

Celestial Jinn of the Zodiacal Degrees

You are looking right now at a huge chunk of a potent system of stellar magic. When I first started working on this report my goal was to give you only the list of the names of the Jinn connected to the degrees of the Zodiac with basic numerical magic squares. However, the system and the material are so important that I opted to lift the veil on more than the basics.

Some of you may be wondering what you can do with what I am sharing. I'll tell you what I wouldn't do. I wouldn't look at this file as another information purchase to be quickly looked at then thrown over a towering stack of books, manuscripts, or reports acquired but never used. Ask yourself honestly, do you buy pots and pans just to store them into a room brimming with pots and pans to be admired? The question seems ludicrous for after all daily living is made harder without these tools. Please, make the same mental shift concerning this part of the report. I am genuinely offering you something that can make your daily living easier and unlike pots and pans it literally is a once in a life-time acquisition.

Let's look at some possible scenarios in which this system comes handy:

- a) Your friend is in the hospital and in need of healing for heart condition. Sun sounds good, but what would be better would be the Sun in its most exalted degree or a degree in which it is conjunct a powerful healing star.
- b) You are struggling with your career. An astrologer points out to you that your 6th and 10th houses have afflictions. The astrologer shakes her head and hyper optimistically searches for a distant date in which good transits will help you out of your morass.
- c) You always struggle with communication and being understood. Someone recommended you do a Mercury talisman. You think a Mercury talisman connected to the same degree as your natal Mercury would do the trick.
- d) You find yourself and your significant other arguing over petty things. Sometimes you wonder how you two survived this long. Someone points out that your individual natal Mars are square to each other, which mean your relationship will be mired in regular fights. Only, if you can fix that...
- e) You have a court meeting tomorrow. You wish Jupiter will help you make sure the judgment goes your way. You hear Jupiter is currently in Libra. Now what?
- f) Someone tells you that you are lucky because your natal Venus, the planet of love and attraction, just happens to be in Leo in the same degree as the star Regulus. Your friends invite you to Vegas and you consider going and you mull this tidbit of information and wonder if it really means anything practical.
- g) You heard some bad news. Your boss is thinking of firing you. You have a review planned to try and save your job. Mercury and Venus are your friends. You have the natal info for both you and

your boss. You eye the book: “How to win friends and influence people” nervously and wonder if this is enough.

I can't think of a single situation that can't be improved or helped with planetary magic. Most planetary magic relies on working with the power and spiritual forces of the planets. This requires practice and full on dedication. I can tell you that it is MORE than worth it, but let's be honest few people are willing to invest the required energy and time to get it done right. I stopped counting the times I've heard of magicians flipping their Golden Dawn book to the Jupiter Talisman ritual in times of financial difficulties. That is good – right? Let us leave aside the technical reality of the ritual. What remains a constant is that almost none of these people spent any time working with the planet Jupiter before performing the ceremony and creating the talisman. That is not good.

This system likewise benefits tremendously from any practical experiences you might have with planetary magic. However, it functions differently in that it works with a class of celestial jinn. To use martial terms, you would benefit from going to the gym and learning self-defense classes, but this system is more like hiring your own Chuck Norris for a mission.

It goes without saying that knowledge of Astrology really comes in handy here. It will open the door for you as far as the possibilities and help you figure out which exact force to use. If your knowledge of astrology is limited then I advise you to brush up on the seven planets and which areas they govern. For example, the Moon governs many areas of life, one of which is childbirth and pregnancy. This information is available readily with basic research online or in the Library. The next information you could benefit from are natal charts. If you have the birth information, you can find this information out by using any of the services available online (some are free). You don't need complex analysis of a chart. You just need a table of the planets and their degrees.

It will become easy to figure out which force to summon to your particular situation once all this information is available at your fingertip. The next body of knowledge that you will need are magic based.

I am not going to go over the basics here. If you have the *Ring of Solomon* then you can shave off a few steps and get much quicker results. Most people don't have this ring. If you don't then you will have to follow normal procedure. You will need a dedicated working space. You will need to be familiar with basic protection and shielding tools and methods. Much of this has been covered in my other books, particularly *Magic That Works*.

Once your space is set up, you will need an effective conjuration. You can use the Berhatiah (Ancient Conjuration of Power) with or without a specific and individualized conjuration for each of these Jinn.

You will need to purify and consecrate your working space, erect shielding, do prayers to the Divine, possess a functioning talisman for the Jinn, chant the name repeatedly, perform the Ancient Conjuration

of Power, and then wrap it up by giving the Jinn your request until you have received a sign that it heard you.

In this report, I have given you the names in Arabic, their phonetic pronunciations in English, and the designs of their talismanic square. These squares are unique to this particular class of Celestial Jinn, so don't be surprised if they look different from the more traditional squares.

This is by no mean comprehensive. You could really benefit from knowing their Idhmar, their corresponding angels, mantras of power, additional servitors, sigils, and so forth. Luckily, you will not need all this information to get results right away. What you have is enough to get you started and it will help you focus. I often find that giving too much at once to my students just overwhelms them.

So, how do you get started? Here is a good daily Exercise:

Erect a chart for your current date, time, and location. Locate the degrees for each of the seven primary planets. Chant the Tahateel name for each of these planets starting with Saturn twenty-one times. These can be found in *Magic That Works*. Follow it with chanting the name of the Jinn of the corresponding degree fifty-four times while holding the talismanic square in front of your mouth. Ask the Jinn to be your friend and assist you and aid you freely in a positive way within the spheres of influence of that planet.

Here is an example scenario. You did a chart and saw that Mercury is in the 1st degree of Aries. Your request may go something like this: "O Khanej Tasedejan, I ask for blessings upon you in the name of the Holy of Holies. May we be friends this day and night. I burn this incense as offerings of friendship. Assist me in all areas of communication, business, travel, and intellectual pursuits that I may engage in this day and night. Let this assistance be in ways beneficial to my material and spiritual life and may you be greatly rewarded by the Beneficent and Holy One for your generosity and friendship."

I recommend that you carry the squares on you covered in white silk and kept safe from Sun light and preying eyes. This way the energy is working for you throughout the day. Should you need more specific help, you can find a secluded place when you are out and about. You can then pull the square out and make a request then. It is a spur of the moment type situation, but if you have already been connecting with these forces then you may very well get the boost you need.

I would advice you to do all seven planets each day for at least 40 days and then look at the results. Note your experiences or any dreams you may have had. The more you do this in a general way the more you are able to call on these forces in specific emergencies quickly and get maximum benefits. This will work much better for you than just waiting till you are in trouble and then trying to figure out how to use these forces to pull you free.

Jinn Physician

Wealth and love tend to be the two main areas of focus for the average person interested in Jinn magic. The close third tend to be revenge. You can find toward the bottom of the list things like knowledge. It is no surprise then that the majority of ancient books on the subject provide a lot of conjurations for the jinn for these top three needs. The Jinn are like people, so just because people hound them for these three doesn't mean that is all they can do. This is why often you will find a conjuration for a specific jinn for love in one book and another for revenge. Jinn are not monolithic function programs. They are individuals. It is the seeker that is determining the goal of the conjuration.

One of the areas rarely mentioned is the domain of health and healing. Believe it or not, there are Jinn doctors and they possess tremendous knowledge of healing. Keep in mind that these Jinn are Jinn physicians, so their knowledge, focus, and expertise lies with non-human beings. However, historically, it seems some Jinn have brought an overlap to the human sphere and presented their services to humans.

There is more than one Jinn physician who can help humans with healing. The challenge here isn't gaining audience and service of the Jinn, though that is a challenge in of itself, but in the patient accepting the advice given. We humans, especially in our modern society, have put our doctors in a sphere far removed from the realm of the metaphysical. This means that the average magician, let alone a none magician, is happy to express their conviction or opinions in the area of occultism and supernatural until they fall sick. Upon which their first impulse is to run to their local physician and scoff on any idea that they will submit to a spirit for guidance in healing them. This is the way it is until their mortal human doctors tell them – "Sorry ran out of ideas. You will die." It is at this stage that the patient seeking miracle find themselves suddenly open to any possibility or treatment regardless of logic or sensibility or evidence.

A Jinn physician can play a preventive role and not just an instructive role. They can sometime tell you before you fall sick what you may very well contract down the road. They can also provide quick assessment of your internal organ. There are illnesses that they can fix and remove on their own not unlike surgery without the blood and other illnesses in which they will recommend medical connections. The challenge here is in making contact with the Jinn in a real and tangible way to get guidance that isn't a mere reflection of the human ego. The other is to believe enough to follow the sagely advice. After all, these beings have no patience with patients who take their services lightly.

In this report, I will give you the name of a famous Jinn physician and a basic conjuration for him. Brush up on the art of Jinn evocation, if it isn't an area of strong suit, and try and establish a working relationship with this Jinn. Do so before you get sick with something that requires a miracle. You may not be able to make a difference in your life, but in the life of your family.

Our famed jinn is Yonas and he has been known to help in cases of gynecological problem, pregnancy problems, skin diseases, and treatment of various kinds of cancer. He is also a famed herbologists. Some myths proclaim him of mixed human and jinn parentage. The complete name of this Jinn, which you will need for calling on him, is as follows:

يونس ابن هارش ابن ارش ابن النجم الثقابي

Yonas son of Haresh son of Aresh son of al-Najem al-Thaqeb

The words al-Najem al-Thaqeb translates to piercing star in Arabic.

You need to observe a Vegan diet during the conjuration and spiritual practice. Fast during the day. Start your work and prayers during the sunrise of the first Sunday of the new lunar month. During the workings you should also maintain a high level of physical cleanliness and purity. Keep your purifications and consecrations going throughout the whole operation.

The operation requires you remain in a dedicated space for most of the practice. The space needs to be clean and free of anything other than your ritual implements. The only exception is a mattress to sleep a few hours on.

On the first day of the operation proceed with release of the resident and erection of shielding. You need to recite the resident release and the conjuration seven times with the various movements of the Sun (i.e. follow the Islamic prayer times). Your sleep period is only after your working at the morning till you are ready to get up for your afternoon practice. Make sure you don't sleep at night. This is the time where your practice and meditation should be at its highest peak.

The operation concludes Tuesday after sunset. It does require you to dedicate a few days and nights to just this, but it is possible for most people to do. It doesn't require a forty-day retreat or anything extensive.

At midnight, you can begin the operation to full meet the Jinn physical. The original instructions list the following item used in the end of the ceremony. I am sharing with you the original instructions though I personally would do it differently.

The original instructions require a clean and unused dish made from brass and tin. This dish is filled with water $\frac{3}{4}$ of the ways. It is placed in front of you. Over the dish is a tripod made of three pomegranate sticks wrapped together with red cord. Note that red cord indicate underworld workings, while green cord indicate upper jinn working. Obviously, the original instruction relied on a more underworld approach.

From the tripod is hanging a red string down toward the dish and from the cord hanging upside down (head down and feet up) is an effigy of a humanoid figure. It is made from unlined red paper or cloth.

On the head of the effigy write:

مهر قوش مهر قوش

Mahraqush Mahraqush

On the chest of the effigy write:

طقطقوش طقطقوش

Ṭaṭqaqush Ṭaṭqaqush

On the right hand of the effigy write:

طارش طارش

Ṭaresh Ṭaresh

On the left hand of the effigy write:

قارش قارش

Qaresh Qaresh

On the stomach of the effigy write:

هارش هارش

Haresh Haresh

On the right leg of the effigy write:

عجلوش عجلوش

ʿjalush ʿjalush

On the left leg of the effigy write:

کردوش کردوش

Kardush Kardush

The writing should be in spiritual ink.

Proceed with the last phase of the ritual once the effigy is hung upside from the top of the tripod over the dish. Recite your prayers and if you are a Muslim perform a Salat with two ruka' followed with blessings on the prophet Mohammed one hundred times. Then release the resident and start the incense again. Recite the conjuration twenty-one times and focus on the dish.

Once you have an appearance of the Jinn greet him with peace and ask him to sit with you. Ask him again about his name and his family both to confirm and out of friendliness. Ask him about his function and what is his role and once he mentions his medical practice ask if the two of you can enter a covenant of aid and assistance. He will give you his condition and before you agree make sure you can uphold your end of the bargain.

If you find his condition beyond your means that is fine for he will not harm you. You made the effort as they say. If you two agree then make sure you ask him on an easy way to communicate, so that he may give you guidance in medical needs. It would be impractical to have to ask him for assistance using this method of retreat every time you have a need.

Proceed with the release of the visitor once the meeting is finished and regardless of the outcome of the discussion. The release is recited three to seven times.

Before I forget, the incense used in this ritual consists of Frankincense, Benzoin, Sandrac, and Aloeswood.

Here is the conjuration used throughout the ritual:

"In the name of the Divine One, Most Compassionate and Merciful, I adjure you with the reach of the Divine and His power O host of spiritual spirits. Jinn Sages

There are many sages of the Jinn. These sages can educate their students in the craft of magic. The two most famous ones are Faqtash and Abba Yazeed from Mountain Qaf. There hasn't been much information provided in the tradition on how to contact them. I have located two conjurations that can put you on the right track. My recommendation is that you combine these conjurations with the Berhatiah for added boost. I have covered the Berhatiah in my book on the subject.

Let's start with Faqtash the sage. This operation must be performed during the second half of the month.

- 1) Go out under an open sky on a dark night.
- 2) Burn bdellium incense.
- 3) Recite the following conjuration one thousand times: "Abrahil yutash barhamisha barhayash. Ya shaltamurash kayhamurash 'abrashitha malakhiya. Respond, O lord Jalil Tahitam'iliyal, and order Faqtash to come and accomplish my need. Hurry, hurry! Quick, quick! Now, now!"
- 4) He will appear for you in a frightening form. But greet him and do not be scared, and request from him what you want. He will give you his condition, and if you accept it, he will be under your command and at your disposal.

Next is a conjuration for Abba Yazeed. Proceed with similar steps for retreat as mentioned in the procedure for Yonas. Recite the following conjuration twenty-one times after each salat or prayers timed with the Sun movement. The incense is Frankincense, Aloes and dried cilantro. At the end of the three nights he will enter from the door of the retreat and greet you. Return his greeting. You should have before you a large piece of green palm leaves to be used in the covenant. He will give you in return a ring or seal and a shielding to be used.

This is the conjuration: "By the name of the Divine who created, nurtured, and bloomed the trees; by He who brought forth the water from between the stones; by He who moves the constellations and stars; by He who possess the angels and subjugate them and thus they commanded, brought, and burned each rebellious spirit that doesn't believe in the day of measure. By the name of the Divine the magnificent majesty, Lord of the Elders, the power, and awe, I adjure you O Abba Yazeed the sage to answer and come and listen to my adjuration. Come from every depth for if the Divine willed He

enabled you then path made it easy for you. I adjure you by He who is the One, the Alone, the Singularity, the Eternal who hasn't been born and possess no offsprings and none is like unto Him. By Hohen Hohen Ah Ehieh Asher Ehieh Adonai Tzabbaoth El Shaddi come to me O Abba Yazeed the sage. Hurry, hurry! Quick, quick! Now, now!"

Talisman for Guided Dreams

Often people struggle to attain contact with the Jinn on a physical level. It is of course feasible, but for a beginner in the art a more simpler approach can come in hand. This is the realm of the dream. What few people believe or realize is that dreams are not a contained space within your own mind. You probably heard stories of how some people dreamt of drowning or the ocean while a water leak was going on. External stimuli can influence the content of your dreams. This external stimuli can be of spiritual nature.

It may seem incredible, but it should make some sense if you think about it. I had done some experiments where I projected myself spiritually into the dreams of consenting people in the form of animals. Then the next day I would ask them about their dreams. They expected of course to see me in my human form, so often they say: "Sorry you weren't there. I had a dream and" As they describe their dream, I smile because they mention the animal that I had chosen to project myself as. When I tell them that really happened very rarely do they believe me. A Jinn can do much more than the little I can do in this area.

This isn't a new concept. It will state often in Arabic manuscripts that the Jinn can give you the knowledge directly or in dreams. What I am going to share with you here is one method for attaining such guidance in your dreams. The Jinn might appear as an old man or in imposing form.

The process for using this technique is very simple. Here are the steps:

- a) Do a basic ritual purification before going to bed.
- b) Write the talisman on your right hand with your left hand
- c) Recite the Berhatiah conjuration seven times asking the Jinn associated with the symbols on your hand to come to you in your dream and give you an answer to your question.
- d) State your question very clearly
- e) Place your right palm underneath your right cheek and fall asleep on your side.
- f) While falling asleep keep focused on your request in your mind
- g) Repeat the process if needed for seven days till you get the answer to your question

Here are the symbols that goes on the palm of your hand:
