Tahitian Pearl Trophy Now in its Third Edition

This competition has become one of the most important in the jewellery world. By its diversity and the numbers of participating countries and jewellery designers, the Tahitian Pearl Trophy is the reflection of international creativity in full flight. Hundreds of designers from more than thirty different countries have once again brilliantly illustrated the versatility and the precious difference of the Tahiti Cultured Pearl. This exceptional pearl adorns the most beautiful sets by world-renowned jewellers of the Place Vendome, as well as contemporary jewellery for men and the young. With a little imagination and much talent, the Tahiti Cultured Pearl will lend its incomparable lustre equally to the most classic of ideas and to the most original and avant-garde designs. For this third Trophy, the competitors have presented designs in ten different categories. A national jury has met in each country to designate the three best pieces in each category. The first-prize winner in each country has participated in the 2004 international competition. In this brochure, you will discover the winners of International competition chosen by a jury which met in June 2004 in Vicenza. Now it is up to you to judge the best winning pieces. On behalf of the GIE Perles de Tahiti, I personally would like to congratulate the winners and thank all of the participants.

Chairman of the GIE Perles de Tahiti
Robert Wan
