1) The Vatican courtyard.

When viewed from the air, we can see that the Vatican courtyard is, in fact, shaped like a keyhole. **There is a reason ...** Do you know why?

Below we can see that within the "keyhole" of the Vatican courtyard is yet another symbol: **two crosses superimposed on each other**. This is the symbol from which the British Union Jack flag is derived.

This is where we get the term "**double-crossers**."

2) We know that **dogs** wear "**dog tags**" ...

... but why do we imply that our **military servicemen** are **dogs** ?!?!

SAVING THE PLEDGE (c.1912)
These elementary-school children saluted the U.S. flag with the old straight-arm salute. The current hand-over-the-heart pledge of allegiance was adopted after World War II.

This is the way American children used to salute the flag in school.

The original salute to the U.S. flag was the same as the monstrous National Socialist German Workers' Party salute. A socialist in the U.S. created the salute and pledge to promote socialism in socialist (government) schools.

18) There's more to this "White House" story than meets the eye:

The new Russia

IN AUGUST 1991 HARDLINE Communists staged a coup (overthrow) against President Gorbachev and his reforms. The newly elected president of the Russian Republic, Boris Yeltsin, occupied the **White House (Parliament building)** in Moscow, and opposed the coup. Moscow citizens rallied behind Yeltsin and within three days the coup collapsed. At the end of 1991, the Soviet Union fell apart and the Russian Federation, led by Yeltsin, was born. In October 1993, Yeltsin dissolved the hardline parliament, which fiercely opposed his reforms. Again the parliament was occupied, this time by Communists and nationalists. Yeltsin used force; about 150 people were defeated. Since then, Russia has known... Despite crime and corruption, life

21) Phygian Crown !! What's this all about ??

CROWN JEWELS
The crown jewels, the essential accoutrements of royal office, have assumed almost mystical significance for a ruling monarch. Without them, he or she would lose all authority. The crown jewels, orb, and scepter are essential in the coronation ceremony when they are worn or carried by the newly crowned monarch.

CROWN
Made of precious metal and jewels, a crown symbolizes sovereignty. It adorns the noblest part of a person, the head, or intellect. Jesus was crowned with an ironic crown of thorns. A crown also denotes **supreme accomplishment**, as in "crowning glory."

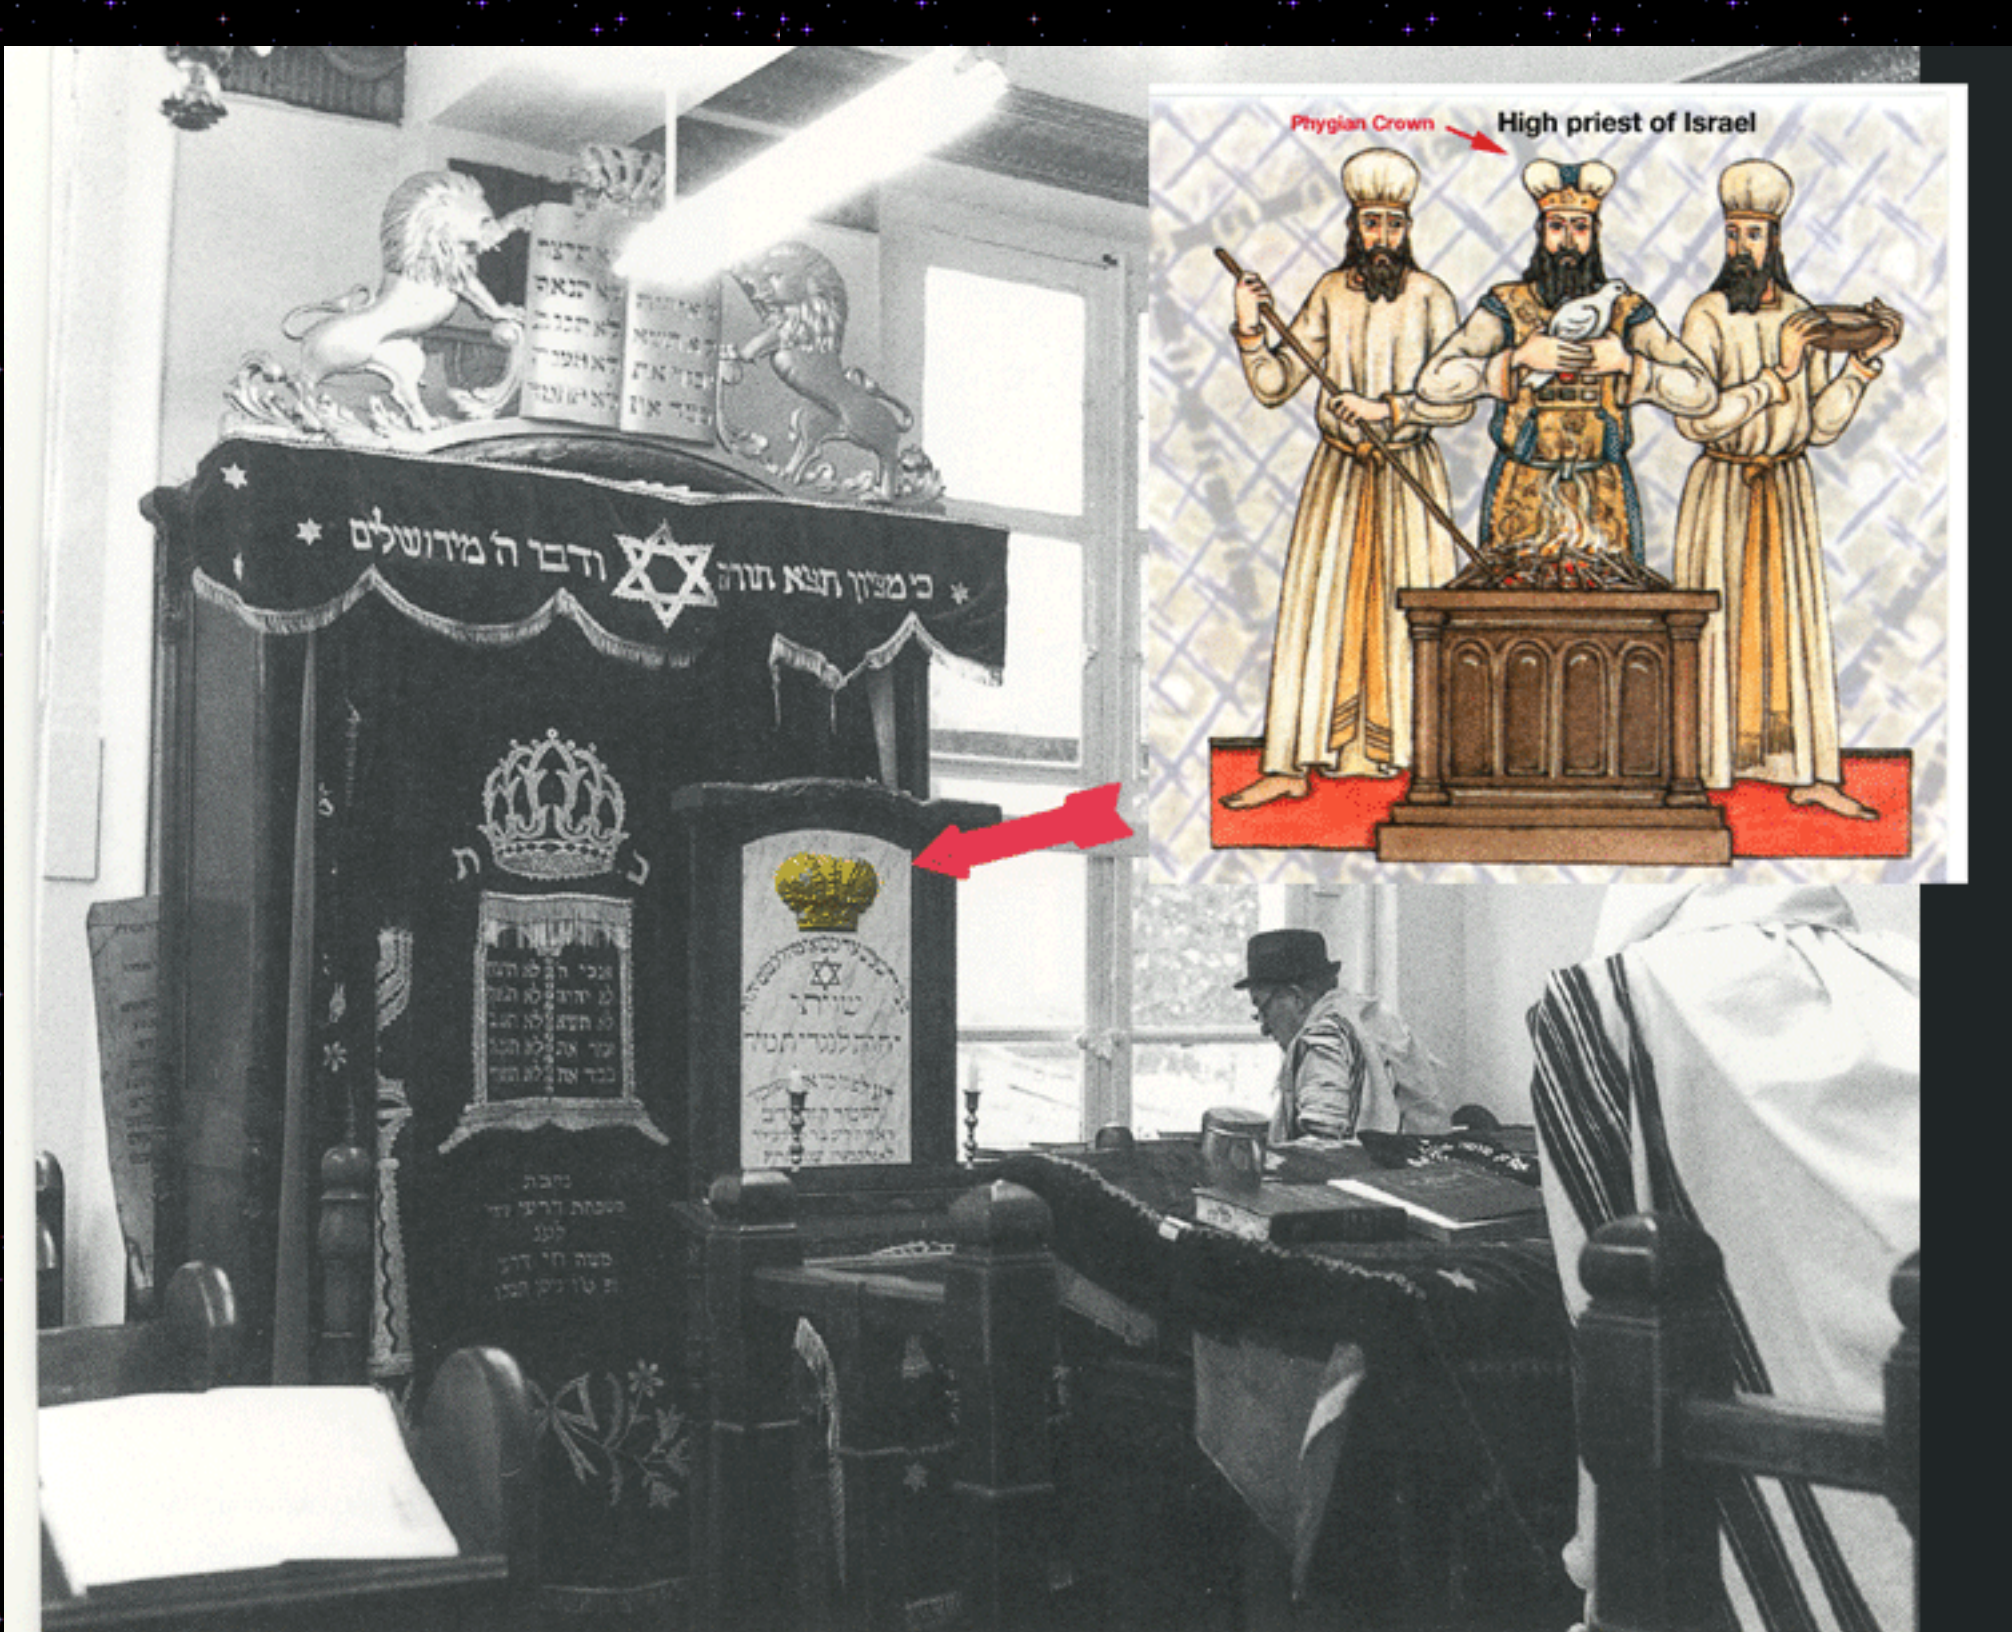

ORB
The orb is composed of a globe, representing the world, with a cross on top, which symbolizes the **king's spiritual authority over his subjects**, mirroring that of God over mankind.

SCEPTER
The scepter was once believed to have magical properties, much like a magic wand, and is a phallic symbol. The orb and scepter together symbolize completeness and the creative power of male and female.

23) There is a difference. Do you know what it is?

Introduction to
The Scarlet Letter
by Nathaniel Hawthorne

In my native town of Salem, at the head of what, half a century ago, in the days of old King Derby, was a bustling wharf—but which is now burdened with decayed wooden warehouses, and exhibits few or no symptoms of commercial life; except, perhaps, a bark or brig, half-way down its melancholy length, discharging hides; or, nearer at hand, a Nova Scotia schooner, pitching out her cargo of firewood—at the head, I say, of this dilapidated wharf, which the tide often overflows, and along which, at the base and in the rear of the row of buildings, the track of many languid years is seen in a border of unthrifty grass—here, with a view from its front windows adown this not very enlivening prospect, and thence across the harbour, stands a spacious edifice of brick. From the loftiest point of its roof, during precisely three and a half hours of each forenoon, floats or droops, in breeze or calm, **the banner of the republic; but with the thirteen stripes turned vertically, instead of horizontally, and thus indicating that a civil, and not a military, post of Uncle Sam's government is here established.** Its front is ornamented with a portico of half-a-dozen wooden pillars, supporting a balcony, beneath which a flight of wide granite steps descends towards the street. Over the entrance hovers an enormous specimen of the American eagle, with outspread wings, a shield before her breast, and, if I recollect aright, a bunch of intermingled thunder-bolts and barbed arrows in each claw. With the customary infirmity of temper that characterizes this unhappy fowl, she appears by the fierceness of her beak and eye, and the general truculency of her attitude, to threaten mischief to the inoffensive community; and especially to warn all citizens careful of their safety against intruding on the premises which she overshadows with her wings. Nevertheless, vixenly as she looks, many people are seeking at this very moment to shelter themselves under the wing of the federal eagle; imagining, I presume, that her bosom has all the softness and snugness of an eiderdown pillow. But she has no great tenderness even in her best of moods, and, sooner or later—oftener soon than late—is apt to fling off her nestlings with a scratch of her claw, a dab of her beak, or a rankling wound from her barbed arrows.

24) The seat of government for the Roman Catholic / British corporation referred to in law as "United States" is located on **Capitol Hill**.

The reason for the name **Capitol Hill** is understandable when you remember the seat of government for the ancient Roman Empire was also called **Capitoline Hill**.

Capitoline
The Center of Rome

The **Capitoline Hill** (Latin: *mons Capitolinus*, Italian: *Campidoglio* or *Monte Capitolino*), between the **Forum** and the **Campus Martius**, is one of the most famous and highest of the seven hills of Rome. The English word *capitol* derives from *Capitoline Hill*.

Both of the above Capitols are Roman Catholic.

★★★★ Required reading for any combat officer, and war historian... March 20, 2003
Apart from von Manstein, Guderian is arguably to most able and important of the German commanders. He has also shown himself to be a great author and his book contains great insight into why the Germans lost the war, or at least why they lost it so fast, after their strong initial success. He also does a great study of **Hitler** and other members of the **Nasi** leadership towards the end of the book which could have only been given by one like Guderian who was there with the various individuals.

ROOSEVELT: "Our country is going to be what our people have proclaimed it must be—the arsenal of democracy."—March 15.

80. **Nasi'** (נָסִי) is a Hebrew term meaning, roughly, "Prince". In classical times it was the title given to the head of the Sanhedrin, the supreme court and legislative body of ancient Israel. The position was created in about 191 BCE when the Sanhedrin lost confidence in the ability of the high priests to serve as its head.
Certain great figures from the Jewish history are referred to by this title, e.g., Judah haNasi.
In modern usage Nasi also means President. It is the title used in Modern Hebrew for any democratically elected head of state.

EDITOR's note: To paraphrase, in part, The Economist Magazine of February 4, 2006, democracy does not guarantee that citizens, especially illiterate ones, will make wise choices, or that democracy will be good neighbor. The lessons of the 20th century is that no people is immune from falling under the spell of some hypnotic voice or pernicious doctrine. In 1933, Germans freely elected the **Nasi Party**, which went on to reduce Europe to rubble. Today, 2006, if democracy will again most likely deliver dangerous results, especially with terrorist Rene Preval as Haiti's president, a most urgent correction must be made...

26) What is the symbolic significance of the Oak?

In this German poster from 1939, we see pictured the two sides of the Second World War: On the right, the American, British, French and Allied Forces. On the left, we see Nazi Germany.

Here we see the swastika of Nazi Germany -- accompanied by the **Oak leaves and acorns**.

Notice the use of Oak leaves and acorns as Nazi symbols.

Here again, we see the now-familiar Oak leaf symbol being used in Nazi posters.

More of the same ... Nazi swastikas with oak leaves.

There are many, many pictures like these. But with these few pictures above, we simply wish to establish that the Oak leaf and acorn is a favorite symbol that was used by Adolph Hitler's Nazi Germany.

You should spend some time doing your own research! Here are two ways you might start:

In Symbols, Sex, and the Stars, we learn that all this can be traced back to ancient Egyptian phallic symbols.

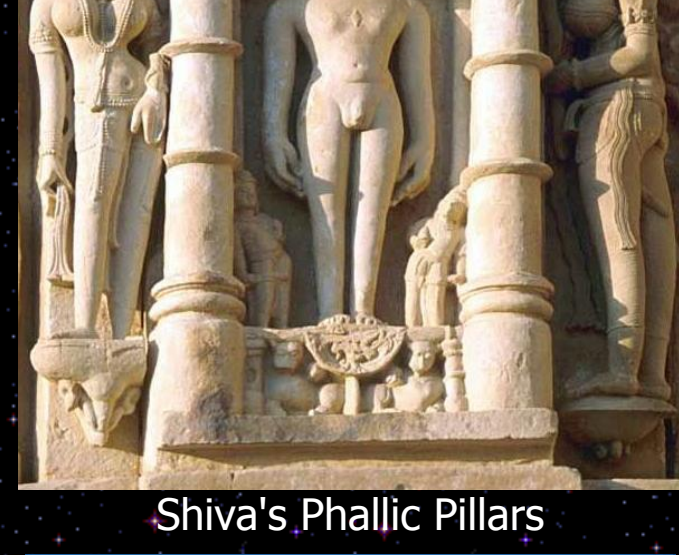

64. The body of Osiris borne on the back of the sacred bull Apis. Osiris has been embalmed for burial and the pail contains his viscera. Over Osiris a hawk hovers, representing his KA or spirit. The sky is supported by two phallic pillars.

42) What about this "Rotary" symbol?

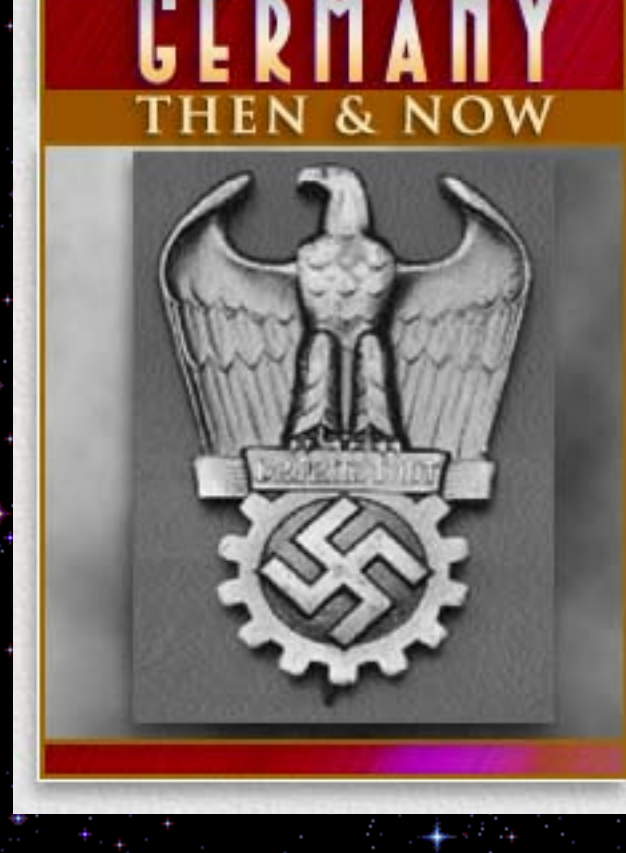

First of all, the Rotary symbol represents the sun.

The Communists used the Rotary symbol:

The Nazis used the Rotary symbol:

The Israeli military uses the Rotary symbol:

Communists, Nazis, Zionists ... and American business leaders, they all use the same occult symbol.

This is because of what it symbolizes in the occult tradition.

Jordan will have a new video presentation on this subject soon.

43) Who really came up with the idea for the European Union?

"I confess, it was me."

Notice the Circle of Stars behind the Virgin Mary.

Why is the same Circle of Stars on the European Union flag?!

The answer is simple. The European Union was dreamt up by The Vatican. It is part of a larger project to restore the Vatican's control over all of Europe into a fascist Roman Catholic State.

Constitution Signed in Rome

UNDER THE WATCHFUL gaze of a bronze statue of a former pope, leaders from 25 European countries gathered together to sign the European Union constitution on October 29. The momentous ceremony was symbolically held on **Capitoline Hill in Rome** in the same room where the original Treaty of Rome was signed to establish the European Economic Community, forerunner to the EU, in 1957.

WHEN IN ROME Under the statue of Pope Innocent X, European leaders sign the EU constitution in Rome, October 29.
