A fifteen month old child has
a vocabulary of 19 words.

At age two, 272 words;
at age three, 896 words.

At the age of six, the average child has a vocabulary of 2,562 words.

Every time we speak our words affect ourselves and those around us.

Words can help.

copyright Lucy MacDonald 2004

Words can hurt.

Words can be kind.

Words can be cruel.

Caution! Words are powerful!

Are your words having a positive effect?

I am proud of you

Thank you

Well done

You are amazing

I appreciate your help

Good idea

Congratulations
