small pieces – about 1/4 inch)
- 2 tablespoons diced green or red pepper
- 2 tablespoons sliced red onion
- 1-2 ounces Cheddar cheese, grated

Instructions:

Heat a 7 – 8 inch or 10 inch skillet (depending on how thick you want your omelet to be) over moderate heat

While the pan is heating, beat the eggs in a [mixing bowl](#) until well blended but not frothy

When the pan is hot enough to sizzle a drop of water, add the butter and oil combination

When butter stops foaming, add ham, peppers and onions, and sauté two minutes or until very hot

Whip the eggs a couple of times and pour eggs into pan and let sit on heat until eggs begin to cook around the edges

Lift edges of eggs with a [rubber spatula](#) and tip pan to allow liquid to run underneath

Repeat until top is thickening and very little liquid egg remains

Add cheese and cover until cheese is melted

Fold omelet and divide before sliding onto plates

(Note: When selecting green, red or yellow peppers they should be shiny, well shaped and show no signs of shriveling or have any soft spots. To “prep” peppers, cut in half lengthwise and remove the core, seeds and white membranes, then dice, chop or [julienne](#) depending on the recipe.)

I have "fun" titles for some of my recipes. ☺

You can add some extra “zip” to this omelet by adding a dash of Tabasco or cayenne to the eggs while blending them!

Heat an egg pan over moderate heat

While the pan is heating, beat the eggs in a small mixing bowl with a wire whip until blended but not frothy

When the pan is hot enough to sizzle a drop of water, add the butter and oil

When the butter stops foaming, add onions and sausage and sauté briefly to heat thoroughly

Whip the eggs a couple of times and pour into the pan

Let the eggs sit until they begin to cook around the edges

Lift edges of eggs with a rubber spatula and tip pan to allow liquid to run underneath

Repeat this process until the top is thickening and very little liquid egg remains

Enjoy!

Oops! ...I just dropped an egg on the floor!

Am I cleaning it up immediately? No. If I drop an egg I cover it with salt and leave it for a few minutes. (Yes, I watch my step.) Then I use a paper towel to wipe it up. Much easier than "attacking" the mess immediately.

Eggs provide protein, vitamin A, riboflavin and other vitamins and minerals. Did you know that one egg white contains about 15 calories and no fat? The yolk contains all the fat.

That is why some of my restaurant guests order omelets made only from the egg whites.

Be careful "prepping" avocados.

First remove the stem. Use a sharp knife. I said---be careful!
Slice the avocado in half by turning the fruit on the knife blade.

Twist the avocado to separate into halves. Use a spoon to remove the pit. Scoop the pulp out with the spoon.

Scrambled Eggs with Smoked Wild Salmon

Preparation time: 5 minutes. Serves 4.

I first used this breakfast recipe on a special day at my restaurant. My customers raved about it and the recipe became a regular feature on Sunday menus.

I am fortunate to live in Washington State (USA) because of the variety of quality products available. This is an easy recipe but the "key" is using quality smoked wild salmon. [SeaBear](#) is just a few minutes from my home. They have premium wild [smoked salmon](#). But, then again, everyone has access to the company's products online.

Note: Before starting this scrambled egg recipe, have all your other menu items ready to be served as you will want to serve the scrambled eggs immediately. (Having everything ready is called "mise en place")

Cooking Conversion Table

Ingredients:

1 tablespoon of butter and one of oil (vegetable or peanut oil)
6 eggs (organic if you have them)
1/2 cup + 2 tablespoons milk
Ground white pepper or freshly ground (yes, it makes a difference) black pepper, to taste
4 [tablespoons](#) butter
4-6 ounces of SeaBear's wild [smoked salmon](#), broken up by fanning out between your hands
2 tablespoons fresh chives or green onions, sliced

Instructions:

Heat the butter and oil combination over low heat in a 10 - 12 inch skillet
While the pan is heating, beat the eggs in a [mixing bowl](#), until well blended but not frothy
Do not add salt, there may be enough in the smoked salmon
When fat is hot enough to sizzle a drop of water, then pour in the eggs
Cook over low heat, stirring occasionally as the eggs cook (do not over stir and do not allow the eggs to brown)
Add the wild smoked salmon just before the eggs have finished cooking
Remove the eggs from the heat when they are "set" but still soft and moist
Garnish with chives or green onions

Serve immediately

If you wish, you could add a piece of your favorite [Norwegian Cheese](#) on top as a delicious addition. You might want to serve this scrambled egg recipe with an [Orange Frappe](#) or a [Midori Margarita](#)! Or a glass of Champagne!

1 tablespoon each of butter and peanut oil or vegetable oil
8 eggs, beaten
2 teaspoons Dijon mustard or coarse ground mustard
1/2 cup green pepper, cored and diced
1/3 cup white or red onion, diced (or 4 green onions, white part and tender green part, chopped)
1 cup mushrooms, thinly sliced
1/2 cup broccoli, blanched and chopped
2 cups spinach, blanched and well drained
2 cloves garlic, minced
2 tablespoons each of parsley and chives, freshly chopped
Salt and freshly ground pepper to taste
4 ounces cheddar cheese, finely shredded
1/3 cup tomato, seeded and diced
Salsa (optional, but a wonderful enhancement and I urge you to research sauces available at igourmet.com)

Instructions:

Prepare all vegetables and grate the cheddar cheese (or purchase grated cheddar if you are short on time)
Heat a 10-12 inch pan over moderate heat
While the pan is heating, whip the eggs with the mustard in a mixing bowl with a wire whip until blended but not frothy
When the pan is hot enough to make a drop of water sizzle, add the butter/oil combination
When the butter stops foaming, add the peppers, onions and then the mushrooms and sauté for 2 minutes
Add broccoli, spinach, garlic and herbs and heat for about one minute
Add the eggs and turn the heat to low and let sit without stirring until the eggs are set
Add salt and freshly ground pepper, if desired
Sprinkle cheese on top and finish under a heated broiler about 3-4 inches below the heat
Remove from heat when the frittata is puffed up and golden
Garnish with tomato and then cut the frittata into wedges
Plate the frittata wedges and garnish each piece with a dollop of salsa

Frittatas are the Italian form of an omelet. They are usually full of vegetables and cheese and/or meats. Besides being delicious, they are a great way to use leftovers!

Let's "talk" about garlic for a minute. First, I love it! Second, not too much to over power everything else. Third... the easiest way to peel fresh garlic is to crush a clove with the flat side of your favorite large (wide) knife or use a [garlic press](#).

Once crushed by a knife, the peel is easily removed. And ... since it is flattened, you can easily dice or mince the garlic. ☺

Italian Frittata

Preparation Time: 12 minutes. Servings: 2-4

[Cooking Conversion Table](#)

Ingredients:

1 tablespoon olive oil
6 ounces cooked, diced Italian sausage
1/2 cup sliced mushrooms
1/2 cup chopped onions
1-2 teaspoons minced garlic
6 beaten eggs
4 ounces grated Mozzarella cheese (about 1 cup)
4-6 ounces warm Italian meat sauce or Marinara sauce
Parmesan cheese, grated
Fresh chopped parsley for garnish

Instructions:

Heat a 10-12 inch egg pan over moderate heat
While the pan is heating, whip the eggs with a wire whip until blended, but not frothy
When the pan is hot enough to make a drop of water sizzle, add the olive oil
Add sausage, mushrooms, onions and garlic and heat for 2 minutes (stir with a spatula or shake pan - do not burn the garlic)
Add eggs and turn the heat to low and let sit without stirring until eggs begin to cook around the edges and then stir occasionally
Sprinkle Mozzarella cheese on top and finish under a heated broiler about 3-4 inches below the heat
Remove from the heat when the frittata is puffed up and cheese is just beginning to brown
Top with Italian sauce, Parmesan cheese and parsley
Cut into wedges to serve

Okay ...I admit it. I developed my versions of breakfast sandwiches after the “golden arches” introduced them. However, my breakfast sandwiches are much better tasting and more nutritious.

Sausage, Bacon or Ham Breakfast Sandwich

Preparation time: 8 minutes. Servings: 4.

Cooking Conversion Table

Ingredients:

Four bagels, grilled or toasted (as a wonderful alternative, use my [biscuits!](#) Or you can also just toast or grill your favorite bread.)
Four sausage patties, cooked (or 8 pieces of natural bacon or four slices of great ham)
1 1/2 teaspoons each of butter and peanut oil or vegetable oil
Four eggs, scrambled (Read my article, [“How To Cook An Egg”](#))
Four slices real Cheddar cheese
Four tomato slices
Butter

Instructions:

Heat a skillet over medium heat and fry the sausage patties (or your meat choice)
While the sausage is cooking, toast or grill bagels (or bread or biscuits), butter them and keep warm
Heat the butter and oil over low heat in a 10 inch skillet
While the pan is heating, beat the eggs in a mixing bowl until blended but not frothy
When the fat is hot enough to sizzle a drop of water, pour in the eggs
Cook over low heat, lifting the cooked egg so that the uncooked egg can run underneath
With a rubber spatula, cut the scrambled eggs into four pieces about the size of the bagels and place the scrambled egg on the bottom of each toasted bagel (or bread choice); then top with sausage patties (or alternative meat), cheese and tomato slices
Place top of bagel (or alternative bread) on each sandwich
Serve with fresh fruit or breakfast potatoes

How about this, friends? Freeze individual sandwiches (once cooled) for a quick, delicious breakfast when you are short on time!

To freeze: Wrap in plastic wrap and then place in a sealable freezer bag.

This picture says it all about my blueberry muffin recipe!

Don't "muff it!" This muffin recipe is the second most customer requested muffin recipe ever. It is a close "second" to my Bran Muffin Recipe (also in this e-cookbook!)

My restaurant customers are a diverse group of people, but it is wonderful to know we can at least agree on certain things. Everyone loves these muffins.

Blueberry Muffin Recipe

Preparation time: approximately 20 minutes. 16-20 servings.

Cooking Conversion Table

Ingredients:

1 cup butter, softened
1 cup sugar
2 teaspoons vanilla
4 eggs
2 cups sour cream
4 cups flour
2 teaspoons baking powder
2 teaspoons baking soda
1/2 teaspoon salt
2 1/2 cups blueberries (or Marion Berries, see note below)
Melted butter and sugar (note instructions)

Instructions:

Preheat oven to 400 degrees F
In a large mixing bowl, cream together 1 cup butter, 1 cup sugar and vanilla
Add eggs and beat
Then blend in sour cream and set aside
In a separate mixing bowl, stir together flour, baking powder, baking soda and salt; fold into creamed mixture gently (DO NOT OVER MIX)
Fold in blueberries and spoon into muffin pans 3/4 full
Bake muffins 24 to 26 minutes. To test for doneness, insert a toothpick
If it comes out "clean," your muffins are done
Transfer to cooling racks and while still warm, dip muffin tops in melted butter and then into the sugar

I use this same muffin recipe but sometimes substitute Marion Berries instead of blueberries. I always sell out!

Blueberry Cornbread Muffin Recipe

This blueberry cornbread muffin recipe will give you wonderful muffins to serve at breakfast or brunch.

These muffins are also very good with my Garden Patch Soup. I also put lots of butter on these muffins and eat them as a snack!

Blueberry Cornbread Muffin Recipe

Preparation time: 15 minutes. 12 servings.

[Cooking Conversion Table](#)

Ingredients:

2 1/2 cups of flour, stirred
1 1/2 cups of cornmeal
2/3 cup of sugar
1 1/3 tablespoons of baking powder
1 teaspoon salt
2 cups buttermilk
2 beaten eggs
1/3 pound of melted butter
3 cups of fresh or frozen blueberries

Instructions:

Preheat your oven to 400 degrees F (see note below)

Grease muffin pan or use paper liners

In a large bowl, combine flour, cornmeal, sugar, baking powder and salt and blend the ingredients

In a smaller bowl, combine buttermilk, eggs and butter and then stir this into the dry ingredients in the large bowl (do not over mix or the texture will not be right)

Gently fold in blueberries

Scoop batter into your muffin pan

Bake 20-25 minutes or until a toothpick inserted in the center comes out "clean"

Always have your oven preheated to the correct temperature or your muffins will not bake correctly. Check doneness at the earliest suggested time as ovens may vary in temperature.

Tip: When I measure flour I spoon it lightly into a dry measuring cup and level it with a spatula or the back of a knife. Also, if a recipe calls for sifting several dry ingredients you can simply put all the ingredients in a bowl and stir with a [whisk](#).

Combine All Bran mixture and liquid ingredients

Add flour mixture and stir just until flour is incorporated (Do NOT over mix or the muffins will not have the right texture)

Bake in greased muffin pan in pre-heated oven at 400 degrees for 18-20 minutes

Make CERTAIN your oven temperature is correct or muffins will not bake right. To test for doneness, insert a toothpick. If it comes out “clean,” your muffins are done. **Enjoy!**

Easy Restaurant Recipe for Cornbread **Excellent With Chili and Soup**

My traditional cornbread restaurant recipe takes me back to my childhood days with my mother making cornbread and chili.

An Easy, But Delicious Garlic Bread Recipe

Making delicious garlic bread is really easy, IF you have a really good garlic bread recipe.

Garlic Bread Recipe

Preparation time: 20 minutes. Serves 8-10.

[Cooking Conversion Table](#)

Ingredients:

1 loaf of very good French Bread

1/2 pound (two cubes) of butter

4-8 cloves of fresh minced garlic (depending on how much garlic flavor you prefer - I use four medium size cloves per cube of butter)

Optional: Fresh chopped parsley (I like this option)

I want you to do yourself and your family and friends a favor (and a “flavor”). Read my article on a [garlic press](#). (Yes, I know ...you are busy. So is everyone, but this information may save you time AND improve your health and that of your family.)

No garlic press? Okay, here is what you need to do:

- Place the garlic cloves on a cutting board.
- Place the flat side of a large [knife](#) on the garlic cloves and hit the flat side of the knife with your hand. The skin will fall off, allowing you to mince the fresh garlic easily.

Instructions:

Melt the butter over low heat (i.e., slowly)

While the butter is melting, peel the garlic cloves and mince

Add your minced garlic to the butter and leave on very low heat for about 3 minutes (do Not burn the garlic or butter)

Pour the butter/garlic mixture through a small sieve pushing on the garlic with a spoon to extract all the juice (see the article: ["Garlic Press"](#) .)

Cut the French bread the long way through the middle of the loaf

Spoon or brush the garlic butter onto both sides (be generous) and put the loaf back together

Wrap the loaf in foil and heat in a 325 degree F oven until warmed all the way through

Oh! Now I'm hungry! Good job, friends!

A Real Restaurant Recipe: Raisin Walnut Scone Recipe

Preparation time: 25-30 minutes. Makes 12 scones.

Cooking Conversion Table

Ingredients:

1 3/4 cup flour
2 tablespoons sugar
2 tablespoons baking powder
1/2 teaspoon salt
1/3 cup butter
1/3 cup milk
2 eggs
1/2 cup raisins (regular or golden)
1/4 cup chopped walnuts

Topping Ingredients:

1 tablespoon melted butter
2 tablespoons sugar
1 teaspoon cinnamon

Instructions:

Preheat oven to 425 degrees F
Measure and then combine the dry ingredients
With a pastry blender, cut in the butter
Combine milk and eggs and then add to the dry ingredients with the raisins and walnuts
Stir to blend
Roll out and cut into 3 inch squares
Cut each square diagonally so you have triangles
Place on an un-greased baking sheet
Combine the sugar and cinnamon in a separate container
Brush the scones with melted butter, then sprinkle them with the sugar-cinnamon combination
Bake 15-18 minutes at 425 degrees F

Tip: To accurately measure flour (dry ingredients), spoon it lightly into a dry measuring cup and level with a spatula or the back of a knife.

Tip: If a recipe calls for sifting several dry ingredients, just put all the ingredients in a mixing bowl and stir with a whisk. It is much quicker and easier.

These scones are wonderful at breakfast or for a brunch item. I love them with either [coffee](#) or a great cup of [tea](#).

Restaurant Recipe For White Bread

Preparation time: about 50-60 minutes. Makes 2 loaves of bread or 2-2 1/2 dozen rolls depending on portion.

Cooking Conversion Table

Ingredients:

- 1 package of yeast (1/4 ounce)
- 1/4 cup of warm water (about 110 degrees)
- 2 cups hot milk (or 1 can evaporated milk + 1/4 cup of water)
- 1/4 cup sugar
- 2 tablespoons melted butter
- 2 teaspoons salt
- 6 cups unbleached flour

Instructions:

In a [sauce pan](#) heat the milk over medium-low heat until hot (but do not boil)

Remove from heat and add butter, salt and sugar and stir to dissolve and cool to lukewarm

In a small [bowl](#) dissolve the yeast in warm water (110 degrees F) until bubbly (about 10 minutes)

In a large [mixing bowl](#) combine the lukewarm milk and yeast mixture with 2 cups of flour and stir well

Stir in remaining flour 1/2 cup at a time, beating well after each addition until the dough begins to leave the sides of the bowl (if this happens before all the flour is added, do not add the remaining flour)

Note: flours vary in how they "behave" so add only until it has pulled together in the bowl.

Turn out onto a lightly floured surface and knead the dough until it feels smooth, soft and velvety (8-10 minutes). If the dough is sticky, lightly sprinkle flour over it and then knead it

To knead the dough, place the heels of your hands on the front of the dough and push away, rolling or folding the top of the dough back toward you. No need to be "heavy" or "rough" while kneading.

Place the dough in a buttered bowl, turn over and cover with a damp cloth or clean kitchen towel and place the bowl in a warm, draft free spot and let the dough rise until it doubles in size

Punch it down and put it back in the buttered bowl and turn it over and cover it again

Let the dough rise until it is almost double in size

You can bake the bread without letting it raise a second time but it will not have as fine a texture.

(Page Two of White Bread Recipe)

Punch the dough down and divide it in half

Roll each half out with a rolling pin and shape into loaves by rolling the dough starting at the narrow end, sealing seams by pinching

Place in buttered [loaf pans](#) and butter the tops with melted butter

Cover very loosely with plastic wrap and let rise in a warm area until double in size (about 30 minutes)

Place a small pan of hot water on the bottom oven rack and preheat oven to 375 degrees F

Uncover the loaves and bake until tops are golden (25-35 minutes)

Remove from oven and again brush the tops with melted butter

Cool before slicing (if you can stand to wait that long!)

To test a loaf of bread for doneness, tap the loaf out of the pan and tap on the bottom of the loaf. If it sounds hollow, it is done. If it doesn't sound hollow, place it back in the pan and pop it in the oven for a few minutes longer and test it again.

Oh! I almost forget to tell you. This same bread recipe can in fact be used to bake dinner rolls instead of the loaves of bread.

For dinner rolls...

After punching the dough down the second time, cut or pinch off dough and form into rolls by rolling each of those pieces of dough between your hands until round

Place on greased [sheet pans](#) (15-20 per pan) and brush the tops with melted butter

Let rise again until almost double in size

Have the oven pre-heated to 400 degrees F and bake for about 8 minutes

Reverse the pans on the oven racks and bake another 7-8 minutes or until the rolls are golden brown and done in the center

Salad Recipes ... You've Come a Long Way, Baby!

Favorite Restaurant Recipes for Salads

How long has it been since you've had a delicious salad?

The kinds of salad recipes we have today and what we think about salads in general has changed a great deal in the last 40-50 years.

Pasta salads, potato salads, salads with vegetables and fruits, salads with sprouts, seafood salads, meat salads, Caesars, mixed wild green salads, dessert salads, gelatin salads ...**the choices go on and on.**

It used to be a salad was something served just before an entree or sometimes with the entree.

That salad was usually iceberg lettuce with French or Thousand Island dressing or oil and vinegar served in cruets. **WOW! THINGS HAVE CHANGED!**

Salads are now a mainstay for my restaurant. Salads have become a nation-wide obsession, including in the small “meat and potato” town in which I do business. Enjoy!

Toss the chicken mixture with the dressing using **ONLY ENOUGH** to moisten well

Correct seasoning adding salt and pepper if desired

That's it. Just scoop the portion size you want onto a little lettuce arranged neatly on a plate, garnish with a couple slices of tomato and serve with some bread.

*Option: If you do not have sun-dried cranberries, use canned pineapple, grapes or fresh chopped apples, although I believe the sun-dried cranberries really are **BEST** in this chicken salad recipe.*

To use the chicken salad for sandwiches just combine two slices of bread (your choice), 2 lettuce leaves, 2 - 3 slices of tomato and a little mayonnaise if desired.

Now what do you do to use this restaurant recipe for creating **appetizers**?

Chop the chicken salad a bit finer. That's all you have to do!

And then what? Use the chicken salad to fill small cream puffs, or cherry tomatoes.

Use it as a topping for canapés or as a spread on a variety of crackers.

Summer and Fall are perfect times for vegetables and grilling.

This is a really delicious and nutritious way to use fresh asparagus, corn, peppers and ...who doesn't need to use all the zucchini we have available! In part, this vegetable salad is delicious because of my [Balsamic Vinaigrette Restaurant Salad Dressing Recipe](#) which is also in this cookbook and on my website.

Grilled Vegetable Salad Recipe

Preparation time: 30 minutes. Serves 4-6, depending on portion.

Cooking Conversion Table

Ingredients:

3/4 pound asparagus, washed
2 ears of corn, shucked
1 red onion, sliced into 1/2 inch slices
2 small zucchini, cut lengthwise into 1/2 inch slices (very small squash can be cut down the middle and grilled in halves)
2 bell peppers (red, yellow or green), cut in half with seeds and whitish ribs removed
2 tablespoons melted butter
2 tablespoons olive oil
Kosher salt and fresh ground black pepper

More Ingredients (Not to be grilled):

1 avocado, halved, pitted and then diced
2-3 Roma tomatoes, cored and cut into large pieces
12-16 ounces of mixed baby greens (or your favorite greens)
1/3-1/2 cup freshly grated Asiago or Parmesan cheese
My Balsamic Vinaigrette

Note: You can substitute whatever vegetables you have or like. I often add grilled mushrooms, for example. My favorite is grilled Portobello mushrooms!

Instructions:

Make a hot fire in a charcoal grill or preheat a gas grill on high
Cut off ends of washed asparagus (the woody part)
Pull back the husks on the corn but DO NOT remove. Remove the silk and cut off the very end.
Soak the corn in cold water for about 30 minutes. Dry and brush the corn with butter. Fold the husks back down and tie or twist the ends (I use kitchen twine to tie the ends)
Place corn on grill directly over heat, turning occasionally
Place the asparagus, zucchini, pepper halves and red onion slices in a single layer on a [baking sheet pan](#) and brush with olive oil on both sides
Season with Kosher salt and fresh ground black pepper
Place the vegetables directly over the fire (heat), turning to prevent burning after 1-2 minutes (be careful not to over cook)

Page Two: Grilled Vegetable Salad

When done the zucchini should be browned, the corn husks should be spotted with brown and a little charred looking, the onions and peppers should be very slightly charred and the asparagus should have grill marks

Remove vegetables from the grill and let cool a little

Stand one ear of corn at a time on a cutting board with husk removed and slice downward along the cob with a sharp knife to remove the kernels and turn the cob after each cut

Place the kernels in a large salad bowl and add the following vegetables:

- The zucchini cut into 1 inch pieces
- The asparagus cut diagonally into 1 inch pieces
- The onion slices now cut into chunks
- The peppers first cut into wedges and then 1 inch squares

Toss the grilled vegetables with the avocados, tomatoes, salad greens and [Balsamic Vinaigrette](#)
Season with salt and pepper if desired and sprinkle with the cheese

That's it! A YUMMY Grilled Vegetable Salad! Good job!

Restaurant Potato Salad Recipe ...A Great American Tradition

There are entire cookbooks dedicated to [potato salad](#).

What is "extra special" about a really good basic potato salad is that it "goes" with so many other food items.

This potato salad recipe has been "tested" by thousands of my restaurant customers (guests) for over 20 years. They really like it.

Different kinds of potatoes "behave" differently when cooked mostly because of their starch content. I think the best potatoes for potato salads are Yukon Gold, Yellow Finn, new potatoes, red-skinned potatoes, white round potatoes, and purple potatoes.

At my restaurant I use either red potatoes or new potatoes or Yukon Gold.

Warm Yourself with a Delicious Scallops and Warm Spinach Salad Another Favorite Restaurant Recipe

This restaurant seafood salad is a very special recipe that combines scallops in a warm spinach salad and calls for roasted red pepper vinaigrette that brings everything together for a real culinary treat.

When shopping for this seafood make certain they are plump and firm, with a sweet aroma. The best of these are creamy or slightly off-white. When cooked, each is opaque and just firm. Over cooking will make them tough. If you use large ones, it might be best to slice each one into two thinner pieces for more uniform cooking.

Seared Scallops - Warm Spinach Salad: A Real Restaurant Recipe

Preparation time: 30 minutes. Serves 4.

Cooking Conversion Table

Ingredients:

9 ounces of baby spinach (about 8 cups lightly packed)
3/4 cup sliced almonds, toasted
5 tablespoons olive oil
1 pound of medium size sea scallops
4 ounces roasted red peppers cut into thin strips (about 1/2 cup)
2 medium shallots, sliced thin
1/8 teaspoon ground black pepper
1 1/2 tablespoon sherry vinegar

Instructions:

Place the spinach in a large mixing bowl, add the almonds and set aside
Add 2 tablespoons olive oil into a skillet and raise the temperature to medium high heat (heat oil until it just begins to smoke)
Add the seafood, flat side down and cook about 2 1/2 minutes)
Use tongs and turn them over
Cook until medium-rare (about 45 seconds longer. The sides will have firmed and all but the middle third of each piece of seafood will be opaque)
Transfer the scallops to a plate, season with salt to taste and set aside
Lower heat to medium, add remaining 3 tablespoons of olive oil into the skillet
Add red peppers, shallots, 1/4 teaspoon of salt and pepper
Cook until the shallots soften slightly (about 2 minutes)
Remove the skillet from the heat and swirl in the vinegar
Pour the warm dressing over the spinach and toss to wilt
Divide the spinach salad among 4 plates and arrange the scallops on top

1/2 red onion, thinly sliced (optional)
1/2 cup crisp bacon pieces (optional)

Marinate the mushrooms in the oil and vinegar (or dressing) for one hour or until you are ready to serve the salad

To serve, toss the ingredients in a salad bowl and serve on salad plates (see below)

Salad Dressing Recipe:

Preparation time: 5 minutes. Makes enough dressing for recipe above (4-6 salads).

Ingredients:

The "key" is to use the finest [Oil and Vinegar](#) you can afford. The amounts are approximate. Please adjust to your taste.

3 tablespoons olive oil
1 tablespoon quality vinegar
1 teaspoon finely minced garlic
Salt and pepper
1/2 - 1 teaspoon Dijon mustard
Minced parsley or a little of your favorite herb

Instructions:

Put all the ingredients except the olive oil in the bottom of a bowl and let sit for 30 minutes

In the same bowl, place the spinach leaves on top of the mixture.

Pour the olive oil over the leaves only and then use your fingers to toss the leaves to lightly coat them with the oil

Now reach to the bottom of the bowl into the mixture with a rubber spatula and toss the spinach with the rest of the dressing mixture. This process saves a step and saves washing a separate bowl

"Best Thing Since Sliced Bread"

Recipes from Restaurant

A great many of my restaurant guests have requested these restaurant sandwich recipes and other restaurant recipes they have enjoyed ...and keep coming back for!

When you think “sandwich,” what comes to mind? Two pieces of bread with some meat jammed in between?

My hot selling restaurant sandwich recipes ARE WAY MORE than that!

Sandwiches really didn't “take hold” in America until bakeries started selling pre-sliced bread. Pre-sliced bread allowed children to make their own sandwiches without having to use a sharp knife. And as we all know, a sandwich is “portable,” and Americans were “on the move.”

Wonder Bread began selling its soft white bread in 1930. This was so popular it produced a new American phrase: **“The best thing since sliced bread.”**

Today Americans are fortunate to have a huge variety of foods available for culinary endeavors and it doesn't have to be a “big deal” to make delicious sandwiches for you, your family and your friends to enjoy.

Almond Chicken Salad Recipe ...Delicious Versatility Salad, Sandwich Or As An Appetizer Spread!

What flexibility this Almond Chicken Salad Recipe provides!

Here is the basic **Almond Chicken Restaurant Salad Recipe**

Preparation time: 20 minutes. This recipe makes approximately 8 servings if used as a sandwich or a salad. For appetizers, much more.

Cooking Conversion Table

Ingredients:

1 3/4 pounds cooked chicken breasts or a combination of white and dark chicken meat
1 1/2 cups thinly sliced celery
1/2 cup sun-dried cranberries (important)
1/2 cup toasted almonds

Ingredients for Salad Dressing:

1/4 cup whipping cream, whipped softly
1/2 cup + 2 tablespoons mayonnaise
1/2 teaspoon coarse black pepper

Instructions:

Chop chicken lightly in a food processor or chop half the meat with a knife and the other half in the food processor (don't over do it or you'll end up with a paste)

Fold in celery, cranberries and almonds

Whip cream and slowly blend in the mayonnaise and coarse black pepper

Toss the chicken mixture with the dressing using **ONLY ENOUGH** to moisten well

Correct seasoning adding salt and pepper if desired

That's it. Just scoop the portion size you want onto a little lettuce arranged neatly on a plate, garnish with a couple slices of tomato and serve with some bread.

*Option: If you do not have sun-dried cranberries, use canned pineapple, grapes or fresh chopped apples, although I believe the sun-dried cranberries really are **BEST** in this chicken salad recipe.*

To use the chicken salad for sandwiches just combine two slices of bread (your choice), 2 lettuce leaves, 2 - 3 slices of tomato and a little mayonnaise if desired.

Now what do you do to use this restaurant recipe for creating **appetizers**?

Chop the chicken salad a bit finer. That's all you have to do!

And then what? Use the chicken salad to fill small cream puffs, or cherry tomatoes.

Use it as a topping for canapés or as a spread on a variety of crackers.

Monte Cristo Sandwich ...

There is no more popular a sandwich at my restaurant than the Monte Cristo sandwich.

My restaurant recipe uses thick egg bread rather than white bread since that variation is what my guests prefer. I also dust the sandwich with powdered sugar and serve it with jam or preserves as was done originally.

Monte Cristo Sandwich Recipe

A Best Restaurant Recipe for a Sandwich

Preparation time: 20 minute. Makes 1 sandwich.

Cooking Conversion Table

Ingredients:

3 slices of thick egg bread (or your choice)
2 ounces of thin sliced turkey
2 ounces of thin sliced ham
2 slices of quality Swiss cheese
Softened butter
3 beaten eggs
Powdered sugar

Instructions:

Butter one side of two pieces of bread with softened butter and two sides of the third piece (the middle slice)
Lay the first slice of bread down with the buttered side up
Place 1 slice of cheese on the buttered side of this piece of bread
Place 2 ounces of thin sliced turkey on the cheese
Next place the piece of bread that is buttered on both sides on top of the turkey and then place 2 ounces of thin sliced ham on that piece of bread and then another slice of Swiss cheese on ham
Finally place the third slice of bread, buttered side down on top of the second piece of cheese
Trim the crust from the sandwich with a sharp serrated knife
Cut the sandwich from one corner to the other so that you have two triangular pieces of the sandwich
Dip each portion of the sandwich in the beaten egg and place each piece on a hot grill
Grill ALL sides of the sandwich pieces until golden brown
Remove from the grill and dust each part of the sandwich with powdered sugar
Plate the sandwich and serve with jam or preserves

It is best to store the sandwich in the refrigerator with a weight on it for a few hours before cooking because it will hold together better on the grill.

Tucson Vegetable Wrap ...Recipe from Restaurant Vegetable Sandwich Recipe Southwestern Influence

I first had this vegetable wrap at a restaurant in Tucson, Arizona when I was on vacation (a rare occurrence). I enjoyed it so much I asked for the restaurant recipe. They respectfully declined and I understood.

So when I returned home to my restaurant, I experimented until I thought I had it just right. I put it on my daily special sheet and sold them out easily. I had another real restaurant recipe!

Favorite Restaurant Recipes

The way we have changed our life-styles and eating experiences has elevated these restaurant appetizer recipes as an essential part of the restaurant business and for home entertainment.

As originally used, appetizers were to be light items and not constitute a complete meal in and of themselves.

While we still use appetizers as an indication of the meal to come and, quite frankly, as a means of entertaining guests while the main meal is prepared, in America we have assigned appetizers an additional role.

(Two of my favorite "grazers.")

At certain times and occasions, appetizers have become the entire meal. Eating several different appetizers for a meal is sometimes referred to as "grazing."

My restaurant recipes for appetizers provide for a full range of tastes, costs and products and have been favorite restaurant recipes for the past two decades. Some of my restaurant recipes have been really secret restaurant recipes...until now.

1/2 cup sun-dried cranberries (important)
1/2 cup toasted almonds

Ingredients for Salad Dressing:

1/4 cup whipping cream, whipped softly
1/2 cup + 2 tablespoons mayonnaise
1/2 teaspoon coarse black pepper

Instructions:

Chop chicken lightly in a food processor or chop half the meat with a knife and the other half in the food processor (don't over do it or you'll end up with a paste)

Fold in celery, cranberries and almonds

Whip cream and slowly blend in the mayonnaise and coarse black pepper

Toss the chicken mixture with the dressing using **ONLY ENOUGH** to moisten well

Correct seasoning adding salt and pepper if desired

That's it. Just scoop the portion size you want onto a little lettuce arranged neatly on a plate, garnish with a couple slices of tomato and serve with some bread.

*Option: If you do not have sun-dried cranberries, use canned pineapple, grapes or fresh chopped apples, although I believe the sun-dried cranberries really are **BEST** in this chicken salad recipe.*

To use the chicken salad for sandwiches just combine two slices of bread (your choice), 2 lettuce leaves, 2 - 3 slices of tomato and a little mayonnaise if desired.

Now what do you do to use this restaurant recipe for creating **appetizers**?

Chop the chicken salad a bit finer. That's all you have to do!

And then what? Use the chicken salad to fill small cream puffs, or cherry tomatoes.

Use it as a topping for canapés or as a spread on a variety of crackers.

Favorite Real Restaurant Recipes

And chicken recipes can be nutritious ...with my restaurant recipes.

Chicken became a favorite meal in the U.S. as people settled into farming and raising their own meats.

And maybe because of our current circumstances, Americans are enjoying thrifty, versatile and tasty chicken more than ever before.

The restaurant recipes on my website and in my e-cookbooks are a reflection of the fact that "American cuisine" is really both regionally and internationally diverse. Eating is simply more enjoyable today than ever before.

Quality Beef ...Quality Beef Recipes ...Quality Meals Restaurant Beef Recipes

Quality beef and my customer approved restaurant beef recipes ...a winning combination!

*There may be things better than beef, potatoes and
home-made bread ---there may be.*

For many years, beef was THE staple at dinner time in America, whether at home or when dining out. But for many people and their families things are changing. People are beginning to vary their diets, reducing the amount of beef they consume. Still ...I continue to sell a great deal of beef at my restaurant.

There are three reasons why I continue to sell a lot of beef at my restaurant.

- I purchase **quality beef**
- I have **restaurant recipes that work**
- I cook the beef to the **requested doneness** (Yes, I encourage the use of meat thermometers)

Of the eight different grades of beef, I only use two for most of my restaurant recipes: "**Prime**" and "**Choice**."

"Prime" is expensive because it is the best. I use "Choice" for many of my restaurant beef recipes. Please remember, regardless of the quality of the grade, some cuts of meat are naturally more tender than others. They are in greatest demand and usually command a higher price than other cuts.

Start with the right product and the right restaurant recipe, cook the beef as specified and you'll end up with a fantastic tasting, healthy meal your family will remember for a very long time. And most methods of cooking beef are easier (and healthier) than many people think.

Save a Little Burgundy Wine ...Beef Strips Recipe Needs Some A Favorite Restaurant Recipe

My first suggestion if you want this restaurant recipe for Beef Strips to produce excellent flavor: use a burgundy wine you would (or at least could) drink. That is the absolute bottom line when cooking with wine.

Please do not use a cooking wine you might see in grocery stores. Cooking wine usually contains too much salt and not enough of the flavors you really want. Use a "mainstream" wine for cooking. It doesn't have to be expensive.

When using a decent wine for cooking you must leave enough for the recipe! ☺

My Restaurant Recipe for Beef Strips with Burgundy

At my restaurant I most often use trimmed prime rib for this favorite restaurant recipe but you can easily substitute any reasonable cut of meat graded "choice." Preparation time: 30 minutes. Serves 4.

Cooking Conversion Table

Ingredients:

1 1/2 pounds prime rib (or other...see note above) cooked medium rare (still lots of pink) and well-trimmed and cut into 1/4 inch thick strips
3-4 tablespoons clarified butter
Flour
1 cup julienne carrots
1/2 cup julienne red onions
1 cup raw broccoli, sliced
1 cup white mushrooms, sliced
2 teaspoons garlic, minced
4-6 ounces Burgundy wine
8 or more ounces brown sauce or gravy
Salt and pepper to taste

Instructions:

Heat butter in a large skillet and sauté carrots, broccoli and onions
Add mushrooms, garlic and sauté
Deglaze with burgundy wine (simply means pour wine around edges of the pan and continue to sauté ...cook ...until the sauce thickens)
Add brown sauce or gravy and the meat strips
Cook until very hot paying attention to desired meat doneness
Serve over rice or pasta noodles of your choice and garnish with green onions sliced diagonally.
That's it! Enjoy!

Filet Mignon Recipe ...King of Steaks

Filet Mignon Recipe with Blue Cheese Butter

Preparation time: 10 minutes for the Bleu Cheese Butter. 10-15 minutes for the clarified butter. Cooking time for the steak depends on desired doneness and thickness of the cut (1 inch should be the absolute minimum). Serves 4.

[Cooking Conversion Table](#)

Ingredients:

Four 6 ounce filet mignon steaks (I like a thickness of at least 1 1/2 inch. I also recommend you purchase [natural beef](#) if at all possible.)

Kosher salt and freshly ground pepper

2-4 tablespoons of clarified butter (see below)

[Bleu Cheese Butter](#) (click the link for the recipe)

Instructions:

Let the meat sit at room temperature for about an hour

Heat the clarified butter (see below) in a large sauté pan or [cast iron skillet](#) over moderately high heat

Salt and pepper the filet mignon to taste

Place the steaks in the pan and cook until well browned on the bottom and about half done (cooked)

Turn the steaks over and continue to cook to desired temperature (have your thermometer handy and see cooking temperature table below)

Important: If the steaks are fairly thick and you are cooking them to medium or above, turn the heat down to medium or medium-low when you turn your steaks over so the meat will not brown too much.

Using your meat thermometer, check for doneness

Remove from heat to warmed plates and place sliced bleu cheese butter on top of each steak

To clarify butter:

- Melt butter over very low heat
- Skim off what comes to the surface
- Slowly pour off the oil part into another container
- Discard the solids

Meat Thermometer Cooking Temperatures

NOTE! The meat continues to cook for a few minutes after you remove it from the heat.

- RARE: 130-140 degrees
- MEDIUM-RARE: 140-150 degrees

3 eggs, beaten
1/2 teaspoon black pepper

Drain off fat

Let sit several minutes before slicing or refrigerate and slice cold

Butter It Up! Steak Recipe with Brandy Butter

Another Favorite Restaurant Recipe

Adding complementary and delicious flavors to your steak enhances your dining pleasure!

There are three "keys" to this wonderful restaurant steak recipe:

- select a tender cut of quality beef steak
- cook the beef to the exact doneness you like
- add the properly prepared brandy butter

Preparation time: 10 minutes. Serves 4, but you will have extra butter to freeze for other times and other restaurant recipes!

Cooking Conversion Table

Ingredients:

1 pound butter
2 ounces brandy
1 tablespoon coarse ground black pepper
1/2 cup parsley, finely chopped
1/2 ounce fresh garlic, minced
2 teaspoons Dijon mustard
Four 4-6 ounce steaks (sirloin or another tender cut of choice beef steak)

Instructions for this restaurant steak recipe:

Put all steak butter ingredients in a food processor and process until creamy (or mix the old fashioned way in a bowl with a spoon until creamy)
Get your barbeque or your broiler hot
Brush the steaks with olive oil and place on grill
DO NOT SALT MEAT until it is off the grill
Cook to desired doneness (temperature)
Plate the steaks and let them "rest" for a minute or two (they deserve it)
Serve the steaks topped with about 1 tablespoon of the brandy butter

That's it! Good job!

Hey, what about the remaining brandy butter? No problem: Roll the butter into wax paper or parchment paper and twist the ends closed. Place in freezer to use again!

Seafood Recipes for Brain Food! Buy Quality Seafood!

My restaurant seafood recipes are not served to my customers who are seated over-looking an ocean, river or lake, but I do sell more seafood...especially salmon, [Alaskan halibut](#), crab, prawns and shrimp, lobster and cod ...than most other restaurants for miles around, even those with a water view.

Wild, Wonderful Seafood!

There are three reasons why my seafood restaurant recipes do so well:

- Diners today understand the nutritional value of some seafood (low carbs, high protein, healthy fat)
- Seafood is versatile. It can be used as a main course or as an appetizer, a spread, or a salad or sandwich
- My restaurant recipes specify only quality seafood and that helps deliver fabulous taste while enhancing health.

My restaurant seafood recipes use fresh product when quality fresh is available. I do not buy fresh fish any sooner than I absolutely have to. Refrigerated and iced-down, it can be stored for only about two days. I really recommend you buy seafood harvested from deep clean waters.

Top this with half the sauce

Repeat as above, layering the remaining potatoes, carrots, onions and salmon

Pour the remaining sauce over all

Dot with 2 tablespoons of butter

Gently (or the dough will get tough) knead the dough into a ball

Place the dough on a lightly floured surface or pastry cloth and roll it out to a thickness of about a 1/8 inch in the approximate shape of your casserole dish (do not stretch the crust or it will shrink when baking)

Top of the salmon casserole with the crust, trim edges and cut vent holes

Glazed Salmon Recipe ...Use Deep Water Wild Salmon Recipe from Restaurant

Preparation time: 5 minutes. Serves 4.

[Cooking Conversion Table](#)

Salmon Buying Tips:

Fresh salmon steaks and fillets should be firm and deep, "salmon pink" in color. The meat should have a slight sheen and appear somewhat translucent.

Choose steaks and fillets with smooth cuts. Cuts of salmon that have gaps or separation of muscle fibers are indicative of old fish.

Packaged salmon should be stored in an airtight container with no visible liquid.

Frozen salmon should be in an air tight package with no visible frost.

Refrain from salmon that has a strong "fishy" smell, the fish odor should be mild.

Ingredients:

1 1/2 pounds skin-on deep water [wild](#) salmon fillet or use four fillets, 6-7 ounces each
(Thicker cut fish will stay moist longer)

2 tablespoon Worcestershire sauce

4 tablespoons Low-sodium soy sauce

2 - 3 tablespoons fresh lemon juice

Salt and freshly ground pepper to taste

Vegetable oil

Handling Tips:

1. Keep salmon refrigerated until ready to grill.

2. Keep salmon skin intact while grilling. The skin will prevent the salmon from curling up and flaking apart. The skin is easily removed after grilling.

3. Brush salmon and grill grate with a thin coat of cooking oil to prevent sticking on the grill. Oil the grill grate before starting the grill.

Instructions:

The Indirect Grilling Method: (medium hot grill)

Grill fish 3-4-inches from heat

Place salmon steak/fillet skin side up directly on grill grate. Cover

Grill steaks/fillets for a total of 4-6 minutes (2-3 minutes per side) per 1/2 inch thickness, turning only once

Check for Doneness:

Salmon continues to cook after being removed from the grill. Cook salmon just until meat begins to change color and becomes flaky

To check the flakiness, insert the tip of a sharp knife near the bone or at the thickest part of the salmon and pull slightly

The Broiling Method:

Preheat broiler. Place foil on sheet pan and oil lightly

Place salmon on foil, brush with marinade, and place 3-4 inches under broiler

Brush with marinade at least 2 more times or until fish just begins to flake

Grilled Salmon Recipe or Oven-Roasted Salmon Top Salmon with Lemon Herb Butter

This easy grilled salmon recipe uses a delicious lemon herb butter to enhance the flavor of the salmon.

You can use the same ingredients and oven roast your salmon fillet or salmon steaks if you prefer. I love the fish prepared either way, especially when topped with my lemon herb butter.

I also buy only wild salmon. So with fabulous products and a really good restaurant recipe, restaurant customer tested and approved, this meal is a real delight.

Preparation time: 10 minutes. Serves 4.

Cooking Conversion Table

Ingredients:

1 two pound (approximately) wild King or Sockeye salmon fillet (skin-on or not) or 4 steaks
Vegetable oil for brushing
Salt and freshly ground black pepper
Lemon Herb Butter (recipe on next page)

Instructions for restaurant Grilled Salmon Recipe:

Prepare a medium fire in a charcoal grill or pre-heat a gas grill to medium heat
Place the salmon fillet, skin-side down if using skin-on, on heavy foil that is a little larger than the salmon fillet (or the 4 salmon steaks) that you have brushed with vegetable oil
Salt and pepper, if desired
Using the foil as a cradle, place the salmon on the foil directly over the fire (the heat)
Cover the grill and cook on one side for 6-8 minutes
While the salmon is cooking, prepare a second sheet of foil, cut a little larger than the fillet (or steaks), and again brush the foil with vegetable oil so the salmon will not stick to the foil
When the fish is ready on the first side, cover it with the second sheet of foil, oiled side down, and pinch ends of foil together to seal
Flip the fish over using the foil "pouch" you have created
Remove the foil that was on the skin side of the fish (the first piece used)
Continue grilling, covered, until the fish is opaque throughout and the salmon flakes easily when tested with a fork or sharp knife (about 4 minutes)
Using wide spatulas, lift the salmon fillet (or steaks) from the grill and slide onto a warmed serving platter (skin-side down if using a skin-on fillet)
Top fillet or steaks with a generous amount of lemon herb butter (butter should melt over fish)

Portion and plate to serve (you can add more lemon herb butter to each, if desired)

(continued on next page)

Instructions for Oven Roasted Salmon:

Preheat oven to 375 degrees F

Place foil on a sheet pan and oil slightly

Place salmon on foil and place pan on the middle oven rack

Salt and pepper, if desired

Roast in oven for 10 minutes per inch thickness of salmon or until it just begins to flake when tested with a sharp knife

Using wide spatulas, lift the salmon from the foil onto a warmed serving platter

Top generously with lemon herb butter (butter should melt over the fish)

Portion and plate to serve (you can add more lemon herb butter to each, if desired)

Lemon Herb Butter:

Ingredients:

1 pound butter

1 1/2 lemons (zest and juice but no seeds)

1 tablespoon fresh chopped herbs (your choice but I like basil, thyme and sometimes a bit of cilantro)

2 teaspoons fresh chopped parsley

Instructions:

Combine ingredients in a food processor and blend until smooth

Shape into a long roll (a log) in plastic wrap

Twist ends and chill

Remaining butter will keep several weeks in the freezer!

Checking for Doneness:

Salmon continues to cook after being removed from the grill (or heat). Cook salmon just until it begins to change color and becomes flaky. To check for flakiness, insert the tip of a sharp knife near the bone or at the thickest part of the salmon and pull slightly.

Scallop Pasta (Linguine) Recipe

Top Secret Restaurant Recipe ...

No Longer

The sea scallop is the largest of the scallops. This scallop pasta recipe calls for sea scallops but you can use the smaller bay scallops if you wish.

With the large sea scallop you usually get about 20-40 in one pound. They are best bought fresh, not frozen.

Scallops have a distinct, sweet odor when they are fresh.

They are sometimes cut into halves or quarters for cooking but you must take care not to over cook them. As soon as they lose their translucence and turn opaque, they are done. If you over cook scallops, they become tough.

Sea scallops are cooked in almost every way that fish is cooked. The most popular methods are sautéing, deep frying, broiling and poaching.

Bay scallops are about 1/2 inch in diameter, so you usually get about 50-90 per pound. Be especially careful when cooking bay scallops. Because they are small, they tend to cook very quickly and over cooking them is easy to do.

Because of their small size. Bay scallops are best if they are baked or sautéed.

This Sea Scallop Pasta Recipe calls for linguine pasta, but you can substitute fettuccine or other long, narrow pastas.

Enjoy what used to be a top secret restaurant recipe.

The Other White Meat? Not Really Restaurant Pork Recipes

Pork is an interesting subject. And I have some favorite pork recipes for you to try. But first you should understand that pork is not really classified as white meat. It is really a red meat. It does become lighter when cooked, however.

The "other white meat" advertising campaign in North America was the result of advertising consultants working for the pork industry in America and trying to compete with our consumption of chicken and turkey. Although pork is technically red meat, what is true is that most pork is low in fat content.

And guess what? Pork is the most widely eaten meat in the world. Pork provides about 38 percent of the daily meat intake worldwide.

Enjoy your restaurant pork recipes and the company of those you share them with.

Ham Recipe and Red Eye Gravy ...Controversial Subjects and Recipes **A Favorite Restaurant Recipe**

Let me begin this page featuring a ham recipe with red eye gravy by telling you I do not call my recipe "Country Ham and Red Eye Gravy" for a good reason.

For this restaurant recipe I don't use a true Country Ham. I use a good quality ham, however. My Red Eye Gravy recipe is as close to the real thing as you can get without using a Country ham. So I simply call it "Ham with Red Eye Gravy."

To understand the reason I say this, you should read my article, "[Country Ham and Red Eye Gravy.](#)" Not all hams are created equal and there is no way my restaurant (nor very many restaurants anywhere) has the capacity to serve a true Country ham.

Often the difference among hams is in the curing process. Country hams are cured the old-fashioned way for 6-12 months! (Read the [article](#), you'll be amazed.)

For now and for you, here is a very good ham recipe with red eye gravy. Whenever I serve it, my restaurant guests ask for more. It is a favorite restaurant recipe, even in the Pacific Northwest.

Ham with Red Eye Gravy **A Favorite Restaurant Pork Recipe** Preparation time: 15 minutes. Serves 6.

Cooking Conversion Table

Ingredients:

Six 1/4 inch thick slices of quality ham
1/4 cup packed brown sugar
1/2 cup strong coffee
A touch of water if absolutely necessary

Instructions:

Sauté ham over low heat, turning several times
Remove ham from the skillet and keep warm
Stir brown sugar into pan drippings
Cook over low heat until sugar dissolves, stirring constantly
Add coffee and simmer to reduce and thicken (about 5-8 minutes)
Return ham to the skillet to reheat if desired, then plate ham
Serve gravy over ham

Pork Loin Recipe

Cooking Conversion Table

Ingredients:

One 4 pound boneless pork loin

[Pork Brine](#) (click the link for that recipe)

[Sage Cranberry Dressing Recipe](#) (if you want to serve your pork with this delicious dressing)

1 jar apple jelly (part of the secret)

[Pork Gravy Recipe](#) (again, click the link)

Instructions:

Make [pork brine](#) according to that recipe and marinate roast 12-24 hours

Heat apple jelly in a small sauce pan over medium-low heat, stirring occasionally until melted (5-7 minutes) and set aside

After removing your roast from the brine and drying it with paper towels, place the roast in a shallow roasting pan in a 400 degree F oven and brush apple jelly evenly over the surface of the meat and roast it until it turns brown on top (about 20 minutes)

Remove the roast from the oven and using tongs or a meat fork, turn the roast so that the bottom side faces up

Brush the roast again with apple jelly

Return the roast to the oven, reduce heat to 325 degrees F, cover and continue cooking until a meat thermometer inserted into the middle of the roast registers 150 degrees F (about 1 – 1 1/2 hours)

When the roast is cooked, remove it to a carving board and let stand, loosely covered with foil (about 15-20 minutes)

Make your gravy according to the [Pork Gravy Recipe](#) (have all ingredients ready to go)

Carve the meat into 1/4 inch – 1/2 inch thick slices

Serve the meat, dressing and gravy separately or place a scoop of dressing on each plate, tip the meat slices against the dressing and ladle the gravy over

The sea scallop is the largest of the scallops. This scallop pasta recipe calls for sea scallops but you can use the smaller bay scallops if you wish.

With the large sea scallop you usually get about 20-40 in one pound. They are best bought fresh, not frozen.

Scallops have a distinct, sweet odor when they are fresh.

They are sometimes cut into halves or quarters for cooking but you must take care not to over cook them. As soon as they lose their translucence and turn opaque, they are done. If you over cook scallops, they become tough.

Sea scallops are cooked in almost every way that fish is cooked. The most popular methods are sautéing, deep frying, broiling and poaching.

Bay scallops are about 1/2 inch in diameter, so you usually get about 50-90 per pound. Be especially careful when cooking bay scallops. Because they are small, they tend to cook very quickly and over cooking them is easy to do.

Because of their small size. Bay scallops are best if they are baked or sautéed.

This Sea Scallop Pasta Recipe calls for linguine pasta, but you can substitute fettuccine or other long, narrow pastas.

Enjoy what used to be a top secret restaurant recipe.

1 1/2 pounds sea scallops
6 ounces sun-dried tomatoes (a reason why this was a secret restaurant recipe)
1 pound linguine, seasoned with Kosher salt

Correct seasoning with salt and fresh ground black pepper
Plate and sprinkle with Parmesan cheese

Fall and Winter ...Favorite Restaurant Recipe

Baked Acorn Squash Recipe

Squash is a classic harvest side dish but with this restaurant recipe and even though many of my restaurant guests are meat lovers, most of them can actually make a meal out of this baked squash recipe.

Squash can be roasted, baked or puréed. Cook a squash, remove the flesh, mash it and serve it that way or make a soup, muffins, breads or even desserts. Pumpkin pie anyone? ☺

Squash really is delicious when baked with brown sugar (or honey) and butter. It has a sweet, nutty flavor that everyone seems to love.

Small individual squash can be served whole and when I have these on hand, I usually stuff them with sausage and other meats or other vegetables with seasonings and then bake them. This squash recipe assumes the larger size that you must cut into portions. Make sure you use a sharp knife when you do so and please be very careful.

Acorn Squash Recipe

Preparation time: 15 minutes. Serves 4.

Cooking Conversion Table

Ingredients:

2 small acorn squash
Melted butter as needed
2 tablespoons brown sugar
Salt and pepper, to taste

Instructions:

Wash and cut (be careful) squash in half length wise (if using one medium-large squash, cut again into portion size servings)
Scrape out seeds
Brush the surface of the flesh and the cavity with melted butter (I like a lot)
Place the squash pieces close together; cut side down, on a [baking sheet](#)
Bake at 350 degrees F until almost tender (about 35-40 minutes)
Turn squash cut side up and brush again with butter
Sprinkle the cavities with brown sugar and salt
Bake again for 10-15 minutes until the surface is glazed
Add butter and serve. You and your guests may want to add your own salt and pepper to suit your individual tastes and/or diets.

You can use leftover mashed potatoes in a variety of ways.
Use them as a base for cream soups and chowders.

3/4 teaspoon salt
1/8 teaspoon white pepper

Whip potatoes in electric mixer with eggs and add half of the hot milk with seasonings

Add remaining milk only if needed to moisten well. (Potatoes will become much softer when hot so don't allow them to become "soupy.")

Garlic Mashed Potato Recipe ...A Favorite Restaurant Recipe Once a Secret Restaurant Recipe

I think potatoes, including garlic mashed potatoes, sometimes get a "bum rap" in terms of their health value. For instance, did you know that one medium potato provides almost one-half the daily requirement for vitamin C?

We only need to remember not to over indulge. I think that is true of most foods. I believe in eating a balanced diet and not over-eating.

This restaurant recipe is delicious with an all natural, dry-aged steak, roast beef, pork chop, roast chicken or salmon, halibut, or other seafood.

Garlic Mashed Potato Recipe

Preparation time: 30 minutes. Servings: 8.

Cooking Conversion Table

Ingredients:

3 pounds peeled potatoes cut into similar size pieces

1/4 cup butter (2 ounces)

1/4 cup whipping cream (or to your taste)

Salt

1/2 teaspoon white pepper

1 teaspoon garlic powder

1 tablespoon fresh minced garlic

Instructions:

Cover potatoes and minced garlic with cold water, and bring to a boil

Turn down heat to allow potatoes to simmer until soft

Pour off water or save for another use

Add butter, cream and seasonings and mash potatoes using hand masher or electric mixer (leave a few small lumps)

If using electric mixer, do not beat too much or potatoes will become too pasty

Correct seasoning

Glazed Carrot Recipe

Recipe from Restaurant

“Eat your carrots! They are good for your eyesight!”

My restaurant glazed carrot recipe makes it easy.

Parents often used this line to encourage children to eat their carrots. Carrots are a good source of Vitamin A which is important for you health, including your eyes.

But eating carrots will apparently not actually **improve** your eyesight. They will help to sustain it, however.

Where did parents get such a notion? The growers and processors of carrots? Wrong.

Supposedly the British made up this story as a “cover” for why their pilots were so successful shooting down enemy bombers before reaching the English Channel during WWII. They did not want the enemy to discover they had Airborne Interception Radar.

What parents should have done was to acquire some quality recipes to enhance the taste of those cooked carrots such as my real restaurant recipe.

Glazed Carrots: Another Favorite Restaurant Recipe

Preparation Time: 15 minutes. Servings: 4-6.

Cooking Conversion Table

Ingredients:

1 pound carrots, peeled & sliced or julienne
3 tablespoons butter
2 tablespoons sugar
1/2 teaspoon paprika
Juice of half a lemon
Salt and pepper, if needed

Instructions:

Cook carrots until tender
Mix in a skillet the butter, sugar, lemon juice and paprika
Add carrots and sauté 10 minutes

That's it! Delicious carrots!

Mashed Sweet Potato Recipe with Rum!

"Southern Flair?"

Secret Recipe From Restaurant

I developed this restaurant mashed sweet potato recipe for a Women's Networking group that wanted something with a "southern flair." Is it the coconut and/or pecans or the rum?

Mashed Sweet Potatoes with Rum

Preparation time: 45 minutes. Number of servings: 6-8.

Cooking Conversion Table

Ingredients:

Two pounds mashed sweet potatoes
1/2 teaspoon cinnamon or to taste
1/8 teaspoon nutmeg or to taste
2 tablespoons light rum
2 tablespoons soft butter
2 tablespoons whipping cream
2/3 cup coconut
1 tablespoon butter
Orange zest (grated orange peel) for garnish

Instructions:

Combine and mash above ingredients except coconut and 1 tablespoon butter
Leave a few small lumps
Bake in casserole dish at 325 degrees F for 35 minutes
Melt 1 tablespoon butter and toss with coconut
Sprinkle border of coconut around edge of pan
Bake 10-15 minutes
Sprinkle with orange zest, if desired

As an option you could substitute chopped pecans for coconut or use a little of each.

Sweet potatoes may be boiled or baked. If baked, allow them to cool enough to handle, cut open and scoop out into a bowl and mash with other ingredients.

Serve the restaurant recipe for sweet potatoes with baked ham, roast turkey, roast pork, roast prime rib or as a buffet side dish.

Sage Cranberry Dressing ...Delicious Side Dish or Stuffing Favorite Restaurant Recipe

I love to serve this dressing with [roast pork loin](#) or [lemon roasted chicken](#) or roast turkey.

For this recipe, all the ingredients that require cooking must be completely cooked before combining with the other dressing ingredients as they will cook very little during the remaining baking or roasting process.

Here are some additional food safety measures to remember:

- Cool all the ingredients before combining to avoid bacteria growth potentials.
- Never allow baked or unbaked dressing to stay in the “Food Danger Zone” (40 to 140 degrees F) longer than one hour.
- Refrigerate unbaked dressing if you are not going to bake it immediately.
- Hold baked dressing above 140 degrees F for serving or chill uncovered as rapidly as possible.
- Reheat baked dressing rapidly to an internal temperature of 180 degrees F.
- Bake dressing in shallow pans (2 inches deep – no more)

Preparation time: 12-14 minutes. Serves 8-10 (Makes enough to loosely stuff a 20 pound turkey).

[Cooking Conversion Table](#)

Ingredients:

1 1/2 cups diced celery
1/2 cup chopped onion
1/4 cup butter
1 1/2 quarts dried cubed bread (for cornbread dressing, substitute cornbread for all or part of the bread in the recipe)
1 teaspoon of salt
1/2 teaspoon poultry seasoning
1/4 teaspoon black pepper
3/4 cup raisins (sun-dried cranberries)
1/4 cup chopped pecans, optional
1 cup cold chicken broth

Instructions:

Sauté the celery and onion lightly in the butter until tender but not browned; cool
Combine the bread and cooked vegetables in a large mixing bowl
Add the herbs, raisins, pecans and seasonings
Toss gently until all ingredients are well mixed
Add the stock a little at a time and mix the dressing lightly after each addition
Add just enough stock to make the dressing slightly moist, neither dry nor soggy
Correct seasoning
Place in a greased baking pan and bake at 375 degrees F until hot in the center (about 1 hour)

Master This Classic Alfredo Sauce...
You'll Have Many Restaurant Recipes Mastered

It's true! If you master my restaurant recipe for classic Alfredo Sauce, you'll be able to cook literally dozens and dozens of other great tasting recipes with little or no difficulty.

Once you have the garlic cream sauce, to make an Alfredo pasta (like the one pictured) all you do is add the sauce to the cooked (al dente) pasta.

The sauce is used for many sautés and pastas. Pasta and Seafood "loves" to be "married" with this restaurant classic garlic cream sauce.

Restaurant Recipe: Alfredo Sauce

Preparation time: about 45 minutes. Number of servings: one quart, about 10 servings.
Use 4 ounces of sauce for every 6-7 ounces of cooked pasta.

[Cooking Conversion Table](#)

Ingredients:

1 quart heavy cream
1/4 pound butter (1 cube)
2 1/2 tablespoons garlic, chopped
1 cup white wine (chardonnay works well)
1 tablespoon sea salt
1 teaspoon white pepper
1 teaspoon garlic powder

Instructions:

In a 2 1/2 - 3 quart [sauce pan](#) over medium-low, heat the heavy cream to 170 degrees, using a [thermometer](#) to be accurate and stirring frequently

In the meantime, melt the butter in another sauce pan and add the wine, garlic and salt and pepper and bring to a boil over medium heat

Reduce heat to medium-low and cook until the volume is reduced by half

At this point, add the wine mixture to the heated heavy cream and stir for 15 more minutes (do not boil)

That's it! You're done!

If you are using the sauce immediately, simply pour or [ladle](#) sauce over hot pasta in a pasta bowl and garnish with freshly grated Parmesan cheese. However, if you do not use the Alfredo Sauce immediately, you must refrigerate it in a shallow pan (2" deep) uncovered until cold. Once cold, you can transfer it to a deep container.

2 1/2 tablespoons honey
2 1/4 teaspoons liquid smoke
2 1/4 teaspoons red wine vinegar
Cayenne to taste (optional – start with 1 teaspoon)
Salt and Pepper to taste

Instructions:

Heat a large [sauté pan](#) or [sauce pan](#) over low heat
Add butter and onions and cook until the onions are soft
Add all other ingredients, turn heat up to medium-low and bring to a boil
Turn heat down to low and simmer sauce for 20 minutes, until flavors blend
Remove from heat, taste and correct seasoning
Store in refrigerator uncovered until cool and then cover or use immediately

To thin sauce, use any of the following: water, beef or chicken stock, white or cider vinegar, apple juice, wine or beer.

To thicken sauce, mix 1/4 cup cold water or other liquid (above) with 2 tablespoons cornstarch and add to sauce a little at a time until you have achieved the correct consistency.

Note: A couple tablespoons of bourbon or whiskey make a fine flavor enhancement to this sauce if you wish. See my [whiskey BBQ sauce recipe](#), also.

Béchamel Sauce Recipe

Foundation for Many Sauces

A **sauce**, such as this Béchamel Sauce, works like a seasoning. Sauces should enhance the flavors of foods, not dominate them. This restaurant recipe is for a classic white sauce used for “creaming” certain foods such as au gratin potatoes, spinach and macaroni and cheese.

You can use it as a foundation for creating numerous other delicious sauces such as Mornay sauce, Cheddar cheese sauce, mustard sauce, just to name a few.

Béchamel Sauce Recipe

Preparation Time: 1 hour. Amount: 2 quarts.

Cooking Conversion Table

Ingredients:

4 ounces of clarified butter
4 ounces of flour
1/2 gallon milk
1/2 small onion, peeled
1 whole clove
1 small bay leaf
Salt, nutmeg, white pepper

Instructions:

To clarify butter:

Melt butter over very low heat
Skim off what comes to the surface
Slowly pour off the oil part into another container
Discard the solids

Heat clarified butter in a heavy sauce pot over low heat
Add the flour and make a white “roux.” Cool roux slightly
In another sauce pan, scald the milk and gradually add it to the roux, beating constantly
Bring the sauce to a boil, stirring constantly. Reduce heat to simmer
Stick the bay leaf to the 1/2 onion with the clove and add it to the sauce
Simmer at least 30 minutes, stirring occasionally
Adjust the consistency with more scalded milk if necessary
Season very lightly with salt, nutmeg and white pepper (spice flavors should not dominate)
Strain the sauce through a sieve lined with cheese cloth.
Cover or spread melted butter on surface to prevent skin formation
Use immediately or store in refrigerator

You Don't Have To Whip

Blender Hollandaise Sauce Recipe

Recipe from Restaurant

The original Hollandaise Sauce Recipe requires a cook to use a wire whip (or whisk) in a continual and vigorous manner. The method can be a little time-consuming and sometimes discouraging.

I have placed this alternative method in my cookbook for you to try. It uses a [blender](#) instead of a [whisk \(or whip\)](#).

Blender Hollandaise Sauce

A Real Restaurant Recipe

Preparation time: 2-3 minutes. Makes 1 cup or four 2 ounce servings.

[Cooking Conversion Table](#)

Ingredients:

4 egg yolks

1/2 teaspoon salt

1/2 teaspoon dry mustard

1 tablespoon lemon juice

One or two drops of Tabasco sauce or a pinch of cayenne pepper (careful not to over do it)

1/4 butter, melted (it will need to be hot at the right time)

Instructions:

Place the egg yolks, salt, mustard, lemon juice and Tabasco (or cayenne) in your blender bowl

Heat the butter, get it hot but DO NOT BURN

Blend for 3 seconds, then (turn on the blender again) and while it is going, pour in the butter (which should be hot). The hollandaise sauce will thicken immediately

That's all there is to it.

Serve your Hollandaise over vegetables, poached eggs, seafood or meats. *It's great!*

Delicious Marinara Sauce

Restaurant Recipe for Flexibility

Use my restaurant recipe for Marinara Sauce as a pasta sauce (no meat pasta), as a soup base, on pizza or as a dip for cheese sticks. It's delicious and easy to make.

Preparation Time: 1 hour. Number of Servings: 12-15.

Cooking Conversion Table

Ingredients:

- 1/4 pound of butter (or use olive oil)
- 1/4 cup chopped garlic
- 3 1/2 pounds crushed tomatoes
- One 26 ounce can of tomato sauce
- 1 1/2 teaspoons dry basil (prefer 4 1/2 teaspoons fresh basil)
- 1 1/2 teaspoon coarse black pepper

Now, BEFORE you begin ...

Do not use aluminum pans unless they are hard anodized aluminum. This and other recipes that contain tomatoes will react with aluminum (or is it the other way around?) and cause an "off taste."

Also this sauce scorches easily so PLEASE keep "it" to a simmer. Simmer means to cook gently over low heat. You should only see "tiny bubbles" (remember that song?) just breaking the surface of the liquid.

Ready! Set! Go!

Instructions:

- Heat a soup pot or stock pot or a very large skillet over medium-low heat
- When your pan is hot, add butter or oil (butter should "foam up" immediately, but not burn)
- Add garlic and sauté until garlic is soft and turns white (Don't burn)
- Add squeezed tomatoes, tomato sauce, basil and pepper and cook uncovered while stirring until sauce begins to simmer. Leave uncovered and adjust the heat as needed to keep the sauce just simmering (stirring frequently) for about 45 minutes
- Strain the sauce or puree in a food processor if you prefer a smooth sauce
- Correct the seasoning to your taste

Use immediately or refrigerate in shallow pan to cool safely. When the sauce is cool, transfer to a covered container. This sauce freezes well once it is cool.

Pat yourself on the back! You now have a great restaurant recipe for Pesto Sauce used by my restaurant to help build it into a successful business! The restaurant recipe is a customer requested sauce recipe, as are all my recipes on my website and in my e-cookbooks.

*ENJOY the once secret restaurant recipe for **Pesto Sauce!***

Preparation time: 25 minutes. Number of servings: 1 1/2 to 2 cups.

Cooking Conversion Table

Ingredients:

6 cloves garlic
2 cups basil or any greens such as spinach, parsley or cilantro
1 1/2 to 2 cups Parmesan cheese, preferably fresh grated
1/2 cup roasted pine nuts or walnuts or other
Pinch of salt and pepper
Olive oil until smooth

Instructions:

Before you begin ...

Heat a small skillet over medium low heat. When the pan is heated, add the pine nuts or walnuts stirring or shaking the pan back and forth over the heat to keep the nuts toasting on all sides. The nuts are ready when they are light brown and the wonderful aroma of toasted nuts is obvious.

The nuts can also be oven toasted in a pie pan at 300 degrees F for a few minutes.

Okay, let's make the sauce ...

- Place garlic, basil, Parmesan cheese, toasted nuts, salt and pepper in a [food processor](#) or [blender](#).
- Process until the sauce ingredients are smooth then add the olive oil slowly until the sauce is the correct consistency (thick enough to spread)
- Correct salt and pepper

That's it! You're done.

Store the pesto in the refrigerator in a covered container or jar. If you are not using it immediately, stir it before using.

Pork Gravy Recipe

This restaurant pork gravy recipe has been a secret restaurant recipe for many years. Now you have it ...no longer a top secret restaurant recipe. This is the first time I have ever shared it.

First, a language note: This gravy recipe calls for “mirepoix” (meer pwah). That is simply a French word meaning mixed, finely diced vegetables. For this recipe I use onion, celery and celery tops, and carrots.

Pork Gravy Recipe

Preparation time: 40 minutes. Serves 8-10 (about 1 quart).

Cooking Conversion Table

Ingredients:

Mirpoix

3/4 cup finely chopped onion (4 ounces)

6 tablespoons finely chopped celery and celery tops (about 2 ounces)

6 tablespoons finely chopped carrots (2 ounces)

5 cups chicken or pork stock

5 ounces fat from cooked pork

5 tablespoons flour (2 1/2 ounces)

Salt and pepper to taste

Instructions:

After removing the pork (chops or loin) from the pan, add the mirepoix to the drippings

Place the pan over medium-high heat and cook until mirepoix is brown and moisture has evaporated leaving only the fat, mirepoix and browned drippings

Pour the mixture into a large measuring cup (fat will rise to the top)

Spoon fat into a separate measuring cup to five ounces (discard any over 5 ounces. If pork fat does not equal at least 5 ounces, just add butter to make up the remainder)

Deglaze (pour around inside edges of) the pan with some chicken or pork stock

Pour the deglazing liquid and mirepoix mixture (minus the fat) into a sauce pan with remaining chicken or pork stock

Bring to a boil and reduce the heat to a simmer

Wipe out sauté pan, heat over medium heat and pour reserved fat into the pan

Add flour and make a brown roux, stirring until the mixture browns (be careful not to burn)

Slowly pour the roux into the simmering stock mixture, simmer 15 minutes until thickened and slightly reduced

Strain the gravy and adjust the seasoning

Blue Cheese Butter ? ...Bleu Cheese Butter ? Delicious Restaurant Recipe ...Enhanced Steak With Bleu Cheese

Someone once wrote that cheese is milk's leap toward immortality. I love it.

Blue Cheese Butter or **Bleu Cheese Butter**? It doesn't matter how you spell it, my restaurant recipe for this butter is a delicious enhancement for a steak.

Blue cheese gets its name from the blue mold in the cheese caused by mold spores.

Blue cheese is made from cow's milk or goat's milk aged in caves where the mold apparently developed naturally.

Today, blue cheeses (bleu cheeses) are either injected with the mold, as with Roquefort, or the mold is mixed right in with the curds, as it is with Gorgonzola.

Blue cheeses are fairly strong flavored. The best bleu cheeses are Stilton, Roquefort, Danablu and Gorgonzola. America's 'Maytag Blue Cheese' was developed by Iowa State University in 1941 (making blue cheese with pasteurized milk). Maytag blue is also aged in specially designed caves. There is more information about cheese in the article I wrote. You can just [click here](#).

Enjoy your Blue Cheese Butter A Favorite Restaurant Recipe used to enhance a steak Preparation time: 10 minutes. Serves 8-10.

Cooking Conversion Table

Ingredients:

6 ounces of butter at room temperature (softened)
1/2 pound Bleu cheese of your choice, crumbled (try a fairly strong blue cheese, maybe a Roquefort or Stilton or if you want a milder blue cheese, try Gorgonzola)
3/4 teaspoon Worcestershire
3/4 teaspoon coarse black pepper

Instructions:

In a bowl, cream the butter until smooth
Fold in the cheese, Worcestershire sauce and pepper (some chunks of the blue cheese should remain)
Roll in plastic wrap or parchment paper and twist the ends to close
If not using immediately, refrigerate (3 days maximum) or freeze (2 months, maximum)
If frozen, thaw and cut into 1 1/2 ounce pieces and place on top of hot steaks

Yummy!

Drawn Butter or Clarified Butter Recipe From Restaurant

Remove milk solids from butter to increase its heat tolerance and you have clarified butter (also called drawn butter). It does not burn as easily as regular butter because the milk solids (whey) have been removed.

Once accomplished, you can use drawn butter for making dishes that benefit from buttery flavor but must be cooked over moderately high heat, such as sautéed potatoes, eggs, fish, and many other items. It is also used to make hollandaise sauce and several other similar sauces.

To make clarified butter you slowly heat butter (unsalted or salted) over low heat until the butter separates into three layers. The top layer is a foam (the whey) and should be skimmed off with a spoon. A milky layer on the bottom of the pan is the milk solids. In between is a pure golden-yellow liquid called clarified butter.

Once separated you skim the foam off the top, remove the pan from the heat and let it sit for a few minutes. You then strain the remaining mixture into another container through a very fine sieve or you can pour it through cheese cloth.

The resulting liquid is the drawn butter (butterfat) that can be covered and stored several weeks in the refrigerator. It can also be frozen. If you freeze it, do so in small batches.

To clarify butter:

- Melt butter over very low heat
- Skim off what comes to the surface
- Slowly pour off the oil part into another container through a very fine sieve or cheese cloth
- Discard the solids

Recipe from Restaurant ...Favorite Restaurant Recipe Lemon Herb Butter

Elegant, deliciously easy flavored herb butters such as my restaurant recipe for Lemon Herb Butter add fabulous tastes to even the simplest of prepared meals.

Flavored butters can be added to vegetables, fish, chicken, pork, beef, soups and even sauces. This particular restaurant recipe is excellent with any and chicken dish and also most freshly cooked vegetables.

Any herb can be used in herb butter. I like to use those herbs that will provide reasonably distinctive flavors. Some herbs can get “lost” in the flavor of the butter.

Using certain liquor and cheeses in a butter is also something I do for certain food enhancements. Examples of these are my restaurant recipe for [Gorgonzola Butter](#) and [Brandy Steak Butter](#).

I also love lemon zest. I use it for this restaurant recipe. The outside of a lemon is the strongest source of aroma and flavor of a lemon. I use a very good [zester](#).

When using herbs in a butter you really should use fresh herbs. Fresh herbs will release their flavor directly into the butter easily. The butter fat “holds” the flavor like a magnet. Another tip: chop the herbs you use finely.

Lemon Herb Butter Recipe A Favorite Restaurant Recipe for Herb Butter Preparation time: 15 minutes. Servings: 10-12

[Cooking Conversion Table](#)

Ingredients:

- 1 pound butter (room temperature)
- Juice and zest from one lemon (no seeds)
- 1 tablespoon fresh herb (I usually use thyme and/or basil for this restaurant recipe. If using both, it's one tablespoon total or to taste. Remember, chop finely.)
- 2 teaspoons fresh parsley, chopped finely (if you have to use dry parsley, use 4 teaspoons)

Instructions:

- Combine all ingredients in a food processor or mix very well
- Turn out onto wax paper or parchment paper and form into a long roll (a log)
- Twist ends of paper and chill and then freeze if not using right away

To serve on top of cooked fish or a chicken breast, slice pieces from the butter log.

For a roasted chicken, melt the butter and brush on the chicken while roasting

[Cooking Conversion Table](#)

Ingredients:

- 1 pound butter, softened to room temperature
- 2 ounces of brandy (or a touch more ☺)
- 1 tablespoon coarse black pepper
- 2 ½ tablespoons fresh chopped parsley
- 3 to 4 cloves fresh chopped garlic (your choice, your taste)
- 2 teaspoons Dijon mustard

Instructions:

Process all ingredients in a [food processor](#) until well combined
Turn out onto wax paper or parchment paper and form into a long roll (a log)
Twist the ends of the paper and chill or freeze if not using right away
Slice the butter and top the steaks with it as you remove the steaks from the heat and are plating them.

This steak butter will melt over and around your beef and acts much like a sauce in enhancing the entrée and its presentation.

If you wish to speed up the melting process, cut the butter pieces from the frozen log in advance of the steaks being ready and keep them at room temperature and then top the beef steaks when plating.

Excellent job! Thanks for your interest in a restaurant recipe that works!

Old-Fashioned Lemonade Recipe

That's What I Serve ...Refreshing, Healthy, Delicious!
Recipe from Restaurant

This old fashioned lemonade recipe is what I use when the days are warm and the work is underway. This is a great, thirst quenching pick-me-up and is not too sweet.

It seems to me Americans used to drink much more lemonade at home than they do today. I suppose the reason is that there are so many other prepared beverages available at the grocery store.

My guests really appreciate having homemade lemonade, especially during the summer months. They have asked me for the restaurant recipe many times.

Thirst-Quenching, Delicious, Homemade Lemonade Recipe

A Real Restaurant Recipe

Preparation time: 15 minutes. Makes 15 eight ounce servings.

Measurement Conversion Table

Ingredients:

Lemon Juice, freshly squeezed from 6 large lemons (1-1/2 cups, organic lemons if you can find them)

1 cup of sugar, granulated - more or less to taste

6 cups cold water

1 large lemon, cut into small, thin slices

Freshly made Ice cubes (old ice picks up freezer odors ...dump them and start over)

Instructions:

Note: The sugar and water does not have to be boiled but the quality of the lemonade is improved if you boil them in a pan for 2 minutes, chill and then add the lemon juice.

Otherwise...

In a large pitcher, combine the freshly squeezed lemon juice, granulated sugar and cold water

Stir briskly to dissolve the sugar completely

Add the ice and thin sliced lemon pieces and stir briskly again

Pour into tall glasses (if needed, add a few ice cubes to the glass)

Bonus!

Honey Flavored Lemonade

Just substitute honey for the granulated sugar. Adjust more or less to taste.

Pink Lemonade

Add a few drops of grenadine

Frappe Invented Accidentally ...Orange Frappe Recipe a Variation A Real Restaurant Recipe

This orange frappe recipe is an adaptation of a beverage that was invented accidentally during a trade show in Greece.

An employee of the Nestlé Company was looking for a way to have his usual instant coffee during his break but he could not find any hot water. He made his instant coffee using cold water and a shaker, creating the first frappe coffee.

The word frappe is French, meaning "shaken." In France a frappe is actually a milkshake beverage produced by mixing milk or fruit juices in a shaker (no coffee). In New England (USA), a frappe contains ice cream.

This orange frappe' restaurant recipe is a variation of the French versions.

No Alcohol, But ...Pineapple Sherbet Punch Recipe Is A Winner For Every Occasion ...Restaurant Drink Recipe

The story of my Pineapple Sherbet Punch Recipe

Once upon a time, not too long ago, a married couple and long time guests at my restaurant asked me to cater their 25th wedding anniversary dinner.

One of their requests was to have a variety of appetizers and several "self serve" punch bowls set up on my patio before dinner.

My friends made it clear they needed a "fabulous tasting punch" for the preliminaries. That was a bit of pressure, to be sure.

I asked them what two or three of their favorite fruit flavors were. They both agreed "pineapple" was their favorite. Ah, yes ...25 years of bliss.

This is the restaurant recipe I came up with. They, and the anniversary party, were very pleased.

Pineapple Sherbet Punch Recipe

A Real Restaurant Drink Recipe

Preparation time: 10 minutes. Serves 25.

Measurement Conversion Table

Ingredients:

- 1/2 gallon (2 quarts) pineapple sherbet
- 2 two liter bottles of 7-UP
- 2 ten or twelve ounce cans of pineapple juice
- 2 ten or twelve ounce container of club soda

Instructions:

- Place the sherbet in a nice punch bowl
- Pour equal amounts of club soda and pineapple juice over the sherbet (yea, it will foam)
- Refrigerate until serving time
- Add 7-Up just before serving and stir

Now someone asked me how to keep the punch cold without ice cubes (which would dilute the restaurant drink recipe). Here is a good tip.

After making the first punch bowl (minus the 7-UP, scoop out some of the mixture into several containers (even plastic bags) and freeze ahead of serving time. As the punch bowl needs to be refilled, add the frozen version and some more 7-UP. It will melt, adding to the volume, but will not dilute the punch. Cool! ...so to speak! ☺

Nutrition in a Glass ...Delicious Six Fruit Smoothie Recipe

A smoothie is a blended beverage made from fruits and juices. Sometimes other flavors such as chocolate are added.

Creating smoothies is actually pretty fun. Start with a "base" flavor or flavors and then add one flavor at a time, tasting as you go. Stop when you are pleased with the overall taste.

For this restaurant recipe, I started with fresh organic oranges and apples and juiced them with my Solo-Star [juicer](#). Then I blended that combination of juices with the rest of the fruits in the recipe and a little low-fat milk.

I always keep frozen fruits on hand in case I run out of fresh product. You might want to keep some mixed berries in your freezer as there are usually at least four fruits in each of those bags.

Six Fruit Smoothie Recipe

A Real Restaurant Recipe

Preparation time: 25 minutes to juice 2 quarts of juice and clean up. 5 minutes to blend the smoothie. Serves 2.

Measurement Conversion Table

Ingredients:

- 4 ounces fresh orange juice and 4 ounces of fresh apple juice or a total of 8 ounces of both juices (to taste)
- 8 large strawberries (fresh or frozen)
- 3-4 raspberries
- 1 peach (fresh or frozen)
- 1 banana
- 4 ounces low-fat milk or to taste (optional)
- 3-4 ice cubes to make the smoothie frothy (I like it that way)

Instructions:

- Pour juice into your blender
- Add frozen fruits first and blend well
- Add other fruits and blend again
- Add milk and ice cubes to correct thickness
- Pour into tall glasses and serve with my [blueberry muffins](#) or [bran muffins](#).

Tip: I only juice enough fruit to equal about 1 quart at a time (usually six medium oranges and two medium apples) because nutrients are lost after a few days.

Easy Party Fruit Punch ...Three Fruits and Ginger Ale Restaurant Drink Recipe

You're having guests over and need a restaurant drink recipe for a non alcoholic fruit punch that is quick and easy and delicious?

Owning a restaurant for over two decades has allowed me to collect a number of very good punch recipes for just these times. This restaurant punch recipe is great. It is restaurant customer tested and approved.

Three Fruit Punch Recipe A Favorite Restaurant Drink Recipe

Preparation time: 15-20 minutes. Makes 1 gallon (20 six ounce servings).

Measurement Conversion Table

Ingredients:

- 1 six ounce can of frozen lemonade concentrate
- 1 eight ounce can of crushed pineapple
- 1 ten ounce package of frozen strawberries, thawed
- 3 quarts of ginger ale, chilled
- Crushed ice or ice cubes

Instructions:

- Combine the lemonade concentrate, pineapple and strawberries in your [blender](#)
- Blend on a medium-high speed (7) until mixture is smooth
- Pour mixture into your punch bowl over ice (wait - see note in box below)
- Add ginger ale

If you want, you can garnish by floating small, thin slices of strawberries in the punch
The fruit punch mixture (minus the ginger ale) can be made in advance and stored in your refrigerator in a covered container and finished later by adding the ginger ale just before serving.

How do I keep punch cold without ice cubes (which would dilute the beverage)? Here is a good tip. After making the first part of the recipe (no ginger ale), scoop out some of the mixture into several small containers (jello molds?) and freeze ahead of serving time. As the punch bowl needs to be refilled, add the frozen version and some more ginger ale. It will melt, adding to the volume, but will not dilute the punch. Cool! ...so to speak! ☺

Chivas Regal Satin Manhattan ...Smooth and Tasty Manhattan Recipe Favorite Restaurant Drink Recipe

A friend of mine and regular restaurant customer ordered a Chivas Regal Satin Manhattan one day not long ago.

To be honest, I had never made this drink before. I told him so and he smiled at the opportunity to teach me a new drink.

He explained the Manhattan drink had to be made only with Chivas Regal to claim the name "Satin Manhattan."

I got the bottle of Chivas off the shelf on the back bar and asked what else was in the drink. Just a little vanilla liqueur and a dash or two of bitters.

He encouraged me to put the drink together and he'd taste it. If it wasn't exactly right, I could try again (and again) until I got it just perfect. Of course, he'd continue to taste until the "mission" was accomplished.

Much to his surprise and disappointment I "nailed" the recipe on my first try. He was honest to say so. 😊

Chivas Regal Satin Manhattan A Real Restaurant Drink Recipe Preparation time: 1 minute. Serves 1.

[Measurement Conversion Table](#)

Ingredients:

1 1/2 ounce Chivas Regal Scotch
1/2 ounce vanilla liqueur
2 dashes of bitters
Ice
Maraschino cherry for garnish

Instructions:

Place all ingredients into a mixing glass or [shaker](#) filled with ice
Stir
Strain into a chilled [martini glass](#)
Garnish with a Maraschino cherry and serve

As my friend was finishing his Manhattan, I asked him where he'd had this beverage before. He said he had just returned from visiting a friend in New York City and his friend had ordered the drink so he thought he'd do likewise. I gathered the drink is better known in that area than on the West Coast.

Irish Coffee Created 1942 ...Cold Travelers Treated In Ireland

A Favorite Restaurant Recipe

Enter ...Irish Coffee

Imagine flying 18 hours in what was called a flying boat in 1942. You'd be exhausted and chilled to the bone. That is when and why this Irish whiskey, coffee and cream beverage was created. It happened in Limerick, Ireland, at an airport restaurant.

As I understand it from reading (no, I wasn't there) from 1939 to 1945 air travel from America was by flying boats. These aircraft were landing at an airport in Limerick, Ireland after a long, cold 18 hour flight.

Instead of just offering coffee or tea to the travelers, a Mr. Joseph Sheridan, the Chef at the airport restaurant, developed what is now known as Irish Coffee.

I sell a great deal of Irish coffee at my restaurant, especially during the fall and winter months. The restaurant recipe I use is the original as developed by Chef Sheridan (later to move to San Francisco where he introduced the drink to more Americans than just air passengers).

Original Irish Coffee Recipe

A Real Restaurant Recipe

Preparation time: 2 minutes. Serves 1.

Measurement Conversion Table

Ingredients:

1 1/2 - 2 shots of Irish whiskey

2 -3 sugar cubes (1 teaspoon)

Hot coffee of your choice

Whipped cream (some whipping creams have an additive to increase shelf life. If you can obtain untreated cream you will produce a better tasting beverage)

Instructions:

Heat a stemmed whiskey goblet or stemmed glass coffee mug with hot water

Pour in Irish whiskey

Add sugar

Fill with black coffee to within one inch of top

Stir gently to dilute sugar and mix coffee and whiskey

Top off to the brim with heavy cream slightly aerated and serve

Do not stir after adding cream. The best flavor is obtained by drinking the coffee and whiskey through the cream.

A Real Restaurant Drink Recipe ...A Classic Manhattan Recipe

Thanks to ...

Often times we don't really know where a recipe originated. Not so with this Manhattan recipe from a restaurant.

The year was 1874. A man by the name of Samuel Tilden had just been elected Governor of New York State and a friend of his named Jenny Jerome organized a celebration for him at the Manhattan Club (NYC).

The bartender, whose name is a mystery, exceeded all expectations. He invented the Manhattan for the occasion. It was Jenny Jerome who decided to name the drink after the club.

And so the Manhattan found its place in history ...but so did Jenny Jerome. She became Lady Randolph Churchill, mother of Sir Winston Churchill. (And now you know ...the rest of the story. ☺)

Cousin To The Popular Mojito ...The Famous Mint Julep Calls For Kentucky Bourbon A Restaurant Drink Recipe

So what does a Pacific Northwest girl like me know about a Mint Julep? I confess I do not have many requests for this bourbon recipe at my restaurant in Washington State, but my bartenders and I know how to make a great one.

This particular beverage is a Southern (USA) tradition. When my husband and I traveled through the South we tried a couple of these drinks. I really like the drink and I did a little research and thinking (believe it or not) when we returned home.

I read that the julep was probably created in the 18th century and that U.S. Senator Henry Clay probably introduced Washington D.C. and northern states to the Mint Julep.

Mint Julep Recipe A Real Restaurant Recipe

Preparation time: 10 minutes, but it must stand several hours or overnight. (Yes, you must plan ahead). Serves 10. (I wrote this restaurant recipe for 10 because I believe if you're going to go to the time and effort to make this restaurant drink recipe, you need to invite some guests over.)

Measurement Conversion Table

Ingredients:

2-1/2 cups bourbon (use Kentucky bourbon out of "respect")
1/2 cup water
1/2 cup sugar
2 large fresh spearmint sprigs (about 3 inches long)
Ice cubes
Small fresh mint sprigs

Instructions:

Bring water and sugar to a boil in a medium [sauce pan](#)
Reduce heat and simmer until sugar has dissolved
Squeeze large mint sprigs with your fingers to release the oils and place in the saucepan
Remove from heat and let steep for several hours or overnight
Remove spearmint sprigs or strain them out
For each serving, place 1 tablespoon mint syrup over ice in a glass
Add 1/4 cup bourbon and stir rapidly with a spoon until glass is frosty
Garnish each with a small mint sprig and serve

Original Old Fashioned Recipe ...Not Like Today's Version

I'm a little fussy when it comes to an Old Fashioned Recipe. I rarely order an Old Fashioned unless I am in my own restaurant or I know in advance how the bartender will make the cocktail.

How certain classic drink recipes get changed over time is somewhat of a mystery to me. I insist my bartenders make them according to the original recipes whenever possible.

The Old Fashioned Whiskey Cocktail

A Real Restaurant Drink Recipe

Preparation time: 2 minutes. Serves 1.

Measurement Conversion Table

Ingredients:

- 1 small sugar lump
- 1 ounce whiskey
- Very little water (just enough to dissolve the sugar)
- 2 Dashes Angostura bitters
- 1 small piece of ice
- 1 piece of lemon peel

Instructions:

Dissolve a small lump of sugar with a little water in a whiskey-glass ([rocks glass](#))
Add two dashes Angostura bitters, a small piece of ice, a piece lemon-peel, one jigger whiskey
Mix with small bar-spoon and serve

Now compare the original Old Fashioned restaurant recipe to the way most bars serve it today.

"Modern" Old Fashioned Recipe

Ingredients:

- 1 1/2 ounces bourbon or blended whiskey
- 3/4-1 teaspoon sugar
- 1 or 2 dashes of Angostura bitters
- 1 ounce club soda
- Orange slice, Maraschino cherry and lemon twist for garnish

Instructions:

Muddle sugar, soda and bitters in rocks glass
Pour whiskey into glass and stir
Garnish and serve

The two main differences are the muddling and the use of club soda. These are enough to result in a really different drink. You decide which one you like best.

Traditional, Dry and Perfect ...Rob Roy Recipe **Recipe from Restaurant** **(Page 1 of 2)**

History of Rob Roy Recipe

The Rob Roy Recipe was created by a bartender at The Waldorf Hotel in New York City in 1894. It was first mixed for the opening night of an opera called "Rob Roy."

The restaurant recipe first appeared in The Savoy Book, published by The Savoy Hotel of London in 1930. A Rob Roy is actually made using scotch whiskey.

"Whiskey" comes from a Gaelic term meaning "water of life." Gaelic is the branch of Celtic spoken in the Scottish Highlands. The first written evidence of Scotch whiskey making is in 1614 but it is believed to have been produced in Scotland well before the 1400's.

Some historians believe whiskey production arrived in Scotland from Ireland in the 16th century. I wasn't there so I can't say for certain either way. ☺

Many recipes for whiskey punches and liqueurs were found from the 18th and 19th century. Today there are more than 2,500 Scotch whiskey brands sold to more than 200 countries worldwide.

A Rusty Nail ...Big Time Drink In '60's & 70's With Scotch & Drambuie

I'm afraid to admit it, but I remember how popular a Rusty Nail was in the 1960's and 70's.

"Everyone" was trying one, in part because the "rat pack" celebrities (remember Frank, Dean, Sammy, etc.?) happened to mention on more than a few occasions that was what they enjoyed.

I don't have customers order many of these anymore unless I put the drink on my restaurant special sheet. I must be getting old(er) because a lot of my guests have never heard of a Rusty Nail or if they have they hint that it must be an old person's drink. Maybe so ...my husband and I still enjoy one once in a while, especially on a chilly winter evening.

Benedictine Brandy Recipe Called a "B & B" Secret Ingredients in Liqueur Recipe from Restaurant

At one time, from the late 1930's until the mid 1980's, the "B and B" was ordered quite often.

The history of the B and B is pretty straight-forward. It was invented in the 1930's at the famous Club Twenty One in New York City. It is a blend of Benedictine and Brandy. This new drink was instantly successful and was called a B&B.

The history of Benedictine, however, is somewhat strange and mysterious.

Benedictine apparently was developed during the Renaissance by a monk at the Abbey of Fécamp in France using 27 plants and spices from all over the world. The beverage was very popular with the King and his court and was produced by Benedictine monks until the end of the 18th century.

Then, in 1863, Alexandre Le Grand, a distant relation of the Fécamp monk discovered a book of spells and contained within the book was the formula for the liqueur. Le Grand was able to decipher and re-create the recipe. He named it "Benedictine".

In 1882, Le Grand built a fabulous building in which to make his liqueur. It is here where Benedictine is still made today. And the recipe is still a highly guarded secret.

Please do not add ice. I have seen this done on occasion but it really isn't the way to enjoy a B & B.

Meet Tom Collins ...A Member of a Family **A Real Restaurant Drink Recipe**

One of the things my mother and mother-in-law have in common is their love for Tom ...a Tom Collins that is.

It is one of their favorite restaurant drink recipes when we are having a family get together.

It is a widely popular socializing beverage. *Sip and enjoy the taste and the conversation.*

Tom is part of another family, as well. Tom is a gin based beverage so his closest relative is the Vodka Collins, but there is also a Brandy Collins, a John Collins (bourbon), Mike Collins (Irish whiskey), Jack (Applejack), Pedro (rum), and Sandy or Jock Collins (Scotch).

No one is certain where Tom was born although it is believed he was created in the late 19th century. Australia and England both say they were Tom's birthplace. America, particularly the city of San Francisco, claims Tom started there. I don't believe we'll ever know for sure. Sorry, Tom.

Tom was so popular in America at one point, a glass was named after him; the Collins glass, tall and narrow. He should be served in his namesake.

Fish House Punch Recipe ...It Packs a Punch!

Favorite Restaurant Recipe with Fishermen

The Story of My Fish House Punch Recipe

One day some years ago a "long-liner" (a fisherman for halibut and salmon) who was also a regular customer of my restaurant (lounge) asked me if I had ever heard of Fish House Punch. I hadn't, that I could recall.

He briefly described it and asked if I would serve such a punch to him and his fishermen friends each year when they returned home, the season being over and a cause for their annual celebration.

Once a year since then, my lounge has been home to a group of about 15 long-liners and their wives. I always have the Fish House Punch ready for them.

A Fish House Punch is a very old punch recipe from the East Coast dating back to at least the late 1700's as far as I can determine.

The original versions of a Fish House Punch were created for an annual get-together around Christmas time with the ladies also invited. The purpose of the punch was to please the ladies and make them even livelier than normal. (Some things, I think, never change.)

These annual affairs (oops) were apparently quite successful, or should I say the restaurant punch recipe performed well?

In 1885 the Philadelphia Inquirer published a poem that had been written specifically about the strength of the punch.

Fish House Punch

There's a little place just out of town,
Where, if you go to lunch,
They'll make you forget your mother-in-law
With a drink called Fish-House Punch.
(The Cook -1885)

This punch recipe is at least very close to the original. It is the one I use for the fishermen and their wives and once in a while for certain parties if they make the request.

Original Mai Tai Recipe ...Very "Heavy Duty" ... This Recipe More Appropriate Restaurant Drink Recipe

The Mai Tai Recipe Controversy

Who would have thought a drink recipe would cause people to get upset with one another, but it happened with the Mai Tai.

After a great deal a research, I believe the creator of the original Mai Tai was Victor Bergeron (Mr. "Trader Vic"). Others have attempted to take credit but from what I can tell, "Vic" was the inventor.

The original restaurant recipe called for 3 different premium (very expensive) rums. I suspect that's one of the reasons for altering the original recipe over time (costs, supplies).

The other is probably the fact that the original restaurant drink recipe called for substantial amounts of these rums. In today's world, we've had to tone it down.

Malibu Beach Recipe ...Use Malibu Rum & Vodka Recipe from Restaurant

This Malibu Beach Recipe calls for using Malibu Coconut Rum with vodka and pineapple and orange juice.

Malibu Coconut Rum is sweet flavored Caribbean white rum. For many years it has been distilled on the island of Barbados.

I have seen pictures of the distillery overlooking a beautiful white sand beach called, somewhat strangely, Black Rock.

The distillery now also makes their rum in three other flavors: pineapple, mango and passion fruit.

These Malibu rums can be served neat (as is, all by itself) or on the rocks or used in mixed drinks like this restaurant drink recipe.

Mojito "Madness" Is Upon Us! Hugely Popular Cocktail (Again) Favorite Restaurant Drink Recipe

The Mojito has taken off in a huge way in the last year or two.

This cocktail is actually an old traditional Cuban drink, once equally popular in the U.S. during the late 1890's. This restaurant drink recipe is a rum version of the Mint Julep that uses bourbon.

Although there are many variations for making a Mojito, the one I have is the same one Hemingway enjoyed. As far as I know it is the original recipe. It is the one I use successfully at my restaurant. It is customer tested and approved. It is a favorite restaurant recipe.

Having Overnight Guests? Bloody Mary Mix Recipe Will Save The Day! A Real Restaurant Drink Recipe

This Bloody Mary Mix is the **best** I have used at my restaurant and at home. I've tried many others, of course, but hundreds of regular restaurant guests have approved of this **merry mix** (sorry) above all others. It is a favorite restaurant drink recipe.

Let me tell you that on Sunday mornings (before and after church), I sell more Bloody Mary's than most people would believe. And I sell them throughout the rest of the day, as well.

Sunday mornings are very busy at my restaurant. I believe most viable restaurants are the same. Many years ago, my bartenders and I decided we could give better (and quicker) service if we made "batches" of Bloody Marys ahead of customer arrivals. This Bloody Mary mix recipe worked perfectly.

I also use this recipe in my own home whenever I have relatives and far-away friends visit for a few days. They really like waking up to a great tasting Bloody Mary. But they still want a full breakfast as well. :-0

So here you go! Enjoy your Bloody Mary Mix Recipe. It is a favorite restaurant drink recipe.

1/2 teaspoon cayenne pepper (be careful)

1/2 teaspoon salt

Ice cubes

Celery stalk for garnish (I like the celery but often add spiced asparagus, an olive and a lime!

Okay ...I make a meal out of it!)

Instructions:

Combine all ingredients in a quart pitcher with ice and stir thoroughly (if using later, wait to add ice, then stir)

Espresso Martini Recipe ...Called Midnight Espresso Restaurant Drink Recipe

This restaurant drink recipe for an espresso martini was given to me years ago by a long time restaurant guest.

He wrote the recipe on seven index cards, one for each of my bartenders and one for the lounge recipe file.

He said this was exactly the way he liked the espresso and vodka drink and wanted everyone to make it exactly the same way regardless of who was working.

He even had a suggested price on the index cards, which was 25 cents more than what I had to charge to make the percentage.

He always ordered this espresso-martini drink whenever he came in and soon had five or six other regular guests ordering it. They still do so today. Thanks, Howard!

Basic, Classic Martini ...Vodka Martini Recipe Favorite Restaurant Drink Recipe

Please believe me; it is important to get this classic Vodka Martini Recipe right!

I have been in the restaurant business for well over two decades and have entertained frequently at home. I am certain about this: A basic Vodka Martini Recipe must be perfect for martini drinkers and it must be served in the proper glass. Martini drinkers are very picky about this vodka restaurant drink recipe.

The so-called "martini culture" is alive and well, and growing, in the U.S. The people who want to enjoy a basic vodka martini know precisely how the drink should taste ...and look. It must be perfect or they will be unhappy.

Don't worry. I have the perfect, approved restaurant recipe for you. Follow the vodka recipe to the letter and serve it in the proper martini glass and your guests will applaud your efforts.

Raspberry Lemonade Recipe ...Vodka Drink Recipe **It Hits the Spot**

This raspberry lemonade recipe helped a community project move forward, one day, at my home. You understand, my community-activist husband invited two very important (influential) members of the community to our home to "socialize." I knew the real reason ...a community project that my husband wanted "jump-started."

My husband never seemed to be or become anxious at such meetings. I was always nervous, not because such guests (who frequent my restaurant) are unkind or totally the most important people I know. That's wrong. I just hate any tensions or possible tensions among guests. Sometimes business and liquor don't mix. On the other hand, sometimes things work out. This was such an occasion.

So not long after saying, "Hi, how are ya?" etc., my job was to offer beverages. Since no one at this 5 PM get-together was on-duty, my husband started things off by asking for a Scotch on-the-rocks. Neither of the women wanted a Scotch. One asked me to bring her and the other lady something "refreshing and smooth."

I had just made a vodka raspberry lemonade drink for a friend of mine a few days before. She raved about it ...so ...two more were made and served.

Then two more were made and served. Yes, they loved them (fortunately). And so, after an hour and a half and a couple of raspberry lemonade beverages, an understanding was reached that day. The community project would get done, maybe even fast-tracked.

So here you have a vodka drink recipe that helped get a community building project completed - on time and under budget. What a rarity. Was this raspberry lemonade recipe the reason the community saw the requested project completed? Probably not ...but it makes for an interesting story. ☺

How You Can Build Your Own Website

(Read this. It could change your life!)

Until recently I never thought about marketing my recipes (my knowledge) on a website I am building myself. I don't know computer language.

Hello. My name is Donna and for over two decades I have owned a successful small town restaurant. And for over two decades my customers have continually asked for my recipes.

But there were a couple of obstacles. I couldn't afford to spend a lot of money (yes, I own a restaurant in a very small town but "serious" money is difficult to come by). I couldn't afford a lot of time for my dream project.

**But I am now writing and sharing my recipes on my own website and in e-cookbooks!
How?**

While surfing one evening, I stumbled upon information developed for people like me (no "html" and little knowledge about computers). It was about how to build **your own successful site**.

I clicked on a banner and read about "SiteSell" and a program they call "Site Build It!" for creating a **website that works**.

I took the plunge and purchased that program! :-O :-O I knew if it wasn't what I needed I could get my money back. (I could have also just tried it for free ...if I wanted.)

I read about other people just like me using Site Build It! successfully to pursue their dreams and each one was building his or her own **successful website**.

SiteSell's Site Build It! program came to my rescue. I am using **Site Build It!** to construct my website, edit and add to it daily. And, yes, I am making some money doing one of the things I love ...sharing my knowledge and experience. And I am doing it from home.

Why do I share this information with you? My recipes are unique, but I am not. I am not unique in terms of having information to publish and not knowing computer language. What about people who don't have hundreds of recipes that work?

Many people I personally know have quality information, interesting hobbies, talents, skills and even products they would like to share (and profit from) **if only they knew how. If only they knew they could build their own websites!**

Like me, until now, they haven't pursued the internet as assertively as they should. Why? Like me, no html, very little money and no time. As a result, like I was, **they are held hostage by simply not knowing what is possible**.

If you are already a small business owner, take 30 minutes to learn more about **SiteSell's Site Build It!** Just [Click Here](#) for the details.

See how much this program does? Everything you need to build a **successful** website and internet business all in one place!

This is **about building a business** (one step at a time ...one day at a time). Just like any other business, it takes some time, some work and some seed money to get started. I know. As I mentioned, I am a business owner who succeeded in a very tough business.

What do you need to bring to the table in order to make this work **successfully**?

You need to bring Passion, Persistence, and Patience. "SiteSell's Site Build It!" program cannot provide these attributes for you. **You must provide the "BAM." (Brains and Motivation).** SiteSell does the rest.

Want to start an online business? Want to work at home to supplement your current income and maybe create enough of an income flow to allow your to pursue it full-time?

Are you interested in **at least learning more** about the possibilities?

If you would like to **become** a small business owner working at home ...SiteSell's Site Build It! will get you started as long as you provide the **BAM.**

If you even **started** to answer "yes," I think you might be interested in a **FREE eBook about building your own website and internet business.**

The eBook is called the "Getting Started Action Guide." Just [Click Here](#) to download a free copy. [Watch SBI's Video Tour!](#) You'll be fascinated!

I have to run now. I own a restaurant, have a family, and now I am enjoying building my own website and publishing my recipes ...one day at a time.

Stay in touch and up to date by subscribing to my free monthly e-newsletter I call ["What's Cookin'?"](#)

I am convinced I may have just provided you with potentially life-changing information. I certainly hope so. I like success. I like things to work like my recipes do.

Thanks!
