

KERRY CASSIDY INTERVIEWING JORDAN MAXWELL

\*\*\* But I am totally convinced that there is now on the Earth – again, for lack of a better term – alien presence which are the enemies of the human race, and they are obviously enemies of whoever the original Creators of us – because of the things I’ve been *told*, that the people, or the entities who created us, the “gods” who created us, have enemies out there in the universe.

\*\*\* So I’m saying that I am totally convinced beyond a shadow of a doubt, for myself, that there are such things as reptile aliens, though I have never seen one, thank God. But I totally believe they’re here – not because of David Icke, not because of Credo Mutwa who I love listening to; a wonderful, fascinating man. David Icke has done great stuff. But I believe there are reptile aliens here because of my own personal research.

\*\*\* But the reason why I’m here doing what I’m doing is because of this mutation which is being *foisted* on the human race – it’s being *forced* on the human race. This change that the Masters of the Universe, so to speak, have in mind for the human race is being *foisted* on us.

\*\*\* So Virgil in one of his poems called *Aeneid*, wrote about the time when there would come a great world ruler in the seat of Caesar, but this ruler would be awesome in power, to be far more than any man could ever be. That time when he would come, the Sun would rise on the *Novus Ordo Seclorum*, a New World Order, and when that one comes, it would be the beginning of a whole new civilization. The term that Virgil used in Latin was *Novus Ordo Seclorum*, a new order of the world.

KC- Can you talk about the possibility of what these humans that are being created, what their destiny might be? In other words, you say they might not have feelings, etcetera, etcetera. And do you feel that perhaps this is working in with your, sort of, destiny that they were talking about? (...)

JM: My feeling is that the reason why I’m here doing what I’m doing is because of this mutation which is being *foisted* on the human race, it’s being *forced* on the human race. This change that the Masters of the Universe, so to speak, have in mind for the human race is being *foisted* on us.

And I believe – again, just my opinion – that that’s my part in this cosmic scheme or this cosmic play, is to call people back to their humanity and let them know: *You’re being led down the garden path into something you don’t know what’s coming. You had better get back to your roots of being human and start reestablishing your humanity – because the human race is losing its humanity.*

The way we were designed by the original creators was a beautiful thing. I mean, when you look at children and little animals, you have to know that whoever designed us designed humans and lifeforms to be beautiful, to be charming, to be a beautiful thing, to live in a beautiful world with children and gorgeous and beautiful things which uplift the spirit.

But I am totally convinced that there is now on the Earth, again for lack of a better term, *alien presence which are the enemies of the human race*, and they are obviously enemies of whoever the original creators of us, because of the things I’ve been told – that the people or the entities who created us, the gods who created us, have enemies out there in the universe.

They have come here to see what these gods are doing, what these aliens are doing. And they’re coming here saying: *Mm. I see what they’re doing. They’re creating these creatures. Why don’t we move in? – like a gang. Why don’t we move in and take over and take this beautiful creation that these gods have created and mutate it into what we want?* And so, to mutate the whole human race away from their natural evolution of society and humanity into a whole new kind of civilization.

I think that that’s probably what I’m here to do, is to call attention to the world that you’re being misled by some extraordinarily powerful, occult, mystical, other-world technology that is changing the evolution of the human race from what it was supposed to be in its creation, as opposed to where the dark powers of the world are now leading the human race into a different world. And what they have in mind for us, you don’t want to know.

JM: The people who are in power today in this country and around the world have something in mind that you have no idea in the world how bad it’s really going to be, because there will be no longer any place for freedom, intellectual freedom, spiritual freedom, liberty, justice – none of that. It’s *gone*.

KC: Okay. But you are protected and you’ve been told this over and over again, and this person that you met way back who sort of started you on your journey was also part of a race that has been visiting here and is looking out for you, in essence. You’ve told at least me some personal stories in which you were protected – there was reasons you were told to leave a room at a certain opportune moment, and so on and so forth.

JM: That’s right. And I have had that happen to me over and over and over again.

KC: Right. So that means there’s a force for good...

JM: Profoundly dangerous things happening and at the moment I just did not know, walked out and some terrible, dangerous thing happened, and I never even heard about it.

KC: So there seems to be a force for good, some “White Hats” behind the scenes... JM: Yes.

KC: ...some of whom have actually talked to you face to face, protected you. One that passed on recently comes to mind. JM: Right.

KC: These people who might have been working behind the scenes, even in places that, you know, made them appear to be working for the dark side, if you will.

JM: Yeah, the establishment. But in point of fact, they were extremely powerful people and very high placed. KC: Working for the light. JM: Working for the light. AND THEY TOLD ME: *We know what you’re doing.* ONE OF THEM TOLD ME: *You have some very powerful friends that you don’t even know exist, and they’re protecting you.*

I know. I have had the... I’m not going to get into the details, but I have actually witnessed protection from the highest sources in this country step into something that was very, very serious happening in relation to me, and I was really frightened, because I knew the implications of what’s happening and they could be very serious for me. I “may not be around much longer,” I’ve heard from the top.

And then all of a sudden I get a communication from Washington, D.C., from the highest office there, saying: *Don’t worry about it, we took care of it. Just go on and don’t worry about it.* And I was amazed – from Washington, D.C.! Somebody that high up calls me and says: *Don’t worry about it. Just go on about your life. No one’s going to bother you.* And they didn’t.

I’ve had this happen many, many times when something very serious... very serious threats against my life and against my work. I get a phone call or someone will walk up to me in a public place and say: *Jordan, that thing that you’ve been worried about the last two weeks? Yeah. We took care of it. Move on. Don’t worry about it.*

KC: Okay. Would you classify what you've been talking about, in a sense, as a "war" that is going on, on a spiritual level? JM: Yes. No doubt about it. KC: For the hearts and minds of humanity?

JM: Yes. Absolutely. There is a spiritual war going on right now and Hollywood's making movies about it – War of the Worlds, Steven Spielberg. (...) he's a stickler for accuracy.

JM: I WOULD SAY: Be aware that there is a war for your soul. There is a war for the spiritual. You know, there's always been this question for thousand of years, all the great philosophers ask it, about whether we are physical bodies which have a spirit in it, or are we originally a spirit which has taken on a physical body? You know, which comes first, the chicken or the egg? But, I am convinced that no matter how it happens -- if we were physical and took on a spirit, or maybe we were spirit and took on a physical body, I believe that there is a war going on from somebody out there that was an original enemy of whoever created us. So whoever created us has enemies out there in the universe and that are diabolical enemies.

KC-But I want to ask you if you think that this Illuminati and what's going on in the United States right now, do you really think that they are going to be successful in taking down this country? Because it's clear that there is someone protecting you, there is a group protecting you. You certainly have some amazing powers, as you've demonstrated. Do you think that these powers, these Illuminati people behind the scenes are going to be successful at taking down the United States government? JM: Yes. I totally agree. Yes. That's what I think.

KC: Okay. I mean, you do have people behind the scenes that are protecting you. You've demonstrated that time and time again on this video. JM: Right. KC: They're, therefore, in theory, protecting us here, Project Camelot, and other of our witnesses and so on because we are all talking about the same thing from different angles and getting our research together, and so on. JM: That's right. KC: But in essence what I'm wondering... There are white hats operating, as you know, and as we know because we have been interacting with those people from time to time. Do you think it's possible that these people can be stopped? JM: No. KC: You don't. JM: No. I do not. KC: Okay.

**JM: I categorically say No. I do not believe there is any reasonable evidence of anything of hope for America or for the world. I think that the light at the end of the tunnel is a train coming. There's no doubt in my mind, for myself. I do not believe America or the world at large is going to be able to extricate itself out of this situation. No. I do not believe it's possible. And the reason why is because the people are too stupid. They're too ill-informed, ignorant, un-read, self-centered, egotistical, materialistic, and down-right stupid. (Because so many millions of people just love the filth and degeneracy of the world we live in. They love it. They love the Holy Father and all the pomp and glory of all the politicians and kings and rulers ). And they don't care. Basically speaking, people don't care.**

Ludwig von Mises in one of these books, the great European economist, Ludwig von Mises said -- and he's right-on as far as I'm concerned -- he said that in every age and in every country, the people of every nation have always supported a dictator. The people have *always* supported a dictator and they always will.

There's never been a time in the history of the human race that you can show me where the people of a nation rose up and demanded their freedom, liberty, and justice for all, not even in America. Ninety-seven percent of the male population in America at the time of the American Revolution *did nothing*. Only 3 percent took up arms against the British masters and gave us a modicum of freedom. But happily that will never happen again. America is finished.

DW: This father of the girlfriend that you had, when he spoke to you, did he tell you that we're doomed? I mean, why did he call in the UFOs and tell you all these things if we were just going down the toilet? Did he tell you that we were doomed? Did he tell you there was a war and that we were going to lose, no matter what? JM: No.

KC: Okay. Let me rephrase this: (Kerry blah blah) Do you realize that your mission and your call to arms, which you're really coming right on the verge here – I mean, I think that the new release of *V* is sort of a signal to the populace, a last-ditch attempt to wake the people up as to what may be coming – and basically you have a mission, we have a mission.

I'm sorry, you know, Jordan Maxwell, you're a brilliant man, but you were put here for a reason. You have incredible force behind you. The man who spoke to you all those years ago and told you that you would have a journey is certainly behind you now. I would say that, judging from everything that's gone on with Project Camelot, that we have some of the same force behind us.

And I have to say that the fact that you're sitting here today, and you're talking to us, and you're alive and well, and you're coming forward at this moment and talking about things with really no holds barred, is indication to me that there is something going on that's more than you have dreamed of in your philosophy. So I want to thank you very much.

JM: Well, I want to answer that question. I do not believe America can be saved. KC: I hear you.

**JM: I do not believe the human race can be extricated or saved from what is coming. I do not believe that my mission here is to save anybody. I believe what I am doing is to help those who want to know, those handful of people who are awakening and who sincerely spiritually understand the dynamics of what's going on and who want to know and want to change and want the protection of the spirit... That's a small modicum of people, a very small niche.**

**I do not believe America or humans can be saved. I'm doing what I'm doing only to help those who want to know.**
