The mainstream media is whitewashing and lying about what really happened on Sept 11th. 911: The Road to Tyranny is shaking the foundations of Washington, DC as the definitive film on what really happened on Sept. 11th and who stands to gain.

The Government needed a crisis to convince the people to willingly give up their liberty in exchange for safety. Now the painful facts are in. The dark forces of global government are funding, training and protecting terrorist networks worldwide. 911: The Road to Tyranny documents the ruthless history of governments orchestrating terrorist attacks against their own people to scare them into total submission. In this brutal expose you will witness the birth of a global police state that surpasses Orwell's nighmarish vision. It's all here: the history of government-sponsored terrorism, the modern implementation of fear-based control and, most frightening of all, the New World Order's future plans. This is one film you cannot afford to ignore. The future of free people everywhere is at stake. (--MORE--)
