INTRODUCTION

From my earliest youth, I thirsted for knowledge. Knowledge that could make me Free & Independent. Actually not from colonial rule but from the circles of 'master minds' that had already been taking charge of my mind and the day to day living of my personal life. Years of conditioning of the negative type from parents, teachers and friends (members of the master minds) led me to doubt the one major quality of the Christain faith; i.e LOVE. God is love; they say, but when I looked at the off-springs of God, I saw only oppression, harassment, domination, and at times even hatred diverted towards me causing me to think otherwise.

The result was I became initiated at a young age in 'Black Magick & Sorcery'. Firstly out of rebellion and later out of a desire to know and experience the power of my own supreme divinity. I discovered the truth that magick is magick and the labels of white, grey and black magick is superstitious nonsense.

This grimoire is a powerful magickal document and can if applied correctly give you all the material gains, achievements and advantages that are your birth-right. Some of the rituals are Diabolical in nature and they are designed to be directed at the aggressor and the innocent are in no way compromised. Maybe in a future work I may be able to give you the reader more insight into how I came to be what I am today and the origin of the rites etc. but for now I am only pleased I have found a publisher willing to allow me to share these powerful magickal workings with those who need them most.

CHAPTER ONE

MAKING MAGICK WORK ALL THE TIME (THE TRUTH ABOUT INITIATION INTO THE MAGICKAL ARTS)

Despite the urge to flip through the pages and pick up an appropriate rite for a particular problem, I ask you not to bypass this part of the book. The reason for this is simple; to avoid further frustration to any problems that you may be experiencing in your life at this time.

Magick works, but like all other principles in life, you must know and understand what magick really is and how it can work for you. So, what is it? Read on, and you will discover how magick can change your whole life. What follows is the true initiation process into the magickal sciences. You do not have to bow or cower or give 'respect' to any self-appointed high priest or coven leader. Your true initiation is a secret between you and the cosmos.

BELIEF

Belief, is your birthright and a natural state of your being. Belief in itself may be responsible for you being a person of miracles, unless you have been contaminated by adult disbelief. Belief is an everyday happening, it is natural, cosmic law, the quality and power of mother nature herself. Belief should have a place in your mind as a quality of great value and importance.

To help you with your belief, I am giving you a command of 'belief'. This command will build up your faith in the powers of magick and make sure that when you perform a rite, you can expect success. Write the command on a piece of paper or card, and carry it on your person at all times. Whenever you have the time, read the command and fervently believe that what you are reading, is in fact, already a reality. The more you do this, the quicker your results will be with the rites outlined in this book.

Read the command on awakening and last thing before going to bed at night. Better still, learn it by heart and repeat it until you fall asleep:

" I believe in myself and in the forces of the universe. Together we are one.
I believe I have the power to make the forces of the universe work for me, and I believe that they will work.
I believe I am a success in all my magickal undertakings.
I believe that what the forces have done for other people, they will surely do the same for me.
I believe.....I believe..... I believe "

DESIRE AND PERSISTENCE

We desire something because we feel in need of it. In other words, we cannot live without it. But to achieve our heart's desire we must persevere. Every day, we must walk, eat, sleep, drink, dream and think of our heart's desire. The only way to accomplish the creation of a burning desire, is to harbour in ourselves, body and mind, the qualities of persistence. You cannot persist haphazardly. To do so will only waste your physical and mental energy. Hence, the importance of having that 'desire'. The 'desire' to change your life from a mere existence to one of equilibrium and equanimity. And the only way to manifest this 'desire' into its material equivalent is to sustain persistence. To enforce the power of 'desire' and 'persistence', please do the following.

DESIRE

Write down on a piece of paper the things in your life you would like to change. Then every morning, noon and night, read your magickal initiation list, once only, but visualizing that you have already achieved the end result while doing so.

PERSISTENCE

On a piece of plain white paper, write with a black felt tip pen (so the words stand out) the words "ACT NOW" in the centre of the paper. Tack, or pin the paper to the northern corner of your bedroom.

On another piece of paper, as before with a black felt tip pen, write the words "DO IT NOW" in the centre of the paper and pin it towards the southern corner of your bedroom.

With a third piece of paper, again as above, write the words "SUCCESS TAKES PERSEVERANCE" and pin it to the eastern corner of your bedroom.

THE EVENING, WHAT THE MORNING MAY ACCOMPLISH". Place Finally, on a fourth piece of paper, write the words "DEFER NOT UNTIL this in the western corner of your room.

You can put these notices in all your rooms, or in the rooms you use most. For example, your bedroom, lounge, kitchen and bathroom. These notices will help you to start your day full of enthusiasm and optimism, while simultaneously developing the power of persistence within you.

VISUALISATION

In order to achieve your desire, you must have a blue print in your mind of what you want and with every detail. For example, if it is a car that you wish for, you must know the make, model and colour of the car. Every detail should be known, seen and recorded in your mind for your ritual. Added to this, you must be able to 'feel' yourself already doing, or being in the situation you desire. Use your five senses when performing the art of visualisation. In your mind, touch the item, smell it, taste it, listen to it. And most important of all 'see' it in all its form.

Make an effort to talk and listen to people whom you admire and are successful. In your mind act like them and you will eventually become like them.

For practice, pick up any item, a pen, book, or picture etc. Look at it carefully. And take note of every detail. Having done this, put it down and go through the whole procedure again, but this time in your mind 'see' and 'feel' the object in your mind's eye. The power of visualization is to reconstruct every detail of the thing you most desire (together with the feeling of joy it emanates, either by using it or having possession of it). You may take a little time to accomplish this technique, but once you have mastered it, you will be able to turn all your dreams into reality.

CONCENTRATION

Anger and frustration blocks our mental power to perform, as it should. To pursue our goals and be successful, our mental psyche should be one of total physical and mental relaxation.

Concentration here means the ability to hold your thoughts on one thing at a time – the thing at hand at that moment. When reading a rite you must memorize the procedure before you actually start the ritual. Having done this, you will be able to go through the rite without having to refer to the book. Then when it comes to visualizing the end result or your desire, you should be able to hold your vision and not let other thoughts intrude or your mind wander.

To summarise, concentration here means: the ability to hold your mind on the subject at hand, giving it full attention without letting your thoughts switch to other things of no value, detrimental to what you have in mind. And all this must be done in the most relaxed state of mind and body.

PATIENCE

According to the dictionary in so many words, the ability to remain calm and serene while endurance defines the word 'patience'. Having completed all that is required of you in your rite, you must forget about it and go about your normal business. Have patience and slowly but surely, as night turns to day, your requests will become a reality.

A WORD OF SECRECY

Many experts of the magickal arts keep their knowledge secret. While many may think this to be selfish, we all know that secrecy is, in fact, the first principle of the magician. So, you too, dear reader, must follow in the masters' footsteps. Do your work and keep silent, remembering always that true magicians' work in secret.

CHAPTER TWO

PROTECTION AND DIABOLICAL AND INFERNAL AGGRESSION

In order to progress in your new world of magick, let alone life, you need protection.

Protection against danger, ill luck, and ill health; against evil doings of your known and unknown enemies; and protection against evil forces and influences. The best form of defence is attack.

The following rituals, although simple, are very powerful. You must make certain that the person you believe to be your enemy, is indeed your enemy. For example, a person who has maliciously done you harm, or someone who is unwavering in making your life a misery. Use these rituals only against your enemies and not against people that you dislike, or merely suspect to be the cause of your problems.

These rituals can maim, cripple and even kill so use them wisely. Your subconscious desires and malignant intentions towards your enemy will dictate the amount of suffering your enemy will experience as a result of these rituals.

THE SPELL OF HATRED

At midnight on a Monday, Wednesday or Thursday, prepare a fire. This can either be a bonfire, or an open fire. Now mix together a small amount of salt and coriander and a small piece of sardine. Take the mixture in your hands, and while passing it from hand to hand repeat the following invocation:

" I conjure thee, salt and coriander,
By Barrabas, by Saaonas,
And by the Devil,
I conjure thee that is most able,
I do not conjure thee as salt and coriander, but as the heart of (name of enemy).
Then throw the mixture into the fire.
Continue with the invocation and repeat as follows:

Thus, as thou art burning,
Let the heart of (name of enemy) burn and bring it to me here.
I conjure thee by the sardine Queen,
And by the name of Hell,
And by the navigators, who sail the sea.
I call thee (name of enemy), by Barrabas, by satanas,
And by the devil I conjure thee,
Him that is most able,
By all the devils in hell,
Devil of the stars,
Enter into (name of enemy), and bring him to me here quickly
Devils of the abbatoir,
Guide him here to me,
Devils of Cocodover,
Bring him to me as fast as you can.
With more messages I send to call thee,
By the Saracen Queen,
By the Queen of King Faroon,
Who walks by day in the fields,
At night by the crossroads,
Catching wars and battles,
I join all of you, and go,
And into (name of enemy) I enter,
And from there bring me,
Dilligently; well seized,
Seizing his side,
Seizing his Lung,
And the strings of his heart.
Repeat the above Infernal ritual 3 times. Then go about your duties.

RITUAL TWO – TO REVERSE A SPELL AGAINST YOU

You will need to purchase three ounces of new pins for this Ancient Sumarian rite. Put the pins in a bottle of water and make sure the bottle is tightly sealed.

Before midnight light a small fire and burn some frankincense. At exactly midnight, place the bottle on the fire. Now, call out the name of the person whom you believe has cast a spell on you three times. When the bottle explodes, the original spell will be cast back to its originator. Make sure you are well back from the fire before the bottle explodes.

The effects of this spell are very dangerous and will cause harm and malice to whoever is the guilty party. So be sure you are sure who the guilty party is lest the energy you have yourself imparted into the spell is repelled from one of pure heart and bounces back to its originator i.e YOU!

RITUAL THREE – A CABBALISTIC CIRCLE RITUAL

This ritual will guarantee you protection from attack of all kinds. It will also counteract evil magick sent to you.

Stand facing east and make the sign of the Cabbalistic cross. Touching your forehead, say "Thou Art". Touching the solar plexus, say "The Kingdom". Touching your right shoulder say "And the Power. Touching your left shoulder, say "And the Glory". Finally, clasp your hands together, and say "Amen".

Now, mentally envisage a huge sword raised upright in your right hand. The sword should look like the type a crusader or Knight would have. Keeping this image firmly in your mind, say the following:

"In the name of the supreme Lord God,
And his son, Jesus Christ,
I raise in defiance of Satan and his Legions,
And against all the malefactors,
The sword of strength and power"

Concentrating on the sword, picture yourself as being twice your height, as a towering massive armed figure charged and vibrating with supreme power; the epitome of irresistible strength.

Now, lower the sword and proceed to draw a circle as large as you like in a clockwise direction. Imagine a golden coloured flame following the point of the sword, so that when you have finished making the circle, you will have created a circle of tiny flickering

flames (With practice this circle will become easier to imagine). Now, stop visualizing the sword; envisage only the burning circle.

Facing east, raise your clasped hands above your head, and intone the following ritual:

" I pray and trust that the mighty Archangel Raphael will protect me from all evil forces and demons approaching from the east."

Facing south , intone:

" I pray and trust that the mighty Archangel Michael will protect me from evil forces and demons approaching from the south."

Facing west, intone:

" I pray and trust that the mighty Archangel Gabriel will protect me from all evil forces and demons approaching from the west."

Finally, facing north, intone:

evil forces " I pray and trust that the mighty Archangel Uriel will protect me from all and demons approaching from the north."

Facing east, repeat the Cabbalistic cross ritual. Your imaginary circle can encompass part, or all of the room. This spell will protect you within the circle during the twelve hours of day, or the twelve hours of night . it is especially good for protecting you while you sleep by encompassing the circle around your bed, or your entire bedroom.

RITUAL FOUR –A LETHAL SPELL TO DESTROY A WITCH

If you know the name of the witch that is causing you problems, cut a human silhouette out of a piece of paper and write the person's name in the centre. Day by day, the paper image must be destroyed slowly, a little piece at a time. For example, on the first day remove a hand. The next day remove the other hand, and so on, until the figure has been completely disembodied. When this stage has been reached it is believed that the witch will die.

RITUAL FIVE – A SPELL TO KEEP WITCHES AWAY AT NIGHT

This ritual is easy to do and can be performed anywhere and at anytime. Before you go to bed, kneel down and say the following prayer three times:

“ My house has four corners,
Four Angels adore it,
Mathew, Mark, Luke, John,
Neither witches, nor charmers, nor evil doing men
must harm me, understand,
In the name of the Father, and of the Son, and of the Holy Ghost.”

CHAPTER THREE

VOODOO BLOOD MAGICK FOR SEX, LUST & ROMANCE

RITUAL ONE

For this ritual you will need the following:

Two new needles of the same size
A small piece of plain paper
Red thread

Place the paper on a flat surface in front of you, and pick the middle finger of your left hand with one of the needles over the paper. Using the same needle, write your full name with your blood on the paper.

Just below your name, again using the blood from your middle finger, write down the person's name you desire to influence. Now, place the needle you used for writing the person's name on top of your name, with the eye of the needle at the beginning of your name.

Do the same with the other needle, place on top of the person's name with the eye at the end of their name, so that the needles point to the eye of the other.

Fold the paper up, and tie with the red thread to form a small package. Sew the package into a leather pouch and wear it around your neck. Alternatively, you may prefer to conceal it in your purse or wallet.

RITUAL TWO

For this rite, you will need small mirror approximately 6cm square. You will need to have a photo of the person you wish to influence, and also a small hoe for digging.

On any Saturday, about 10 minutes before 12 noon go to a quiet crossroad; this can be on a footpath or in a park, but make sure it is a safe location. On top of the photo write your own name three times in blood taken from your middle finger.

At exactly 12 noon, start digging in the centre point where the paths meet. Make the hole wide enough for the mirror to be laid down in the earth. Put the picture in first, face up, and then place the mirror on top facing down. While doing this, make your wishes of sexual desire or love requests if you are a romantic with certain and energetic intent. Now cover the items with the soil you removed. Before you leave the scene, make sure that it looks like nothing has been buried there. Leave, without a backward glance.

If you are unable to obtain a photograph of the person you wish to attract, write their name 3 times on a piece of paper and burn to ashes. Collect the ashes and mix with a little sugar. Spread this on to the mirror, then bury the mirror and continue as above.

RITUAL THREE

For this powerful and INSTANT Voodoo sex rite do the following:

Create two small wax hearts.

Inscribe on one of the hearts your own name and on the other the name of the person you lust for. If you have any of the other persons clothing or even a strand of their hair add a small piece to the heart representing them whilst the wax is still hot.

When the wax hearts are dry and inscribed with the names prick the middle finger of your right hand. With the blood on the needle tip push the needle into the heart with your name on right through the other heart so both are pinned together. Whilst you are driving the needles in make your wishes. Do this 3 times i.e using 3 needles.

CHAPTER THREE

HEALTH

A RADIANT HEALTH RITE OF THE HIMALAYAS (THE ONLY HEALTH RITUAL YOU WILL EVER NEED)

Publishers note:

It is a legal requirement that we state here that this rite and any other health rituals contained in this publication should not be used as a substitute for prescribed conventional medical treatment. It should be used in conjunction with such treatment and no guarantees are offered as to its effectiveness. However the above disclaimer in no way alters the authors belief in the power of this ritual.

This ritual if properly performed will enable you to attain and maintain radiant and perpetual health. Facing east, and with your arms stretched out wide at each side, repeat the following invocation:

“ Lord God of the heavens, all above and all below,
I pray Thee to grant me the power to conceive of the life-fluid, the life force,
So that I may with Thine divine help become a part with it, body and soul.
If it shall be Thy divine will, the glorious life force shall permeate me and suffice me,
And bring everlasting well being.
Grant me, O Great God this favour,
Amen. “

Maintain your position and with total concentration, mentally picture a force of energy from the universe sweeping towards you. As it arrives, draw in a deep breath, visualizing an feeling the force being drawn in and down to your solar plexus. As you breathe out, form a mental picture of this force spreading and flowing to all parts of your body, or if you have a specific problem, visualise it flowing to this area. Repeat this procedure seven times in all. Lower the arms if they become tired.

I recommend you perform this rite once every 3 days for the first month and then once a week for the second month and then once a fortnight for the third month and you will realise after the third month by the way you feel and the psychic experiences you may have had during this period as to how often you need to perform the rite to maintain radiant health.

CHAPTER FOUR

SUMARIAN MONEY MAGICK

RITUAL ONE

At sunrise on any Saturday of your choice, urinate into a small container or jar. Then, place a small piece of red cloth, approximately 2 inches square into the urine. Repeat the following invocation 7 times:

“ Salty liquid from within me, I demand that you bring me wealth”.

Look intently into the container, and ‘see’ money in all its forms rising up from the bottom of the container to the top, spilling the urine as more and more fills the container. Continuing doing this for 5 minutes. Then remove the piece of red cloth from the container and leave to dry.

RITUAL TWO

A SUMARIAN MONEY MAGNET FOR EVERFLOWING CASH

This spell is designed to bring money to you at regular intervals. Not a week should go by without money flowing into your hands, once you have used this rite.

You will need the following items for this rite.

An empty carnation milk tin
Beach sand enough to fill the tin (it must be sand collected from a beach, and not a hardware store)
White plain paper, and a white candle
A piece of ‘V’ shaped wood

To make the talisman, draw a crab symbol on the white paper. Fill the tin with the dry beach sand. Bury the crab talisman in the sand in the centre of the tin. Place the candle in the sand, exactly on top of the crab talisman. To the left of the candle, place the ‘V’ shaped wood. Now light the candle and make the following wishes:

“ Oh, Lord Sun, let this light be your light
And with it magnetise my money in quantity
As grains of sand on the beach
And stars in the sky above”.

Visualise money coming to you in abundance. Repeat this rite 5 to 15 minutes daily and with practice you will be able to visualise for longer and longer. When finished extinguish your candle.

RITUAL THREE

Collect some rainwater in a container. Mix enough new salt with the water to make it 'saline'.

Now bless the water as follows:

" In the name of ANU the Almighty,
I cleanse away from you evil forces and collect good vibrations in it's place".

Next, sprinkle some of the water in all four corners of your room, under your bed, and around your house etc. As you sprinkle the water, say the following rite:

" With your power and might O, Ki, Nini, Ishum, Enki Lords of the elements I command that you bring cash ,money and wealth in abundance to this house".

CHAPTER FIVE

A POWERFUL RITUAL FOR ANY PURPOSE

THE ULTIMATE MULTI-PURPOSE AIR RITUAL

This spell can be used to achieve anything you want.

Stand facing east, outside in the open air. Let your hands and fingers drop loosely by your sides.

As you take a deep breath visualize your desires coming towards you and flowing into you. Feel your desires (either in love, health, wealth or success) entering into your body with intent.

Hold your breath and 'see' the end result.

As you release the breath, picture and feel your desire flowing into every cell in your body. Repeat this 10 times. Perform this rite before breakfast and before our evening meal.

While holding your breath , repeat the following commands to suit your desire:

Wealth	(Your name),	You are Wealthy
Health	" "	You are Healthy
Success	" "	You are Successful
Love	" "	(name of lover) Loves you
Optimism	" "	You are Positive

You can use your own words if you wish.

CHAPTER SIX

TO COMPEL SPIRITS TO APPEAR AND TO RENDER UNTO YOU OBEDIENCE AND SERVICE

If you wish to incite and compel spirits to appear visibly before you and render unto you obedience and service, then follow these instructions.

Follow the commands of Universal Mind as much as possible in everything you do.

Build up trust solely on the might and power of the Supreme Creator. Believe firmly in his omnipotent help in your work and the spirits will become your servants and obey you.

Continue your citations relentlessly, even if the spirits do not appear at once. Be steadfast in your works and faith. The doubter will receive nothing.

THE RITE

Draw a circle on parchment paper. The size of the circle is up to you. Consecrate the circle by placing it on your altar. Sprinkle some new salt onto it and repeat the following three times:

“ I remove from you all evil and filth,
As the sun rises in the east and sets in the west,
You shall be cleansed of all evil and filth”.

This consecration ritual must be performed before sunrise on any day. Now cover the talisman with a white cloth and leave it in this position until after the sun has set. Your talisman is now ready for use.

Place the talisman down in the centre of the room and draw around you an imaginary circle. From inside the circle, repeat the following:

“ Tetragrammaton, Theos, Ischirois, Athanatos, Messias, Imas, Kyrie Eleison, Amen”.
Now say the 91st Psalm.

The rite is now finished. Open the circle and go about your daily duties as normal. Also make note of the suitable times for this ritual.

Monday night – from 11pm to 3am

Tuesday night – from 10pm to 3am

Wednesday night – from midnight to 2am

Thursday night – from midnight to 2am

Friday night – from 10pm to 3am

Saturday night – from 10pm to 12 midnight

The Sabbath day is not used, it is kept holy for Lord Saboath, Adonai, Tetragrammaton.

CHAPTER SEVEN

A CEREMONIAL CABBALISTIC MAGICKAL RITE

For this ritual, you must form a Cabbalistic Cross in a large room. Now stand in the centre of the room and face east. Recite the following rite from memory:

Touch your forehead and say “For thee, O Lord”
Touch the solar plexus and say “Be the Kingdom”
Touch the right shoulder and say “And the Power”
Touch the left shoulder and say “And the Glory”
Now clasp both hands together and say “Forever, Amen”.

Now, visualize a small dagger and a blue flickering flame, similar to a flame produced when alcohol is burnt. Still facing east, hold your imaginary dagger in your right hand and ‘see’ it outlined with the blue flames. While holding the dagger in the air before you trace a large star, several feet tall, similar to the one shown below. See the star outlined with the blue flames, literally a star of flames. Then say the name YHVH (pronounced Yud-Hay-Vuv-Hay). Through the centre of the star, visualize a dawn of beautiful soft early morning colours, and a soft gentle breeze blowing towards you and thn through you. The east is the Quarter of Air, so you must feel this air and call aloud, th east wind by his name “Eurus”. Once you have experienced the wind blowing over you again and again, slowly remove the scene from your mind.

Now, turn slowly towards the Quarter of the South and as you do so, again ‘see’ your dagger outlined with the blue flames. As before, trace a large star outlined with the blue flames, but this time repeat out loud the name ‘Adonay’ Look through the star and picture a tropical scene with palm trees swaying in a warm wind. Feel this warm wind sweeping towards you and through you again and again. Saying aloud the name of the south wind ‘Notus’. After thoroughly picturing the tropical scene, slowly remove it from your mind. Now, slowly turn towards the west, and again ‘see’ your dagger outlined with the blue flames. As before, with your dagger, trace a large star outlined with flames and say the name ‘Ay-Heh-Yeh-Heh’ Look through the star and picture a tropical surf, covered with a misty spray. Imagine the spray and mist coming through the flaming star and towards you. Feel the mist going over you several times, while saying out loud the name of the west wind ‘Zephyrus’. After picturing the scene several times, slowly remove the scene from your mind, as before.

Turn slowly facing north, and again as before, see your dagger outlined with blue flames. As you trace your star outlined with the flames, repeat the word ‘AHGLAH’. Looking through the centre of the star, picture ripe fields of corn and orchards, forests and mountains. ‘see’ before you the bounty of the earth. Feel the soft and fragrant winds blowing from them towards you. Say aloud the name of the north wind ‘Borus’.

After experiencing this scene several times, erase the picture of the north.

Now, slowly turn towards the east, and once again, draw a large circle of blue flames with your dagger. This completes the circle. You are now standing in a complete circle of softly flickering flames and at each quarter is a magnificent flaming pentagram star, considered as one of the most powerful of magickal signs.

Your magickal circle is now complete, and you can now start to visualize in detail the things you wish to bring into your life. With feeling and conviction, repeat not only the following rite:

“ Oh powerful forces of the earth and sun,
I am surrounded by the mystical light of Yud-Hay-Vuv-Hay, Adonay,
Al-Hel-Yeh-Heh, and Ahglah,
I call on thee in the name of Eurus, Nous, Zephyrus and Borus to do justice to me at all times”.
May your powerful rays bring fortune and brightness.”
Amen

CONCLUDING REMARKS ABOUT THIS GRIMOIRE

The most important aspect of this grimoire is the awakening of your metaphysical tools as per the instructions in the initiation process described earlier. Achieve this and the results you will gain from the magickal rites and ceremonies within these pages will be beyond your wildest dreams. However some of you will probably attempt to shortcut the mental training process and dive straight in and that is your choice but do not then be surprised if the results you produce prove to be disappointing. Work with this grimoire sensibly and with dedication and your efforts will be well rewarded.

The publisher insists that all authors are available for contact and I believe they are right in this respect so any questions concerning the application of any of the content in this grimoire please send to the following email address and I will reply to you promptly.
