Designs similar to those shown on this page can be drawn to special order, slightly altered to accommodate diamonds or other gems which are to be reset into modern La Vallieres. If you are interested in thus enhancing the value and increasing the attractiveness of any of your jewelry which is not of modern design, communicate with us. It is done more easily than you suppose. We prefer having the jewelry sent to us for examination and to learn from you your preferences as to the pattern the new piece is to assume. We will then prepare designs, along the lines suggested and send them, with estimates. These designs will show you exactly how the finished piece will look.

Lucky Stones and Flowers for Each Month.

MONTH	BIRTH-STONE	BIRTH-FLOWER	MONTH	BIRTH-STONE	BIRTH-FLOWER
January	Garnet	Snowdrop	July	Ruby	Daisy
February	Amethyst	Carnation	August	Sardonyx	Pond Lily
March	Bloodstone	Violet	September	Sapphire	Poppy
April	Diamond	Easter Lily	October	Opal	Cosmos
May	Emerald	Lily-of-the-Valley	November	Topaz	Chrysanthemum
June	Agate (Pearl)	Rose	December	Turquoise	Holly

JANUARY
By her who in this month is born,
No gems save GARNETS should be worn;
They will insure her constancy,
True friendship and fidelity.

FEBRUARY
The February-born shall find
Sincerely and peace of mind,
Freedom from passion and from care,
If they the AMETHYST will wear.

MARCH
Who on this first of ours their eyes
In March first open shall be wise;
In days of peril, firm and brave,
And wear a BLOODSTONE to their grave.

APRIL
She who from April dates her years,
DIAMONDS should wear, lest bitter tears
For vain repentance flow. This stone
Emblem of innocence is known.

MAY
Who first beholds the light of day
In Spring's sweet, flowery month of May,
And wears an EMERALD all her life,
Shall be a loved and happy wife.

JUNE
Who comes with summer to this earth,
And owes to June her hour of birth,
Ring of AGATE on her hand,
Can health, wealth and long life command.

JULY
The glowing RUBY shall adorn
Those who in July are born;
Then they'll be exempt and free
From Love's doubts—anxiety.

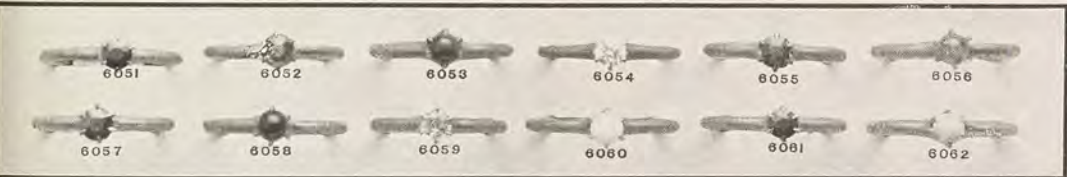

AUGUST
Wear a SARDONYX, or for thee
No conjugal felicity.
The August-born, without this stone,
'Tis said, must live unloved and lone.

SEPTEMBER
A maiden born when Autumn leaves
Are rustling in September's breeze,
A SAPPHIRE on the brow should bind,
'Twill cure diseases of the mind.

OCTOBER
October's child is born for woe,
And Life's vicissitudes must know;
But lay an OPAL on her breast,
And hope will hush those woes to rest.

NOVEMBER
Who first comes to this world below
With drear November's fog and snow,
Should prize the TOPAZ'S amber hue,
Emblem of friends and lovers true.

DECEMBER
If cold December gave you birth,
The month of snow and ice and mirth,
Place in your hand a TURQUOISE blue,
Success will bless whatever you do.

A gold match box is undoubtedly a luxury, but as such it is usually most appropriate as a gift for a man who is well supplied with the necessities. A box of this kind is highly treasured and makes a useful and beautiful pocket piece. These boxes are nearly all arranged with a small ring so they can be attached to the end of a Dickens or Mansfield watch chain and safely carried in the vest pocket.

The low prices quoted in this Catalogue are made possible by our excellent facilities. A member of our firm annually visits the diamond markets of Europe and purchases the unmounted gems direct from the cutters of Amsterdam and Antwerp. We are manufacturers of diamond mountings, thus offering our diamond jewelry at practically first cost. We are jobbers of watches, receive the cases and movements direct from the leading factories. The usual extra profit of the jobber is thus eliminated. Jewelry silverware we buy at the lowest possible prices, owing to the large orders which we are able to place. Our policy is to add only small profit to these low first costs, and to offer the goods to our customers at most advantageous prices. The large volume of business throughout the country makes this possible.

Clocks.

Illustrations, though greatly reduced, are from actual photographs. We pack these clocks carefully, ship by express collect, and guarantee safe delivery. In ordering clocks to be sent as gifts, send remittance to cover expressage, so the recipient will not have to pay expressage upon delivery.

The Anniversary Clocks quoted below run with perfect regularity and require winding but once a year. Anniversary Clocks are appropriate as gifts, for weddings, birthdays, etc., because they require winding only once a year. It is suggested that they be wound on each anniversary of the event they commemorate. The pendulum, a heavy brass disk, is suspended from a slender suspension spring, and rotates, whereas pendulums in ordinary clocks swing from side to side. This action of the pendulum is both accurate as a time keeper and attractive in appearance.

When clocks are delivered the pendulum and keys are in an envelope or package. After unpacking the clock carefully, it is a simple matter to attach the pendulum and wind the clock. Place the clock according to the instructions on page, P184.

Clocks which are difficult to adjust will be accompanied by definite instructions.

In Philadelphia and suburbs, clocks are delivered by men competent to adjust them and start them running. For a few weeks after delivery we will make a regular inspection to insure perfect satisfaction.

Clocks delivered at a distance will give equally good service if they are set up carefully, wound regularly and not disturbed.

We guarantee every clock shown on these pages to be a satisfactory timekeeper.

The good time-keeping of a pendulum clock depends largely upon the care and attention given it. It must be placed on a perfectly level shelf or mantel, where it is absolutely steady (free from vibration). To determine this, lift one side of the clock for a moment, thus starting the pendulum and listen attentively. If the tick is regular and even the clock is properly placed; otherwise, either the shelf should be adjusted or the clock level changed (by placing a card or cards under the side which is lower). When the clock is properly placed, it should not be moved; wind it regularly and regulate it carefully if necessary.

We are well equipped to undertake the repairing of clocks of all kinds. In our shop we employ competent workmen, experienced in the manufacture and repair of foreign and domestic clocks.

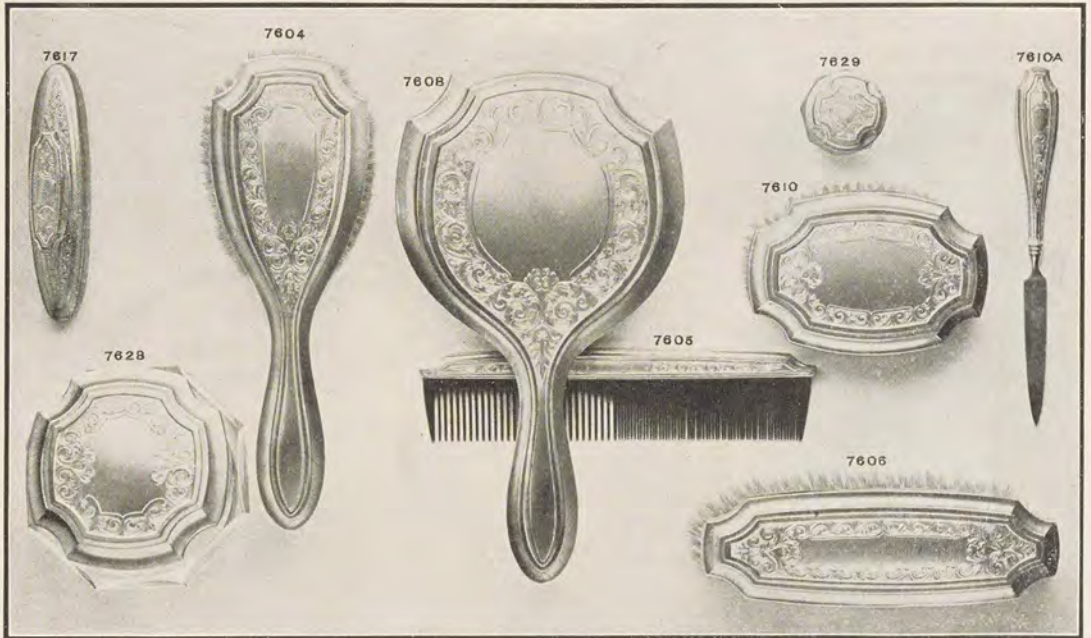

Patrons living in Philadelphia or its environs may have our clock-makers call at their homes. In some cases the repairing can be done where the clock is situated, but it is usually necessary to bring it to our shop. Persons living at a distance may ship clocks to us for repairs with the assurance that they will receive the best of attention.

After examining a clock we send an exact estimate, stating the nature of the trouble, and the cost of repairs. We await the acceptance of our estimate in every case.

Clocks are carefully regulated after repairing.
