JEWELLERS SINCE 1860

*Haute Joaillerie,  
Rare Gems &  
Important Parures*

*The objects of our subconscious fantasies are  
objects of the earth, jewels and gems.*

*Heavenly and magical places, with lots of  
beautiful gems everywhere, sands made  
of diamonds, palaces wrought of coloured glass,  
rituals reliant upon sacred jewels.*

*Although we may visit these places filled with  
fantastic jewels only in our subconscious,  
we treasure them as objects in reality because they  
remind us of the magical land of our dreams.*

*The reason for this is their colour,  
with all its lustre, its intensity and its depth.*

*Even such ubiquitous products of nature as  
flowers have a mystical quality to them because  
of their colours and their ties to the earth.*
