

# The New World Order

## The Illuminati And The Freemasons

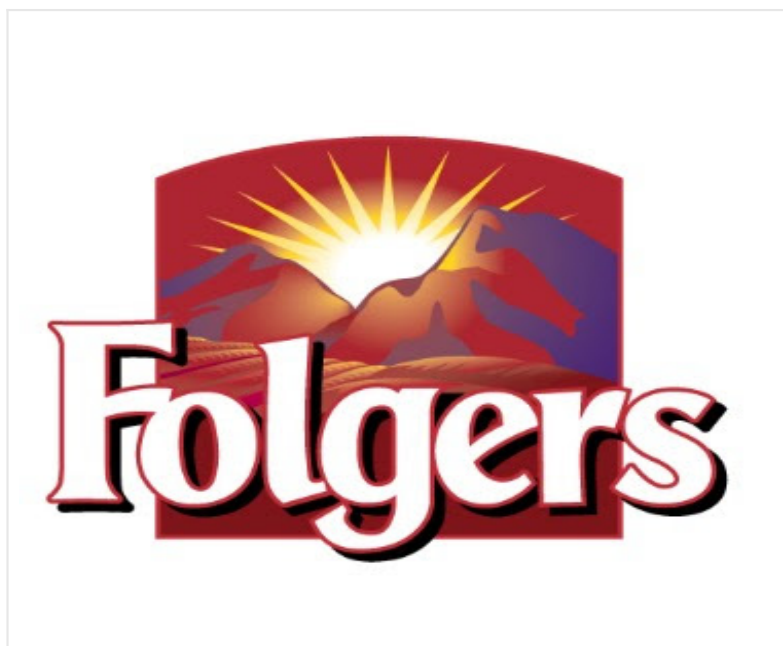

(The God they worship is Lucifer, "The Light Bearer" the evil one. They are heavily involved in Sun Worship and want to reshape the world according to their plan known as the "Great Work" and bring in their "New World Order".)

**The Eye In The Pyramid.** The eye in the pyramid has been adopted by many different esoteric entities throughout history, including the eye of Horus (Osiris) in Egypt, and the All-Seeing Eye in Freemasonry. It also famously appears on the back of the U.S. dollar bill. Henry Wallace, who was instrumental in having the seal placed on the dollar bill in 1935, had deep occult connections. It was a symbol of secret societies in Europe long before anyone heard of the United States and it is awash with Freemasonic and secret society symbolism going back to the ancient world. Adepts believe

that when the capstone, the symbol of the secret societies, is lowered onto the top of the incomplete Pyramid, the Plan of the ages will be complete, the Novus Ordo Seclorum will be established, and the world ruler will be installed.

**Sun Worship.** "... His [Osiris] power was symbolized by an Eye over a Sceptre. The Sun was termed by the Greeks the Eye of Jupiter, and the Eye of the World; and his is the All-Seeing Eye in our Lodges." - Albert Pike, *Morals and Dogma of the Ancient and Accepted Scottish Rite of Freemasonry*, pp. 15-16; 472 Sun worship is the most ancient of all superstitions. It prevailed especially in Phoenicia, Chaldea, and Egypt, and traces of it have been found in Peru and Mexico. Its influence was felt in the ancient mysteries, and abundant allusions to it are to be found in the symbolism of Freemasonry. **The Rising Sun.** The rising sun represents the initiates of those secret societies. This symbol is used in numerous corporate logos. Bill Clinton announced on Y2K, "It is a Rising Sun!" The symbol of a rising sun can be associated with sun worship. In ancient Egypt, it was associated with Horus. Manly P. Hall explains the meaning of the rising sun in the context of secret societies such as Freemasonry. "Such a Fraternity could not immediately include all men, but it could unite the activities of certain kinds of men, regardless of their racial or religious beliefs or the nations in which they dwelt. These were the men of 'towardness,' those sons of tomorrow, whose symbol was... a blazing sun rising over the mountains of the east."

The Freemasons. One of the mottos in Freemasonry is "to

perfect that which was left imperfect." This has a different meaning to the lowly initiates at the bottom of the proverbial pyramid, who merely serve, compared to what the adepts at the top of the pyramid believe. These adepts believe that the creator of the universe left the world -- including mankind itself -- in an imperfect state. Those at the top of the ladder, who run the stage show of consensus reality through their various levels of command and control, see themselves quite literally as Gods who, having reached perfection themselves, have the ability and natural right to shape and reshape the world according to their plan known as the "Great Work." They see themselves as re-creators, above and at odds with the true creator of the universe. The "lesser-evolved" types are seen as cannon-fodder, flowers that must be trampled, for the rebuilding of Solomon's (Sol-Om-On) Temple, which itself is esoteric allegory for The Great Work; the "perfection" of mankind. Matter is put above creation, and "science" (secular dogma) over faith, with the understanding that man can become God through study, the occult, and technocractic endeavours and manipulations. The Illuminati. The Illuminati is used nowadays to talk of several groups characterized by secrecy, all groups working together, having one single goal; that is Global Government. Historically however, it refers specifically to the Bavarian Illuminati founded on May 1, 1776, in Bavaria, by one Dr. Adam Weishaupt, a professor of Canon Law at Ingolstadt University and a former Jesuit. Originally, they were a secret society called the Order of the Illuminati formed within the existing Masonic lodges of Germany. Since Masonry is itself a secret

society, the Illuminati was a secret society within a secret society, a mystery inside a mystery, so to say. Although the Order was founded to provide an opportunity for the free exchange of ideas, Weishaupt's background as a Jesuit

seems to have influenced the actual character of the society, such that the express aim of this Order became to abolish Christianity, and overturn all civil government. So who are the Illuminati today? They are, in essence, a cartel of international bankers and industrialists based in Western Europe and North America. The names of certain families persist over long periods of time. Some of the most important names are Rothschild, Rockefeller, Morgan, Lazard, Warburg, Schroder and Schiff. They control world banks, movie industry, top corporations, CIA, United Nations, music industry, FBI, most television networks, global media, Vatican, other religions, Catholic Church, and of course, the education system. Their main goal is to create a One World Government and a "New World Order", with them on top. This is a very old goal of theirs, and to understand it fully, one must realize that this goal isn't of a kind that's supposed to be obtained within one lifetime; it has been a goal that slowly is to be reached over a long period of time. However, they have accomplished more in this direction during the last few decades than they have done in hundreds of years, due to industrialization and the Information Technology Era. This goal has been planned away from the public's prying eyes, in secrecy within the Secret Societies. All Secret Societies with secret grades of initiation are owned and controlled by the Illuminati, and Freemasonry is maybe the best known of them all. Their God is Lucifer, "The Light Bearer", and by occult practices they manipulate and influence the masses. It doesn't matter if you and I believe in this or not, as long as they do. And they take it very seriously.
