# GreenDex

The following attractions, tours and accommodation choices have all been selected by Lonely Planet authors because they meet our criteria for sustainable tourism. We've selected places that are run locally or by a community group with profits remaining in the community.

We've also included businesses such as hotels and tour companies that operate to green principles. Note that in Indonesia – especially in tourist areas – many claim a green label but few actually fulfil the promise. The places we list are actually making a difference.

We want to keep developing our sustainable-travel content. If you think we've omitted someone who should be listed here, or if you disagree with our choices, contact us at [www.lonelyplanet.com/contact](http://www.lonelyplanet.com/contact) and set us straight for next time. For more information about sustainable tourism and Lonely Planet, see [www.lonelyplanet.com/responsibletravel](http://www.lonelyplanet.com/responsibletravel).

## BALI

### accommodation
